DEMANDS OF FIVE POWERS DELIVERED CANTONESE

Chinese and Foreign Influences Given Blame for Outrages on Nanking Residents

(Continued from First Page)

dially large crowds of coolies who are hungry and without work."

The demands lived up to forecasts as to what would be required and are clothed in language so strong as to make them have almost the form of an ultimatum. Neither the note itself nor the State Department announcement leaves any room for argument over responsibilities of Nationalist troops commanders at Nanking or a premeditated and systematically carried out campaign of attacks upon foreigners.

Neither Gen. Chiang nor Eugene Chen, Nationalist Foreign Minister, to whom the Hankow consular general delivered their copies of the demands, has admitted that responsibility. Both have indicated that the Nationalist would make reparations if Nationalist responsibility were clearly established, but a statement attributed to Chen and published recently in Nanking held that a preliminary investigation indicated that groups of the Northern Chinese faction retreating from the city were the actual perpetrators of the outrages.

Pending a response from Chen or Chiang, Washington officials are watching for the general reaction in Nationalist territory of publication of the demands. Conditions at Hankow and several other points have been critical for days, with anti-foreign feeling reported by consuls and others.

DELAYED FOR SAFETY

It is understood that the delay in presenting the Nanking demands was due in part to the urgent desire of the Washington government to get as many Americans as could be induced to leave interior points out to protectable seacoasts or river area before the note was presented. The advices today showed considerable progress had been made in this concentration since Minister MacMurray, at the time of the Nanking outrage, broadcast warning throughout all involved Consular districts urging Americans to leave the interior.

The published documents do not disclose the extent to which there may have been disagreement among the Peking diplomats in formulation of the demands. They are understood, however, to be substantially in accordance with the recommendations made by Admiral Hough, American commander on the Yangtze.

In view of that circumstance it appears that such disagreement as entered into preparation of the demands had more to do with the means of enforcement to be applied in the event of refusal than with the nature or language of the demands themselves. On that point Washington officials refused to throw any light whatever, although it was said in one authoritative quarter that the Washington government had not taken that question up as yet for a policy determination.

NOTES DELIVERED ON NANKING OUTRAGES

SHANGHAI, April 11. (AP)—The Nanking disorders on March 24, which resulted in the deaths of seven foreigners, including one American, today resulted in the delivery of identical notes at Shanghai and Hankow by the five principal foreign powers in China containing three demands on the Cantonese government.

There was no official reaction to the communication delivered at the Cantonese Foreign Office here by the consuls general of the United States to Quo Tai-Chi, Commissioner of Foreign Affairs, who said that the note did not suggest any means of determining those guilty of the Nanking disorders and predicted that the first reply might include a suggestion that a joint commission be formed to investigate the incident and fix the guilt.

PROTESTS IN REPLY

In connection with today's five-power protest, Quo Tai-Chi announced that the Cantonese authorities had formally protested on five points to the British Consulate. The points were, first, that British army airplanes from the international settlement have been flying over Chinese territory outside the settlement in violation of international law and of Chinese sovereignty. He said the planes had flown over Chinese military headquarters.

Second, the Cantonese objected to the recent raid on the great China University, which the Chinese declare is not in the territory encompassed by the international settlement. The protest said 200 British soldiers and numerous British police with field guns surrounded the institution, searched it thoroughly and used the butts of their guns and clubs to beat the students. Scores of students, it was charged, were injured, two seriously; property was destroyed, some money was taken and the Cantonese flag was removed from the gates and torn to pieces. The university is said to have about 500 students. Previous statements from foreign sources said the school was under the jurisdiction of the international settlement.

Third, the Chinese charge that British soldiers have been cutting telephone wires and interfering with Chinese official business.

Fourth, it was charged that the British had established outposts outside the international settlement, in violation of Chinese sovereignty.

Fifth, it was asserted that the British appeared to be doing their utmost to incite Chinese violence.

The protests demanded indemnification, apologies, especially for the asserted incident at the university, and promises that there would be no repetition of such acts.

Inasmuch as the contents of the communication delivered by the consuls-general had been generally anticipated, today's development was greeted with comparative indifference both by foreigners and Chinese in Shanghai. No comment was forthcoming officially from the foreign authorities here on the note. Unofficially, however, it was indicated that the note was regarded as mild.

No report had been received tonight from Hankow to indicate how the Cantonese authorities there looked on the note, the last word received from there on the Nanking incident coming from Foreign Minister Eugene Chen, who stated that the Nationalists (Cantonese) would assume full responsibility if it were proved that their troops were guilty.

Already much speculation has developed as to which of the two wings of the Cantonese regime, which have been at odds for some time, will reply to the powers.

CANTON BREACH GROWS

Within an hour after Quo Tai-Chi, Commissioner of Foreign Affairs, had made his comment on the communication, the Nationalist news agency announced that he had been expelled from the Kuomintang party (the Cantonese political organization) because he had been improperly appointed to his post by Gen. Chiang Kai-Shek, the Cantonese generalissimo. Although no confirmation could be obtained directly on this, it was stated in reliable foreign quarters that the announcement was correct.

Rumors also persist that Chiang Kai-Shek, who has been in disagreement some time with the policies of the Hankow civil government, will shortly be deprived of his command. These rumors have grown particularly numerous in view of the Cantonese reverses reported in the region of Pukow, where the northern forces have advanced across the river. Various reports received here from the fighting front say that the Cantonese have met a serious defeat and some even state that an envoy has been sent to the northerners to negotiate a truce.

It is reliably known that the breach in the Cantonese political organization is growing wider with Gen. Chiang heading the moderate faction and Chen, with others at Hankow, leading the more radical wing.

Should the moderates win, as Quo Tai-Chi insists they certainly will, then the question is felt to arise as to who will answer the powers' notes. In responsible foreign quarters, it was stated, however, that the responsibility for the Nanking disorders will still devolve upon the Cantonese, regardless of who are temporarily the leaders.

SOUTHERN ARMY CHECKED

The general military situation today continued apparently unfavorable to the Cantonese, whose armies were reported checked in their northward advance and threatened on two fronts by the northerners. Delayed dispatches reaching Shanghai from Nanking and Chinkiang support previous reports that the Cantonese had suffered serious reverses.

One report from Nanking said that Manchurian forces were rapidly advancing down the Tientsin-Pukow Railway, while Gen. Sun Chuan-Fang's was stated to be advancing in strength southward along the Grand Canal.

About 500 Cantonese were said to have been removed from Pukow to Nanking in the last few days.

During the day Quo Tai-Chi announced that the Cantonese planned to search vessels entering the Whangpoo River here as a precaution against the entry of arms. He also stated that undesirable persons, such as anti-Cantonese agitators and propagandists, would be excluded if found during the searches.

MILD NOTE BY POWERS CAUSES STIR

[Copyright, 1927, by Chicago Tribune]

PEKING, April 11. (Exclusive)—The presentation of a five-power note on Hankow and Shanghai shows that the powers realize that the Kuomintang is split and are prepared to deal with whichever faction assumes the ascendancy. The mildness of the note and the accompanying statement are widely commented on, especially in view of the enormity of the reported crimes, which include several American women being attacked, one of whom has gone insane and now is in the Shanghai Hospital. The British also suppressed the details of the crimes against their women, minimizing the nature of the attack on the wife of Consul-General Giles.

The mildness of the note possibly may be mistaken by the southerners for weakness. Although the contents have not been published there the situation in Canton is tense. An anti-British demonstration at Swatow has been suppressed.

DISORDER LOOMS

Hankow telegrams indicate that the party split is greater than has been realized and possibly may be attended by serious disorders directed against the foreigners. The moderates have thrown off the Russian advisers, but the latter are feverishly encouraging the radicals, who hope for Moscow's recognition, since the soviet has withdrawn it from Peking.

About 12,000 troops favoring Gen. Chiang Kai-Shek, being the fourth and eleventh armies, are moving northward from Hankow, presumably to join the Chin Yu-Nao troops in Honan Province, who apparently have lured the northern troops to the lower part of the province. The situation is so confusing that the legations are unable correctly to appraise the split. Some suspect a plot to deceive the foreigners.

About eighty-five Americans remain at Hankow aboard a chartered merchantman following a violent anti-American assault in the Nationalist press. The Japanese evacuated 1400 but retain their marines and 100 volunteers for the defense of the concession. The French are unable to defend theirs, and will complete their evacuation on the 14th inst.

SITUATION GRAVE

The situation at Hankow has become grave, the greatest menace being the starving coolies, idle through the suspension of business and encouraged to violence by the radical leaders. Owing to the pressure brought on them, the Chinese merchants refuse foreign bank notes and it is no longer possible for the foreigners to transact business.

Hankow's decision to remove the capital to Nanking encounters Gen. Chiang Kai-Shek's movement for a moderate government there. Gen. Chiang and Tien Tse-Tuan, former Governor of Anhwei, have arrived at Nanking, where the other leaders are coming, including the moderate leaders from Canton and Hankow.

The Kuomintang split, combined with the expected blockade of the Yangtze, rather than the military prowess of the northerners explains the disaster of the northward drive. In addition to 4500 men captured at Chinkiang a heavy retreat upon Nanking is occurring, where 800 wounded have arrived. The northerners expect to mass at Pukow.

TEXT OF NOTE TO CHINA

WASHINGTON, April 11. (AP)—Following is the text of the demands note and the State Department supplementary announcement:

"I am directed by the American Minister to present to you the following terms, which are simultaneously being communicated to Gen. Chiang Kai-Shek (commander-in-chief of Nationalist armies) for the prompt settlement of the situation created by the outrages against American nationals committed by Nationalist troops at Nanking on March 24, last:

"(1.) Adequate punishment of the commanders of the troops responsible for the murders, personal injuries and indignities and material damage done as also of all persons found to be implicated.

"(2.) Apology in writing by the commander-in-chief of the Nationalist army, including an express written undertaking to refrain from all forms of violence and agitation against foreign lives and property.

"(3.) Complete reparation for personal injuries and material damage done.

"Unless the Nationalist authorities demonstrate to the satisfaction of the interested governments their intention to comply promptly with these terms the said governments will find themselves compelled to take such measures as they consider appropriate."

The accompanying statement issued by the State Department was as follows:

"Upon the entry of the Nationalist forces into Nanking there were perpetrated against the foreign consuls and other residents by uniformed and organized bodies of troops of the Nationalist armies, during the morning and afternoon of March 24, systematic outrages upon their persons and properties. A number of Americans, British, French, Italians and Japanese nationals were murdered or wounded; many others were brutally attacked and their lives jeopardized; they were robbed and treated with the utmost indignities, and women were subjected to nameless outrages. The American, British and Japanese consulates were violated and their national flags insulted. The houses and institutions of all foreigners resident in Nanking were systematically looted and in many cases burned.

"In view of these manifestly premeditated assaults upon their official representatives and upon their nationals peacefully engaged in their lawful occupations, the governments of the United States, Great Britain, France, Italy and Japan have found it necessary to formulate demands for satisfactory amends by the responsible Nationalist authorities. The terms thus agreed upon are studiously moderate, covering only the minimum of what would in the circumstances be done by way of honorable amends by any government conscious of its own dignity and its duty to other friendly peoples in the family of nations.

"These demands are not made in derogation of the sovereignty or dignity of the Chinese people whom the interested governments are glad to believe friendly and with whom they earnestly desire to continue and improve relationships of good will and co-operation. They are directed, rather, toward those influences, both foreign and Chinese, which made themselves responsible for the Nanking outrages by their activities in seeking to break up existing friendship and to inflame the Chinese people to distrust, hate and violence toward the people of the friendly powers."

REDS MASS ON SIBERIAN LINE

(Continued from First Page)

They furiously resent the Moscow protest that since no inventory was made of the stuff taken from the Legation during the raid, spurious documents were added, and disclaiming that the British diplomacy is in any way compromised by Gen. Chang Tso-Lin's raid.

Amid stirring scenes and to the tune of "Auld Lang Syne" the Second Battalion of Scots' Guards, the Second Welsh Guards and two companies of the Northants Regiment sailed for China from Southampton today. The docks were crowded with wives and mothers and three bands blared patriotic music. More troops will follow Wednesday.

CHEN SENDS NOTE OF APOLOGY TO MOSCOW

MOSCOW, April 11. (AP)—The Foreign Commissariat has received a telegram from Eugene Chen, Foreign Minister of the Cantonese government, expressing profound regret for the raid made last week by northern troops on buildings attached to the soviet Embassy in Peking.

The telegram says that the Cantonese government will take strong action against Chang Tso-Lin's wanton violation of the sovereignty and dignity of soviet Russia.

A big demonstration against the raid by Chang's troops, against which Russia has protested, was held today outside of the theater where the all-Russian Congress is in session.

SEPARATE TRIAL FOR MRS. SNYDER SOUGHT

NEW YORK, April 11. (AP)—A motion for a separate trial for Mrs. Ruth Snyder, accused jointly with her paramour, Henry Judd Gray, of the murder of her husband, Albert Snyder, was made today, before Supreme Court Justice Scudder. Justice Scudder indicated he would give his decision soon.

RIFT PERILS ARMS MEET

Coolidge Parley Given Boost

Three Powers at Preparing Session Seem Split on Naval Building

Forthcoming Conference That President Sponsors Now Overshadows Others

GENEVA (Switzerland) April 11. (AP)—With France, Great Britain and Italy apparently hopelessly split, the League of Nations preparatory disarmament parley today appeared seriously in danger of breaking up.

Simultaneously the naval conference, convoked by President Coolidge, which Lord Robert Cecil, the British delegate, brought into today's discussion, took on a new importance as the only disarmament conference which looms up as a certainty in the near future.

The split which developed between France, Great Britain and Italy, was on the problem of whether the details of naval building programs shall be definitely revealed in advance by the signatory nations.

BEACH DEADLOCK

When the differences apparently had reached a deadlock President Loudon announced that the commission would adjourn on Thursday until the 19th inst., to consider matters which have been agreed upon. Then the commission will again adjourn without fixing a date for its next meeting in order to give the delegates time for reflection.

Although Lord Cecil announced at today's meeting that Great Britain, in a spirit of concession, would agree to limit air and naval effectives accord had been achieved on so few salient points that the delegates left the commission room tonight in a pessimistic frame of mind.

The real drama of the day came when Lord Cecil painted a picture of the brilliant success of the Washington naval conference and the expected and hoped for success of the forthcoming "Coolidge conference."

Lord Cecil declared that Great Britain could not possibly agree to anything now which in any way would hamper this latter conference and that nothing should be done which would seem to throw doubt on the complete liberty of action of the powers attending that conference.

THE IMPORTANT ONE

M. Paul Boncour, the French delegate, retorted that the general disarmament conference for which the preparatory commission was preparing was the important thing, and that the Coolidge conference might well be guided by its rules.

At this point, Hugh Gibson, the American delegate, intervened to assure the commission that the United States was whole-heartedly with the Geneva effort and that it did not desire to subordinate the success of the League conference to that of the three-power conversations on naval limitation.

OFFICERS LOSE IN QUADRA CASE

(Continued from First Page)

it warranted that construction, and it held that persons aboard their vessels within the treaty area may be tried for conspiracy to violate the laws, when they have entered into arrangements with persons ashore to accomplish that end, and cannot plead innocence because they had not actually violated the prohibition or customs laws by sending liquor ashore.

The British steamer Quadra, seized off the Farallone Islands, on the California coast, was brought into port by the revenue cutter Shawnee in October, 1924. Its officers were indicted and convicted on the charge of conspiracy to violate the prohibition laws. They appealed, contending that the seizure was not authorized by the British-American rum treaty, and that the Federal courts in California had no jurisdiction over British subjects taken on the high sea in a British vessel.

GOVERNMENT'S STAND

Defending the seizure as lawful under the treaty, the government argued that the vessel was within six miles of the Farallone Islands, belonging to the United States, and was thus easily within one hour's sailing distance of the American shore line, although at a greater distance from the Golden Gate. It insisted that it was immaterial whether the seizure was authorized or not, so far as the trial of the men was concerned, it having been fully established that Federal courts may try indicted persons even though brought within their jurisdiction by kidnaping.

The officers of the Quandra insisted that the court should give an interpretation of the treaty, contending that Great Britain specifically provided in extending the right to seizure to one hour's sailing from shore that it should confer jurisdiction only over the vessel and not over either the crew or the cargo. A foreign vessel on the high seas had rights which this nation must respect, they asserted, and under the British treaty it was necessary before the vessel could be proceeded against to show that it was within one hour's sailing distance of the coast, by its own power or by boats used in maintaining contact. This they declared the government had failed to do.

CONTRABAND CHARGE

The government replied that the Quandra was one of a fleet of vessels operated in the contraband trade by the Consolidated Exporters' Corporation, with headquarters at Vancouver. This fleet loaded with rum sailed under false clearance papers, it declared, hovering on the high seas off the Golden Gate, with men ashore at San Francisco operating motor boats bringing the liquor into Oakland Creek. When approached by the revenue cutter the captain of the Quandra refused to show his papers, the government asserted, and a motor boat was noticed leaving the Quandra, loaded with contraband.

It was not necessary, the government said, to construe the treaty because the men who had appealed were convicted for conspiracy. The trial court certainly had jurisdiction, it argued, because among them were those who had been operating in San Francisco, within the territorial limits of the district in which the court was located.

SAPIRO ASKS MISTRIAL

Rebuke of Judge Brings Crisis

Frowning Jurist Lectures and Warns on Answers Given Senator Reed

Refuses Motion to Suspend Ford Libel Case Hearing; Wrangle Whole Day

DETROIT, April 11. (AP)—After a sharp rebuke from the court, "because of your apparent unwillingness to obey the injunction of the court," Aaron Sapiro today demanded and was refused a mistrial in his $7,000,000 libel suit against Henry Ford.

The unexpected denouncement came just before the close of a day which had been devoted listlessly to a further search through Sapiro's eleven years of connection with farmers' co-operative associations for fees he had received.

One bitter wrangle just had been concluded when Senator James A. Reed, of Missouri, chief of the Ford counsel, asked Sapiro, who was under cross-examination for the tenth day:

"Did you have anything to do with the organization of the Union Growers' Association in Indiana?"

"Yes," replied the witness.

"Now, so as not to waste any time on that, did you get some fees out of it?" asked Reed in a sarcastic tone.

JUDGE'S REBUKE

Judge Fred M. Raymond in halting the angry exchanges between Reed and Sapiro just a moment before had demanded that the cross-examination be confined to organization from which it was to be proven Sapiro had received fees, stating that too much time was being lost.

"I won't waste any time on it," Sapiro shot back at Reed, as he began thumbing through the record of his income from co-operatives.

"Witness, that is not necessary at all," interposed Judge Raymond.

"Wasn't that addressed to me, Your Honor?" asked Sapiro.

"No, that was addressed to the court," returned Reed as he sat down and the storm broke over the heads of Sapiro and William Henry Gallagher, his chief of counsel.

"You will confine yourself to answering questions or the court will have to take other actions," began Judge Raymond. "I have suggested a sufficient number of times, not only the suggestion, but the reason for it, and it ought to be perfectly apparent. I must insist upon your confining yourself to answering of the questions, and I shall have to be more insistent in the future than I have been in the past because of your apparent willingness to disobey the injunction of the court."

HALTS GALLAGHER

Gallagher interrupted to ask the court reporter to read the question and was halted abruptly by Judge Raymond.

"I do not care to hear argument," he insisted, frowning, but Gallagher continued with an objection as to the "impropriety of the question itself."

"If the court would be just as prompt in excluding improper questions, it would not be necessary for the witness to answer," Sapiro's counsel insisted.

Judge Raymond asserted he was "trying, if possible, to eliminate controversies and make progress in this case against the apparent unwillingness of counsel and the witness to become a part of that program."

While Sapiro sat white-faced and with teeth clenched, unable to say a word because of his position as witness, Judge Raymond talked for ten minutes.

Gallagher twice attempted to interpose a pleading but Judge Raymond refused to hear him.

At the end of the court's talk Sapiro bounced down from the witness chair, hurried over to Gallagher and held a whispered conference while every eye and ear in the room was trained on the bench.

SOFTENS CRITICISM

At the end of his talk Judge Raymond had lightened the criticism of Sapiro by remarking that he thought "the difficulty we are in is due probably to the fact simply that the witness himself is an attorney and it is difficult for any attorney to avoid controversy and argument."

"Nothing has been taken against the witness by reason of anything I have said. It is not meant in any purposeful way or critical way but the statement is made hoping that it may result in progress."

Gallagher, however, apparently obeying the instructions of his principal, braced himself against the counsel table, and faced the court.

"If the court please, regardless of the intention of the court in the first place, I feel that the court's language and the court's demeanor was such as to prejudice the witness as a litigant and I ask to have a mistrial declared," he said.

"The motion is denied, and the statement of counsel is grossly improper," instantly returned Judge Raymond.

"There has been nothing in the manner of the court or the statement of the court, which justified the remark which counsel has just made. It is utterly improper and it is simply a continuation of the apparent unwillingness of counsel to accept the directions of the court."

ORDERED TO SEAT

"I will note an exception," Gallagher informed the court reporter.

"That will be sufficient," asserted Judge Raymond. "You may take your seat."

Defense counsel sat disinterestedly throughout.

The routine of question and answer was resumed.

At Seattle, in 1921, Sapiro said, he drew up a plan for co-operation of a small group of salmon packers, which brought him a fee of $290.38, but it was not put into effect.

The pursuit of records of Sapiro fees will lead tomorrow, it was indicated after adjournment, into organization of the tobacco growers.

With Ford's witness stand appearance yet a week away, according to the "best guess," of counsel for both sides, there were increasing unofficial reports today that he would not appear when called.

His counsel, on record both as denying that the motor manufacturer had been served properly with a subpoena, and as stating he would appear when called, "God willing," were reluctant to discuss the matter today.

There were reports Ford had not mended as well as had been hoped after the accident of two weeks ago, which caused hemorrhages of the lungs and bladder, but other reports were he had been able to leave his bed.

None bore the brand of authenticity, however, and the fact was that only one person, other than members of his family, actually is known to have seen him since he staggered home and to medical care after his little coupe was side-swiped and knocked from the road. That is Dr. Roy McClure, surgeon-in-chief, of the Henry Ford Hospital.

PACIFIC PARLEY SENT GREETING

(Continued from First Page)

helpful to establish such relations among all the Pan-Pacific countries. I am sure our country may learn much of value from the research, practice and experience of others, and I hope we may contribute our full share to the general good.

"Each nation has its own traditions, its own customs and own ideals; but more and more we are coming to realize that human problems are much the same the world over. Whatever may be done at the conference to promote the peaceful arts and pursuits, and to make the individual healthier and happier in his home and national life, will be a worth-while contribution to civilization."

CONFERENCE IN ACTION

The conference swung into action this afternoon with opening sessions in three major sections. Dr. John P. Tigert, Federal Commissioner of Education, addressing the educational group, outlined the agenda and stressed the importance of education.

Dr. Elwood Mead, Commissioner of Reclamation, discussed reclamation work in the United States before the reclamation section.

Dr. Tigert told the gathering that international interdependence had thrown the "problems of our relationships into constantly sharper relief." Discussing the importance of education he said, "Let no one suppose that ties of education are less important than the bonds of commerce or international culture."

Tonight, Gov. Farrington entertained the delegates with a banquet followed by a reception in honor of Secretary Work.

The last of the delegates arrived today on the Taiyo Maru. Countries officially represented include Australia, Chile, Colombia, Fiji Islands, France, Great Britain, China, Japan, Korea, Mexico, New Zealand, Samoa, Peru, Nicaragua, Salvador and the United States.

Banker's Life Early Fight Rise Injunc

DES MOINES (Iowa) April 12. A motion to dissolve a temporary injunction granted Saturday by Judge Cummings of Manchester restraining the Bankers' Life Company of Des Moines from issuing any more insurance policies under its investment plan, will be filed tomorrow. This was announced today by Attorney Ayres, general counsel for the company.

The Largest Laundry in the World
Now --- try the PEERLESS Feather Renovation
The Chaff Remover
EACH group of feathers is handled separately and are drawn by air into a compartment ...where they are tumbled in volumes of air, until all foreign matter is completely extracted!
The Renovator
YOUR feathers are then separately carried through air tubes to be steam cleaned and odorlessly purified by warm air...until they are fluffy with new life!
The Sucking Machine
WHEN renovated ...Your feathers are drawn through tubes to these "almost - human" suckers...which mechanically replace your own feathers in freshly laundered or new ticks!
To insure healthful, restful comfort... feather pillows and mattresses should be renovated every year. The old-fashioned method of "working-in-the-tick"... extracts the natural oil, leaving your feathers dead... to mat and lump... and cause discomfort... instead of removing the inside dirt and dust. That's why the world's largest Laundry has installed this $20,000 Renovating Department... to scientifically cleanse and give new life to your feathers... at surprisingly low cost!

UNFAIR LIST GETS BLOW

High Court Rules Against Union

May be Enjoined When Acts Constitute Restraint of Interstate Commerce

Strike Against Product of Stone Companies Called Coercion by Court

WASHINGTON, April 11. (Æ)—Labor unions and their members may be enjoined for refusing to work when their acts contitute a restraint of interstate commerce, the Supreme Court held today in a case brought by the Bedford Cut Stone Company and twenty-three other corporations against the Journeymen Stone Cutters' Association of North America, its local unions and their officers.

The national and local stone cutters' unions required members to refrain from working on "unfair" stone and the Indiana lime-stone companies, affected by the order, sought in Federal courts to enjoin enforcement, contending that it restrained interstate commerce in violation of the Federal antitrust laws. The lower Federal courts refused the injunction.

"The evidence shows many instances of interference with the use of petitioners' stone by interstate customers and expressions of apprehension on the part of such customers of labor troubles if they purchase the stone," the court's opinion declared.

"The evidence makes plain that neither the general union nor the locals had any grievance against any of the builders—local purchasers of the stone—or any other local grievance; and that the strikes for the sole purpose of preventing the use and consequently the sale and shipment in interstate commerce of petitioners' product, in order . . . to force petitioners to the alternative of coming to undesired terms with the members of these unions . . .

"From a consideration of all the evidence, it is apparent that the enforcement of the general order to strike against the petitioners' products could have no purpose other than that of coercing or inducing the local employers to refrain from purchasing such product."

Justices Holmes and Brandeis dissented.

HISTORY OF SUIT

The suit was brought by the Bedford Cut Stone Company and other corporations against the general union of the stonecutters and some of its officials and a number of affiliated local unions and some of their officers to enjoin them from combining and conspiring together to commit various acts in restraint of interstate commerce in violation of the Antitrust Act and from committing what was asserted by the corporations to be great and irreparable damage.

In the fight against the stone producers the general union issued a notice to all its locals and members directing them to refuse to work on "unfair" stone or stone which had been handled by nonunion labor, and this rule was persistently adhered to and enforced against the product of the corporations in a large number of cities and in many States.

The evidence showed instances of interference with the use of the Bedford stone by interstate customers and expressions of apprehension on the part of such customers of labor troubles if they purchased the stone. Pressure was brought on molders, contractors and other users of the stone by the general and local unions to prevent the use of the "unfair" stone from the Bedford Cut Stone Company and other corporations involved in this litigation.

BILLIARD CHAMPION DIES

MEXICO CITY, April 11. (Æ)—Pedro Maupome, Mexican billiard champion, died yesterday. He competed in the United States a few years ago.

A CAR WITHIN EVERYONE'S PRICE

A car of enduring performance and ample power. Body designs conservative or smart—in roadster, coupe or touring models. A car with "looks"—ready for almost anything you ask of it.

What car is this? A "USED" car! Now on display in Times Want Ads. You'll be amazed how little actual money will buy one!

MRS. GAVIN SCORES IN FIGHT

Key Witness of Court Battle for Millions Swears Angeleno Child of James L. Flood

REDWOOD CITY, April 11. (Exclusive)—Mrs. Eudora Helen Willette, key witness in the legal warfare for possession of the multimillion estate of the late James L. Flood, declared under oath here this afternoon that Constance May Gavin, wife of a Los Angeles bank teller, is her daughter and James L. Flood was the father.

The admission added one more to the long list of sensations which have been dropping like shot since Mrs. Gavin first reached into the Flood family closet several months ago and began to shake the bones of a long-confined but long-rumored skeleton.

Mrs. Willette, a woman in her early fifties, whose white face was intensified under the blood-red of her lips, twice before had faltered and had to be excused from further questioning. She faltered again today as the questioning for a deposition was continued from last Friday, but when the direct questions were asked her about the birth of Mrs. Gavin she grew calm and answered without hesitation.

NUMEROUS QUESTIONS

There were many questions. Then she was asked:

"Are you the mother of Constance May Gavin?"

"I am."

"Who was the father?"

"James L. Flood."

Previously it had been announced that Mrs. Willette asserted Mrs. Gavin was her daughter, but had signed a statement to the effect that the father was Edward Stearn, to whom she was said to have been married in the early '90's. Mrs. Gavin, it had been contended by Flood heirs of record, was the daughter of Edward and Eudora Helen Stearn.

NAME EXPLAINED

Mrs. Willette said that her only knowledge of Edward Stearn was that she either had heard of or read of him, liked the sound of the name and seized upon it to give legitimacy to her child at birth.

Mrs. Gavin, forsaken child, whose life history was confined chiefly to knowledge of living in convents in the Midwest and near Los Angeles, finally called in professional estate investigators to prove the contention that she was Flood's daughter.

When the Flood estate was filed for partition Mrs. Gavin laid claim to two-ninths of it. At the time, the estate was estimated at approximately $18,000,000. It is now averred to amount to about $7,000,000. Flood's second wife, now his widow, and her daughter, are the principal claimants to the fortune and charge Mrs. Gavin with being an interloper and not a legitimate heir.

Mexican Unions Seek to Deport Mme. Kollontay

MEXICO CITY, April 11. (Exclusive)—The Federation of Union Workers of the Federal district in extraordinary session has adopted a resolution to be sent to President Calles asking for the expulsion from the country of Mme. Alexandra Kollontay, Russian Minister to Mexico, according to El Universal Grafico.

The action is the outgrowth of a recent donation of $25,000 to railway strikers by Russian railroad workers, it being asserted that soviet aid was arranged by Bertram Wolfe, Communist, who was expelled from the country some time ago and who recently returned under the protection, according to report, of the woman diplomat.

Wolfe's wife is said to have acted as the intermediary in sending the funds. The federation's action is said to have been caused chiefly by a desire to show the organization is completely hostile to Russian radicals.

SERVICE TO DISCONTINUE

SAN FRANCISCO, April 11. (Exclusive)—Los Angeles county waterworks have been authorized by the Railroad Commission to discontinue the operation of a twelve-inch irrigation pipe in Vermont avenue between Southern and Rosecrans avenues, south of the city limits, providing safeguards are supplied for existing consumers.

Bids Opened by Navy to Convert Elk Hills Oil

SAN FRANCISCO, April 11. (Æ)—The naval purchasing department here opened and forwarded to Washington today three bids for oil conversion from the naval oil reserves No. 1 and No. 2 in the Elk Hills leases.

Bids were received from Union Oil Company, Standard Oil Company and General Petroleum Corporation.

The winning bidder will be required to accept crude oil from the leases for a period of five years, guaranteeing to supply the Navy with specified amounts and grades of fuel oil therefrom.

Once a shabby old floor —now a thing of beauty

Why put up with shabby old floors? Cover the scarred wooden boards with Nairn Gold Seal Inlaids. Hide their unsightliness with beauty that withstands both time and footsteps.

There are numbers of distinguished patterns in these handsome inlaid linoleums to redeem your rooms from old-fashioned dullness—and give them an air of modern smartness. Their colors cannot wear off. They are inlaid through to the burlap back. They need no varnishing or expensive refinishing to keep them beautiful.

Do you realize Gold Seal Inlaids are not expensive? And do you realize you can readily afford this one permanent cure for run-down floors? When cemented to the floor, Gold Seal Inlaids make a beautiful, practically seamless flooring that will last a lifetime.* They're sanitary, too, and easy to clean. No cracks or crevices to collect dirt and germs.

You can always tell the genuine by the *Gold Seal Guarantee* pasted on the pattern. Look for it when you buy.

*Based on finely ground cork cemented, linseed oil coated to a burlap back.

NEW DISTRICT BILL BLOCKED

North Still Fights Federal Area Reapportionment

Sewell Theatens Retaliation by South in Future

San Franciscan Asks Delay Until Congress Acts

SACRAMENTO, April 11. (AP)—Threats by Assemblyman Harry Sewell of Whittier of retaliation by Southern California when it gains control of the legislative machinery of the State failed today to shake the northern representatives in their opposition to a move by Assemblyman Baum of Los Angeles to reapportion the State's eleven Congressional districts so as to give Los Angeles an additional Federal representative and combine the large, but sparsely settled First and Second Congressional districts into one. As a result, the bill, Assembly Bill No. 4, is still before the Assembly Reapportionment Committee awaiting the time its sponsors can muster the necessary eleven votes to pass it out or the opponents can muster an equal number to table it, unless Baum carries out his announced intention of making the aid of the Assembly as a whole to move it to the floor.

The fight against the measure was led by Assemblyman Feigenbaum, San Francisco, who disapproved of the plan to place a large area of the north into one district, advocating instead that the plan be held up until Congress reapportions the State and then allow the new Congressional representatives to be placed in the south. Others of the committee held this same attitude.

Sewell, however, told the committee that the south is "keeping books" in the defeat of such measures which are just in that they seek to give that section the representation to which it is entitled, and will retaliate in kind at the time it gains control of the Legislature. This latter, he said, will occur in the not too-distant future.

The possibility of such coming to pass, however, is doubted by Assemblyman Van Bernard, Butte City, who points out that under the reapportionment plan approved by the voters last November and comprised in a bill which already has passed the Senate, Los Angeles would be given only one Senator, instead of six as at present. In the Assembly Los Angeles would gain seven Assemblymen, jumping from fifteen to twenty-two, but this, Bernard pointed out, would not comprise a controlling vote.

The only possibility of Sewell's prediction coming to pass as viewed by Bernard is for the south to prevent the carrying out of the reapportionment plan until such time as it has sufficient population and registered voting strength to submit a referendum to provide that the reapportionment shall be on the old basis of population.

Bills Passed by Assembly

SACRAMENTO, April 11 (AP)—The Assembly today passed the following measures:

Assembly Bill No. 443, Williamson, providing that farmers shall install fish screens, but after they have installed one screen the obligation of installation and maintenance is shifted to the Fish and Game Commission.

Assembly Bill No. 602, Carter, authorizing State Board of Health to maintain local food inspection and enforcement service.

Assembly Bill No. 189, Woodbridge, providing for the protection and preservation of Christmas trees and red berries.

Assembly Bill No. 296, Byrne, providing that municipal courts may appoint as many phonographic reporters as they may require.

Assembly Bill No. 568, Lyons, providing for devolution of a veterans' interest under the Farm and Home Aid for Veterans Act to the surviving widow in case of his death, provided the widow does not marry prior to the execution of the contract.

Senate Bill No. 601, Boggs, empowering legislative authority of any district or city to procure for their officers insurance indemnifying them against personal liability for injury to any person or property resulting from defective condition of a street.

Senate Bill No. 618, Jones, declaring to be a public nuisance a mosquito-breeding place, and gives district authorities right to abate such places.

Senate Bill No. 306, Swing, reorganizing State Board of Health.

Senate Bill No. 20, Christian, permitting helpless voter to select assistant or aid him instead of being forced to rely on election officers.

Senate Bill No. 300, Garrison, revising Water Storage District Act.

Senate Bill No. 110, Kline, revamping Palo Verde Irrigation District Act.

Senate Bill No. 380, H. C. Jones, providing for the promotion of the fruit, vegetable and nut industries in California and repeals the California Fruit and Vegetable Standardization Act.

Assembly Bill No. 622, Jacobsen and Hawes, providing that a person who has been convicted of a previous felony who is awaiting a decision on an appeal on a subsequent conviction may be remanded to the State prison.

Assembly Bill No. 994, Davis, providing that Real Estate Commissioner may establish branch offices in cities where he deems them necessary.

Assembly Bill No. 744, Isaac Jones, making minor amendments in election law for conservancy districts.

Assembly Bill No. 644, Murphy, transferring that part of Siskiyou county lying east of Range 60 west, Mt. Diable meridian, from Fish and Game District 1½ to District 1 3-4.

Assembly Bill No. 389, Heisinger, providing that only one deer may be killed in one day. Limit of two deer for season remains.

Assembly Bill No. 1230, Neilson, providing for the investigation of the supplementary books used in the elementary schools of the State by the Board of Education and requiring a report to be made by the board to the State Board of Control.

Assembly Bill No. 463, Heisinger, providing that part-time teachers shall be required to pay toward the teachers' retirement fund only such part of annual fee as time they teach bears to full school year.

Assembly Bill No. 1189, Jacobson, directing Governor to take necessary legal steps for the recovery of moneys illegally paid into the Federal Treasury as a direct tax upon property in California. If claimants cannot be found, money after [illegible] shall revert to the State.

Bills Signed by Gov. Young

SACRAMENTO, April 11. (AP)—Gov. Young today signed the following bills:

Assembly Bill No. 1161, Parkman, repeals the law providing for the publication of agricultural and industrial statistics.

Assembly Bill No. 1077, Wright, authorizing the State Department of Engineering to carry on topographic surveys and investigations into matters pertaining to water resources along lines of hydrography, hydroeconomics and use and distribution of water for agricultural purposes. It also provides for the State cooperating with the government.

Assembly Bill No. 293, Duval, providing machinery for the organization of water conservation districts, under which fifty or more property owners may organize to spread the water over their lands and allow it to sink into the ground where it would be conserved and stored.

Assembly Bill No. 315, Clowdsley, providing that violations of the osteopathic provisions of the Medical Practice Act shall be misdemeanors, punishable by a fine of from $100 to $200, or by a jail term, and also that 75 per cent of fines collected shall be paid into the Medical Board's contingent fund in the State Treasury.

Assembly Bill No. 382, Brock, allowing cities of the sixth class to inaugurate the City Manager form of government.

Assembly Bill No. 913, Leymel, providing that forest reserve funds paid to the State by the government shall be equally divided between the county schools and roads and that half of the money apportioned to the schools shall be set aside for schools adjacent to the United States forest reserves.

Assembly Bill No. 421, Easley, ratifying a lease between the city of Richmond and the Parr Terminal Company as far as the State has any right to the land specified.

The Governor vetoed the following bills:

Assembly Bill No. 4, Brock, providing for changing the titles of certain officials in cities of the fifth and sixth class. The bill was in conflict with Assembly Bill No. 389 and affected many changes in the municipal corporation statute.

Assembly Bill No. 956, Woodbridge, providing for the collection of data on the history of teachers but which was rendered ineffective because it specified that the data must be filed by 1925.

Bills Passed in the Senate

SACRAMENTO, April 11. (AP)—The Senate today passed and sent to the Governor for signature the following bills:

Assembly Bill No. 1263, Parkman, repealing collection section of the 1915 Corporation License Bills, declared unconstitutional by the State Supreme Court and by which $2,700,000 in revenue anticipated for the next biennium will be lost.

Assembly Bill No. 1294, Roland, adding five sections to the Civil Code, restoring provisions of the Corporation License Act providing for entrance into California of foreign corporations to do business.

Assembly Bill No. 1286, West, increasing the general corporation franchise tax 1.6 to 1.8 per cent.

Senate bills passed and sent to the Assembly were as follows:

Senate Bill No. 261, Lyon, amending the State Poison Act to embrace veronal and its derivatives among drugs for the sale of which a prescription is required.

Senate Bill No. 93, Hurley, providing that where seasonal wages are paid, such as in the Alaska canneries, they shall be paid either at the office of the labor commissioner or such place as he shall designate.

No More Neuritis

In Arms, Neck, Legs or Thighs

If you want to get rid of the agonizing pains of neuritis, neuralgia, sciatica or rheumatism, just apply Tyrsmol to the affected parts and see how quickly all misery will cease.

Tyrsmol is a powerfully penetrating absorbent, soothing and healing in its action, which goes in through the pores and quickly reaches the burning, aching nerves wherever you rub it on. Those stubborn pains in the back of the neck, about the shoulder blade, face or head, in the forearm and fingers or extending down the thigh to the toe tips, will soon disappear. Cramping of the muscles will stop and you will no longer be bothered with soreness, swelling, stiffness, numbness or tenderness of the joints and ligaments.

Tyrsmol is not an ordinary liniment or salve, but a scientific new emollient that is entirely different from anything you have ever used. Don't suffer any longer. Get a supply of Tyrsmol at The Owl Drug Co., or any other good drug store. Price $1.—[Advertisement.

CHAMBERLAIN'S TABLETS "Help You Stay Well"

YOUNG TAX BILL DELAYED

(Continued from First Page)

the hotels and the Capitol. The presiding genius is Al McCabe, the San Francisco boss, who is here to save the face of the administration. A continual stream of legislators is being ushered into Gov. Young's office and every known means of influencing votes is being employed.

The repeal of the law which A. R. Heron, State Control Board chairman, first thought would be so popular, has brought down the greatest turmoil of the session and concession after concession is being made to avoid the disaster of a defeat. The concession of the proposed amendment defining solvent credits was made at the suggestion of Senator Hurley of Alameda. Mr. Heron, who started out by being facetious, left the rostrum of the Senate a very grave man, after he had been subjected to hours of rigorous cross-examination by Senator Chamberlin, Senator Hurley, Senator Weller and Evans.

Thinly veiled threats were hurled at the Senate by Mr. Heron. The law must be repealed, Mr. Heron said, the only alternative being an ad valorem tax or the loss of State bank system. He caught a tartar in Senator Evans when Mr. Heron stated that in Los Angeles county it had been the custom to assess the intangibles at only 30 per cent of their full cash value. Senator Evans termed that a misstatement and flourished his own tax bill as proof. Mr. Heron said he regretted he had been misinformed. Senator Chamberlin then went to work on the budget and the surplus. Mr. Heron sought to divert the discussion from this course, but at last had to send for documents relating to the surplus.

Pursued by Senator Chamberlin, Mr. Heron hopped about from figure to figure, at last admitting that the surplus of more than $20,000,000 left by former Gov. Richardson will be depleted to $16,000,000 by the excessive budget expenditures and by $1,000,000 more from extra appropriations which Gov. Young will sign.

"You say that the loss from the court decisions will be $9,000,000?" said Chamberlin. "This is purely anticipatory, isn't it? Do you mean to say that the State of California will confess judgment? Will you not put up a fight?"

Heron said he believed it was almost hopeless to fight in the light of the Wisconsin decisions.

"But since the money will not be lost immediately cannot it be taken care of by the surplus?" asked Mr. Chamberlin.

Mr. Heron then expatiated on the virtue of conserving the surplus for emergencies and unforeseen eventualities.

"But you will have left more than $7,000,000 if the surplus sustains the loss you are attempting to place upon the holders of non-California securities," said Senator Chamberlin. "Isn't that as much as there ever has been in the State Treasury in past bienniums?"

Senator Weller of Glendale then brought out the point that the present bill changes the allocation of funds as between city and county. Under the present law the city and the county divides them. The bill under discussion eliminates the city from consideration. Senator Weller read a telegram from Pasadena protesting against this. From available figures, Assemblyman Sewell worked out the fact that the city of Pasadena will lose more than $300,000 in revenues if the bill is effective.

To this Mr. Heron showered that the cities would lose but little revenue. He was not very clear on this point.

Another snarl was shown up by Senator Chamberlin. He pointed out that the assessment, upon a basis of 7 per cent actual cash value, was made last March. If the bill becomes effective, he stated, on June 15, the tax rate will be levied according to the 1.45 figure contained in the bill, which would mean a severe lowering in the return received by the counties. He said that a $1000 bond, assessed at 7 per cent and taxed at 1.45 per cent, will reduce the return from $2.66 to $1.01, severely crippling the finances of many counties. The whole matter has become so complicated and twisted that the proponents of the repeal are beginning to waver and are very uncertain as to their figures. The administration is determined to make the Legislature take the program, however, and will not yield to the plea of careful consideration and a possible agreement to be worked out and adopted at a special session for which there is yet plenty of time.

INDEPENDENT INCOME $2.00 A MONTH

SOUTHERN CALIFORNIA GAS COMPANY Series "A" Preferred Stock will give you an independent income, safe, sound and easily marketable investment—and you can buy it for $3.00 down and $2.00 a month per share.

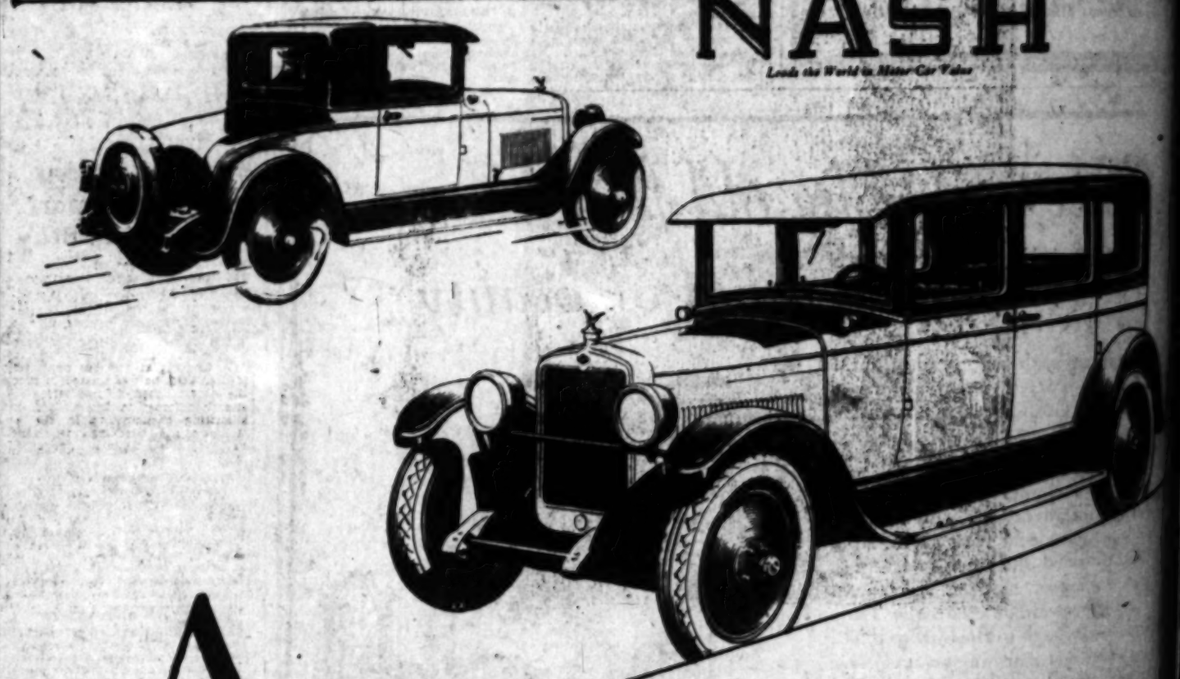
NASH Leads the World in Motor Car Value



Add $50 or $60 to the down payment on a Four —and get a Nash

Nash 6-cylinder, 7-bearing performance costs little, *if any*, more than 4-cylinder performance.

You can buy a Nash Light Six enclosed car for as little as $925 f. o. b. factory—an amazingly low price for a car like this.

For besides the exceptional smoothness of Nash 6-cylinder, 7-bearing performance, the new Light Six models of Nash have every worthwhile feature of modern motoring:

Full force-feed engine lubrication—decidedly unusual in cars under $1000; Nash mechanical 4-wheel brakes, with front wheel brakes totally enclosed to protect their efficiency.

Double beam headlights; Automatic windshield cleaner; Rear view mirror; Gasoline gauge on instrument board—an indispensable convenience.

5 Budd-Michelin steel disc wheels; Alemite high pressure chassis lubrication, instead of old fashioned grease cups.

Air cleaner and oil filter to seal the engine against dirt; steering gear especially engineered to handle balloon tires without excessive steering-wheel effort.

And, in the closed car bodies, genuine hardwood frames with rounded rear roofs like the costliest custom cars of Europe and America.

You can buy this car for about the same price as one of the higher priced fours. At the most, you'll only need to add $50 or $60 to your first payment. Drive the two cars, and you'll certainly decide you would rather have the Nash!

SACCO-VANZETTI INQUIRY ASKED

Legislature of Bay State Urged to Intervene

Pair Sentenced to Death After Long Contest

Various Government Offices Under Heavy Guard

BOSTON, April 11, (AP)—The Sacco-Vanzetti case reached the Massachusetts Legislature today while letters, telegrams and cablegrams continued to come to the office of Gov. Fuller protesting against the execution of the death sentence imposed last Saturday on Nicola Sacco and Bartolomeo Vanzetti for murder. Word was received that French authors and scientists had added their appeals to those previously made by men in many countries.

Representative Sawyer of Ware, who is a Congregational minister, introduced a resolution calling for the appointment of a commission to investigate the whole case and report to the Governor whether it considered the men had had a fair trial or should be granted a new trial. This commission would be made up of the Chief Justice of the State Supreme Court and four others to be appointed by the Governor.

Among the protests received today were one from residents of Panama and another from 208 Wellesley College students. Gov. Fuller refused to comment either on these communications or on the Sawyer resolution. Legislative leaders were not prepared tonight to discuss the resolution.

Extra guards were maintained at the State House and near various courthouses and judges' homes throughout the State as a precaution against possible demonstrations in sympathy with the condemned men.

FRENCH GUARDING AMERICAN EMBASSY

PARIS, April 11. (AP)—The Paris police are taking no chances of hostile demonstrations against the American Embassy by sympathizers of Nicolo Sacco and Bartolomeo Vanzetti.

Six uniformed patrolmen and two plain clothesmen are on duty at the embassy, instead of the two men formerly stationed there. The chancellory guard has been increased similarly, and a police sergeant is stationed at the Place D'Iena, commanding a view of both establishments.

Two protests against the death sentences against the two men reached Ambassador Herrick today. They came from Paris and Havre, where Communist meetings of protest were held Saturday.

Prof. Einstein of relativity fame, Henry Barbusse, noted French author, and Romaine Rolland are among those who have joined in protests. They signed a message to President Coolidge, reading:

"The committee for the defense of victims of Fascism and the White Terror protests against threatened execution of Sacco and Vanzetti and asks for their liberation."

THREE CAPITAL DEPARTMENTS GUARDED

WASHINGTON, April 11. (AP)—Guards have been placed at the State, War and Navy departments and several other governmental buildings as a precaution against violence as a result of the death sentence in the Sacco-Vanzetti case at Dedham, Mass. At the State Department, one man is stationed near the office of Secretary Kellogg.

THE EARLY BIRD'S THE WORM

Wife, 23 Years of Age, Admits 73-Year-Old Husband Got Up First and Prepared Breakfast and Judge Says, "Sure, Most Married Men Do"

SPOKANE (Wash.) April 11. (AP)—How many pairs of silk stockings does a woman need at one time.

Should the husband or wife arise first and prepare breakfast.

These two questions claimed the attention of the Superior Court here today in the trial of one of three suits which Mrs. Eva Lindsay has brought against her former husband, M. S. Lindsay, wealthy lumberman and attorney of Priest River, Idaho, for $30,000.

Mr. Lindsay, who is said to be 73 years of age, married Saturday in Coeur D'Alene, Mrs. Josephine B. Moore of this city.

Seventeen pairs of stockings in ten days are none too many for the wife of a wealthy man, Mrs. Eva Lindsay, who is 23, maintained on the witness stand today. "Why, when I was only a working girl, I had six or seven pairs of silk stockings at one time," she added.

This question went unsettled, but the other was the object of a judicial ruling.

When Lindsay's counsel asked if it was true that Lindsay always arose first and prepared breakfast, his former wife replied:

"Certainly it's true, but what of it? Isn't that all right?"

Superior Judge Witt agreed. He said he was always up before his wife and frequently cooked breakfast.

"Most married men do," he said.

UNION SUSPECTS RECANT STORIES

Confession Forced, Asserted Slayers Declare

Third Degree Applied, Says "Wrecking Crew"

Trial Expected to Consume Rest of Week

SAN FRANCISCO, April 11. (Exclusive)—Taking the stand in their own defense, Gus Madsen and George Pesce, union-labor officials charged with the murder of a nonunion carpenter and the beating of another, today unfolded lengthy details of asserted rough handling at the hands of police and charged that high police officers kicked and beat them into a confession of complicity in strike disorders.

Pesce, first on the stand, accused Detective Sergeant Hyland of leading three other detectives in a campaign of abuse when they took him from his apartment to the Hall of Justice for questioning in connection with the beating of C. C. Coyle and the death of C. W. Campbell, both open-shop workers.

"REAL WRECKING CREW"

"They all took a crack at me," Pesce testified. He said that they confined their efforts for a time to pushing and shoving him about, admonishing him to "kick through" if he wanted to "make it easy" on himself. Later, he said, they threw him to the floor and kicked him in the stomach. Pesce said they desisted only when Police Lieutenant Dullea entered the room and made gestures to "cut it out." He also declared he was told that unless he hurried up with his confession he would be taken downstairs and introduced to "a real wrecking crew."

Asked by Nate Coghlan, chief of defense counsel, if he made the statement voluntarily, Pesce replied:

"Most of the things in that statement were put there by Tom Hyland." After it was over, Pesce said he was "too weak and sore to eat."

CONFESSED IN FEAR

On cross-examination, Pesce said certain parts of the statement, referring to those which detailed the movement of a labor union terror squad to the building where Campbell and Coyle were beaten, were admitted true to the grand jury and Chief of Detectives Matheson because of fear. He said he informed grand jury members and Matheson that the statement was correct because he was afraid if he didn't he would "get some more" of the same treatment already accorded him.

Madsen followed Pesce on the witness stand.

He testified that Detective Sergeant Hyland entered his room at a hotel on the night of October 25, last, three days after the beating of Campbell, and forcibly jerked him out of bed by the hair of his head.

He was placed in a police automobile, Madsen said, thrown to the floor of the tonneau and kicked and cuffed on the way to the Hall of Justice. After arriving at the Hall of Justice, Madsen said, he was treated in much the same manner as Pesce before him and then forced to sign a statement admitting participation in the activities of the "wrecking crew," which beat the two American-plan carpenters.

CORROBORATES MATE

Like Pesce, Madsen testified that before the two defendants appeared before the grand jury, they were first taken to their homes, told to clean up and shave and then given an automobile ride so they would "look good."

Madsen concluded with the accusation that he was literally forced to sign a statement amounting to a confession.

Mrs. Esther Pesce, wife of one of the two defendants, is expected to go on the witness stand tomorrow with corroboration of her husband's testimony that he was kicked, beaten and otherwise mistreated.

In all, the defense expects to call fifteen witnesses. The case probably will go to the jury before the end of the week.

AIR CHIEF WILL FLY TO COAST

Trip of Inspection Set for May and Embraces California Army Posts

WASHINGTON, April 11. (AP)—One of the Army's new three-motored transport planes will be used by Assistant Secretary Davison of the War Department, in charge of aviation, for a trip to California late in May to inspect army air stations in that State. Himself a pilot, the Air Secretary will share the controls with Lieut. Lester J. Maitland.

He will be accompanied on the trip by Brig.-Gen. William E. Gillmore of the Air Corps; Porter Adams, president of the National Aeronautic Association, and H. J. Adamson, civilian assistant to Davison.

The flight will begin May 4 when the party takes off for San Antonio, Tex., to witness infantry and airplane joint maneuvers there.

Flight to San Diego will be resumed on May 23 with stops at El Paso and Tucson. Several days will be spent in San Diego, Los Angeles and San Francisco, and brief visits will be made to Rockwell and March fields, Fort Rosecrans, Camp Lawrence, Clover Field, Fort MacArthur, Ross Field, the Presidio of Monterey, Forts Winfield Scott, McDowell, Barry, Mason, Funston, Baker and Miley, and the San Francisco Presidio.

The trimotored plane in which the Secretary and his companions will make the trip represents the newest type of army aircraft. A monoplane, the transport has a cruising radius of about 100 miles an hour and can seat ten persons. Each of its three air-cooled motors develops 225 horsepower.

COFFEE MAN TAKES LIFE

SAN FRANCISCO, April 11. (AP)—Stephen Casinelli, 42 years of age, coffee importer and jobber, committed suicide by gas asphyxiation in his home here today.

Von Elm Wins Amateur Golf Championship

SPORTS
The Los Angeles Times

TUESDAY MORNING, APRIL 12, 1927.

MAJOR LEAGUE CLUBS START LONG GRIND TODAY

NATIONAL KING DEFEATS HUNTER FOR TITLE, 7-6

Defending Titlist Bows Before Supergolf Exhibited by Famous Star

BY BILL WISE

George Von Elm, national titlist, defeated Dr. Paul M. Hunter, 7 and 6, at the Los Angeles Country Club yesterday in the thirty-six-hole finals match for the Southern California amateur golf championship, held over from last Sunday.

Von Elm, dropped with characteristic Von Elm ease, assured an enthusiastic gallery of several hundred fans that the southern crown should rightfully repose upon the noble brow of the youthful veteran who headed Bobby Jones in the last national classic.

Paul Hunter, defending the southern championship title for the fourth time, drew first blood by winning the fourth hole with a birdie, then lost another birdie to halve the fifth and stepped back upon even terms with Von Elm putted to the edge of the cup on six for his second three-stroke-per hole. The defending champion put up a wonderful fight, but Von Elm—aside from his wee putting spell—was golf wild with his eight and nine.

Both up with a medal score of 35, Von Elm started to cut down with a birdie 3 on the seventh, after halving the sixth, but Hunter, missing a two-foot putt for an 8 on the seventh, was halved in 4 and Von Elm dropped a 6 to Hunter's 5 on the eighth and was 3 up, missing a short putt for another 6 on the ninth. Hunter has

(Continued on Page 7, Column 3)

La Barba Easy Winner in Go at Providence

PROVIDENCE (R. I.) April 11.—Young Montreal of this city was beaten by a wide margin in a ten-round bout with Fidel La Barba of Los Angeles, world's champion flyweight, here tonight. La Barba weighed in at 118 pounds while Montreal tipped the scales at 125.

FIDEL LA BARBA

Montreal showed flashes of his old self in spots. The fight was La Barba's all the way, although he seemed to lack the punch to put the veteran out when he had the opportunity.

In the opening rounds Montreal was careful and did not show much fight until the third round.

In the fourth round Montreal hit two low blows but La Barba did not claim a foul. The aluminum belt showed dents.

In the fifth round Monty showed by a few remarks and a scornful wave of his mitt that he didn't think he was getting a square deal from the

Hudkins and Tendler Fight Tonight

MAROONS LOSE TO BLACKHAWK

Chicago Pucksters Win by 5-to-4 Score

Local Hockey Stars Fail in Final Drive

Lloyd Cook and MacKay Shine in Ice Game

BY BRAVEN DYER

The Chicago Blackhawks swooped down on the Los Angeles Maroons at the Winter Garden Ice Palace last night and made off with the first of a five-game series which is to feature the Windy City puck chasers. A crowd of 3000 fans, a number big for ing among the elite of the city, saw the visitors run wild in the second period and race off with a 5-to-4 victory.

CULLY WILSON

Action was faster than in any previous local game, the speed of the players being so terrific that at times it was impossible to follow the elusive puck as it was shot from one end of the floor to the other.

With the score tied at 1 to 1, the visitors opened up in the second stanza and some brilliant shooting by Dye, Irwin, Fraser and Hay put the game on ice (no pun intended.)

LOCALS START FAST

The local players started right after their rivals without wasting any time and after three minutes and eighteen second of play Ganton Scott sent the fans wild with a perfect shot for the opening tally of the game. Zipping down the floor with the speed of a frightened greyhound "Scotty" banged the puck into the wall, caught it on the rebound and smacked it into the net as McCusker made a valiant, but futile, effort to prevent the score.

For the next five minutes the Maroons kept McCusker busier than a one-armed man trying to wind his wrist watch. Using a two-man offense, the locals had no difficulty working the ball into Blackhawk territory and it was only McCusker's quick eye, nimble feet and strong arm that prevented other tallies.

The Blackhawks employed a three-man offense but for the first nine minutes had considerable difficulty penetrating the defense of Lloyd Cook and Breen. Added to that the shooting of the visitors was none too accurate at this stage of the game.

HAY SCORES

After nine minutes and thirty-two seconds of play, Hay took a neat pass from Trapp and slapped a close-in shot into the net for the Blackhawks' initial score, knotting the count. From then until the end of the period the battle was nip and tuck, the Chicago players warming to their work and giving Goalkeeper Broadfoot plenty to worry about. Mickey MacKay showed a world of speed in this canto, while the work of Lloyd Cook featured for the locals.

The second period produced more action than the recent World War. Scott, Wilson and

ONE MORE DAY---ONE MORE TITLE

George Von Elm yesterday added to his title of national golf champion that of Southern California king. He beat Dr. Paul Hunter, 7 and 6, in the finals of the annual championship tourney on the links of the Los Angeles Country Club.

WELTERS MIX IN "NATURAL"

Youth Gives Ace Edge Over Southpaw Veteran

Last Four Rounds of Battle to Favor "Wildcat"

Lew Has Hopes of Drawing Leonard Into Ring

BY PAUL LOWRY

Ace Hudkins and Lew Tendler go to bat at the Olympic tonight in one of those kind of barnyard fights the bugs of the game are pleased to call "naturals." It is a "natural" for the fan because Hudkins gave Bert Colima a surprising beating and Tendler provided an astonishing sequel by upsetting the black pride of San Diego, Young Harry Wills. It is a "natural" for Promoter Jack Doyle because said bout will jam the 10,000 seating capacity of the Olympic to the rafters, and that's the only kind of a "natural" any promoter ever was interested in.

ACE HUDKINS

If you're picking favorites you'll probably select Hudkins, the walloping "Wildcat" from Nebraska, to take the measure of Lefty Lew. Hudkins has youth, strength and an indomitable fighting courage on his side. He's a fair boxer and a good walloper. The longer the route the stronger he comes. The harder he's hit the more viciously he tears in.

Hudkins has been fighting four years. Tendler is in his fourteenth year as a pugilist. The kid is 22. The veteran is 29. Tendler beat Wills because he was too smart for the negro. He will have a smarter man than Wills against him tonight.

TENDLER SLIPPING

Tendler is on the downgrade and admits it. He came West to make one more fight, but trained into such splendid condition that he decisively licked the man who was expected to topple him a la Joe Tiplitz and earned a bout with Hudkins.

With the fires of ambition rekindled, Lefty Lew now dreams of a bout with Benny Leonard, who has announced a desire to emerge from retirement. If Lefty Lew beats Hudkins tonight he'll get the Leonard bout. It will be an open-air show in New York, and it will mean something like $70,000 or $80,000 to Lefty Lew. Such prizes have fired men to superb heights before and Lew may be no exception tonight. Who knows?

Viewed in the light of cool reasoning tonight's fracas should be a hectic scramble for five or six rounds with little margin in either fighter's favor. Then Hudkins's vitality and extra strength should begin to tell. He should be able to set a pace that Tendler cannot follow, and if Lefty Lew cannot follow the pace all the ringcraft in the world cannot save him from the devastating "Wildcat."

Tendler knows that in his legs lies the secret of his success, and for

(Continued on Page 2, Column 4)

SUMMER PHASE ON AS SPRING TRAINING ENDS

Fans of New York Still Look to Babe Ruth as Big Attraction; Hornsby Remains Outsider

BY WESTBROOK PEGLER

NEW YORK, April 11. (Exclusive)—The summer phase of the great national game will commence Tuesday but it is not quite clear anymore whether this is the principal or the secondary phase.

Likely Mound Selections on Program Today

Sharpshooting aces of the major league clubs are slated to take the firing lines today for the major league's opening battles. The twirling champions of 1926, George Uhle of Cleveland and Ray Kremer of Pittsburgh, both have drawn opening-day assignments as well as the veteran world's series hero, Grover Cleveland Alexander of the Cardinals.

GROVER ALEXANDER

Here are the probable mound selections for the getaways:

AMERICAN LEAGUE

Waite Hoyt of the Yankees vs. Eddie Rommel of the Athletics at New York.

Stanley Coveleskie of the Senators vs. Bryan Harris of the Red Sox at Washington.

Earl Whitehill of the Tigers vs. Tom Zachary of the Browns at St. Louis.

Ted Lyons of the White Sox vs. George Uhle of the Indians at Cleveland.

NATIONAL LEAGUE

Jess Petty of the Robins vs. Bob Smith of the Braves at Boston.

Burleigh Grimes of the Giants vs. Hal Carlson of the Phillies at Philadelphia.

Grover Cleveland Alexander of the Cardinals vs. Charley Root of the Cubs at Chicago.

Ray Kremer of the Pirates vs. Pete Donohue of the Reds at Cincinnati.

ROCKEY STARS SOLD

CHICAGO, April 11. (AP)—George Hay, forward, and "Pug" Traub, defense player, were sold today by the Chicago Blackhawks of the National Hockey League to the Detroit Cougars for $15,000. Hay was one of the leading goal shooters of the league last season.

In comparatively olden times when the New York clubs trained at Asbury Park, N. J., and some of the Middle Western teams were taken down to French Lick Springs, Ind., for a couple of weeks in the air, spring training was definitely intended as a work of preparation for the summer season. Indeed, some of the proprietors looked upon even this modest travel as an affectation and held to the idea that a natural ball player, like a natural prize fighter, needed no more than a shave and a T-bone steak or two T-bones, to put him in physical shape and mental humor to play his best.

ROGERS HORNSBY

This year, the athletes are beginning the so-called regular season with five weeks of baseball and two weeks more or less, of travel behind them. So you might reasonably ask whether they are now beginning to train for the next training trip.

HARDSHIP COMPARATIVE

All hardship is comparative. Mr. One-Eyed Connelly, who always travels on a train, never in one, would scoff at the sufferings of a ball player who has put in fourteen nights on the Pullmans and developed callouses on his dome, or nut, from being dashed against the head boards of his berth in crash stops at the way stations. He would titter in a refined way at the sleepless statistician who counted thirty stops in one overnight jump in the training zone.

Still there are baseball players and managers, particularly among the elders, who believe spring training has been overemphasized. Ed Roush of the Giants seems to be the leader of this thought. Mr. Roush has contrived to create an argument about his salary and keep out of the training camps every year but two in the last decade or so. This may be the reason that he plays ball so well at his advanced age.

Although Rogers Hornsby has had his name and photograph in the pa-

(Continued on Page 2, Column 1)

HELEN WILLS PLANS TO PLAY IN WIMBLEDON TENNIS EVENT

SAN FRANCISCO, April 11. (AP)—Helen Wills, California tennis star, is to play at Wimbledon this year. Her decision was made known today, and she will leave California early in May, sailing for England from New York on the Cunard Liner Tuscania May 14. She expects to land at Plymouth, Eng., May 22, and devote all her time up to the opening of the Wimbledon all-English championship tournament scheduled for June 20, to accustoming herself to the English grass courts.

HELEN WILLS

Miss Wills reached the finals in the Wimbledon tournament in 1924, but was defeated by Kitty McKane, who has since become Mrs. L. A. Godfree. That year she won the only Olympic tennis championship, the Tennis Association having withdrawn from the Olympic games since that time.

Miss Wills made a tour of Southern France last year, winning every tournament she entered except the one at Cannes, where Mlle. Lenglen defeated her. An acute attack of appendicitis forced her to cancel her entries in the French championship at Paris and in the Wimbledon event.

MANDELL KAYOES VALDEZ IN SECOND

TUCSON (Ariz.) April 11. (AP)—Sammy Mandell, lightweight champion, knocked out Johnny Valdes of Oakland, Cal., in the second round of their scheduled ten-round bout here tonight. Valdes laid a glove on the champion only once in the four minutes of fighting.

In the semi-wind-up Joe Lopes of Los Angeles knocked out Benny Cruz of Tucson in the first round.

WHERE THEY OPEN TODAY

AMERICAN LEAGUE

Chicago at Cleveland.
Detroit at St. Louis.
Philadelphia at New York.
Boston at Washington.

NATIONAL LEAGUE

Brooklyn at Boston.
New York at Philadelphia.
St. Louis at Chicago.
Pittsburgh at Cincinnati.

OAKS OPEN WITH ANGELS

Howard Brings Acorn Talent South for Seven-Game Series With Locals; Sheiks Portland Bound

Providing the moisty weather lets up, Ivan Howard and his Oakland Acorns will swap base hits with Marty Krug's Angels this afternoon at the Doublemint park in the first game of a seven-game series.

Inasmuch as the Oakland club is figured to chase the Angels around the circuit for the next few months, local fans are anxious to feast their optics on the northern talent. Manager Howard is dragging his star hurling staff south for the particular edification of the Seraph willow-wielders. So far this season, the Acorn twirlers have been inclined to blowing off in the early innings, which has not helped keep the Oaks at the top of the pile.

DOC WRIGHT

Krug has the wet weather to thank for his hurlers being in the pink for the series, since Doc Wright is now in shape to hurl the opener. The Angels have been having a peck of trouble with their chucking staff, and the Seraph boss will find an opportunity to use every available twirler before the week is over, with the well-known "Buzz" Arlett smacking the pill through the fence with uncanny frequency.

Arlett, however, is not the only high-powered Oak, and Howard has a flock of boys who figure to give the cash customers plenty of action. The Angels can be fig-

(Continued on Page 2, Column 1)

TILDEN TWICE WINNER

PINEHURST (N. C.) April 11. (AP)—William Tilden, II, of Philadelphia won two victories in the opening day's play in the north-and-south tennis tournament here today. After defeating J. A. Rugies, Pinehurst, 6-0, 6-0, he eliminated Josiah Wheelwright, Boston, 6-2, 6-0.

HONOR SISLER IN ST. LOUIS

ST. LOUIS, April 11. (AP)—George Sisler, first-baseman and former manager of the St. Louis Browns, and the American League's "most valuable player" in 1922, was the guest of honor at a testimonial dinner tonight. Mayor Victor J. Miller was master of ceremonies and leading figures in all branches of St. Louis amateur and professional athletics attended.

Major League Baseball Clubs Off on Long Grind This Afternoon

LONG TRAINING DRILLS ENDED

Expect Babe Ruth to Outshine Rogers Hornsby

Ex-St. Louis Star Must Prove Worth to Fans

Veteran Players in New Roles as Season Opens

(Continued from First Page)

pers much more than Babe Ruth this spring. Ruth will remain the great man of baseball in New York. Hornsby's publicity will draw a great many customers and the return on this advertising will soon reimburse the National League proprietors for their pro rata contribution to the purse that redeemed his share in the St. Louis club.

HORNSBY OUTLANDER

Babe Ruth is of New York now. He built the Yankee Stadium, he dedicated it with a home run and he even spent a day in one of the local cages under a sentence for speeding in his automobile. Hornsby is merely an interesting outlander who has yet to make his way as a New Yorker. He arrived from St. Louis with a reputation as a cold character, whereas the Babe has always been a sympathetic fellow, evoking cheers that come from a good distance south of the metropolitan neck.

Hornsby will makie his first appearance as a Giant in Philadelphia and Ty Cobb will come to the Yankee Stadium to celebrate his first major-league ball game in clothing not supplied by Frank Navin of Detroit. A few classic hatreds will be dissolved or at least waived for reasons of business expediency and new odes will be exploited for the same reasons.

Thus Hornsby will hate Sam Breadon and Cobb will hate Navin, both with a hate that passeth understanding, and Frank Frisch, feeling that his was not done right by in New York, will be armed by no love for John McGraw.

On the other hand, certain enjoyable enmities between Cobb and other individuals who find themselves strangely allied with the Athletics will have to be subordinated to the ambition of the team.

There will be song-plugging and trombone music to speed the men on their getaway and the umpires will be quoted as yelping "play ball!"

In this they will be misquoted.

The umpires do not yell "play ball." They yelp "let's go." Or "let's have a hitter" or "let's have a ball game." But it has been years since an umpire started a season by exhorting the athletes to play ball.

Change Pilots for Sunday's Ascot Races

A change in pilots that may mean a big upset in the dope in future races at Ascot speedway beginning Sunday was announced last night by C. C. Ballinger of Pasadena, owner of the Ballinger Rajo No. 48, and Eddie Meyers, Jr., of Redlands, who owns the Redlands Special No. 6 and the Rajo Superfour No. 52.

The announcement states that Francis Quinn, pilot for the Ballinger entry, and one of the outstanding stars of the season at Ascot, had been released and would pilot No. 52 for Meyers next Sunday, while Al Hopp, youthful speed demon, would hereafter hold the wheel of No. 48. Meyers obtained Quinn to pilot his No. 52 for the short time that the little Irishman will be driving on the independent tracks. He copped two races in this car a few weeks ago, when No. 48 was put out of the race by motor trouble.

The Redlands owner also announced that Harry Jacques would be back at the wheel of the Redlands Special next Sunday for the first time since he cracked up on the north turn three months ago.

ACORNS OPEN WITH ANGELS

(Continued from First Page)

ured to give the bay athletes plenty of competition, which means a rather full week for office boys and other addicts of the national sport.

Up in Portland, the Ducks are warming up for a crack at Hollywood's Stars, who will open in the Great Northwest tomorrow afternoon. Since the Sheiks have done nothing yet to stir up any excitement, the Ducks will be highly favored to fatten their percentage by seven games.

The Solons, after having completed a most favorable start on the home lot, open at San Francisco this afternoon with the Seals. The Seattle Indians will entertain the Mission club in the final series of the week.

STAGE BENCH SHOW AT GLENDALE SUNDAY

The first one-day open-air dog show ever held in Southern California is scheduled for Sunday in the Glendale baseball park under the auspices of the Glendale Kennel Club.

More than 450 thoroughbred canines have been entered in the bench exhibition. A total of 135 silver trophies will be awarded the winners of all classes, according to Manager Jack Bradshaw.

Andrew J. Scott of Pasadena will judge the Russian wolfhounds and sporting dogs. Kyle Onstott of Pasadena will preside over fox terriers, chows and toys. Enton B. Korbel will judge French bulldogs and shepherds. John Sinnott will judge airedales, Great Danes, St. Bernards, variety groups and the best dog in the show.

BILLIARDS

Jake Mathes's Hillstreet Billiard Parlor will be the scene of some closely contested pocket billiard exhibitions during the next few weeks, when eight of the most expert cue exponents hook up in a round-robin tournament.

Tonight Harold Engle and Charles Young meet in the first of the seventy-five-point games. Others who will engage in the competition are W. Cox, F. Wilson, Harold Engle, Charles Young, Funny Wilcox, J. P. Baum, James Mills and Buck Crowley.

OBSERVATIONS

BY THE INNOCENT BYSTANDER, BILL HENRY

ON OCCASIONS as this evening when Ace Hudkins attempts to outthump somebody or other (in this case Lew Tendler,) we are always reminded of the occasion when we wandered out to the Hollywood Stadium one Friday morning and Cap Streilinger invited us in to see them weigh the principals for the main event that evening, to-wit, Tommy Career, existing Coast lightweight champion, and a scrawny, flat-chested, washed-out-looking blond youngster, said to be a newsboy from Nebraska. We felt like telling the kid he ought to take up some other means of earning his oats and felt quite sure that if the well-lunched Carter socked the kid on that flat chest, his fist would go clear through and come out the other side. Well, we picked up the paper the next morning to learn that one Ace Hudkins had deprived Mr. Carter of his title, and we never did believe it was the same kid we saw until some time later when we watched him plaster Joe Benjamin to a fare-thee-well out at Vernon. Moral, don't bet on our judgment of fighters.

* * *

The forthcoming A.A.U. meet on Saturday ought to be the best we've ever had since, for the first time in history, U.S.C. and the Trojan Frosh will get some hot competition from two well-organized club teams representing the L.A.A.C. and the H.A.C. and from the pick of the conference athletes. We have never in previous years had as strong teams representing the clubs and for the last three or four years most of the conference athletes worth considering were either away on trips or had quit track for some other sport. This year most of them are on the job, which ought to help some.

* * *

Happy thought for the spring football season. We have just picked up an item sent us through the mail regarding drop kickers. It has to do with spring training at Harvard and we note as follows: "In a drop-kicking contest from the 15-yard line last week, making a kick of 35 yards, Kicking Coach Vic Kennard, H. W. Burns, '28; A. L. Devens, '29, and A. B. Ellis, '27, attempted 200 drop kicks and made 197 of them. Kennard missed one and Ellis missed two, Burns and Devens having perfect scores." Looks like food for thought in that news item for some Coast colleges we could name.

* * *

There is no doubt whatsoever but that the new jumping and vaulting standards have made a decided difference. The jumpers are having difficulty in getting over 6ft., even the very best of them, and the pole-vaulters are not what they used to be, either. We noted by the paper that even the great Harold Osborne went out at 6 ft. 11in. the other night and we suspect that the number of 6ft. high jumpers in the future is going to be considerably less than has been the case in the past. (Note: The new standards have the cross bar resting on top of the standard instead of on pegs sticking out of the side of the standard. As a result, if you hit it, the chances are 10 to 1 it will fall off.)

Fields Likely to Clash With McLarnin Soon

Jackie Fields is determined to erase the only blot on his fighting escutcheon before he shoves off for New York. His manager, "Cig" Rooney, yesterday practically came to terms with Matchmaker Hayden Wadhams of the Olympic for a bout with Jimmy McLarnin May 10, next.

Fields's knockout by McLarnin in November, 1925, is the only setback he has experienced since he became a professional fighter. He trained down to a weakening poundage and was weak as a cat when he entered the ring.

Fields and Rooney had planned to leave for New York the 21st inst., but Rooney said last night he had called off an early May fight there because of the Jewish holidays. He said Fields could not leave here the 21st inst. and become acclimated in time for a bout in New York on the proposed date.

HOUSE FACES SMITH ON PASADENA GO BILL

Mack House, the fighting California Bear, who has stayed nineteen opponents in the first round, will try his stuff against Big Ralph Smith at the Pasadena Armory Thursday night. He will have to stand on his toes to hit Smith at all, for the latter is the tallest fighter in the world, being six inches over six feet. Smith weighs 290 pounds—about forty more than House. Moreover, he is a seasoned fighter. Three weeks ago he met George Godfrey in Portland and has faced such men as Tiny Herman, Bully Montgomery, John Lester Johnson and Bob Roper. The big fellows are to go ten rounds. Other bouts on the card are Young Bello vs. Tony Cruz, six rounds, 135 pounds; Billy (Red) Wells vs. Young Terry, six rounds, 150 pounds; Pancho Villa and Al Wilton, four rounds, 168 pounds.

BUD BRINGS JEWELED BELT

Promoter Jim Mullen's $4000 diamond-studded championship belt arrived in Los Angeles yesterday carried by Bud Taylor, recognized king of the bantamweights. Taylor is here to meet Young Nationalista in a ten-round match to a decision in the big double-header wind-up on Dick Donald's program at Wrigley Field Monday night. He is accompanied by his manager, Eddie Long.

Bud is now working at the Manhattan Gym, although he plans to wind up his training schedule at the Main-street club. He is in great condition and expects to put up one of his best fights against the fighting Filipino.

George Godfrey, the "Black Shadow," also arrived yesterday. He meets Leon Chevalier in the other half of the double wind-up bill. The colored giant declares that his bout will end in a knockout.

VON ELM COPS GOLF CLASSIC

Hunter Drops Southern to Champ, 7 and 6

Winner Drops Ten Birdies During Clash

Youngsters Enliven Annual Golf Championship

(Continued from First Page)

fought his way to international golf fame but this struggle that carried him to the southern four times—the State amateur twice—and sensational victories with the Walker Cup challengers in 1921, was surpassed by the dogged offensive he exhibited yesterday.

HUNTER STEADY

Faced with the nearly impossible task of stopping the second-best golfer in the world, Hunter never wavered under an increasing strain that would have ruined many ranking exponents. Hunter also missed a short putt on fifteen but stepped right out and dropped a birdie 4 to halve the sixteenth. The tricky seventeenth was parred, but with Von Elm ten feet short of the cup with his second, Hunter played an approach too firmly and missed a long putt for a 4 coming back. Von Elm tipped his try for his eighth birdie of the round.

Hunter matched shots with the greatest sharpshooter in west coast golf and was rewarded with a birdie 4, necessary to halve the first hole of the afternoon round. Von Elm picked up the next two holes and after pitching dead, dropped a birdie 3 to win four when Hunter laid a long birdie try on the lip of the cup.

The fifth and sixth holes were halved by the national champ who stole the defending titlist's thunder by laying a forty-yard approach dead for a par 3 on seven. Hunter has hooked his tee shots to seven with a heart-breaking regularity and repeated yesterday, missing a long putt for a halve after a beautiful recovery from the trees.

Hunter found trouble going to eight, the twenty-sixth hole of the match, and lost two shots. Von Elm winning the hole with a par 5. Hunter laid a long iron short of the flag on nine and ran down a twenty-foot putt for a birdie 3 and was 3 down with nine holes to go.

The tenth was halved and Von Elm played twice from the rough before catching the sloping eleventh green. Hunter dropped a perfectly played four and with the match dormie, laid a beautiful pitch four feet from the cup in the twenieth green. Competition is one thing Von Elm has learned to love and the mashie niblick that is going to carry him successfully through countless major affairs, snapped through with a try that fell midway between Hunter's ball and the flag.

Hunter cut a beautiful putt to the bottom of the cup and Von Elm—with a "Ho, hum—lackaday, I must be broad-minded," slapped his ball into the hole intentionally left by an efficient greens keeper and won the Southern California amateur golf championship for the third time.

Many will probably insist that Hunter played poorly yesterday, but the following match play cards should adequately refute all such statements. It wasn't that Hunter was so bad—it was that Von Elm was so good, and while many shots might have been executed in a more satisfactory manner—the exhibition heaped loads of credit upon the popular shoulders of the Annandale golfer.

VON ELM RIGHT

Von Elm is playing championship golf—the kind rarely seen outside of major tituar affairs, and is strokes better than the best golfer in Southern California today. Von Elm will play in the California open, starting at Burlingame Club (San Francisco,) Saturday and should defeat the best field in the history of the event.

All matches in the three flights comprising the southern tourney spoke volumes for West Coast golf, local juniors contributing much to the success of the affair.

Von Elm copped the tourney medal with a thirty-six-hole aggregate of 145. George Cornes of Lakeside, collected low net with two perfectly played 73s—and incidentally, Von Elm led Paul Hunter through a lot of golf in a snappy semifinals match, before losing, 3 and 2. Lester Coleman of California, defeated George Shaw, a club mate, 6 and 5, in the finals of the defeated sixteen of the championship.

E. K. (Buster) Brown of Los Anbeles, trimmed a Beverly junior, Jim Milholland, 8 and 4, in the president's cup flight. Paul Jones of Rancho, won from Frank DeIeot, of Wilshire, 5 and 4, in the defeated eight bracket. Ralph Dold, of Lakeside, won from Dave Rose of Rancho, 3 and 2, in the vice-president's bracket.

Championship cards:

Morning round—

Par out	5	3	4	4	4	3	5	3	—36

BEAR NINE MEETS CARDS IN SERIES

BERKELEY, April 11. (Exclusive)—Deterred by rain in previous appointments, the California and Stanford baseball varsities will attempt to clean up their annual series of three contests this week. The first game is set for tomorrow afternoon, at Palo Alto, the second for Thursday here and the third at Stanford Saturday. Neither Coach Carl Zamloch's Californians nor Coach Harry Wolter's Stanforditas have the right, on the basis of their showings so far, to hope for a high standing in the State College Baseball Association.

WELTERS MIX IN "NATURAL"

Youth Gives Ace Edge Over Southpaw Veteran

Last Four Rounds of Battle to Favor "Wildcat"

Lew Has Hopes of Drawing Leonard Into Ring

(Continued from First Page)

that reason he has been on the road every morning, striving earnestly to fortify his underpinnings against disaster. If they go back on him, as they most generally do with fighters of far less ring years than Tendler, he is done for.

However, there is one point very much in Tendler's favor. It is Hudkins's style of fighting. The "Wildcat" loves to tear and maul at close range. For a fighter whose legs are inclined to go bad this is the easiest style of fighting, and Tendler, therefore, is a cinch to be much more effective at close range than at long range.

As a matter of fact, this was the case in the Wills fight. It was Tendler's body punching and head clubbing at close quarters that won the fight for the Philadelphian.

However, Tendler got away with something in that bout that no smart referee is likely to let him repeat tonight. He continually held Wills's head with his right hand and banged away with his left. It was smart stuff as long as he got away with it, but it wasn't according to Hoyle.

LEW HAS ADVANTAGE

Another advantage in Tendler's favor is that he has seen Hudkins in one of his best fights—against Colima—and out of his years of experience he probably has fashioned a way which he hopes will carry him to victory over the Nebraskan.

The weight is set at 150 pounds, but both boys will come in under this figure, Tendler at about 149, his manager, Jake Friedman, said yesterday, and Hudkins around 148½. The "Wildcat" has stayed off the road the last six days because he didn't want to get much under Tendler's weight. He respects Tendler and Tendler respects him. So does Friedman. "That fellow will give anybody a terrible fight —Walker, Latzo, Dundee, any of em," he said, referring to the Ace.

Indications last night were for an S.R.O. sign, but this happy dream of the promoter has not been realized yet, despite published reports to the contrary.

In the semi-wind-up of six rounds a newcomer will make his appearance against Dick Hoppe. This is Young Gonzales, who comes here recommended as the gent who beat that guy that won a newspaper decision over Sammy Mandell, the lightweight champion. It was Tommy White who took the paper verdict over Mandell, who was decisioned by Gonzales.

Tony Herrera, labeled as a conqueror of Santiago Zorilla, will meet Bobby Herman in the six-round special; Leo Mitchell is slated for a four-round bit with Ludy Steiner, and Manuel Vasquez, who has been one of Tendler's sparring partners, is down for the curtain raiser with a Jack Thompson, who bears no relation to the Jack Thompson of lightweight fame.

Hotel Men in Golf Tourney

One hundred members of the Southern California Hotel Men's Association, with 150 more as a gallery, will tee off today in their first annual golf tournament at the Hollywood Country Club.

The affair, which has attracted proprietors and managers of hostelries from Santa Barbara to San Diego, is being conducted by a committee composed of F. F. Shanley, Charley Cooke, J. D. Minster and J. A. Baldi, president of the Yellow Cab Company.

Competition is expected to be keen for the honor of being the initial winner of the Yellow Cab perpetual trophy, to be awarded each year for low gross. The victor will also receive a smaller possession cup, as will the holders of second low gross and low net. The Yellow Cab Company plans to make this an annual affair as a compliment to the hotel men.

CARD, CALIFORNIA FROSH MEET TODAY

BERKELEY, April 11. (Exclusive)—Juggled about much like the stage artist swings his bowling pins and platters, the date of the "Little Big Meet" of the track for California and Stanford is at last definitely settled for tomorrow afternoon on California Field. Although Coach Walter Christie's California squad has been hard hit by ineligibility, the Bears will still take to the oval as slight favorites. Christie dropped from fifteen to twenty points, when George Baker was declared ineligible in the 440 and mile, Pratt in the 440, Colburn in the sprints and Reigels in the weights. Each of these men was the best in his events. The "Old Fox" still has a leg to lean on, however, with Johnny Rust in the quarter mile, "Togo" Thornton in the hurdles and Rice, the Frosh football star, in the sprints.

BULLDOG NINE WILL MEET BRUINS NEXT

REDLANDS, April 11.—The University of Redlands baseball team defeated by Occidental, 13 to 8, will take the field against California at Los Angeles on the Redlands field on Saturday. Rowe, the southpaw who pitched the last part of the game for Redlands, let Occidental down with four good clean hits and Coaches Cushman and Cunningham are hopeful that he is going to be the salvation of the Bulldogs on the mound.

BOWLING

PEORIA (Ill.) April 11. (AP)—Team winners in the American Bowling Congress announced today, included:

Yes Shops, Milwaukee, who rolled 3,199, $1000; Winter Range, St. Louis, 3,062, $923; Kuers, Dayton, 2,941, $865; C. C. Baker Music shop, Columbus, 2,915, $835; Loew-Nevills, Cleveland, 2,910, $755; C. H. Smith, Ltd., Windsor, Ont., 2,904, $715; Dreyers, New York, 2,897, $693.54; Tinkes, Canton, O., 2,877, $632.34; Erie Auto Glass Co., Erie, Pa., 2,877, $632.34; Indianaos, Indianapolis, 2,871, $577; Golden Gloves, Dayton, 2,865, $565; Silver Wash Gas, Indianapolis, 2,859, $476; Woods Company, Detroit, 2,850, $145; Fisher Body Plant No. 12, Detroit, 2,850, $145; Manhattan Tires, Cleveland, 2,850, $145.

BEARS PREPARE FOR CARDS

Walt Christie's Athletes Enter Final Lap of Work for Saturday's Meet With Stanford

BERKELEY, April 11.—Faced with the prospect of a severe drubbing at Palo Alto on Saturday afternoon in the track classic of the year, the "Old Master," Coach Walter Christie and his Californians today entered the final stretch of practice for the Stanford "big meet."

The advance joint compilations pick the Reds of Stanford as heavy favorites. No one knows what is up Christie's sleeve, however. It may be that Christie has nothing to offer and yet it may turn out that the California mentor's policy of "slow development" will bear fruit Saturday.

Gradual improvement has been shown by the Californians commencing with the University of Southern California dual meet. The Olympic Club trackfest was postponed on account of rain. The Nebraska affair, although not productive of sensational times and field marks, due to both the weather and the distinct command of Christie to "take it easy," plainly indicated that California was "coming around."

Stanford's greatest strength lies in the field. While Christie has some fine talent the track events, the 880, the two-mile and sprints find California with an edge. The 440 is Stanford's and the hurdles belong to either team. Capt. Elmer Gerken should hold his own against "Biff" Hoffman, although the Stanfordite has been getting the shot and discus out to breath-taking distances, Gerken is conceded an even chance because of his ability in the past to come through in the pinches. The javelin and broad jump find the Bears particularly weak. King will win the high jump for the Reds and the pole vault should be a real battle. Christie has applied his thinking cap and that means danger for the Reds, despite what the premeet calculations intimate.

Thompson and O'Brien Clash Here May Third

The postponed bout between Tommy O'Brien and Jack Thompson will be staged at the Olympic May 3, it was announced yesterday by Matchmaker Hayden Wadhams.

Originally the boys were scheduled to battle things out a week from tonight, but O'Brien's fouling of Russ Whalen at Hollywood brought him a month's suspension.

This will be up the first of May, and then Tommy will be free to go into action again. He had contemplated a trip to the Middle West for bouts in Cleveland and Chicago, but canceled these plans when Wadhams set the early May date for his scrap with Thompson.

O'Brien beat Baby Joe Gans last month, but Thompson's followers insist he is the better of the two black lightweights and that Tommy is in for a lacing when they tangle.

Four Teams Have Chance in A.A.U. Meet

TROJANS HAVE SLIGHT EDGE

Mercuries Doped to Give U.S.C. Plenty of Trouble

Hollywood and Trojan Frosh Also Possible Winners

Terrific Competition Looms in Hurdle Races

It takes all kinds of acts to make up an A.A.U. track meet and as a result there are twenty-four events listed on Saturday's program at the Coliseum. From the standpoint of competition and numbers the meet is the biggest of the year and always brings more than its quota of thrills.

BOYD COMSTOCK

At this writing four teams appear to have a chance of winning. U.S.C., the Trojan frosh, L.A.A.C. and the Hollywood Athletic Club, all being very much in the running. The Trojan varsity is a slight favorite over the others, with Boyd Comstock's Mercuries slated to give the U.S.C. athletes plenty of competition.

The Mercuries will pick up a flock of points in events which are not regularly included in collegiate meets. The fifty-six-pound hammer throw should net Comstock's squad no less than 8 digits, while the same goes for the running hop, step and jump, six-mile run and three-mile walk. With these points as a nice start the Mercuries look very formidable and if the men entered in the better known events come through as they should the Trojans will find the L.A.A.C. hard to beat.

Dean Cromwell counts on Charley Borah for 10 points in the sprints and Lee Barnes and Jack Williams to garner 8 more in the pole vault. Sauers looks best in the quarter, while the half-mile will probably go to Percy Nierabach of Hollywood or Nick Carter of L.A.A.C. The mile finds the Mercuries strong with Henry Lunney and Carter. U.S.C. has Unruh and Hollywood will probably present Bill Meyer, although the latter may run one of the longer races. Scovel of Oxy and Waite of U.C.L.A. demand attention in the two-mile, while Comstock's Indians should run wild in the six-mile event.

Bob Maxwell has the best local hurdle records of the season, but will probably be hard pressed in both races. Jimmy Payne of the Trojan frosh figures to give the Mercury captain plenty of exercise in the lows, while Clif Reynolds, if right, should do likewise in the highs.

Single Bounce Dribble Draws Hot Criticism

NEW YORK, April 11. (AP)—Criticism of the action of the joint basketball rules committee in restricting the dribble in the amateur game to a single bounce came from many quarters today.

Dr. Naismith, who invented the game thirty-five years ago, declared the rule change is decidedly a backward step. The dribble, he said, has been one of the most spectacular features of the game.

"The dribble in the game as played in the West has not brought on excessive roughness," he said, when told the committees made the change "to eliminate roughness and to encourage team play."

Dr. Naismith is professor of physical education at Kansas University and is a life honorary member of the committee.

Dr. Forrest C. Allen, coach of basketball at the same university, said he believed the committee had been unnecessarily alarmed about contact in the game and is wrong in trying to do away with it. "Take away legitimate contact and combat from any game," he said, "and you take away much of its virility."

Johnny Murphy, basketball coach at the University of Rochester, himself a veteran player, declared the change would rob the game of much of its spectacular and individual play and would give the taller player a distinct advantage. Lew Andreas, coach at Syracuse University, also felt the change would slow up the game.

The new rule was adopted unanimously by the committee in annual session here Saturday.

SAGECHICKS TO START PRACTICE SIEGE TODAY

POMONA COLLEGE (Claremont) April 11. (Exclusive)—Just by way of preparing for the season which opens in two weeks, Coach "Beefy" Heath's Pomona frosh baseball squad will play some ten practice games starting tomorrow. The frosh mentor has lined up games for his charges with practically every institution within a radius of fifty miles and figures to give the boys plenty of practice before the battle starts. Capt. "Stew" Hagestead, Wilkins, Sutton, Hartman, Baynham, Dyer, Parker, Judy and Bright are the stars of the team.

NOVICE SWIM AT POMONA SATURDAY

POMONA COLLEGE (Claremont) April 11. (Exclusive)—The annual novice swimming meet, which opens Pomona's aquatic season, is scheduled for next Saturday night in the local tank. From then on there will be something doing every week-end for the Sagehen paddlers. Practically the entire team from last year has returned and things look fairly bright. The boys have been playing water polo for the first time this year and a regular varsity team may be formed if the interest continues.

RABBIT PUNCHES

by PAUL LOWREY

THE death of Young Corbett in Denver the other day removes from this terrestrial realm a figure well known in fighting circles on the coast a quarter of a century ago. He is the only man who ever knocked out Terrible Terry McGovern, and he did it twice. He held the featherweight championship between 1901 and 1904, and withdrew from that division to enter the lightweight class, where he was beaten by Jimmy Britt, one of San Francisco's native sons.

It was a Los Angeles man who piloted Young Corbett during his height as feather king. After Corbett, whose real name was William Rothwell, had knocked out McGovern at Hartford, Ct., in 1901, Harry Pollok resigned his job as a sporting editor to manage the sensational Denver boy. He took Corbett to San Francisco, and in 1903, the latter repeated his knockout over McGovern. The first kayo was scored in two rounds, the second in eleven rounds. For these washops, the only ones that ever forced Terrible Terry to listen to the fateful "ten," Young Corbett will be remembered long in ring history.

* * *

The meeting of George Von Elm and Dr. Paul Hunter in the finals of the Southern California golf championship, was their first, I believe, in titular play. The national champion won from Dr. Hunter, as had been generally expected, by a decisive score—7 and 6.

However, it was a meeting that had been anticipated for years and looked forward to with considerable relish by the golf enthusiasts. Both men have held the southern crown at various times, but until this year somehow or other always missed entanglement. Back in 1922, when Dr. Hunter was kingpin around here, the kid, Von Elm, came down from his home at Salt Lake to take part in the play for the title. For some reason or other Dr. Hunter withdrew from the competition and from the sidelines watched Von Elm grab the crown with nonchalant ease.

* * *

Old Hayden Wadhams seems to be getting things lined up very nicely at the Olympic. He has Hudkins and Tendler tonight, Bert Colima and the black terror from Philadelphia, Tiger Thomas, along with some other good fighters next Tuesday; a Mushy Callahan match the week following, then Tommy O'Brien and Jack Thompson, not to mention the natural of the season, Ace Hudkins versus Joe Anderson, some time in May.

DE HATE IS FAVORED IN LEGION GO

Compton Welterweight Doped to Triumph Over Billy Alger

The main eventers at the Hollywood American Legion stadium Thursday night are hard at work getting ready to open the welterweight tournament, which will be one of the big events of the year at the Legion stadium. De Hate is at the Main-street gym and, Billy Alger at the Manhattan.

PAUL DE HATE

De Hate has been installed the favorite. He is young and a more dangerous puncher. By careful matchmaking De Hate will be heard from in the fight game. Right now he isn't the smartest fighter in the racket, but Paul is the kind of a kid who learns quickly, and what he is taught he remembers. His last start was against George Lavine, considered a very crafty ring general. Still De Hate had no trouble beating Lavine.

There is going to be a big delegation of fight fans from Compton. They always turn out when De Hate does his fighting.

Little is known of Jack Dugan, who fights Richie King. This is his first start in Los Angeles and the fact he gets King in his first start proves he is made of the right kind of stuff. If Dugan is good enough for King, the Hollywood fans will see a corking good semi-wind-up.

Filipino fighters are tough and rarely get kayoed. Jimmy Pella will try his sock on Felix Villamore in the special. Jimmy has been chasing a lawn mower over the turf at the Lakeside Golf Club and is in the pink of condition.

BOSTON BRAVES RUIN HOPES OF HARVARD

BOSTON, April 11. (AP)—A disastrous seventh-inning rally ruined high Harvard hopes of repeating an 11-year-old record and pinning defeat on a major-league baseball club today. Eleven years ago Coach Fred Mitchell watched his collegiate charges humble the world champion Red Sox, 1 to 0, behind Eddie Mahan's flawless pitching, but today the rejuvenated Boston Braves achieved victory, 9 to 3. Score:

	R	H	E
Harvard	3	6	6
Boston Nationals	9	10	0

Cutts, Booth, Molloy and Chauncey; Werts and Hogan.

SAN JOAQUIN BALL LOOP MAKES DEBUT

HANFORD, April 11.—The new San Joaquin Valley Baseball League got off to a good start all around the circuit yesterday, despite chilly winds and overcast skies. At Fresno the Sciots won from the firemen of that city by 4 to 2. In the clash between the Madera Coyotes and Dinuba Sunmaids at Madera, the Sunmaids won, 6 to 4. At Coalings the two oil teams of that city played on the home grounds, the Calpets, last year's champions, winning by 5 to 2. Of all four games scheduled the one in this city was the only one not a real contest, Hanford winning from Chowchilla, 13 to 2.

LENGLEN SIGNED FOR LONDON NET EXHIBIT

LONDON, April 11. (AP)—Suzanne Lenglen has contracted with Charles B. Cochran, British promoter, to appear in tennis exhibitions here during three evenings of the first week of July, it was announced today. The matches are to be held in Holland Park Hall and it is stated that the French star will receive £2000 (about $15,000) for her appearance in England.

ILLINOIS SETS DATE FOR GOLF TOURNEY

CHICAGO, April 11. (AP)—Although general plans for the regional qualifying rounds for the national open golf championship have not yet been announced, Robert A. Gardner, president of the Chicago district golf association, today set Monday, June 6, at Park Ridge Club, as the date and place for the elimination play in the Illinois region.

Bruin Skaters in 1-to-1 Tie With Senators

OTTAWA, April 11. (AP)—The Ottawa Senators and Boston Bruins battled three regular periods and two overtime sessions to a 1-to-1 tie tonight in the play-off for the National Hockey League championship and the Stanley Cup.

Playing furious hockey, Boston scored in the first and Ottawa in the second period, but tried in vain to pierce a stonewall defense throughout the next three periods.

Tonight's was the second tie in the world-title series. The first game was a scoreless deadlock, the second the Senators won. The fourth game in the scheduled series of five is set down for Wednesday and the fifth for Saturday, both in Ottawa.

Both teams played carefully in the first overtime period. In the second Denneny nearly broke the tie with a fast shot which Winkler failed to see. It just missed the net. Connell made the greatest save of the night when he slid out to stop Frederickson. Forwards of both teams shot high.

First overtime period: No score.
Penalties—None.
Second overtime period: No score.
Penalties—O. Boucher, Herberts.

MAT VICTOR GETS CRACK AT LONDOS

Daro Promises Winner of Draak-Jones Bout Shot at Jimmy

When Tommy Draak, the "Flying Dutchman" from New York, and Paul Jones, the lanky Texan, meet in the all-star wrestling show "Carnation" Lou Daro has scheduled for the Olympic tomorrow night, they will be battling to show the thousands of wrestling fans in Los Angeles that they are ready for a chance at the heavyweight crown which now reposes on Joe Stecher's head.

TOMMY DRAAK

Lou Daro has promised the winner of tomorrow night's match a bout with Jim Londos, the popular Greek grappler, and it appears that both Draak and Jones are just as anxious to get in the ring with Londos as they are to meet Stecher. All of which points to a very lively evening for the heavyweight matmen.

Draak is more experienced in mat affairs than the Texan, and he will employ his knowledge as well as the twenty or more pounds he outweighs Jones to good advantage. The big "Flying Dutchman" is just as good on the mat now as he was when he won second place in the international wrestling tournament at Manhattan shortly after he arrived in this country.

The big fellows will supply only half of the action. Matty Matsuda, world's welterweight champion, and Jack Vargo, the "Austrian Bull" and claimant to the title, who are meeting in a rematch again, should put up a fight which is expected to be every bit as good as the other best two-out-of-three fall, two-hour time limit bout.

Ormand Shoemaker, a 220-pounder from New Mexico, and Marian Zikovitch, will start the night's program with a fifteen-minute special event.

POMONA GOLFERS TO BATTLE POET STARS

POMONA COLLEGE (Claremont) April 11. (Exclusive) — Going up against the league-leading Whittier College sextet, Pomona's varsity golf team plays its third conference match at the Hacienda Country Club Thursday. Whittier pulled a surprise and trimmed Pomona in their first meeting, but if everything goes well, the Sagehens should come out ahead this time. Capt. Dick Armour, Morhardt, Heald, Hair, Neumann and Wurfel will compose the Blue sextet.

HALBRITER'S

THERE MUST BE HARMONY OF COLOR

To achieve perfection in personal attire is a distinction. Harmony of color is the important attribute.

...Halbriter's presents Neckwear, Shirts and Kerchiefs that blend with subtle deftness ...perfection!

HALBRITER'S
MEN'S WEAR
633 South Olive Street

David Belasco, the Dean of the American Theatre

writes:

"The voice is to the actor what the chisel is to the sculptor. He must beware of dulling its qualities. Naturally I am vitally concerned about the voices of my players, so I always advise the one cigarette that I discovered many years ago that does not impair control of the subtlest vocal shadings or cause huskiness or harshness. I mean the 'Lucky Strike.' It is the player's best friend."

David Belasco

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, *and* there is an extra process—"It's toasted"—no harshness, not a bit of bite.

"It's toasted"
Your Throat Protection

When in New York you are cordially invited to see how Lucky Strikes are made at our exhibit, corner Broadway and 45th Street.

Local Schools Have Close Competition for Southland Trackfest Here Next We

ADVANCE DATE OF NET MATCH

Pacific Coast Championships Slated for May

Helen Wills and Other Stars Entered in Play

Move Tourney from Berkeley to San Francisco

For the first time in the Northern California history annals, the annual Pacific Coast tennis championships have been slated for the latter part of May instead of June, according to President Samual Hardy.

Miss Helen Wills, Gerald Stratford, Billy Johnston, Bob Kinsey, Carolina Swartz, Bob Sellers, Cranston Holman and a number of equally as famous and capable tennis stars of the northern tennis section, will be entered in the titular tournament, according to advance information. A group of the leading Southern California tennis stars and title-holders are planning a trip to the scene of the tournament.

Another change in the circles of tennis will be the removal of the annual tournament from the Berkeley Tennis Club to the newly constructed California Tennis Club of San Francisco. Rumors about the Southland from players who have visited the northern club claim the California organization one of the best clubs on the Coast and among the best in the country, with plenty courts for all, wonderful clubrooms and facilities for the members with all the comfort of any home. The tournament has been carded for May 21 and will continue for a bit more than one week until May 31.

KELLY TO GO NORTH

Larry Kelly, Potrero Country Club golf professional, plans to participate in the California open championship at San Francisco this weekend.

GEORGETOWN NINE WINS

WASHINGTON (D. C.) April 11.—Georgetown defeated Yale in an eleven-inning baseball game here today by a score of 8 to 7.

REW, POMONA TRACK LEADER

POMONA COLLEGE (Claremont) April 11.—Willard Rew, star Pomona quarter-miler, was elected captain of the 1928 Pomona varsity track team at a meeting held at the college tonight. Rew won the conference quartre-mile race last year and took third place in the event at the Coliseum this season. Rew will be a senior next year. It was also rumored around the campus that Harold Merritt had been elected to lead the Pomona varsity cage team next season. Merritt is a junior and has starred in basketball and football during the past season.

SAGEHENS TO SAN DIEGO

Pomona Nine Slated to Open Conference Season With Aztec Outfit Next Saturday

POMONA COLLEGE (Claremont) April 11. (Exclusive)—Pomona's varsity baseball team travels to San Diego next Saturday for its opening game of the 1927 Southern Conference season. The Sagehens face San Diego State College, and if all the reports of the Aztecs' strength are true, it's going to be one of the toughest encounters on the whole schedule. Pomona was slated to open against La Verne College two weeks ago, but an important track meet which all the boys wanted to see and the recent spring vacation caused that game to be postponed until late this month.

Coach Earl Merritt has been making the extra time count, and the postponement has probably given Pomona a 50 per cent improvement. Merritt had the whole squad stay in Claremont last week, which was recess from classes, and they played a game every day, sometimes taking on two teams. All the local high school, junior college and professional teams were taken on, and the Sagehens looked good in practically every case.

The climax of the week came last Saturday when the varsity played Fullerton High School for the third time and won, 4 to 3, after a twenty-one-inning, three-hour struggle. The preps had won the two previous encounters.

Although seven letter men returned for the team this year, Merritt has had a tough job working out good combinations in both infield and outfield and isn't entirely satisfied with the line-up yet. Lew Patton, Bruce Wilkins, Ted Shaw and Jake May have been alternating on the mound. Capt. Cass Packard looks to be the catcher. In the infield, Merritt has variously used Harold Merritt, Maisch, Spicer, Munn, Hanson and Manifdi. Just who will start against the Aztecs is unknown. Last year's outfield, composed of Kroeger, Holmes and Dean, hasn't been altered as yet.

ARIZONA AND OXY BASEBALL TEAMS TANGLE HERE TODAY

Arizona's crack baseball squad, and the two-time Southern Conference ball champions of Occidental College, will open their annual two-game ball series this afternoon at Patterson Field. Coach Wilkie Clarke of the home team, will start Bud Teachout in the box with Vic Conde behind the plate, while Ben Tolson, the best of the hurlers at Arizona, will oppose Teachout, with Robert Bailey, receiving.

SOLLY MISHKIN

Coach McKale's Arizona nine is rated one of the best college teams in the country. The Wildcats recently defeated the Western League team, Denver, by a count of 3-1, with Tolson on the mound, allowing but five scattered hits. The only one college ball tilt lost this year was dropped to the Tempe Teachers' nine, but the Wildcats came right back and trimmed this squad in two straight contests. Arizona possesses a group of clever ball players in Capt. Dinty Moore, playing his fourth year at third base; Tolson, who is hurling his second season of ball; Diebold and Lott, both one-year outfielders, and Jacks at second, the best batter of the visitors. The remaining athletes, including Warren, catcher; Miller and Burkle, pitchers; Reid, first baseman; Hamble, Painter and Laudeman, shortstops; Fulton and Discomb, outfielders, all of whom made the trip here for the Oxy games, are playing their first year for Arizona.

The Bengal nine will pin its hopes for victory over the invaders on Capt. Les Haserot, short, and Solly Mishkin, first baseman; Bud Teachout, pitcher, and the two veteran outfielders, Jeff Deaver and Marion Hammersly. Soule, Conde, Godett, Morris and Argue are all veteran members of the Oxy nine and letter men who are among the leaders of the team. Bill Argue, who started the mound work against Redlands last Saturday, will be right on hand for emergency against the visitors as will Mike Hunt and Harris Hitch.

BASS KAYOED BY GLICK IN THIRD

PHILADELPHIA, April 11. (AP)—Joe Glick, New York, knocked out Benny Bass of Philadelphia in the third round of a ten-round bout tonight. A claim of a foul made by Bass's seconds was not allowed by the referee after a physician had examined the fighter. The knockout blow was a right to the stomach. The ending was a surprise as Bass had won the preceding rounds by a wide margin. Glick weighed 129; Bass, 126 3-4.

Frank Weiner, chairman of the State Athletic Commission, declared the Bass-Glick bout "no contest" and said the matter would be taken up at a meeting of the commission on Wednesday. Many ringside spectators asserted that the knockout blow appeared to have been foul.

DAVIES WINS FROM LAMORTE

PITTSBURGH, April 11. (AP)—Willie Davies, Pennsylvania flyweight champion, won the judges' decision over Willie Lamorte of Cleveland, in a hard-fought ten-round bout here tonight. Both weighed 113½ pounds.

GERMAN SWIMMER SETS NEW RECORD

HAMBURG (Germany) April 11. (AP) Otto Kemmerich, German long-distance swimmer, and his pupil, Miss Edith Jensen, yesterday set what are claimed to be world records for non-stop swimming.

Miss Jensen, with 23h. and 30m. in the water, broke the women's record set by the American swimmer, Miss Clarabelle Barrett, at 21h. 33m.

MRS. HAYNES COPS ARIZONA GOLF PRIZE

PHOENIX (Ariz.) April 11. (AP)—Mrs. F. H. Haynes of Phoenix, won the El Molino invitation golf tournament, the outstanding golf event of the season for women of the Southwest, when she defeated Mrs. Warden McArthur, Jr., also of Phoenix, 2 up, after eighteen holes of bitterly contested golf here yesterday.

SWAGGER OVER BARBER'S WIN

PORTERVILLE, April 11.—Tis home-town people are filled with pride over the achievement of Phillip "Jimmie" Barber, son of Dr. S. A. and Mrs. Edith Barber of Porterville, who made history at the University of California on Saturday by defeating Roland Locke, world's champion 220-yard dash man, but are inclined to swagger a bit and say, "I told you so." "Jimmie" stole off for a flying visit to his home town last spring after his spectacular feat at U.C., and the community united in celebrating "Barber's day." Leading refrain of the speakers at the banquet was that soon "Jimmie" would be flying the world colors. These same orators are now disposed to blow a bit and predict even greater honors for this distinguished native son.

MAROONS LOSE TO BLACKHAWK

(Continued from First Page)

Sheppard were all put off the floor at some time of other by Referee Mitchell and the going was hotter than an overheated teakettle during the entire twenty minutes.

By shooting three goals in bewildering succession the Blackhawks took the lead and held it throughout. They did not get going until Scott had increased the Maroon's total on a fine shot after a pass from Sheppard. This goal came after 2 minutes of play.

"Baby" Dye, reputed to be the hardest hitter in the game, uncorked a terrific shot for Chicago's first goal of the period. After 7 minutes 21 seconds of play he received a pass from Fraser and the disk sailed into the net. Once started the Blackhawks were dynamite. With Broadfoot lying flat on his back in front of the net, Fraser took a lightning pass from Mackay and banged the puck home to tie the score at three-all. This shot came after 8 minutes 2 seconds of play.

IRWIN TALLIES

Dick Irwin, one of the real veterans of ice hockey, went into action next, shooting his goal unassisted from the close in after 11 minutes 50 seconds had elapsed. The locals decided it was time for action and Horsfall broke loose to score on a pass from Clark after 13 minutes 50 seconds of play. Hay and MacKay collaborated on the final Blackhawk goal of the period, the former shooting with unerring skill.

During the first half of this stanza the puck was continually in Maroon territory, the visitors displaying chained-lightning offense.

With Trapp and Fraser out on penalties and the Blackhawks playing with four men, Sheppard scored for the local after 13 minutes 50 seconds of play in the final period. McCusker had been stopping shots right and left as the locals drove for victory. After the goal the Hawks played with the puck, holding it while the Maroons tried desperately to get possession of the rubber. Fraser and Trapp came back and then the action picked up again.

One of the features of the game was the big league refereeing of Mitchell.

MAROONS		BLACKHAWKS
Broadfoot	Goal	McCusker
Lord Cook	L. D.	Trapp
Dye	R. D.	Mackay
	C.	Fraser
Leo Cook	L. W.	Hay
Sheppard	R. W.	Irvin
Scott		

SUBSTITUTIONS

Maroons—Clark, Phipps, Horsfall, Joseph.
Blackhawks—Wilson, McVeigh.

GOALS

FIRST PERIOD

1. Maroons—Scott, unassisted, 2m. 12s.
2. Blackhawks—Hay, unassisted, 12m. 50s.

SECOND PERIOD

3. Maroons—Scott from Sheppard, 2m.
4. Blackhawks—Dye from Fraser, 7m. 21s.
5. Blackhawks—Fraser from McKay, 13m. 2s.
6. Blackhawks—Irvin, unassisted, 14m. 50s.
7. Maroons—Horsfall from Clark, 13m. 50s.
8. —Blackhawks—Hay from Mackay, 18m. 37s.

THIRD PERIOD

9. Maroons—Sheppard, unassisted, 12m. 40s.

PENALTIES

First period—Sheppard, Lee York.
Second period—Scott, Wilson, Sheppard.
Third period—Trap, Tex, Josephs, Fraser.

MACK KNOCKS OUT MACK IN RING BOUT

DENVER, April 11. (AP) — Eddie Mack, lightweight champion of the Rocky Mountain region, knocked out Johnny Mack, Los Angeles, in the third round of a four-round bout here tonight.

The card was featured by two two-round exhibition matches featuring Gene Tunney, heavyweight champion. He boxed a pair of rounds with Eddie Egan, Denver, amateur ring champion, and Frank Muskie, his sparring partner.

JOHNNY MYERS IN WIN OVER LOGAS

CHICAGO, April 11. (AP)—Johnny Meyers, world's middleweight wrestling champion, tonight defeated Jimmy Logas of Chicago in two straight falls. Logas conceded the first fall in one hour and four minutes. The second fall came in two minutes and three seconds.

RACING BILL KILLED

DENVER, April 11. (AP)—The horse-racing bill, which would legalize parimutuel betting in Colorado, was definitely killed for this session of the State Legislature tonight, when the Senate Stock Committee by a vote of 5 to 3 refused to bring the measure before the Senate for a vote. The bill passed the House several weeks ago, but has been kept in the Senate committee.

DUNDEE STOPS RUSSELL

BALTIMORE, April 11. (AP)—Vince Dundee, local welterweight, scored a technical knockout over George Russell of Philadelphia, in the third round of a ten-round bout here tonight.

KNAPP DEFEATS SANDERS

CHICAGO, April 11. (AP)—Art Knapp, Toledo, 138 pounds, defeated Tony Sanders, Chicago, 138 pounds, in ten rounds here tonight. Babe Ruth, Louisville featherweight, defeated Joey Thomas, Chicago, in six rounds.

RYAN WHIPS "SHUFFLES"

CINCINNATI, April 11. (AP)—Billy Ryan, Cincinnati middleweight, won a decision over "Shuffles" Eugene Callahan, Chicago, here tonight in a ten-round bout. Ryan was fouled in the eighth round, but after a rest continued with the fight.

HOLLYWOODERS IN TOUGH SPOT

Glendale's Sprinters Shut Out Foothillers

Arthur to Face Ritchey and Welsh Over Hurdles

Venice Uncovers New High Jump Star in Agnew

Going by the performances of Southland prep athletes outside of the City League schools, Hollywood, L. A. High and Polytechnic are likely to find the annual Southern California C.I.F. trackfest tough sledding. The five athletes who placed in each event in the city meet last Saturday will be eligible to compete in the trials at the Coliseum on the 29rd inst.; the finals will be staged a week later, and the State meet at Modesto, May 6.

ALLAN STORMS

Coach Bill Paige's Hollywood champions appear to be harder hit than the other two city schools, which have an outside chance to win the Southern California title. A large slice of Hollywood's strength is in the sprints, high hurdles, and high jump, and those are the events in which the competition is closest.

Allen Kelly and Wayne Elwood, Foothiller sprinters, will be lucky to get a fifth place in competition with Glendale's trio of Wykoff, Slocum and Zahn, not to mention Bear of Santa Ana, who ran a dead tie with Wykoff in the Coast meet at twenty-two seconds flat. Sandy Wehner of Brawley, Frank Lombardi, Roman star; Phil Pearson of Belmont and Freehoff's team of Schnelle, Neville and Lowenstein.

Howard Arthur won the high hurdles in the city meet, running in sixteen seconds, but that time will hardly place him against Ritchey of San Diego, Welsh of Pasadena, and one or two others who have been credited with 15.4s. and better. Arthur's best time this season is 15.9s., and he may be able to get down under that by the Southern California clash.

The high jump is no cinch for Arthur and his team-mate, Osborne Ofstad, with a new star springing up in Agnew of Venice, who jumped 6ft. 1-16in. to beat Van Cadel of Compton. With the new standards, Ofstad could get no better than a tie with Schoenberger of Poly at 5ft. 10 3-4in., while Arthur, who has jumped 6ft. 2in., had to be content with a third place.

Steeds Tuning Up for Derby at Louisville

LOUISVILLE (Ky.) April 11. (AP)—Osmand, big chestnut gelding of Joseph E. Widener's stable, favorite at the moment to win the Kentucky Derby, galloped a half-mile in :49 1-5 at Churchill Downs today. He was exercised by Maivin Thompson. The track was in poor condition. Five and four-fifths seconds longer were required for Kiev, the other Widener Derby aspirant, to cover the same distance. Ray Yelton was in the saddle.

War Eagle, owned by E. B. McLean, was clocked at 1:17 at the end of three-quarters of a mile. Jockey Nick Huff had the mount.

Caddy Blackbird, H. Teller Archibald's candidate for the classic, galloped three-eighths of a mile in :39.

LA BARBA EASY VICTOR IN BOUT

(Continued from First Page)

referee, but patted La Barba on the back at the end of the round.

In the sixth Monty took some severe punishment and once looked as though his finish had come. The eighth round was considerably slower and was marked by much clinching. In the ninth Montreal connected with La Barba's right eye and partially closed it but this did not noticeably slow down the champion. Monty tried hard to come back in the tenth but the younger boy was too much for him.

Of the ten rounds eight went to La Barba and the eighth and ninth were about even.

GIANTS PAY SOCIAL VISIT TO SOLDIERS

WEST POINT (N. Y.) April 11. (AP) The visit of the New York Giants to the Military Academy today was more of a social than technical baseball success. After lunching with the cadet corps, the big leaguers took the army ball team out on the diamond and walloped them, 19 to 6. The Giants used most of the regulars. The game ended with the eighth inning, the Giants having to catch a train for Philadelphia and the opening game of the season tomorrow.

At West Point:										
New York (N.)	0	3	1	0	1	0	1	4	9—19	26	0
Military Academy	1	0	0	0	0	0	0	5— 6	7	0

Batteries—Hoyt and Cummings; Evans, Herndon, Beauchamp and Carson, Schorr.
(Called end eighth to allow Giants catch train.)

PHIL McGRAW IN EASY RING VICTORY

NEW YORK, April 11. (AP)—Phil McGraw of Detroit had things all his own way in a ten-round bout tonight with Charley Manty of New Bedford, Mass. McGraw won all the way and scored a knockdown in the fourth. The winner weighed 133 and Manty 133½.

LONDOS FLOPS STEELE

NEW YORK, April 11.—Jim Londos, known as the Greek idol to wrestling fans, defeated Ray Steele of the Pacific Coast at the Seventy-first Regiment armory tonight. Londos threw Steele in 36m. 41s. with four flying mares.

ROSENBLOOM WINS BOUT

BUFFALO (N. Y.) April 11. (AP)—Maxie Rosenbloom, 167 1-2 of New York, won the decision over Frankie Schoell, 181, of Buffalo, after a vicious fifteen-round battle here tonight.

Promoter in Plan to Halt Sharkey Bout

NEW YORK, April 11.—Tex Rickard, who probably holds some sort of record for court attendance, may get an opportunity to improve that record when he returns from his vacation one week hence.

Walter Taylor, Cleveland fight promoter, who had Jimmy Maloney signed to fight Johnny Risko in the Midwest before Rickard signed Shamus to box Jack Delaney and then waived all rights to the bout in order to give Tex's masterpiece the right of way, came to town today, accompanied by a lawyer, Joseph Mullen, with the avowed intention of seeking an injunction to prevent the Maloney-Sharkey fight on May 19 at the Yankee stadium.

BEAR CREW DEFERS SELECTING CAPTAIN

BERKELEY, April 11. (Exclusive) At a special gathering of University of California crew men this evening it was decided that an honorary captain will not be elected until after the Poughkeepsie regatta. It was thought that the interests of California rowing could best be served by finishing the active season without a captain. Definite word as to the cruise east is yet to come from the student body executive committee.

BEARS WIN OVER U.S. RACKETE

California Tennis Beats Trojans Four Six Matches

BERKELEY, April 11. (The University of California varsity tennis team defeated California's racket men in four six matches this afternoon on the local courts.

Capt. Tom Stow started the parade by defeating Wilson in the singles, after which Risso beat Palmer, 6-4, 6-4, downed Wilson, 6-2, 6-1, and won from Burke of Coast, 6-2. In the doubles Risso won from Hardy and Wilson, 6-4. Stow paired with Risso Palmer and Miller, 6-4, 6-4.

STECHER THROWS WLADEK ZBY

NEW YORK, April 11. (AP) Stecher, heavyweight wrestler, feasted Wladek Zbyszko last night with a fall after 44m. 49s. of pyling. Eight thousand fans saw the bout at the Seventy-first Regiment Armory.

WESTERN LINES' HANDICAP CITED

Testimony Given at Hearing on Rates Increase Plea

Lack of Confidence in Their Securities Asserted

Tables Introduced to Show Investment Status

KANSAS CITY, April 11. (AP)—Testimony designed to show a lack of confidence in the securities of the western trunk line railroads by five large insurance companies, was given at the commission hearing on the plea of the railroads asking for other rate increases for increased class rates. The testimony was given by Fairfax B. Dick, partner of Roosevelt & Co., investment bankers of New York. He testified for the security analysis committee.

Dick said the "big five" insurance companies, the Metropolitan, Prudential, New York Life, Equitable and Mutual, were one of the most important factors in investment buying in the country.

Tables were introduced which, Dick said, plainly revealed to him that the insurance companies were not investing as much money in western trunk line railroads as in other parts of the country because of lack of confidence in the roads.

Attorneys asked Dick by opponents of the rate increases indicated they were attempt to show on cross-examination that the western trunk line railroads had not needed any extra refinancing in the period covered by Dick's tables and that the tables were not representative of the conditions. They will maintain, it is indicated, that the insurance companies had invested in other sections of the country because other sections had issued more securities.

Dick testified that there had been greater improvement on all other railroads in the United States in business than the western trunk line territory. He testified the western trunk line group had increased only from 79 per cent to 79.6 between 1923 and 1926, while eight railroads in the southwest had increased from 179 per cent to 181 per cent and roads in the South had increased from 181 per cent to 185 per

"We must have a speedier bat" said the world's crack players

"A RACKET has got to be constructed along different lines. No bat today is fast enough for the game". That is what champions said. That is why a group of world famous stars asked Spalding to make a faster racket—one suited to the modern, lightning-fast, all-court game.

Spalding set out to make such a racket, and asked those stars for their suggestions. 500 experimental bats passed through their hands before one received their unanimous approval. But the 501st bat got it! That bat we named "Top-Flite". It was played by the winners, both men and women, in many of last year's important tournaments.

That bat is now ready for you. Lighter head—got it perfect balance. Smaller head, which permits tighter stringing. Kro-Bat construction, to give it strength for many months of hard playings. Open throat, which gives it a new, delightful flexibility. There is a Top-Flite here which will suit you exactly. Come in and find it. Price $15.

A. G. Spalding & Bros.

SEE Scotland first

The Magic Word for Travel

From Paris to Samarkand, from Egypt to Bombay: travel thrills, I've had them all!

So now this year I'm not surprised to learn that Scotland is the magic word to those who are in the travel-know.

Scotland—with its legends of rugged charm—still full of the flavor of medieval gallantry.

Jolly, isn't it, to see legend turned into fact; to find chivalry in the rich words of those who serve you?

And this during the crossing, mind you, before you set foot on Scottish soil—aboard wonderful new ships and in an atmosphere as thoroughly friendly as the Scotland you're anticipating. It costs less, too!

BEARS WIN OVER U.S.C. RACKETERS

California Tennis Squad Beats Trojans Five Out of Six Matches

BERKELEY, April 11. (Exclusive)—The University of Southern California varsity tennis team fell before California's racket men in five out of six matches this afternoon at the local courts.

Capt. Tom Stow started the parade by defeating Wilson, 6-3, 6-4, in the singles, other results: Risso beat Falkner, 7-5, 6-2; Stow downed Wilson, 6-7, 6-1, 6-4; Risso won from Burke of California, 6-4, 6-2. In the doubles Risso and Stow won from Hardy and Wilson, 6-3, 6-4. Stow paired with Hoops to defeat Falkner and Miller, 6-4, 7-5.

STECHER THROWS WLADEK ZBYSZKO

NEW YORK, April 11. (Associated Press.)—Joe Stecher, heavyweight wrestling champion, defeated Wladek Zbyszko here tonight with a fall after 44m. 57s. of grappling. Eight thousand persons saw the bout at the Seventy-first Regiment Armory.

WESTERN LINES' HANDICAP CITED

Testimony Given at Hearing on Rates Increase Plea

Lack of Confidence in Their Securities Asserted

Data Introduced to Show Investment Status

SALT LAKE CITY, April 11. (AP)—Testimony designed to show a lack of confidence in the securities of the western trunk line railroads by five insurance companies, was given today bearing on the plea of the railroads for an increase in the rates for transcontinental class rates. The testimony was given by Fairfax Pratt, partner of Roosevelt & Son, investment bankers of New York, qualified for the security committee.

Pratt said the "big five" insurance companies, the Metropolitan, Prudential, the Title Life, Equitable and Mutual, were one of the most important buyers of investment bonds in the country.

Exhibits were introduced which, Dick Pratt readily revealed to him that the railroad securities were not investment money in overlaps trunk railroads as in other parts of the country because of lack of confidence in the roads.

Questions asked Dick by opponents of the railroads indicated they intended to prove on cross-examination that the western trunk railroads had not needed any extraordinary increase in the period covered by the tables and that the roads were not representative of the entire west. They will maintain, it is understood, that the insurance companies had invested in other parts of the country because the western roads had refused more money.

Pratt stated that there had been a heavy investment on all other railroads in the United States in business and that the western trunk line territory had increased only from 79.6 per cent to 79.6 between 1923 and 1926, while eight railroads in the east had increased from 151 per cent to 151 per cent and railroads in the South had increased from 151 per cent to 185 per

BRITAIN FACES NEW TAXES

Churchill Offers Proposals to Meet Deficit Caused by $4,090,000,000 Budget

LONDON, April 11. (Exclusive)—Winston Churchill, Chancellor of the British Exchequer, walked democratically into the House of Commons this afternoon and introduced his budget, revealing a deficit of approximately $110,000,000. In a two hours' speech, Mr. Churchill explained how the strikes, the troubles in China, and the American war debt caused the deficit and then elucidated an ingenious new taxation scheme to meet it.

Mr. Churchill's pep and picturesque language gave interest to his dry figures when he tackled the ticklish problem of explaining to the political opposition why the Conservative party budget this year exceeds the last Labor party budget by $200,000,000, and also how to placate the economy howlers and announce new taxes, which would not make trade panicky and taxpayers groan.

NEW PROPOSALS

The Chancellor succeeded cleverly. His figures showed an estimated expenditure of $4,090,000,000, against $3,980,000,000 revenue. Mr. Churchill said the $200,000,000 excess over the Labor regime budget of $5,690,000,000 meant war-debt payments.

To meet the present deficit, Mr. Churchill proposed:

(1.) The abolition of the Ministry of Transport, the Ministry of Mines and the Ministry of Overseas Trade.

(2.) Restricting the personnel of the Civil Service.

(3.) Drastic measures to check the surtax evasion caused by taxpayers absconding to channel islands and big landowners incorporating the isles as companies.

(4.) Applying the McKenna scheme of key industry duties on rubber tires, from which he hopes to get $5,500,000 extra from American and French tire exporters.

TAX ON WINES

(5.) Raising the tax on French wines and port from 6 shillings ($1.50) to 8 shillings, ($2) a gallon and an increase in the tobacco tax, taxing celluloid films and shortening the brewers' credit on bonded liquor from two to one month.

Mr. Churchill announced that Great Britain has paid the United States $810,000,000 on the war debt in the last five years and also all the Allies had begun to pay up Great Britain in the war debts except Jugo-Slavia and Russia.

David Lloyd George and Philip Snowden began an immediate attack against Conservative extravagance.

BABE RUTH DEFEATED

NEW YORK, April 11. (AP)—Murray Elkins of the New York East Side, won a decision over Babe Ruth, Philadelphia, in a slow ten-round bout tonight. Elkins weighed 136 1-2 and Ruth 135 1-2.

Earl Carroll in Mercy Plea to Escape Cell

WASHINGTON, April 11. (AP)—Earl Carroll, theatrical producer, who has been sentenced to the Atlanta penitentiary for perjury in connection with grand jury testimony regarding his bathtub party, filed application today with the Department of Justice for executive clemency.

Carroll came to Washington to present his application and also to request a stay of execution. He was told that the Federal judge in New York who sentenced him was the one to whom he should appeal for a stay of execution and late in the day he left for New York City.

It had been expected that Carroll would surrender in New York tomorrow for the carrying out of his sentence. Carroll said he wanted a stay of execution, pending an investigation of his case.

MRS. TOM MIX HOME FOLLOWING OPERATION

Mrs. Tom Mix, wife of the film actor, yesterday was removed to her home from the California Lutheran Hospital, where she underwent an operation for appendicitis, performed by Dr. E. C. Moore. It was stated she is convalescing rapidly.

CONGRESSIONAL TOUR OF YOSEMITE ENDED

YOSEMITE, April 11. (AP) — Under direction of Representatives Carter of Oakland and Lea of Santa Rosa, a party of twelve Representatives and Senator Wheeler of Montana concluded an official investigation of Yosemite National Park today. Supt. W. B. Lewis of Yosemite was host.

Mrs. Carrington Admits Kissing Brother-in-Law

CHICAGO, April 11. (AP)—Mrs. Anne Walsh Carrington testified today that she kissed her brother-in-law, Campbell Carrington, just once. She told of the incident when cross-examined in the divorce suit in which Col. Edward C. Carrington named his brother as co-respondent. Mrs. Carrington also asks for divorce.

When asked if she ever had kissed Campbell, who is here ready to testify voluntarily in behalf of his sister-in-law, Mrs. Carrington at first said "no." Then she amended:

"Oh, yes, I did. I must be accurate about this."

She then said that once, when the colonel was asleep and Campbell was sitting in the next room, she tiptoed out and kissed Campbell on the top of his bald head.

It was merely a harmless and impulsive act, she said.

Gen. Wood's Car Struck by Hurled Stone

MANILA, April 11. (AP)—The official car of Gov.-Gen. Wood had its windshield smashed by a stone thrown from the highway last night while it was moving swiftly through the village of Pangasinan, on the main road from Baguio to Manila. Gov.-Gen. Wood was not in the car.

No one was injured. The car was occupied by C. W. Franks, private secretary to the Governor-General and a native chauffeur. Franks was returning from Baguio to Manila after a week-end conference with Wood. An investigation is under way.

Train Saved as Mexico Bandits Tear Up Tracks

MEXICO CITY, April 11. (AP)—Bandits tore up the railway tracks and destroyed a bridge on the Mexico City-Guadalajara line.

The destruction took place just before the arrival of a passenger train. The train stopped in time, however, and its military guard pursued and routed the outlaws.

NOTICIAS MUNDIALES DE ULTIMA HORA

Tres veces por semana se insertará una lección práctica elemental de castellano, y los lunes encontrará el lector dos lecciones para estudiantes adelantados.

A cuantos deseen aumentar sus conocimientos de español les conviene leer esta columna todos los días.

NOTAS TELEGRAFICAS

Jefe de Aviación Volará Hacia Esta Costa

WASHINGTON, Abril 11.—Uno de los aeroplanos de tres motores pertenecientes al Ejército será empleado por el subsecretario de la Guerra, señor Davidson, encargado de la sección de aviación, para hacer un viaje a California a fines de Mayo con el objeto de inspeccionar las estaciones de aviación del Ejército en aquel Estado. Siendo él mismo piloto, el Secretario de Aviación compartirá la dirección del aparato con el teniente Lester J. Maitland. Le acompañarán en su viaje el brigadier general William E. Gillmore, del Servicio Aéreo; Porter Adams, presidente de la Asociación Aeronáutica Nacional; y H. J. Adamson, ayudante civil de Davidson. El vuelo comensará el 4 de Mayo, cuando el grupo partirá para San Antonio (Tejas) con el fin de presenciar las maniobras unidas de infantería y aeroplanos.

Barthelmess Luchará por Quedarse con su Hija

TACOMA, Abril 11.—Las noticias del casamiento de Mary Hay, ex-esposa de Richard Barthelmess, con Vivian Bath le llegó hoy aquí de sopetón a Barthelmess. Este se halla actualmente en el Campamento Lewis, puesto militar cercano a Tacoma, donde está trabajando en la "filmación" de una película de la guerra. Barthelmess declaró que acababa de enterarse de la boda por conducto de la Prensa Asociada, y que, si las noticias eran ciertas, le desea a su ex-esposa toda la dicha del mundo. En cuanto a la niña, ha estado con él por más de un año, está seguro de que le convendrá a ella más quedarse en California que irse a Singapore.

Gómez le Disputará la Presidencia a Obregón

CIUDAD DE MEJICO, Abril 11.—Los periódicos locales publican hoy la noticia, de fuente autorizada, de que el general Arnulfo R. Gómez, jefe de las operaciones militares en el Estado de Veracruz, presentará la dimisión el día primero de Mayo a fin de dedicarse a la política. Esto significa que el general Gómes piensa presentarse como candidato a presidente, instado por el partido antireeleccionista. El general Obregón, que va a ser contrincante del general Gómez, se mantiene en silencio. Otros jefes militares también se dice que piensan retirarse el 1o. de Mayo para dedicarse a la política, la cual se está aproximando a un punto crítico.

El Humo Asfixia a un Niño

FLAGSTAFF (Arizona) Abril 11.—Un niño de 2 años de edad, hijo de John Melon, halló hoy la muerte en condiciones inusitadas, puesto que fué asfixiado por el humo que entraba por una ventana y que procedía del incendio de una casa situada a varios cientos de yardas de distancia. El cuerpo del niño fué hallado debajo de una cama lo menos dos horas después de su muerte.

NOTAS LOCALES

El Pleito de los Andrades se Aproxima a su Fin

El pleito de Helen Louise Andrade contra Alfred F. Andrade pidiendo la separación entró ayer en su fase final al iniciar los alegatos los abogados de la quejosa. Se espera que el caso sea sometido al Juez Superior Valentine hoy, después de oírse los argumentos de la otra parte.

Un Coleccionista Trae Dos Violines Antiguos

Durante los cincuenta años que lleva coleccionando antigüedades—especialmente, violines—Harry Dykes, de Londres, ha visto subir el valor de algunas de sus prendas nada menos que quinientos por ciento, según declaró ayer en el Biltmore. Dykes ha llegado a Los Angeles con dos viejos violines italianos que están valuados en $7500 cada uno. Uno de ellos, hecho en 1670 por Francesco Ruggeri, y el otro en 1690 por Joannes Baptiste Rogerious.

Una Explosión en la Playa Hiere a Cinco

Estando ayer un cómico de la pantalla en la playa de Venice, sentado en un carro de esos en que se hacen las paloмillas de maíz y hallándose el encargado de la cámara cinematográfica apoyado en el mostrador de vidrio y charlando con el primero, la calderita del carro hizo explosión hiriendo a cinco circunstantes, a uno de ellos gravemente. El actor resultó ileso, y el encargado de la cámara, ligeramente herido, debido a que la caldera reventó por el lado opuesto a donde ellos estaban. Pedazos de vidrio y de metal fueron arrojados a una distancia de 300 pies. El cómico se llama Harry Martelle, y el fotógrafo, William Heyer.

Charlas Infantiles para Chiquillos de Escuela

Número 325

Abraham dirigió a él la mirada al tiempo que corría al manantial (Abraham looked toward it as he ran down to the spring) y pensó en que tan luego como volviera a al choza, su padre le diría (and thought that as soon as he got down into the cabin, his father would say), "Bueno, hijo, parece que tenemos que cortar una poca de leña" ("Well, son, I guess we'll get to chopping a bit").

Por fortuna que a Abraham le gustaba hachear (Fortunately, Abraham liked to chop). Sería de creer que, teniendo tanto trabajo de esa clase, y sabiendo que tenía PRECISION de hacerlo, le hubiera cansado ya (You might almost think that when he had so much of it, and when he knew he HAD to do it, that he would be tired of it).

Club Formed to Boost Lowden for President

MERCED, April 11. (AP)—Organization of the first Lowden-for-President club of the Pacific Coast was announced here today to Senator Wheeler of Montana and a group of Congressmen at a luncheon on their return to their homes from a visit to Yosemite Valley.

The luncheon was given by the Merced Chamber of Commerce.

"Republicans of Merced county already are united in support of Frank L. Lowden for the Republican nomination for President in 1928," declared A. R. Linn, manager of the Merced County Chamber of Commerce, in making the announcement.

W. L. White, general manager of the Yosemite Valley Railroad, was named president of the Lowden organization, which immediate steps for a State-wide organization. Carl Wagner, assistant manager of the Bank of Italy here, was named vice-president and William J. Grady, assessor of the Merced Irrigation District and a director of the Merced County Farm Bureau Federation, was named secretary.

WIDELY KNOWN DIVINE DIES IN PHILADELPHIA

PHILADELPHIA, April 11. (AP)—Rev. Dr. James De Wolf Perry, widely-known clergyman in the Protestant Episcopal church and father of the bishop of Rhode Island, died today after a long illness. He was 80 years of age. He was rector of Calvary Church here for forty years and had been rector emeritus since 1907.

POOR VISION!

YOUR EYES EXAMINED GLASSES COMPLETE **$3.15**

All this week, an Examination of your Eyes, a pair of *spherical* glasses, *in a frame*, complete for $3.15.

Gold or Shell Frames, Toricx, Cylindrical, fancy shapes and double vision glasses correspondingly low.

Correctly Fitting the Eye is worth more to You than the Price of a Dozen pair of Glasses. Buy Skill, Ability and Experience Combined with Correctly Ground Lenses and Protect your Eyes for the Future. You can not Afford Anything but the Best for Your Eyes.

Properly fitting the Eye is the First Essential. Good Glasses are not a Luxury, they are a Necessity and properly fitting the Eye calls for some brain sweat.

My method of Properly Fitting the Eyes is So Easy and Scientific.

I try to be reasonable in my charges. No "drops" used. Some of your neighbors are wearing glasses I fitted.

Court Accepts Identification of Hillegass Body

OAKLAND, April 11. (AP)—The Superior Court today ruled that the body brought here from a pauper's grave at Utica, N. Y., had been identified as that of Dr. George W. Hillegass, heir to an $85,000 estate here, and granted letters of administration to William F. Hillegass of San Francisco, the physician's brother.

Dr. Hillegass disappeared in 1913, and searchers discovered that he died in abject poverty, although after he left here he inherited property from an aunt, Elmira Boulesta, and from his two sisters, Norma and Elmira Hillegass. The search for his body was started by attorneys for the physician's heirs, who were convinced that the doctor was dead, but required proof in order to settle up the estate.

After discovery of the body which the court accepted as that of Dr. Hillegass, controversy arose regarding proofs of identity. The body was brought here, however, and interred as that of the missing physician.

Evangelicals' Church Merger Found Binding

PHILADELPHIA, April 11. (AP)—The Pennsylvania Supreme Court today decided that the recent merger of the United Evangelical Church and the Evangelical Association was legal. The decision reverses the Lebanon County Court, which had decided the merger invalid as affecting the East Pennsylvania conference.

The case before the court involved control of Albright College at Myerstown, Pa., but the decision may affect the control of many churches affected by the merger.

After consolidation the the mergerites named six trustees to the board. Court action taken by the antimergerites resulted in their being ousted by a decision by Judge Henry of Lebanon County Court.

Mystery Wreck Floating in Sea Told by Radio

SAN FRANCISCO, April 11. (AP)—Signs of a sea disaster were made known here today with receipt of a radio from Capt. John I. Flynn, aboard the United States Shipping Board vessel Ekridge.

The Ekridge located a half-submerged steamer or motor ship, 170 feet long, with mast showing and part of the bridge visible, about 500 miles north and northwest of Honolulu. The name of the derelict could not be ascertained.

Loan Made to Poor Children Facing Hunger

WASHINGTON, April 11. (AP)—Four public-spirited citizens have advanced $10,000 apiece to care for 468 poor children, wards of the District of Columbia, who were threatened with starvation as a result of the Senate filibuster preventing passage of the second deficiency appropriation bill. The loans will not bear interest.

Those lending the money are Mrs. Anne Archbold, John Hays Hammond, John Joy Edson and Frank J. Hogan.

FUNDING MOVE PRAISED

NEW YORK, April 11. (AP)—Uncle Sam should be characterized in Europe as "shy," instead of "Shylock," in the opinion of Richard Washburn Child as given to Collier's. He writes that funding agreements have relieved debtor nations to an extent unprecedented in international finance.

Now he sleeps well too—with Thompson's Chocolate Malted Milk

at home . . . hot or cold

"The big baby . . . who happens to be the father of my children is hardest to manage. The children loved their Thompson's Chocolate Malted Milk right from the start. And when I gave them their glassful before going to bed, they went to sleep in an instant with a smile still on their faces. But the other baby, my husband, couldn't imagine that anything so mild could be so good. So for a long time he continued to carry his troubles to bed and moan and toss all night. Now at last, I've got him drinking Thompson's. We all seem to have twice as much energy by day, because our sleep is twice as restful by night."

* * * *

If you want to have a changed family, just give them all a glass of Thompson's Chocolate Malted Milk at home before going to bed.

Thompson's and only Thompson's is made by a secret process that makes your sleep more restful when you drink it at night and gives you more energy when you drink it in the day.

And the reason is so simple. By this secret process the enzymes are not killed but the activity of the enzymes helps digest other food in the stomach. Your energy by day and rest at night depend upon how easily your food is digested.

And Everybody Loves

Now that you can make Thompson's Chocolate Malted Milk at home, you are going to know how good it is on the way to the stomach as well as how easy it is to the palate. Because in this new way Thompson's only costs you 6c a pound and you can get 60 drinks to the pound. Isn't really wonderful! Thirty "professional" chocolate malted milks for 60 cents.

At any grocer or druggist—or mail coupon today for 3-day trial package

Bank by Mail!

A suggestion particularly to business and professional men and women of Los Angeles who are located away from the downtown business section

Are you interrupting your work, perhaps at a most inconvenient time, in order to take your deposits to the bank? Are you driving a long distance, through heavy traffic, with the nuisance and expense of parking and other delays, in order to bank in person?

All this can be avoided, particularly when your deposits are mostly checks. You can enjoy the full benefits of this bank's service *without leaving your office* or your home—through the simple device of BANKING BY MAIL.

We furnish you a rubber stamp and ink pad for the endorsement of checks, a supply of deposit slips and of stamped envelopes addressed to the bank. Making a deposit then becomes this simple procedure:

1. *Endorse each check with a single stroke of the rubber stamp.*
2. *List the checks on a deposit slip.*
3. *Place checks and deposit slip into one of the stamped, self-addressed envelopes provided.*
4. *Drop into the nearest mail box.*

The bank returns a duplicate deposit slip to you by return mail and at the end of the month sends you a statement showing all deposits, withdrawals and the balance to your credit.

In this manner you secure the Farmers and Merchants National Bank, the oldest and largest unit bank in Southern California, as your banking connection. And you command the same friendly service as those who bank here in person.

Try banking by mail with us and see how satisfactorily it works. Simply sign your name and address below, cut out and mail this advertisement, and we will get in touch with you at once!

"Times" Daily Short Story

RED BEARD - - - *By Fannie Hurst*

EVERY late afternoon when the children clamored about the knees of the "padrone" as he sat in his garden just outside of Florence and demanded in their shrill Italian voices to know WHY he wore the great red beard, the master of the villa, with young eyes showing above the chest-deep beard, answered them something like this:

"Fie fie foe fum, so I can keep my shirt front warm." Or: "Fie fie foe fum, so I can hide behind myself."

And every time he answered the clamoring children, old black Mammy, who was usually hovering somewhere about him, wiped her eyes with the tip edge of the bandanna kerchief she wore about her head.

Mammy knew why Padrone at the age of thirty-three had worn the long red beard for these many years! Mammy knew and while she kept the secret for him, her heart broke with it, every time she heard the clamoring children.

When Nella was seventeen she was as pale as one of the magnolias that grew outside her window.

There was a reason for the long red beard of the padrone in the Italian garden. A reason only he and Mammy knew. "Grow great big long red beard—and don't let them—" These words, that only he and Mammy had heard.

Most of the beaux in the Virginia town her beauty graced were writing her verses before she was fifteen, and at seventeen she had returned three engagement rings. A Helen of Men's Destinies if ever there was one. And she knew it and in her adorable drawling southern way wielded her scepter.

At this moment of the perfect beauty of her seventeen years, a young playwright named Alden Browne, who at twenty-one had already the record of three Broadway successes to his credit, came to the sleepy old town to gather local color for a comedy he was writing.

He bore the earmarks of his success only in a certain assurance of manner and the rather elusive quality of a man who knows the trials as well as the rewards of being sought after.

It was reported about town three days after his arrival that the tall dark girl at the same hotel, with her aunt, her chauffeur and two maids, was there simply because he was there.

Be that as it may, four days after his arrival, he met Nella flaunters at the home of a woman novelist renowned for her colonial furniture and her stories of the South. There was a whirlwind courtship. Alden Browne, forty times in love before, for the first time in his life knew the genuine flaming ardor of the actual paedon.

It was a fierce and stormy courtship. Tales of Alden's philanderings his wootings and his pursuings, to say nothing of his being pursued, followed his advent into the sleepy old town.

Nella's own record for the quick and easy flare of the grand passion was scarcely secret.

They met. They flared into instant ardor. They drew apart doubting. They fought the overwhelming reality of the thing that had them in its clutch. They were like two frightened, high-bred race horses, evenly matched.

"I adore you," she told him the night they finally pledged themselves to one another, "and I will never, never let you go."

"If you do," he cried, melodramatically on fire with his ardor, "I'll kill you."

They were married. The popular and successful young playwright and the southern girl with the triple talents of beauty, wit and wealth.

"I want to live with you for one year on a Florentine garden with nightingales at evening and the bluest skies in the world by day. Where I can have you all to myself. Away from the prying women who write you fan-notes. Mine. Mine own."

"I want to live with you for one year in a Florentine garden," he paraphrased her fiercely. "Alone. Where I can crush your eyes with my kisses through perfect Italian days and where our nights shall be close, burning, Mediterranean ones."

And so, two young flames, there was the villa in Florence and, except for the old Mammy who had never been from her side since the day her mother placed the infant Nella in her arms, there were new scenes, new servants, new faces. A new world that buried them luxuriously in anonimity.

Five incredible months of the rich ardor of their honeymoon. The pale, curious quality of her beauty became with him almost an obsession. She was like any rare object of art to him that crowded the museums of the city of Florence. A thing of radiance. Of precious and intense and special loveliness. He was frankly pagan in his adoration.

And she was like a young cat suddenly sprung into the full radiance of maturity. The kittenish qualities that had made her adorable at seventeen suddenly became richer, slower, more luscious. She possessed him completely.

And, to him, the overwhelming joy of what had come to him lay in being possessed.

One night in the garden, beside a pool that reflected stars, she held up a forearm with a bruised and injured look.

"Something naughty bit Nella," she said. "All big and hot and swelly. Kiss."

He crushed it with his kisses. He caught her to him and crushed her eyes with more kisses, and then baby-fashion he carried her to the villa and had Mammy wash her lovely column of arm, with the red swollen place, in eau de cologne, and then he carried her to the garden again and curled up at her feet and blessed the silence that contained her.

The "something naughty" that had bitten Nella developed the day following into a case of swelling that three important local doctors were unable to diagnose. Something poisonous without a doubt, but with a racing quality that puzzled them. Six hours later, the entire arm was swollen twice its size.

Strange, but from the first Nella knew.

"It's been too perfect, Alden," she said. "All things headed for complete perfection are doomed to stop just this side of it. I'm going, sweetheart."

"If you talk like that," he said and crushed his mouth against the side of the bed to keep from moaning, "I'll go mad."

"Bad darling," she said—"Nella can't bear it. To leave you. To leave you. To leave you to all the others, who'll devour you. Bad darling. Don't let them. Keep yourself for me. Grow great big long red beard and don't let them near you—oh, my darling . . ."

On those actual words, with Alden on his knees, and Mammy standing with her heart as frozen as her poor black face, she died.

That is why, every time he answered the clamoring children, old back Mammy, who was usually hovering about him somewhere, wiped her eyes.

FREE CLASSES
in Cooking and
Household Economics

MRS. A. L. WYMAN, conductor of the "Tomorrow's Menu and Practical Recipes" column of The Times will conduct free classes and demonstrations of good cookery and household economics, beginning Friday, April 15, in the lecture room of the Southern California Manufacturers' Exhibit. Mrs. Wyman, widow of the late Chef Wyman, is herself one of the country's noted culinary experts and will give this course in practical cooking through the courtesy of the Los Angeles Times. Demonstrations are to be held at regular intervals to be announced later. There are no charges or obligations whatever.

Time: (First Class) Friday, April 15. From 2 to 4 p.m.

Place: Lecture Room of the Southern California Manufacturers' Exhibit, 130 South Broadway, Los Angeles.

MAYOR'S SILK HAT DOFFED FOR POLICEMAN'S BLUE UNIFORM

LOWELL (Mass.) April 11. (AP)—The goddess of fortune operates a political Ferris wheel here with policemen and mayors as preferred passengers.

John J. Donovan, the most recent policeman-Mayor, is back in blue uniform after attending the inaugural of his successor in silk hat and frock coat. George E. Brown, who originated the fad of policemen-mayors, is seeking his old job on the force after an absence of seventeen years.

Brown quit his job in 1909 to run for Mayor. He proved to be a good stump speaker and confounded political prophets by getting himself elected on a record of liquor raids. He served later as Alderman, again as Mayor, and was defeated in 1923 by Donovan.

At the last election the police had three representatives in the race—Donovan, Brown and John J. Mahan. The split vote clinched the election for Thomas J. Corbett, plumbing salesman.

Supreme Court Rules Against Miller & Lux

SAN FRANCISCO, April 11. (AP)—Word was received here today that the United States Supreme Court denied a petition of Miller & Lux, Inc., for an order directing the Railroad Commission of California to certify to the court its record in the case in which the commission ordered Miller & Lux to furnish its colonists at Firebaugh, Fresno county, with public-utility water service.

This matter is one in which Miller & Lux appealed to the Supreme Court from a decision of the California State Supreme Court which sustained action of the Railroad Commission in fixing rates and requiring proper water service from the domestic system Miller & Lux had installed in its colony.

A vital message
to Owners of Stucco Homes

CORRECTING A WRONG IMPRESSION—Stucco is not—as many home owners believe—a permanent covering that requires no paint protection. It is an extremely porous "veneer." And unpainted stucco, whether plain or finished in colored plaster, cannot withstand the constant attack of the elements!

CHEMICAL BREAKING-DOWN—Even the air you breathe joins in this attack! The atmosphere contains carbon dioxide which combines with moisture to form carbonic acid. This acid breaks down the stucco mass—causing it to lose its ability to hold together. Prove this by brushing a dry, unpainted stucco wall with a stiff broom—note the cloud of calcium dust that rises!

DAMAGE BY MOISTURE—In wet weather, another enemy joins the forces of destruction—*Moisture!* Turn a hose on any unpainted stucco wall and note how it absorbs water—almost like a sponge! After rains, dampness may linger for weeks. This insidious foe attacks and rusts the under-lying metal lath. Soon the stucco develops unsightly streaks and cracks—finally crumbling and falling away!

WHY A SPECIAL PAINT IS NEEDED—Because of these conditions, stucco needs painting even more than wood! But ordinary house paint is not sufficiently moisture-proof, and cannot withstand the alkaline reaction of lime, which is present in all stucco. This lime causes "spotting" and even destruction of the ordinary paint film. To resist these destructive forces, Fuller chemists developed—

CONCRETA
The Special PAINT *that Protects and Beautifies* STUCCO

What CONCRETA Does

Concreta not only resists alkali—it also excludes moisture and prevents chemical disintegration. Moreover, its mellow stone-like texture enhances the beauty of the natural surface—without imparting that undesirable "painted look." Concreta comes in white and twelve appropriate shades, ranging from cream to Indian red. With these tints, the most artistic, colorful effects can be produced.

Ask for Special Literature

Special booklets—illustrating many attractive homes which have been given *lasting* beauty and protection with Concreta—are yours for the asking. Learn more about this remarkable paint!

Equally attractive and durable are FULLER PORCH AND STEP PAINT *and* PIONEER SHINGLE STAIN.

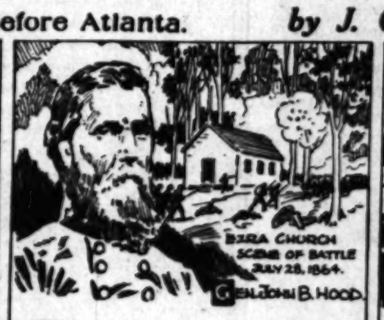
OUR HISTORY IN PICTURES 688 Fighting Before Atlanta. by J. CARROLL MANSFIELD

ON JUNE 27, 1864, SHERMAN, TIRED OF MAKING FLANK MOVEMENTS AGAINST JOHNSTON, THREW CAUTION TO THE WINDS AND TRIED TO CARRY BY ASSAULT THE STRONG CONFEDERATE POSITION AT KENNESAW MOUNTAIN. HERE THE DEFENDERS STOOD THEIR GROUND FIRMLY AND HURLED BACK THE UNION COLUMNS WITH A LOSS OF 3,000, THEMSELVES LOSING BUT 800.

AFTER THAT, SHERMAN WAS MORE CAREFUL, AND BY REPEATING HIS FLANKING TACTICS MADE JOHNSTON RETREAT FROM ONE POSITION TO ANOTHER, UNTIL BY JULY 9TH THE TWO ARMIES WERE FACING EACH OTHER ACROSS THE CHATTAHOOCHEE RIVER, ONLY 6 MILES FROM ATLANTA.



JOHNSTON'S DEFENSIVE TACTICS HAD AROUSED A STORM OF CRITICISM FROM THE PEOPLE OF THE SOUTH, WHO WERE INSISTENT IN THEIR DEMAND FOR A DECISIVE BATTLE. AS A RESULT, JOHNSTON ON JULY 17TH WAS REPLACED BY HOOD, A GENERAL WHO HAD GAINED A REPUTATION AS A "FIGHTER."

HOOD KNEW WHAT WAS EXPECTED OF HIM, AND, IN SPITE OF HIS NUMERICAL INFERIORITY, AT ONCE TOOK THE OFFENSIVE AGAINST SHERMAN. WITHIN ELEVEN DAYS (JULY 17-28) HOOD MADE THREE GALLANT BUT UNSUCCESSFUL SORTIES AGAINST THE FEDERAL POSITION IN WHICH HE LOST MANY MEN.

TOMORROW—THE CAPTURE OF ATLANTA.

RIVER INQUIRY MEETING SET

Swing Announces Initial Gathering 29th Inst.

Fact-Finding Commission to Convene at Yuma

Federal Threat Raises Storm of Protest in Utah

BRAWLEY, April 11. (AP)—Congressman Swing has advised the Imperial irrigation district, that the initial meeting of the Colorado River fact-finding commission will be held in Yuma the 29th inst.

Secretary of Interior Hubert Work and Commissioner of Reclamation Elwood Mead will attend. The conferences are expected to last two or three days, one feature being an investigation of the river in Mexico as well as a short trip to Imperial Valley.

LETTER FROM WORK ABOUSES PROTEST

WASHINGTON, April 11. (Exclusive)—Secretary Work's letter to his Colorado River advisers instructing them to report whether or not the Federal government can allocate the waters of the Colorado River without a compact between the States and without their consent is arousing a storm of western protest. Senators from the arid land States who are still in Washington declare the suggestion revolutionary for while the Secretary merely asks for an opinion the very suggestion is accepted as an indication that the department seems to harbor the idea that it can take over this power, heretofore regarded as reposed solely in the States. If the advisers should conclude that it is within the power of the Federal government to allocate these waters there is promise of a fight in Congress compared to which the recent Boulder Dam struggle was a mere skirmish.

GREAT SEASONAL FLOW IN RIVER FORECAST

SACRAMENTO, April 11. (AP)—The Colorado River will have one of the greatest seasonal flows in many years, nearly 50 per cent larger than last year, it was announced today by Assemblyman Myron D. Witter of the Imperial Valley. Brawley, on the basis of Federal government reports.

"The seasonal flow of the Colorado is estimated at 50 per cent above normal, which will mean between 170,000 and 180,000 second feet," Assemblyman Witter said. "The United States climatological report shows that the accumulated snowfall is greatly in excess of normal, with an average depth of forty-three feet on the Colorado River watershed. This will mean that the seasonal flow, on the basis of snow packs of March 31, will be 45 per cent greater than last year. The snow is hard and well packed, the water content being 11.05, compared with 7.08 last year.

"If this flood stage comes over a long period of time instead of flash floods, it will be very valuable in sluicing out the silt in the bed of the river and may reduce the river bed forty feet at Yuma, which would be very valuable in a protective sense for the Imperial Valley.

GOVERNMENT ORDERS LICENSE NUMBERS FOR ALL AIRPLANES

WASHINGTON, April 11. (AP)—Airplanes from now on must carry license tags similar to those on automobiles. In line with recent legislation by Congress, the Commerce Department today issued regulations governing markings for aerial traffic.

The letter "C" in front of the license number will signify a commercial plane, letter "S" a plane belonging to a State, the letter "X" an experimental plane and a straight number a private plane.

Air pilots will be divided into four classifications ranging from the grade of private chauffeur to the highest distinction of transport pilot, a term applied to the driver of a big machine for long-distance carriage of goods and people. Besides there is a commercial pilot grade, and a limited commercial pilot grade, the latter permit going to a pilot competent to take up passengers for short trips around an air field.

SENTENCING OF SINCLAIR POSTPONED

Court Decides on Delay to Avoid Possibility of Jury Bias in Dome Case

WASHINGTON, April 11. (Exclusive)—Imposition of sentence upon Harry F. Sinclair, oil magnate convicted of contempt of the Senate during the oil-land lease scandal investigation three years ago, was postponed for thirty days by Justice William Hitz in the District Supreme Court today.

The delay, it is understood, was decided upon because of Justice Hitz's desire to avoid the possibility of talesmen already summoned for examination as possible jurors in the trial of the conspiracy charges against Sinclair and Albert B. Fall, former Secretary of the Interior, in connection with the leasing of the Teapot Dome oil reserve, scheduled to begin on the 25th inst., being prejudiced against the oil men by the passing of sentence at this time. Sinclair faces a sentence of from one month to one year in jail and a fine of from $100 to $1000—both mandatory.

EXPLOSION VICTIM DIES

RAWLINS (Wyo.) April 11. (AP)—Preston L. Welch died early today in a Rawlins hospital, bringing the death toll of last week's Parco Refinery explosion to seventeen.

The Crest-o-Rest Bed Spring

Scientifically Constructed *to give you* Rejuvenating Sleep

ON A CREST-O-REST spring any person weighing from 100 to 250 pounds is carried in perfect alignment with the greatest degree of comfort it is possible to attain on a coil spring. Can you safely trust your health and comfort to the spring you have at present? Consider the question seriously, then come to Barker Bros. for safe advice about equipment.

The Science *of a* Crest-o-Rest Spring

MADE with a deep double deck spring unlike any other. The coils are specially designed and tempered. The division construction between decks leaves the upper coils soft and responsive to touch, while the lower coils resist the heavier weight gently and yet without sinking below the contour of the body.

A FLEXIBLE hinge tie braces the sides and ends and prevents swaying and sagging. Ninety inches of tempered wire in each coil are made into fourteen loops to give extra depth to spring. Crossed helical springs join top of coils and form a pliant surface. An extra heavy angle base and nine tempered steel cross-slats support the two decks of coils above.

Designed and built for Barker Bros., this Crest-o-Rest bed spring is the limit of coil spring value and luxury, yet only $20

HINDERED RELAXATION

HERE you see the cramped position of the body, caused by a sagging spring, resulting in an unnatural tension on thousands of nerves — the greatest cause of unrefreshing sleep.

PERFECT RELAXATION

WITH the body resting in its natural curves, the resilient coils insure perfect and complete relaxation. See this Crest-o-Rest bed spring at Barker Bros.

Barker Bros.' "Own Make" *Never Spread* Mattresses

NO MATTER how fine a bed spring you buy, if your mattress is unfit to sleep on—you will not have perfect relaxation. A Crest-o-Rest bed spring and one of Barker Bros.' "Own-Make" mattresses would be correct sleeping equipment.

ALL MATTRESSES LISTED below carry our positive never-spread feature; and are among the highest class mattresses to be had in their various fillings. Weights quoted are for full size.

45-LB. U. S. GOVERNMENT STANDARD Middling Cotton, carded in filmy sheets; guaranteed never to become hard. Closely stitched roll edge, hand-tailored and tufted throughout. Good quality art sateen ticking. Full size, $33.50—twin, $30.

50-LB. HALF MIDDLING COTTON—half cotton linters carded together in filmy sheets. Good quality art sateen ticking. Full size, $26—twin, $23.

MEXICO LINE TO OPEN THURSDAY

First Train Will Run Over Espee West Coast Road

Harriman's Dream of 1904 Finally Realized

Branch Taps Rich Country on California Gulf

SAN FRANCISCO, April 11. (AP)—The Southern Pacific Company announced today that the first through train to be operated over the Southern Pacific of Mexico's new 1101-mile line, between Nogales, Ariz., and Mexico City, Mex., would start south from Nogales next Thursday. Railroad officials expect to begin regular service the 16th inst.

Southbound trains will leave Nogales on Mondays, Thursdays and Saturdays for Guadalajara, where they will connect with Mexico National Railways trains operating to Mexico City. Northbound trains will leave Guadalajara for Nogales Mondays, Wednesdays and Fridays.

The new line was planned by the late Edward H. Harriman, who in 1904 saw the possibilities of a railroad tapping the natural resources of the west coast of Mexico. More than 900 miles of the road had been constructed by 1913, when the Mexican revolution forced a halt. The work was resumed in 1922, and 108 miles of the line, between Tepic and La Quemada, through a rugged mountain district, was built at a cost announced as $15,000,000. Between Tepic and La Quemada were built twenty-nine viaducts with a total length of 9000 feet, and thirty-three tunnels with a total length of about five miles.

The new line will enable tourists from the east to enter Mexico at Eagle Pass, Tampico, or Vera Cruz, visit Mexico City, and come north along the west coast, visiting some of the scenic Mexican towns on the Gulf of California.

LAW ON PURCHASE OF MILK HELD VOID

WASHINGTON, April 11. (AP)—The Minnesota law of 1923 prohibiting discrimination in the purchase of milk, cream or butter-fat by the paying of prices higher in one locality than in another, was set aside as void by the Supreme Court today in an appeal by the Fairmount Creamery Company.

The Pennsylvania Railroad *Announces*

World-wide Service

NOW in practically every corner of the world Pennsylvania passenger service is available to travelers.

The best known and most experienced organization of travel experts in the world—Thos. Cook and Son—have become General Foreign Passenger Agents for the Pennsylvania Railroad.

In their offices throughout the world (other than North America) Thos. Cook and Son will now place at your disposal every facility of their celebrated travel service combined with all the specialized services of Pennsylvania ticket offices.

When you decide to return to the "States" after your foreign trip this far-flung organization will help you in planning every step of your journey: making reservations for trains and hotels, supplying information, preparing the way before you so that your return trip will be as pleasant as your visit.

Thos. Cook and Son cover the whole world and the whole field of travel. Their 160 offices are staffed by carefully selected men, each of whom has been specially trained for his work as interpreter, courier, guide, or travel expert.

The second step in making Pennsylvania service world-wide

Last fall the Pennsylvania appointed agencies in the principal cities and ports of Europe to represent it on all questions of freight service.

And so with the completion of these plans for cooperation with Thos. Cook and Son, and the appointment of its foreign freight representatives, the Pennsylvania Railroad is able to offer American travelers and shippers the most adequate and efficient foreign service of any American railroad system.

FILM ACTOR MAY FIGHT FOR CHILD

Barthelmess, Hearing of ex-Wife's Remarriage, Says He Wants to Keep Baby

TACOMA, April 11. (AP)—News of the marriage of Mary Hay, former wife of Richard Barthelmess, to Vivian Bath, came as a surprise to Barthelmess here today. The latter is now at Camp Lewis, military post near Tacoma, where he is working on the production of a war picture.

"I have just heard through the Associated Press of the marriage," said Barthelmess, "and if the report is true, I wish her all the happiness in the world.

"The baby has been with me for more than a year and I am sure it will be much more beneficial for her to remain in California than to go to Singapore."

Barthelmess declined to amplify further his position with regard to the baby, now 4 years of age, but it was assumed he will fight to retain her custody. The baby, Mary Hay Barthelmess, is living in the Barthelmess home in Los Angeles, under the care of Barthelmess's mother.

Each night a new surprise!

Modern women know that husbands want variety

THE shades are drawn, lamps are lit, a fire is on the hearth. Everything is in readiness for the arrival of the all-important man of the house. Soon the jingle of keys as he lets himself in the front door. He is tired, this modern man—tired from a day of hurried business. ¶Now dinner is served—a rather boring ordeal. He must force himself to eat the usual roast and vegetable and salad. However, one must live. ¶What's this! A bouillon, surely—but chilled? That's something rather different, is it not? Wonderful flavor, too. The modern woman across the table smiles at his enthusiastic comments. ¶No longer is dinner an ordeal; already it assumes the proportions of a feast. The main course is over, now the servant bears a dainty silver platter heaped with fluffy, creamy whiteness—places this before her mistress. ¶"So much?" says the modern woman, holding out for appraisal a generous helping. Her husband's skepticism returns, and he warily replies, "Just a little for me, please." ¶But as the first gingerly mouthful disappears, a joyful grin turns up the corners of his mouth—his eyes contain a new delighted twinkle. ¶"Man, that's good! Frozen! How do you do it?" ¶The modern woman sighs happily, "So glad you like it, dear."

¶Yes, these Modern women know the strain of a man's business; they know the let-down that follows each working day. And they know that husbands must be amused, intrigued, interested every evening in the food that is served for dinner. That is why so many wise, modern women use the Copeland. ¶Frankly, electric refrigeration has in the past been something of a luxury. Now the Copeland places this wonderful aid within the reach of millions. Every modern woman can now delight her family and her friends with dozens of delicious frozen desserts and salads and bouillon. The Copeland makes plenty of ice, too—dainty, little cubes that can be tinted, if one prefers. ¶Copeland conveniences are important, but these are not its most outstanding features. By keeping food fresher, purer, longer—in a constant, dry temperature less than fifty degrees—Copeland Electric Refrigeration banishes from your home one of the principal causes of disease. It offers you and your family a chance for longer life—less danger of sickness. ¶Let us send you the free book that tells more about Copeland—electric refrigeration in its simplest, most efficient, most economical form. Just fill out the coupon.

TRY OF FRUIT FLEET ASSURED

ite Announcement Made by United Company

t Base for Distributing Bananas is Sought

ice With Three Carriers to Start Shortly

The United Fruit Company definitely will enter California this summer with its great White Fleet and announcements in a few days which city will be the Coast's distributing center for banana cargoes. So declared Louis M. Porter, general traffic manager at New York for the Dispatch Company, the selling subsidiary of United, after cruising in harbor with port and railway officials yesterday.

Porter obviously rests between Los Angeles and San Francisco, Porter said although North Pacific ports are not actually in the running.

CHOICE OF BASE SOON

Final selection will be made in a few days and the first ships about June 1, in sixty to ninety days. At present three modern refrigerated liners are being put on to start, arriving every week from Central American ports with 65,000 bunches of bananas each. Eventually all of the ships also will have accommodations for several score passengers and have a speed of fifteen to sixteen knots, assuring ample, commodious service between this coast and the Latin American countries.

Secretary of the United Fruit Company marks the surrender to California by great trade allurements of one of the last big lines holding off. The concern has several score fast refrigeration ships on the Atlantic and Spanish Main, and extensive plantations throughout the tropics. Its profits last year were reported at $20,000,000.

RADICAL CHANGE

The line's entry, according to Porter, means a radical change in inland distributions of the company's fruit. Figures most of their bananas for this coast and the Northwest have gone by rail from New Orleans. Now they will come by ship from the plantations to the California port to be selected, and thence distributed by rail to their destination. The entire northwest will be served from this coast distributing center, and all inland points as far possibly as Porter said.

Docking arrangements particularly interested Porter yesterday. Should Los Angeles Harbor be finally chosen, the agencies apparently stand ready to convert a terminal especially suited to the fruit ships' needs. In other locations, however, present dock facilities are sufficiently suitable for the beginning of the service. The Southern Pacific men showed Porter the San Pedro water front; the Union Pacific pointed to possibilities on Terminal Island, while the city officials of Los Angeles and Long Beach harbors were equally solicitous that Porter see what he wanted here.

Porter declared frankly he was surprised to find conditions as favorable as they are, and intimated that he would be in a few days, but before he looked over facilities

LONG KILLER IN FOR REPAIRS

The Norwegian whaling killer Anatolia, under tow of a sister killer Diomede, was brought from Magdalena Bay to the Los Angeles shipyards yesterday for a week's repair, following a long grounding. She is one of the fleet of the Vega Whaling Corporation, of which the Kommandoren is the mother ship. All will go back to Norway about May 15, according to Capt. Otto Pfaust, commander of the expedition, who came in on the Anatolia yesterday. The captain is not going back to Kamchatka this season, for the Russians attempted to slap a $150,000 fine on him last summer, but they never collected it. It was the entire value of the season's harvest of whale oil.

Los Angeles Harbor's speedy dispatch of cargoes on and off ships is causing New Yorkers can't understand, according to W. L. Robertson, local agent here for the Panama Line, returning yesterday from three weeks in Gotham. Even the eastern shipping men are loud about his port, but are forced to admit they couldn't teach Los Angeles any lessons in dispatch. He left Chicago in an icy blast that "was freezing off" when he left, with a downtown storm with a temperature of 70 in the Los Angeles "heavenly." It was the Chicago office of the Los Angeles Chamber of Commerce.

The Pacific motorship Silverstate, ahead of schedulue, starts today and will sail the 14th for Java and Calcutta, by way of San Francisco. She will carry 18,000 tons of cargo, including 1,000 tons of oil-well machinery, according to Capt. H. H. Birkholm, representing General Steamship Corporation agents. Capt. R. Squirrell, who is accompanied by his wife, will leave ship at San Francisco, and return to England.

The Lloyd Exchange weekly records have registered the last seven days by the arrival of 166 ships in port. The departures totaled only 130. Perhaps the shipments also combined 180,000 barrels, while lumber increased 33,500,000 feet, a 10 per cent gain.

AIR MAIL SCHEDULE

Now in effect: Universal postage rate of 10 cents per half ounce anywhere in the United States or Canada applies on all matters sent via Air Mail.

Transcontinental air mail service to and from Southern California is operated in both directions daily, leaving Air Mail Airport (Los Angeles) at 7:35 a.m. Pacific Time and arriving at Hadley Field (New Brunswick, N. J.) at 5 p.m. Eastern Standard Time the second day. Arrival at the New York City postoffice is one hour later.

Westbound departure from Hadley Field is at 9:40 a.m. Eastern Standard Time, with arrival at Los Angeles at 5:30 p.m. Pacific Time the second day.

The Los Angeles daily closing for air mail is 6:30 a.m. at Arcade Station and at 1:45 a.m. or a little later at the mail Depot later limited red, white and blue, and located in various parts of the city.

Postage for the air mail are restricted to not more than fifty (50) pounds in weight and to not more that eight-four (84) inches in length and girth combined.

PACIFIC COAST ROUTE

Collections are made at all air mail boxes not later than 9 p.m. and at the Arcade Station postoffice not later than 10:30 p.m.

The mails will be operated on the following schedule: Northbound, leave Los Angeles 12:01 a.m. Arrive at Bakersfield 1:45 a.m.; Fresno, 3:30 a.m.; San Francisco, 5:30 a.m.; Seattle, 3 p.m. Southbound, leave Seattle 7:40 a.m.; San Francisco, 12 noon; Fresno, 2 p.m.; Bakersfield, 3:30 p.m. Arrive Los Angeles 5 p.m.

NEWS OF SOUTHERN COUNTIES

PLEA OF WIFE SAVES HUSBAND

Walk from Courtroom Arm in Arm

Murder Charge Dropped by Request of Court

Will Start Life Anew on Oregon Ranch

LONG BEACH, April 11.—A climax to the dramatic shooting here on March 18, last, of Mrs. Lela McElrath by her husband, Frederick W., and his subsequent attempt to end his own life, was written in Municipal Court this morning when the wife, still weak from the effects of the bullet wounds in her chest, pleaded for her husband, who was being arraigned for a preliminary hearing on charges of attempted murder. So successful was her plea that McElrath's case was dismissed and the couple, their arms about each other, moved slowly out of the courtroom, again to take up their married life and forget the past.

Scarcely able to walk, and on the verge of collapse, Mrs. McElrath was assisted into the witness stand by her son.

"I do not want to testify against my husband, nor do I want him prosecuted," the woman told Judge Stephen G. Long. "I believe our trouble was caused as much by me as by my husband. I want to go back to him and begin all over. We have been married twenty-five years and have three children. All our life savings are in a little ranch in Oregon and I want to go back there with him," she pleaded.

It was because Mrs. McElrath refused, in the face of a strong plea from her husband, to return to him and go back to the Oregon ranch, that he fired two bullets into her body and then sent a bullet into his head, police say. The shooting occurred at the home of the couple's oldest daughter.

"It is apparent that the ends of justice will be best served in this case if the complaint is dismissed. This is a very remarkable affair, but if both parties are willing to forgive and forget and to endeavor to patch up their broken lives, I think the kindest thing for this court to do is to give McElrath a chance," Judge Long declared. The court's opinion was concurred in by Dep. Dist.-Atty. McCartney, who declared that the District Attorney's office would not oppose dismissal of the charges.

Mrs. McElrath's complete recovery from her wounds is merely a matter of time, physicians said, but the health of her husband is said to be permanently impaired because of the location of the bullet near to the spinal cord, back of the throat, where it still rests.

Hold Funeral for Dr. King at Redlands

REDLANDS, April 11. — The funeral of Dr. Alexander W. King, 101 years of age and a pioneer of Redlands, will be held at the Congregational Church tomorrow at 2:30. Rev. Herbert C. Ide will officiate and the body will be interred in Hillside Cemetery with the Masons in charge. He was a member of the Masonic Lodge for sixty-eight years.

Just two years ago in August he celebrated his 100th anniversary and at that time received a telegram from President Coolidge congratulating him on reaching a ripe age. "Too much diet has made many people sick," was almost his last words. "Eat that which agrees with you and a wide variety but be temperate in the amount. Be temperate in all you do, work and play, but take plenty of rest," was his advice.

Dr. King attended the funeral of Lincoln in Springfield, Ill., lived under all but the first six Presidents, and saw twenty-four States admitted to the Union, saw the revolvers, steam engine, telephone, electric lights, wireless, airplane, submarine, sewing machine and other inventions brought into use.

BURNS PROVE FATAL

Monrovia Woman Dies After Ten Days of Suffering

MONROVIA, April 11.—Succumbing to burns received ten days ago Mrs. Mary M. Wescott, Monrovia resident for eighteen years, died today at the home of her daughter, Mrs. J. Allen Munro, 347 West White Oak avenue, in her ninety-first year.

Mrs. Westcott was sitting near a gas grate, when her clothing caught fire and her body was severely burned before her clothes could be extinguished.

Mrs. Westcott was born in New York November 8, 1836. Surviving besides her daughter is one granddaughter, Dr. Pauline Waterman of Monrovia.

Funeral services will be conducted from her home Wednesday afternoon at 3 o'clock by Dr. J. W. Hainan of the Presbyterian Church of which the deceased was a member. Pallbearers will be chosen from members of the family. Interment will be made in the Monrovia mausoleum in Live Oak Cemetery.

MARIHUANA SMOKER IS HELD BY POLICE

PACOIMA, April 11.—O. Murgia, 25 years of age, is being held by the police because he was smoking cigarettes. If they had been ordinary cigarettes there would have been no trouble. Officer Baker saw Murgia and his auto parked in a wash near here, and Murgia was acting suspiciously. When Baker accosted him he scented the odor of marihuana, the Mexican narcotic, curling from the end of a cigarette between Murgia's lips, and he arrested the offender on a charge covered by the State Poison Act. Murgia asserted he had the flu, the bronchitis and two or three other kinds of bad colds and that marihuana was good for them all. No allowance is made for any of these in the State act, so Baker conveyed his prisoner to the police station, whence later he can make his pleas to a police judge.

MRS. BROWN REFUSED BAIL

Court Holds Defendants in Camp Murder Case for Reinvestigation by Grand Jury

HANFORD, April 11.—The remittitur from the State Supreme Court in the celebrated Lee Camp, or windmill, murder case was received here today and Judge Van Zante and Dist.-Atty. Ferguson at once went into conference in the matter and F. A. Cleveland of Corcoran, foreman of the grand jury, was called by phone.

The Supreme Court decision, which affirms that of the Appellate Court, quashes the indictments against Mrs. Jennie Laura Brown, J. H. Tipton and Fred Mills, convicted of second-degree murder of Lee Camp, wealthy young rancher, and sets them free unless the present grand jury is called together and votes other indictments.

Public opinion is much divided here regarding the guilt of the three defendants and there is said to be a like division of sentiment among jurymen, and whether or not the jury will bring the case back into court and repeat the vast cost of the former case trial is much discussed here.

At 2 o'clock this afternoon the three defendants were brought into court, Mrs. Brown on a stretcher. Judge Van Zante announced that as a result of the Supreme Court decision the grand-jury indictments against all the defendants were quashed and ordered that the case be resubmitted to the present grand jury for further investigation.

Defendants, counsel moved their clients be released on bail, but this motion was denied by the court and the defendant returned to jail.

It is presumed the grand jury will at once be reconvened to hear the matter. J. P. Tipton of San Francisco, an elderly man and one of those convicted, refused the services of an attorney and harangued the court loudly, berating local newspaper reporters. Mrs. Brown has been under the care of a nurse either at the County Hospital or jail ever since three defendants claimed their client's health was in jeopardy from long confinement.

RESUME WORK ON RAILWAY

Two Cars of Steel Arrive for Construction of New Road Below Border

MEXICALI, April 11.—That construction work is to be resumed on the new railroad connecting this city with the Gulf of California as soon as the annual flood waters of the Colorado River have receded, was indicated today, when twenty-two carloads of steel rails for the project arrived here.

The railroad construction crew, under the direction of Engineer W. I. Bassett, is now engaged in building twelve miles of emergency levees for the protection of Imperial Valley this season.

With snowfall reports indicating an unusually big flood discharge in May and June, the railroad organization will be occupied with its fight against the river until late in the summer, but it is reported from unofficial sources that work on the gulf line will be resumed early in the fall, and the line rushed to completion during the winter months.

The Southern Pacific Company has announced that its new line at Tepic, connecting the west coast of Mexico with Guadalajara and interior points, will be completed in May. With that connection finished and the Mexicali and Gulf Railroad in operation it will be possible to ship Lower California products direct to Mexico City at an enormous saving in transportation costs. At present all shipments from this district must be forwarded through American territory under bond to reach Mexican main land.

Engineers have been engaged for the past two years in making surveys and securing data for the construction of the gulf line over the low-lying Colorado delta lands to near the mouth of the river.

The completion of this line will provide all of the Lower Colorado River basin with a new tidewater outlet that is expected to stimulate both agriculture and industry in this district.

CITRUS CROP BETTER THAN PREVIOUS YEARS

RIVERSIDE, April 11.—With 800 cars ahead of last year in citrus shipments, this season is crossing the 4000-car mark and is establishing a new record for the Riverside district.

If the 1926-27 season passes 5250 cars, more than 2,300,000 boxes will have been shipped. At least 300 more cars of navels are expected, with 750 cars of Valencias. The shipment count at the start of last week was 3930, 3818 oranges and 112 lemons. The week's shipments were lower than the preceding period with 179 cars of oranges and fourteen of lemons.

At the same time last year, only 2915 cars of oranges and 105 cars of lemons had been shipped, a total of 3020 or 800 cars behind this year's output to date.

INQUEST TO FOLLOW HIGHWAY ACCIDENT

VAN NUYS, April 11.—An inquest will be conducted tomorrow at the Van Nuys Funeral Parlors on the body of Albert W. Schmack, pipeline worker, who was killed near Calabasas, when a grader in which he was riding is said to have struck a depression in the road and turned over. Schmack suffered a crushed skull as a result of the accident. As there is some conflict in the testimony regarding the exact manner in which Schmack met his death, the valley division of police decided to conduct the inquest. Schmack resided in San Gabriel, and for some time has been at work with the gang laying an oil pipe line from Ventura into the Los Angeles metropolitan district.

MOTHER WINS IN LONG ARGUMENT

FULLERTON, April 11.—The officer in command of the company of leatherneeks to which Albert Snyder of this city was assigned at San Diego, told him that he could not be given leave to visit his mother, Mrs. Nellie Snyder, here. This despite the fact that Snyder expected to sail late this week with another contingent of marines for China.

When Mrs. Snyder learned that leave had been refused her son, she took matters into her own hands and left for San Diego forthwith. Furthermore, she began interviewing various and sundry commanding "devil dogs."

The officers finally yielded, stern army discipline was forgotten for once, and young Snyder was finally granted permission to spend several days with his mother before sailing.

SCOUTS PLANT TREES

SAN DIMAS, April 11.—The boys of San Dimas are now engrossed in raising pine trees in their back-yard gardens. Their enthusiasm for this unique work is prompted by the officers of local Boy Scout troops who have started several boys in raising pine trees, which will later be replanted on the deforested slopes of the mountains north of here. Ten pounds of seed have been distributed among the boys by T. Rose Hobbs, who is in charge of the movement.

END OF NAVEL SEASON

SAN DIMAS, April 11.—With the shipment of twenty cars of navel oranges from the San Dimas Exchange today and tomorrow, the navel season will be closed in the region about this city. A total of 226 cars have been shipped east by the exchange this year. Close of the season here is earlier than any of the other houses in the valley. The Valencia season will begin late in April, according to H. C. Foster, manager of the local exchange.

Girl's Rebuff Causes Death of Fresno Boy

FRESNO, April 11.—Piqued because a girl acquaintance refused to dance with him Saturday night and refused him a "date" for next Wednesday night, George W. Greenway, 19 years of age, sought death by shooting himself with a .45-caliber revolver Saturday night. He died at 6 a.m. today.

The suicide conclusion was reached by the police and Dep. Dist.-Atty. Carter after an exhaustive investigation following the shooting at Greenway's father's home here late Saturday night.

Greenway told the police Saturday night that he had a row with an unnamed man at a dance a short time before he was found with a gaping bullet hole through his body Saturday night, and that he did not know who shot him. While Greenway did not specifically charge that the man with whom he had the controversy fired the shot, his story was to that effect.

Marie Leibbacker, beauty parlor operator, over whom Greenway said the controversy arose, denied that there had been any trouble at the dance, and told the police that she had spurned date and dance requests from Greenway not long before he was found fatally wounded at his home.

GET WRONG MAN IN LARCENY CASE

FULLERTON, April 11.—The charge of petit larceny preferred against W. E. Hussenden of Glendale in connection with the theft of a medicine case belonging to Dr. H. V. Graves of this city was dismissed when he appeared for his hearing in City Recorder's Court here today. He proved to the satisfaction of the court that he was not in possession of the automobile, which figured in the local robbery, at the time it having been stolen in Los Angeles at 10:30 a.m. last Wednesday, several hours earlier.

Miss Natalie Roe, stenographer in a law office who took the number of the machine into which she saw the thief place the abstracted medicine case, failed to identify Hussenden as the man whom she watched from the window of the office above.

ONE-MAN RAILROAD HAS NO MORTGAGE

CORCORAN, April 11.—The Kings Lake Shore Railroad, built to convey crops from the Tulare Lake bed, west of here, to this city, is being put in first-class shape to handle the bumper crop of wheat which is expected this summer. Charles King of Hanford, who is said to be the only owner of the railroad on which there is no mortgage or other incumbrance, is here supervising the work of the track crew in getting the line in shape and cars overhauled, and he states that a new engine will be here in time to haul this year's crop. J. W. Strop is the new engineer on the road, succeeding W. E. Hoskins, appointed deputy sheriff.

ELKS INSTALL OFFICERS

HANFORD, April 11.—The officers of the local lodge of Elks have been installed by Carl Loyd, Past Exalted Ruler of Porterville lodge, as follows: Exalted Ruler, W. R. McKay; Esteemed Leading Knight, J. Ray Hays; Esteemed Local Knight, Clark Clement; Esteemed Lecturing Knight, George Templeton; Esquire, S. H. Hird; Tiler, W. C. MacFarlane; Inner Guard, Robert I. Montgomery; Secretary, Harry Kimball; Treasurer, J. E. Richmond; Trustee, Fred Ross Delegates to the Grand Lodge, Frank Buckner, A. E. Morley, alternate. Delegations from Bakersfield, Porterville, Visalia and other San Joaquin Valley cities attended the installation.

PRICES ON FIRE ENGINES

SEAL BEACH, April 11.—Prices on fully equipped fire engines were submitted by two companies and the purchase of new fire equipment was taken under advisement at the Trustees' meeting last week. The ordinance on oil pumps and fire hazards was discussed, but the City Attorney asked for more time to complete the work. Boulevard-stop changes were referred to the street superintendent and City Engineer.

SMALL PAY FOR THEIR TROUBLE

Wrecked Safe at Glendale Nets 80 Cents

Surveys the Remains

W. P. Newgass, theater manager, examining safe, the inner compartment of which resisted work of yeggmen.

GLENDALE, April 11.—Attempts to blow the safe in Bard's Theater, 1014 East Colorado Boulevard, during last night, netted the thieves approximately 80 cents, the receipts for Saturday and Sunday nights being in an inner compartment that resisted the efforts of the yeggs to blow it open. The time of the blast that wrecked the safe is filed by a statement of a woman residing in one of the apartments above the theater, who told Detective Sergeant F. C. Williams and Patrolman Owens that she heard a noise at 3 a.m. that sounded like a door being slammed heavily.

It is believed that the burglars were frightened away before they could complete the job, but examination showed that they had exploded one charge of nitroglycerine in their efforts to break into the inner compartment of the safe that contained the money. The first blast failed, and they had poured another charge of explosive into the door, sufficient, police declare, to have wrecked the entire building if it had been set off, but they fled before their object had been accomplished.

Experts who opened the inner compartment late today found the money untouched, but the blast that tore the outer door off the safe wrecked the interior of the theater office. The thieves used gloves to keep from leaving fingerprints on the safe. Manager W. P. Newgass of the theater, has informed the police that suspicion points to two men who were observed in the vicinity of the building for two days, at intervals, before the robbery was attempted.

AMBULANCE IN CRASH

Two Slightly Hurt in Accident Near Ontario

ONTARIO, April 11.—Two persons were slightly injured shortly before noon today when an ambulance, belonging to Swan's funeral home of Long Beach, and driven by L. E. Climkenbeard, collided with a light touring car driven by Miss Elizabeth Spansail of Chino on the Valley Boulevard, west of Ontario.

According to the report filed with Constable W. O. Hardy, Miss Spansail stated that upon approaching Central avenue from the east she signaled for a left turn and when she had already headed her car into that street, the ambulance, coming from the rear at an asserted high rate of speed, attempted to pass her in the intersection.

The ambulance, which was conveying a mental patient from Patton to Long Beach, after tearing the left front wheel from the touring car, is said to have skidded down the highway for approximately 130 feet before coming to a stop headed in the opposite direction to which it had been traveling.

Miss Sweeney, of 4005 American avenue, Long Beach, who was the nurse in charge of the ambulance patient, was badly scratched and bruised, as was Smith Drurey, who was riding with the ambulance driver.

Miss Spansail and her grandmother, Mrs. M. A. Spansail, who was riding with her at the time of the accident, were both severely shaken up and suffered from shock. Both machines were badly damaged, but the patient in the ambulance miraculously escaped serious injury.

GAINED NOTHING BY CHANGE OF PLEADING

ONTARIO, April 11.—S. L. McKenzie of 906 E street, Upland, who was arrested by Patrolman Onderdonk and Sydenstriker on the night of the 3rd inst., and charged with driving while intoxicated after he had driven his car into a truck parked at the curb in South Euclid avenue, pleaded guilty today in Judge George Holbrook's court after the complaint had been changed to a charge of reckless driving.

Any hopes that McKenzie may have entertained for receiving a light sentence under the amended complaint were promptly quashed, however, when the judge granted him ninety days' board and lodging at the expense of the county.

LONG MOTOR TRIP

HUNTINGTON PARK, April 11.—The White Shrine drill team of Huntington Park is making arrangements to attend the Supreme Shrine meeting, which is to be held in Buffalo, N. Y., next month. It is the purpose of the team here to charter a large bus and make the trip, during which there will be several stops both going and coming and Southern California is to be well advertised on this trip.

Mining Village Welcomes Guests in Snowstorm

RANDSBURG, April 11.—Randsburg, crowded with more than 2000 visitors from all parts of California and mining financiers from New York, celebrated the thirty-second anniversary of the discovery of gold on the Mojave Desert yesterday during a scudding snowstorm that was bitterly cold.

In spite of the cold, however, the mining camp in the center of one of the richest gold and silver producing zones in the world, was in gala attire, and those who had traveled hundreds of miles were given a reception that will be long remembered.

Trips to the big desert mines and mills, running full blast, the spectacle of gold being crushed from high-grade ore, a California barbecue, and addresses by men of State prominence, were on all the day's program.

Randsburg's streets were specially decorated for the occasion and shortly before noon Kent S. Knowlton, commander of the Randsburg American Legion, and chairman of the celebration committee, introduced from a platform, erected on a truck body, F. J. O'Meara, master of ceremonies in the speaking program.

Judge Paul McCormick of the Federal bench was the speaker of the day, and he recounted in an exciting manner the experiences of his father, who arrived at Randsburg six months after the first gold strike at Yellow Astor by three prospectors, Burcham, Slingerland and Mooers. Judge McCormick's father at one time owned the land bought by the California Rand Silver, Inc.

INDUSTRIAL ACCIDENTS

Two Members of Construction Crews Hurt at Pasadena

PASADENA, April 11.—Two men were rushed to the Emergency Hospital today within an hour, both suffering from brain concussions and possible skull fractures incurred in construction accidents in the city.

Emil H. Donaldson, carpenter, employed by Bennett & Marble on a construction job at South Los Robeles avenue and Green street, fell head-first into an eight-floor pit when he stepped back, unaware that a fellow-worker had just removed the cover from the excavation. Miguel Barela, laborer employed at the new City Hall, was struck on the head by a piece of falling scaffolding.

Both Barela and Donaldson were removed to the Pasadena Hospital, where it was reported that each has about an even chance for recovery.

OXNARD BANKER DIES AFTER LONG ILLNESS

VENTURA, April 11.—Louis G. Maulhardt, 57 years of age, director of the bank of A. Levy of Oxnard and president of several mining companies of the State, died at his ranch on Cooper Road this morning after a six months' illness.

Mr. Maulhardt was one of the wealthiest ranchers in the district, as his estate is valued at more than $500,000.

Mr. Maulhardt was born in Tulare county and came to Ventura more than fifty years ago. He, with his two brothers, who survive him, Dr. A. A. Maulhardt and Henry Maulhardt, have been active in affairs. Besides his mining interests, Mr. Maulhardt owned much property throughout the county.

CRACK RIFLEMEN IN GLENDALE SHOOT

BURBANK, April 11.—California marksmen will take part here in June in the final elimination shoot for the State of California in preparation for the national contest at Camp Perry, O. This announcement was made by representatives of the local rifle club. The winners of the Camp Perry shoot will take part in an international contest to take place later in the season. The tournament will be conducted on the local range along the foothills in the Ben Mar Hills. This range also is reported to be under consideration by the War Department as a range for the training of marksmen in the marines.

ANOTHER ELECTION TANGLE

Court Order Interpreted to Mean City Directors Have No Authority to Canvass Ballots

PASADENA, April 11.—On receipt of an order from Presiding Judge Hanby of the Superior Court, Los Angeles, restraining the present Board of City Directors from taking any further action in connection with last Thursday's municipal election, the Directors today refused to canvass the votes cast. Until the votes are canvassed officially, the seven newly elected City Directors cannot take their seats on the board.

The court order, which amounted to an injunction in its effect, was issued after Paul W. Fox, who was defeated for nomination to the board in the last primary, filed suit in Superior Court, asking the court to review the election proceedings, which a faction has contended were technically illegal.

The court order "commanded and required the board to desist from further proceedings in connection with the election," and set the 22nd inst. as the date for a hearing before Judge Hartley Shaw. Fox's petition contended that the present Board of Directors exceeded its legal right by acting in a judicial capacity when it decided to hold the election last week.

The five Directors who voted against canvassing the votes today said that they feared they would be in contempt of court if they canvassed them. Directors Wadsworth favored the canvass. Assistant City Attorney Stoehr ruled that the court exceeded its right by issuing an injunction when none had been asked, and that it would be legal to go ahead with the canvass.

If the hearing is held the 22nd inst., as scheduled, there will still be time to canvass the returns after that date and before the new board is scheduled to take office, inasmuch as the present Directors do not go out of office until May 2.

GAMBLING GAME ENDS IN STABBING

One Dead and Two Injured in Alley Fight Between Mexicans

VENTURA, April 11.—Trouble over a gambling game is thought to be responsible for a cutting scrape between four men at Fillmore in which one was killed and two others were injured, one seriously.

The dead man is Ernest Munos, 24 years of age, who died as the result of a knife wound above the heart. The man most seriously injured is Juan Martinez, who is in the Cottage Hospital at Santa Paula with dagger wounds in his face, shoulders, back of his neck and his intestines. The other two, Joaquin and Roman Sierra, brothers, today are in the County Jail, held for investigation in connection with the battle.

Roman is suffering with dagger wounds on his upper lip, his right hand and his left knee. Joaquin escaped from the fray in which he is said to have participated without injuries. The fight took place in an areaway between a poolhall and restaurant in the Mexican quarter of Fillmore following an asserted gambling game in which three of the men are said to have participated. As Munos descended the stairs in the passage way from his room above the poolhall, the Sierra brothers, it is said, jumped on him with a dagger and started the battle.

Martinez, who lived in a small room just off the areaway, heard the fight going on, and, according to his statements to the officers, jumped out of bed and still dressed in his night clothes, rushed to Munos's aid whom, he said had shouted for help.

The Sierra brothers, he said, then attacked him and stabbed him four times, wounding him so seriously that he was operated upon a short time after at the Santa Paula Hospital to save his life.

MRS. ENGESETT NEW HEAD OF RESEDA CLUB

RESEDA, April 11.—Mrs. E. S. Engesett was elected president of the Reseda Woman's Club at the annual meeting just held. Others elected are Mrs. C. R. Willard, vice-president; Mrs. O. E. Nelson, Mrs. A. P. Green, Mrs. W. D. Seabuck and Mrs. R. F. Ward, recording, financial, federation and corresponding secretaries, respectively, and Mrs. Walter Smith, treasurer. Directors are Mrs. L. H. Carson and Mrs. L. A. Porter. The newly completed Alton Hall has been chosen as quarters for the club for the next year. On the 21st inst., the local club and the clubs of Owensmouth, Weeks Colony and Zelzah will conduct a reciprocity-day meeting in Alton Hall. Mrs. J. B. Lorbeer, district federation president, will be speaker of the afternoon.

PLAY IN HIGH SCHOOL ALL-STATE ORCHESTRA

PORTERVILLE, April 11. — Musicians from high schools of this section of Tulare county who will go to Sacramento next week to participate in the all-State high-school orchestra at the high-school peoples' convention, assembled at Porterville Union High School this afternoon for a rehearsal.

Prof. Marion Knott, director of music at the local high school, directed the rehearsal. Pupils from Visalia, Exeter, Lindsay, Strathmore and Porterville participated. The local school will be represented at Sacramento by Lewis Pinkett, Eunice Doty, Lenna McCrillis, Martha Stewart and Walter Dobbs.

ADMITTED TO COLLEGE

CLAREMONT, April 11.—Three more girls have been admitted to Scripps college for women, first women's institution of collegiate grade founded in the Southwest. All three will graduate in June from Pomona High School. They are Ida Swindt, Elizabeth Zillies and Roberta Smith. Applications for freshman entrance to Scripps College, which is associated with Pomona College under the group Claremont colleges plan, are now being received at Scripps college offices in Claremont.

ASK MORE TIME

SAN FERNANDO, April 11.—City officials are being asked by the Business Affairs Committee of the Chamber of Commerce to bide their time for two weeks before formulating definite flood-control plans, according to the regular luncheon meeting of the committee at Porter Hotel yesterday. The request is being made by the committee in order to give the flood-control committee of the chamber headed by Fred W. Prince, ample time to go over the situation thoroughly.

COMMUNITY CLUBHOUSE

SAN FERNANDO, April 11.—Plans for a community clubhouse to serve all local organizations not having a permanent meeting place, are being made by the Ebell Club and communications have been forwarded by the organization to the Woman's Club, Kiwanis Club, American Legion and Exchange Club. The Kiwanis Club has referred the matter to its committee on public works.

FATAL AUTOMOBILE ACCIDENT

SANTA ANA, April 11.—A. J. Brown, 47, 4025 Arizona street, San Diego, died at a hotel in San Juan Capistrano today of injuries received when the machine in which he was riding with his wife overturned on the San Diego highway fifteen miles south of San Juan Capistrano last night.

Internal injuries produced death. In the opinion of Coroner Charles D. Brown. Brown was manager of the Army Department Store in San Diego.

Indian Confesses, Given Probation by Tulare Court

VISALIA, April 11.—Willie Garfield, 34 years of age, Porterville Indian, who recently confessed to forging the will of his late foster mother, Mrs. Anna E. P. Anderson of Porterville, in order to receive one-third of her $60,000 estate, and later pleaded guilty to the charge, was granted probation this morning by Superior Judge Frank Lamberson.

Garfield will return to his pretty young Indian wife at Porterville and their two small sons on his good behavior.

Garfield had been reared as Mrs. Anderson's son. She had frequently told him and others that she would make a will. When search failed to disclose it, friends sympathizing with Garfield said, "If your mother had just put it on paper everything would be all right."

Early this last January, almost a year after her death, Garfield probe had found behind the mop board duced a purported will, which he said in the room in which his "mother" had died.

MEXICAN IS HELD AS HIT-AND-RUN DRIVER

VAN NUYS, April 11.—Benito Hernandes, 40 years of age, a Mexican, is being held by local police as a hit-and-run driver, following injuries received by Lawrence Fountain, Van Nuys schoolboy, who was run into and seriously injured while riding a bicycle on Van Nuys Boulevard, near Sylvan street. According to witnesses the boy had just come from a drug store with a pint of ice cream and had mounted his bike. They assert Hernandes came by in his machine at a rate of forty-five miles an hour, and that after striking Fountain, continued his course. Hernandes was pursued by two Van Nuys policemen and captured. Doctors at the local Receiving Hospital say Fountain will recover.

SUNRISE SERVICES

BURBANK, April 11.—Community sunrise Easter services will be conducted by the local religious organizations as usual in Sunrise Canyon at the upper end of Magnolia avenue. A delightful program has been arranged which will open promptly at 6 a.m. The principal Easter message will be by Rev. Clifford A. Cole of Glendale and the soloist will be Harry Marple, radio artist and soloist in the Burbank Choral Club. Burbank churches also will unite for the first time in the observance of Good Friday in preparation for the Easter program. An inspirational meeting will be conducted at the Presbyterian Church.

PLENTY TO EXPLAIN

SANTA ANA, April 11.—R. C. Fuller, Seal Beach oil worker, living at Long Beach, was arrested twice by State traffic officers near Stanton yesterday for what they called "the worst exhibition of driving" they had ever witnessed.

Charges against Fuller include cutting in, reckless driving, speeding fifty miles an hour across a fifteen-mile intersection and sixty miles per hour in a thirty-five-mile zone. He is scheduled to appear next Friday before Justice Kenneth E. Morrison in Santa Ana.

ORGANIZE MALE CHORUS

HUNTINGTON PARK, April 11.—Twenty men of this territory have started an organization to be known as the Male Chorus of the Huntington Park district, it being their intention to organize with a membership of sixty. They will, when organized properly, give radio programs, and concerts in the various churches in the district. R. H. Bloem has been selected as director, and Prof. Frederic Groton has been chosen as pianist.

ELECTION AT VISALIA

VISALIA, April 11.—Keen interest in Visalia's municipal election tomorrow indicates an unusually heavy poll. Three City Councilmen and three members of the Elementary School Board are to be elected.

Candidates for positions on the City Council are James M. Burke, George Tuhumy, Otto W. Lake, Ed Lambert, Will Ward and F. H. Whipple. Those seeking berths on the School Board are Daniel MacPherson, J. A. Chase, Fred Huffaker, Rev. E. R. Connelly, E. E. Baker and Adolph S. Sweet.

MILAN LIEN OFFERING ON SALE TODAY

American Banking Group to Market $30,000,000 Issue for Italian City

New financing announced for offering in this market today includes an issue of $30,000,000 City of Milan, Italy, external loan of 1927 sinking fund 6½ per cent bonds, maturing April 1, 1952, and an issue of $500,000 Boulevard Theater Company, Inc., first mortgage 6 per cent bonds, due May 1, 1942.

Dillon, Read & Co. will head a nation-wide banking group to offer the Italian securities at 92 and accrued interest to yield about 7.20 per cent. The proceeds of the issue will be used for additions and improvements to the city's municipally owned utilities and for other municipal improvements.

Milan, with a population of about 900,000, is the second largest city in Italy, exceeded in size only by Naples. It is one of the most important commercial and financial centers of Italy and includes among its principal industries the manufacture of electric equipment, silk and cotton goods, leather and rubber products and motor cars.

The Boulevard Theater Company liens, which are secured by a first mortgage on the land and building known as Grauman's Egyptian Hollywood Theater, are being offered by the bond department of the Bank of Italy, Security Company and Bayly Brothers, Inc., at 100 to yield 6 per cent. The theater will be leased for twenty-five years to the Egyptian Theater Corporation for an annual rental of $75,000.

Net Income of Standard Gas Higher in Year

Combined earnings of all operated properties of the Standard Gas and Electric Company for the twelve months ended January 31, last, amounted to $21,540,061, as compared with $16,639,311 in the corresponding period of the preceding year, an increase of $4,880,750, or 8.5 per cent.

Aggregate gross earnings of the properties were $145,451,998, an increase of $8,469,431, or 6.3 per cent over the total of $136,982,567 in the preceding twelve months period.

Net earnings of the California Oregon Power Company increased from $1,379,850 to $1,436,398. Coast Valleys Gas and Electric Company reported net profits of $465,584, as against $384,683 in the year previous. A decrease from $2,068,542 to $1,904,414 was shown by the Market Street Railway Company, while the Northern States Power Company reported net earnings of $16,358,609, as against $15,693,971 in the preceding year. Net earnings of the San Diego Consolidated Gas and Electric Company increased from $2,261,427 to $2,897,196.

Crop Condition in California Told in Report

SACRAMENTO, April 11. (AP)—California's wheat crop on the 1st inst. was 95 per cent of a normal as compared with 83 per cent last year and a ten-year average of 85 per cent; a report today by E. E. Kaufman, Federal-State crop statistician, disclosed. The same report gave the condition of live stock at 93 per cent for cattle and 94 per cent for sheep and pasture at 90 per cent. Cattle last year were in 90 per cent of a normal condition and sheep 94 per cent. Pasture in 1926 was 94 per cent of a normal and two years ago 93 per cent of a normal.

The report does not give any detailed figures on the actual planting of grain crops in the State for harvest this summer, but the intention to plant, as compiled earlier in the year, show the farmers planned to seed 772,000 acres of wheat, 145,000 acres of oats, 973,000 acres of barley, 171,000 Acres of rice, 69,000 acres of Indian corn, 110,000 acres of grain sorghum, 49,000 acres of potatoes and 1,931,000 acres of tame hay.

BANK GETS CHARTER

San Diego Application Approved; Bloomington Given Branch

SAN FRANCISCO, April 11. (AP)—Will C. Wood, State Superintendent of Banks, approved today an application of Emil Klicka and others of San Diego for opening of the Market-street State Bank of San Diego, Cal.

SAN FRANCISCO, April 11. (AP)—State Superintendent of Banks Will C. Wood approved today the application of the First Savings Bank of Colton, San Bernardino county, to establish a branch at Bloomington, also in that county.

SULPHUR CONCERNS BUSY

Freeport Texas and Texas Gulf Companies Prospect for New Mounds While Stocks Churn in Market

BY EARLE E. CROWE

Not much credence is placed by interests in Los Angeles identified with the sulphur industry in the rumors of dividend increases by Freeport Texas and Texas Gulf Sulphur. Despite the fanciful stories coloring the stock market rivalry between the two companies the energies of the managements, it is pointed out, are more concerned with the acquisition of new deposits than with the payment of higher dividends. The pressure, however, from influential speculators is undoubtedly strong for the upward revision of dividends.

Freeport Texas and Texas Gulf have been two of the most lively performers in the New York market in the last few months. Because of prosperous conditions in the sulphur industry the earning have been favorable, which stock market prices have been quick to discount. With both stocks periodically breaking into new high ground the likelihood of raising the dividend rates has been widely reported, either to justify the market appreciation, or to frighten whatever short interest is present.

PROFITS MAY DROP

Going into the details of actual operations, however, seems to discount the enthusiasm of the speculators. Freeport Texas, for example, is faced with a contract on its Hoskins mound that apparently signals lower income from this, its chief source of production. The mound is mined on a contract with the Texas Corporation, the owner of the operating rights, by which Freeport Texas will only receive 30 per cent of the income after its capital investment has been repaid. The profits are now divided equally; but it is expected that the investment will be repaid sometime this year and the new division of profits inaugurated.

As far as the Hoskins mound is concerned the immediate future of Freeport Texas earnings depends upon a greatly accelerated rate of production in order to offset the smaller percentage of profits. The management, of course, is prospecting for other deposits, and is still working the famous Bryan mound, which it owns in fee.

LOWER COSTS

From the standpoint of operating costs Texas Gulf Sulphur seems to have the advantage. Most of its deposits are owned in fee. The Big Hill mound at Gulf is the chief source of production, and is owned outright. This is the mound that Bernard M. Baruch and the late Col. Seeley W. Mudd, founders of the Texas Gulf Sulphur Company, investigated in about 1910, and proceeded to acquire for intensive exploitation. They had investigated other deposits in Texas before entering upon the Big Hill project, in which they decided to concentrate their sulphur mining activities. It was not until 1919 that production was actually started. Since that time Texas Gulf has become one of three largest sulphur producers in the world.

Bryan mound, Big Hill and the other principal sulphur deposits along the Gulf Coast of Texas were discoveries resulting from oil-drilling explorations. Big Hill was originally drilled for oil immediately after the Spindletop boom, but was not explored for sulphur until several years later.

Last year Texas Gulf earned about $4 a share on the new no par stock, the same amount the company is paying in dividends. The last quarter was the best when earnings were more than $1 a share. In March of this year production was the largest of any month of the company's history. Earnings, it is understood, are increasing over last year, but the future trend, like the Freeport Texas situation, depends upon the development of new deposits for reserves.

MINING AND OIL STOCKS IRREGULAR

Julian Preferred Highest; Los Angeles Investment Rallies After Decline

Oil stocks continued to move irregularly on the Los Angeles Stock Exchange yesterday. Julian Petroleum preferred furnished the bulk of trading and closed ½ point net higher at 8 6-8, after opening at 9 and selling off later to 8½. The common held at 1½.

Richfield closed firm at 16 7-8, after selling from 16 5-8 to 17. Union Oil of California sold off in the morning to 42, rallied in the afternoon to 43 and closed fractionally net higher at 42½. Union Associates closed steady at 41 3-4. Standard Oil of California held at 55 3-4, while California Petroleum closed a fraction off at 26 3-8. Rio Grande lost ½ of a point to 13.

Los Angeles Investment sold off 2½ cents further to 2.65 and rallied to a close at 2.69, a net gain of 1½ cents. Southern California Edison common, selling ex-rights, closed ½ point off to 32½. The rights sold at 51. 5 cents lower than Saturday's close. Bancitaly continued in demand at 110. Bank of Italy sold from 683 to 683½ and closed at 683, a net loss of 2 points. Bancitaly rights closed at 2.45.

Great Bend led the mining activity, added a cent to 81 and closed ½ of a cent net higher at 40½. Western Apex closed firm at 30½, as did Boundary Cone at 8 and Black Range at 3½. Katherine Extension closed ½ of a cent lower at 9½ and Big Jim was firm at 34.

FEBRUARY WESTERN UNION INCOME OFF

NEW YORK, April 11. (AP)—February operating income of the Western Union Telegraph Company declined to $829,789 from $880,546 in February, 1926, and for the first two months of the year, to $1,697,564 from $1,941,473 a year ago. February gross also was smaller, $9,837,161 against $10,072,027.

BROKERS LOANS UP

WASHINGTON, April 11. (AP)—Loans to brokers and dealers held by New York Federal Reserve member banks amounted to $2,840,238,000 on the 6th inst., compared with $2,803,312,000 the preceding week, the Federal Reserve Board announced today.

London Daily Radio

BY ARTHUR W. KIDDY

[Copyright, 1927, New York Evening Post, Inc.]

LONDON, April 11. (By Wireless)—The markets here were cheerful, chiefly due to the relief felt that budget uncertainties will be removed this afternoon. Unless something drastic occurs, relief probably will continue for a short while, after which will come the realization of the paralyzing influence of high expenditures.

British funds were good. Dunlops again was strong. Greeks were better on the debt settlement on the eve of interest. On the eve of the budget, interest centered more on the stern necessity for economy rather than on the precise details of taxation, though some concern was felt at the last moment that the income tax might be raised 6d.

The chairman of Barclay's Bank has a letter in the London Times pleading for instant formation of a strong retrenchment committee. The letter gains significance by the fact that bankers seldom seek publicity save in matters of national urgency.

Toward evening the markets adopted a waiting attitude, but budget proposals were not disclosed until well after the market had closed. Dunlops failed to maintain their early strength, and tobaccos also closed under the best for the day.

Move for Local Organization of Wool Trades On

As a result of investigations carried on by the wool committee of the Los Angeles Chamber of Commerce, organization of the Wool Trades Association has been undertaken. It was announced yesterday by Frank C. Mortimer, vice-president of the Citizens' banks and chairman of the committee. All those interested in wool, whether raw or in finished form, will be represented in the association.

This organized effort to make Los Angeles the handling and manufacturing center for the 15,000,000 pounds of wool produced in the area adjacent to the city is planned to take advantage of conditions resulting from the development of Los Angeles and Southern California. Concerted efforts will, it is hoped, result in a steady flow of this commodity into Los Angeles for assembling processing, shipment and manufacture.

In carrying out the recommendations of the wool committee, Mr. Mortimer has appointed the following committee to organize the Wool Trades Association of Los Angeles: S. C. Simons, manager of the domestic trade department of the Los Angeles Chamber of Commerce, chairman; J. W. Worth, representing spinners; G. M. Boyd, representing the cutters for men's wear; L. G. Baer, representing knitters; John E. Maurer, representing wool growers; William E. Hough, representing bankers; L. D. Owen, representing warehouse men; H. S. Cook, representing felt interests, and Thomas Thomas, representing the worsted interests.

New Investment Trust is Formed by Bond Houses

NEW YORK, April 11. (Exclusive)—Formation of the Allied International Investing Corporation for the purpose of extending to American capital the opportunity of participating in diversified investments throughout the world, and patterned after the English and Scottish investment trusts in principle, was announced here today by Kean, Taylor & Co. and Baker, Kellogg & Co., Inc.

The board of directors of the new company is composed of Charles E. Ames and Robert Winthrop Kean of Kean, Taylor & Co., and Kent Bromley and James C. Luftweiler of Baker, Kellogg & Co. The widespread connections of these concerns, through which it is contemplated the affairs of the corporation will be handled give the corporation, it is asserted, contact with the investment centers of North and South America, Great Britain and Continental Europe.

The authorized capital of the corporation consists of 60,000 shares of participating preference stock without par value and 10,000 shares of deferred stock without par value. The directors and their associates have agreed to purchase the entire deferred stock from the corporation.

Business Philosophy

BY WILLIAM FEATHER

To squander time is just as wasteful as to squander money.

To balance your budget you have to do one of two things, spend less or earn more.

There is always room for improvement.

There are a thousand ways to spend money, and only one way to make it.

The wise guys who sneer at the stupidities of the past generation might be willing to demonstrate their ingenuity by showing us how and where to locate downtown landing-places for airplanes so that they will not have to be rebuilt for at least two decades.

NET INCOME OF PAN OIL SETS MARK

Earnings Combined With Lago Totals $31,280,007 in Annual Report

NEW YORK, April 11. (AP)—Net profit of the Pan American Petroleum and Transport Company for 1926 was the largest for any year since 1922, it was disclosed in Chairman F. H. Wickett's report to stockholders, made public tonight. Net profit of the company and its subsidiaries, excluding the Lago companies, amounted to $22,526,380, as compared with $27,335,997 for 1925.

Adding Pan American's proportion of the profits of the Lago companies for the eleven months ended November 30, 1926, the final net profit of the combined companies totaled $31,280,007, equivalent to $10.75 a share on the average capital stock outstanding.

In reviewing the government suit involving the naval station at Pearl Harbor, Hawaii, the report said that the company is asking the government to defer action looking toward an accounting for crude oil delivered to the company if payment for the work at Pearl Harbor until after Congress meets. If the request is not granted, Congress will be asked to reimburse the company for its expenditures on the Hawaiian station.

Commenting on the Mexican situation, Mr. Wickett said:

"Most of the cancellations of drilling permits which were ordered soon after January 1, 1927, because of the refusal of the company to comply with the new petroleum law, have been suspended by temporary injunction. The nonassenting foreign companies are seeking relief in the Mexican courts. Since our claim to undisturbed enjoyment of our properties finds full support in established principles of international law, for the maintenance of which our government so firmly stands, we entertain the hope of the eventual recognition of our lawful property rights."

CHAIN STORE SALES MAKE HEAVY GAIN

March Totals of Twelve Leading Systems Mount to Record Volume

Total sales of twelve of the leading chain-store companies for the quarter ended March 31, last, established a new high record. The figures indicate that business continued at a high level throughout the country as the chain-store systems extend into all sections.

Total sales for the quarter aggregated $138,136,991, an increase of $14,050,834, or 13.1 per cent, compared with total sales of $123,086,097 reported for the first quarter of 1926. March sales aggregated $52,088,819 against $46,493,305, an increase of $5,605,513, or 12 per cent.

An interesting development in connection with sales is the large increase reported by the J. C. Penney Company, which passed S. S. Kresge & Co., for the first time. From a dollar standpoint the Penney company showed a larger gain than reported by any other company, not excluding F. W. Woolworth & Co., and from a percentage standpoint, Neisner Bros., Inc., reported the largest gain of any company included in the group.

Quarter ended March 31,	1927	Percent. Gain
F. W. Woolworth	$ 52,005,000	6.47
S. S. Kresge	25,147,777	8.6
J. C. Penney	22,417,764	27.1
S. H. Kress & Co.	10,756,422	5.8

TOTAL	$138,136,391	13.1

Name Selected for New Foshay Utility Concern

R. B. Brunner, California sales manager for the W. B. Foshay Company, has just returned from the East, where he was called in conference concerning the general set-up of the new company which is to be formed to replace the People's Light and Power Corporation, recently sold to G. L. Ohrstrom & Co.

The name of the new corporation will be the Public Utilities Consolidated Corporation, and will be the operating company that will handle the operating units extending from coast to coast. The financial set-up of the new corporation will be superior in many respects, it is believed, to that employed in financing the Peoples Light and Power Corporation.

Definite announcement concerning the new structure and the general plans of the company will be ready within the next sixty days.

ADVERTISING AGENCY OPENS CHICAGO UNIT

In order to take care of its growing clientele in that region, the financial advertising agency of Rudolph Guenther-Russell Law, Inc., whose principal offices are in New York, has established an office in Chicago's financial district. Quarters have been opened in the Postal Telegraph Building, next to the Chicago Board of Trade and in the heart of the banking community.

The Chicago office is in charge of J. Harry Alderton, who has been associated with the New York firm for a number of years.

ARIZONA LUMBERMEN TO GATHER IN JUNE

FLAGSTAFF (Ariz.), April 11. (Exclusive)—Northern Arizona millmen will be hosts to the 1927 convention of the Arizona Lumbermen's Association, to be held here June 17 and 18. Trips will be made through the woods and the milling plants and a full day later will be spent at the Grand Canyon.

DROP IN RENTALS SLOWER

Moderate Slackening of Downward Pace Held Significant in Light of Recent Survey of Building

BY PAUL WILLARD GARRETT

[Copyright, 1927, by New York Evening Post, Inc.]

NEW YORK, April 11. (Exclusive)—Rents on the average for this country have continued to decline during the past year, but at a slower rate than during the previous year. Compilation made by the National Industrial Conference Board, Inc., gives an average for February 2.8 per cent below that for the same month of 1926. It shows rents for the country as a whole now about 8 per cent under their peak for all time reached in 1924.

The figures are based on data collected in 181 cities in all sections of the United States, including both large and small and apply to houses and apartments such as are occupied by families of moderate incomes. They do not presume to reveal the trend of rents in high-class office buildings and high price city apartments.

This moderate recession in rents is all the more significant when studied in conjunction with the F. W. Dodge Corporation reports on present building activity. Just as the decline in rents is more gradual than had been anticipated, the volume of construction holds up better than authorities had reckoned. It was the building industry that gave impetus to the period of prosperity still on, and virtually all of the prophets predicted some time ago that the pace of general business would slow down with the inevitable collapse of the building boom. All such prophecies have gone astray, and in March, 1927, construction contracts to the amount of $621,000,000 were, according to the F. W. Dodge Corporation, awarded in the twenty-seven States east of the Rockies. That only is 4 per cent above March a year ago but 97 per cent over February this year. It is the largest month on record. It tops the previous high of August, 1925, by $6,000,000.

The total construction volume for 1927 to date still falls slightly short of that for corresponding 1926 months, but the recent pick-up in building convinces some people that the aggregate volume for this year may come fairly close to the record for last year. Certainly the wave of building has been gaining rather than losing momentum since the turn of the new year. Of course, the key to the country's prosperity does not lie entirely in the building industry, but to a large degree the fortunes of the country are bound up in those of the building industry, the iron and steel industry and the automobile industry.

At the present moment reports from all of these industries are more favorable than had been expected in the January forecast. The building industry and the iron and steel industry both set new high records in March. What the future holds in the automobile industry is very uncertain. Production has increased of late and now is substantially better than it was late in 1926. The question revolves around the programs of the giant automobile makers and what they will do in the war of competition now on nobody knows.

AMERICAN TELEPHONE NET IN FEBRUARY OFF

NEW YORK, April 11. (AP)—February operating income of the American Telephone and Telegraph Company declined to $9,117,320 from $9,553,799 in February last year and for the first two months this year of $18,809,000 from $7,325,411. February gross of $7,896,226 was about $137,000 larger than a year ago.

STOCKS JUMP TO NEW HIGHS

U. S. Steel Common Makes Record Advance

General Motors Also Bid Up to All-Time Top

Many Early Gains Canceled in Late Trading

NEW YORK, April 11. (AP)—Resumption of operations for the rise in today's stock market sent more than a score of representative issues to record high levels, but it was accompanied by increased selling pressure for both accounts. New weak spots continued to crop out here and there, and many of the early gains in the high-priced industrials and specialties were reduced or canceled in the afternoon trading.

Unexpected stiffening of call money rates from 4 1-8 to 4 1-2 per cent, coincident with the calling of about $10,000,000 in loans, despite the sharp increase in reserve shown in last Saturday's clearinghouse statement, had a tendency to dampen bullish enthusiasm. The weekly report of Federal Reserve brokers' loans showed an increase of $36,926,000 in the week ended last Wednesday, bringing the total to $3,840,238,000, or close to the high level of the year established on March 16. Loans are still well below the record of $3,141,125,000 established January 6, 1926.

The unexpected small decrease in the March unfilled orders of United States Steel Corporation, which were made public last Saturday afternoon, undoubtedly contributed to the large volume of week-end buying orders in Steel common, which touched a new high record for all time at 172 3-4 and then sold down to 171 3-8, up 3-8 net. Republic Iron and Steel advanced over a point to

(Continued on Page 20, Column 1)

The American Investor Changes His Mind

Back in 1923-24 when foreign bonds were the object of general disfavor and prejudice, BLYTH, WITTER & CO. first undertook the distribution of carefully selected securities of this class.

Our decision to enter the foreign field came from the realization that foreign bonds were fundamentally sound, and offered a higher yield, with better security, than could be obtained from domestic issues.

The intervening years have fully justified this position. Foreign bonds today have become a popular investment sought by insurance companies, institutions, and conservative individual investors. The demand for foreign securities exceeds the amount offered, with the result that market prices have been forced steadily upward. Many issues handled by us in 1924 and 1925 show a 3 to 15 point increase in prices today.

We believe the foreign field still offers many opportunities for sound investment. The following issues selected from our current list are indicative of the attractive character of current foreign offerings. We shall be pleased to send detailed circulars descriptive of them.

METAL MARKET REMAINS QUIET

Lead Slumps to Point Below Bottom of Last Drop

Copper and Zinc Prices Hold at Firm Figures

Silver Strengthens Slightly; Reported at 57 1-4

BY CHARLES F. WILLIS
Editor, The Mining Journal

The metal market remains quiet and uninteresting, with copper sticking to 13, lead dropping to a price lower than the bottom of the last decline, 7.35, and zinc remaining at 6.50. Silver has strengthened a little to 57 1-4.

The lead market is distinctly a buyers' market, with the producers competing for business, and this has probably been the cause of the decline to the present low price. Zinc also finds the producers out after the business, with an inclination to cut prices in order to get it.

It is generally expected that, when the total for March sales of copper are made public, they will show to be very low, probably lower than we have had for many months. This was, of course, the natural reaction from the heavy buying of February, which was distributed for delivery over a several months' period.

The lull of copper buying, however, is expected to bring the buyers into the market in April in goodly numbers, and the producers are not making any attempt to force their copper onto the market. While the price has remained around 13, there is not much copper reported sold at that figure, mostly small amounts, and the turning over of the stocks of custom smelters.

DOMESTIC SALES OFF

While domestic sales of copper will show low for March, there should be an improvement in the figures for foreign buying. The Copper Exporters, Inc., have cut the price an eighth and it now stands at 13 1-2, and this has attracted European purchasers.

The industrial situation in European countries during 1926 is reflected in its metal takings during that year as compared with 1925 and 1924, and the showing, in a general way, is not as bad as might be expected in view of what happened on the other side of the Atlantic.

Great Britain went through many months of a coal strike during 1926, which largely paralyzed the industries of that country. This was more directly reflected in the amount of copper imported than in any of the other metals, for Great Britain took but 8827 tons of copper per month, as against 11,945 tons monthly during 1925 and 10,163 tons monthly during 1924.

Germany had its big industrial year in 1925, when it took 16,086 tons monthly of copper, 10,301 tons monthly of lead, and 6925 tons monthly of zinc. This year was the occasion for starting heavily into manufacturing under the Dawes reparations plan, and Germany started out on an industrial pace that could not be maintained.

FRENCH IMPORTS

France had its best year in 1924, for during 1925 there was so much squabble over debt settlements and political strife that the confidence necessary to do satisfactory business was lacking. In 1924 France took 11,381 tons of copper monthly, 7035 tons of lead monthly and 4846 tons of zinc monthly. The reflection of the better attitude of France during the latter part of 1926 is shown in its imports of the metals.

Italy has been comparatively free from the disturbance of the other countries and has slowly and steadily advanced its metal purchases from year to year. In 1926 it took 3732 tons of copper monthly, 1585 tons of lead monthly, and 864 tons of zinc monthly.

These four countries are the largest users of the metals, yet substantial amounts are taken by other European countries, for during 1926 Czecho-Slovakia took 1094 tons of copper monthly, soviet republics, 1080 tons monthly, Sweden, 1034 tons monthly, Belgium, 956 tons monthly, Austria, 893 tons monthly, Switzerland, 732 tons monthly, and Hungary, 670 tons monthly.

RUSSIA USES LEAD

In lead, the soviet republics is a comparatively large user, having taken 1740 tons monthly during 1926, and they also took 995 tons monthly of zinc slabs and blocks. The soviet republics have had a consistent gain in their metal requirements.

The features that have upset the metal situation in the European countries during the past several years are largely smoothed out, and, while we have no reason to expect any flood of orders from Europe, we do have reason to expect a steady increase in the amounts of metals that they need. The potential market is there, they really need far more metal than they are able to buy, and the restrictions will be largely dependent upon their ability to purchase and use the metals.

A factor that bids fair to make 1927 a better year for copper abroad is the better functioning and the progress made by the Copper Exporters, Inc. A London observer states that "the attitude of European consumers toward the copper market is far more respectful than it has been for a long time."

THE INVESTOR

Savings Banks Association Gives Salient Points of Defeated Sargent Bill

BY RALPH HENDERSHOT

[Copyright, 1927, by New York Evening Post, Inc.]

NEW YORK, April 11.—In view of the tremendous interest taken by bankers and bond dealers all over the country in the Sargent bill, legalizing certain public-utility securities in New York State, the review of this measure, which is contained in the latest bulletin of the Savings Bank Association of New York, should be of general interest. Especial importance is attached to the bill by reason of efforts made by those most interested to bring about its passage and to the fact that it was overwhelmingly defeated in the Assembly last week.

The review says that the bill proposed to legalize only the bonds of the larger companies having an unbroken record of earnings for a number of years, no default in any debt for a number of years, operating under proper franchises and the control of a public service commission or other regulatory body.

The bonds, it adds, must be first mortgage obligations or bonds of a refunding issue to include the retirement of first mortgage issues, must be for not more than 60 per cent of value of physical property owned by the corporation, and there must be capital stock back of the bonds representing not less than two-thirds of the amount of the bonds.

"A reading of the bill," says the review, "will demonstrate that only high-grade companies will qualify and then only the very best of the bonds of such companies."

In pointing out the need for a broadening of the list of legal bonds for savings banks, the association makes a number of deductions which are of general investment interest. It says in part:

"During the last few years a number of railroad bonds have gone off the legal list due to suspension of dividend payments or receivership of the roads. After a railroad ceases to pay dividends its bonds are no longer legal investments.

"It is true that there has been an improvement in railroad earnings in the last year or two, but, nevertheless, there is really a small supply of high-grade first mortgage railroad bonds and those that prudent investors deem suitable for purchase pay a return of only from 4 1-4 per cent to 4 1-2 per cent.

"The return on municipal bonds has been steadily going lower. Municipal bonds have an artificial price, due to the tax exemption feature, and at their present quotations pay savings banks only a trifle more than 4 per cent. It is reasonable to assume that the return on this type of investment will tend to become smaller because of the increase of money available for investment in this country.

"Municipal bonds of the larger communities can, of course, be rated very high from every point. The bonds of the smaller towns, villages and cities, while they may be safe, are not considered to have a high degree of marketability and are therefore not as desirable."

The Clearinghouse

News of Spring Street

Members of the Los Angeles Stock Exchange yesterday voted to observe Good Friday with a two-day holiday. The exchange will be closed on Friday and Saturday of this week, and will open again on next Monday morning. The New York Stock Exchange will be closed on Friday and the usual short session will be held on Saturday.

Roth Opens Offices

J. H. Roth, formerly associated with C. C. Julian & Co., announced yesterday the opening today of offices at 651 South Spring street, where he will engage in a general brokerage business in stocks, bonds and investment securities. The business will be conducted under the name of J. H. Roth & Co.

Roxstrom to Speak

"Credit Terms" is the subject of a lecture to be given by R. F. Roxstrom, credit manager of the Union Hardware and Metal Company, at metropolitan college, University of Southern California, this evening. Emery E. Olson, director of co-ordination at the University of Southern California and professor of credit management at metropolitan college, will preside at the meeting.

COTTON MARKET

NEW YORK, April 11. (Exclusive)—Liverpool was lower today for both spots and futures on some hedge selling and profit-taking by local traders, principally owing to Bombay interests turning up good sellers on balance of futures at Liverpool. Spots there were off 5 points to 7 3-4d for middling, while futures declined 3 to 4 instead of advancing 4 to 5 due.

These lower cables sent the market off here 5 to 6 points from their closing of Saturday, with May selling at 14.58c, July 14.38c, October 15.54c and December about 14.70. The decline was checked, however, by the continuance of last week's good trade buying and by news of further heavy rains in parts of the Central States, Oklahoma and Eastern Texas attracting further attention to the lateness of farm work for planting operations for the new crop in that section.

Also, it caused a good deal of comment as to the possibility of extensive flooded areas developing in Arkansas, Mississippi and Louisiana.

The market recovered all the early decline in the afternoon on fresh buying by local traders and covering of shorts. May went back to 14.14c on this rally, July 14.34c, October 14.60c and December about 14.80c.

Most of this recovery was held in the last hour on forecasts of more rains tonight and tomorrow. Liverpool cotton futures also rallied at the close there, finishing with a net decline of 5 points on the day.

WALL STREET PARAGRAPHS

Flood of Gossip Loosened by Early Run Up in Chrysler Shares

[Copyright, 1927, by New York Evening Post, Inc.]

NEW YORK, April 11. (Exclusive)—Naturally the spectacular opening in Chrysler involving a block of 8000 shares at an advance of 2½ points gave rise to all manner of gossip. Stories ran from a new combination to buying for the account of the leading motor producer. But in usually well-informed quarters these were put down as having little weight. Chrysler's strength, it was contended, was based wholly on its large current rate of business and bright prospects for the rest of the year. Incidentally, the high made at the opening stood as the top level of the day, the bulge encouraging no little realizing.

Profit-taking Develops

The burst of strength in early trading, which carried a number of stocks, including General Motors, Steel common, Commercial Solvents, Baltimore and Ohio and a number of other leaders into new high territory, was interrupted around midday by the development of profit-taking on a broad scale. Doubtless the run up in call money to 4½ per cent again in face of the vast improvement in Saturday's bank statement, was something of an influence, but is it known that many big traders are playing a close game not wishing to be caught with big lines in the event of a sizeable reaction.

Hudson Develops Strength

The feature of the afternoon was the brisk upturn in Hudson Motors, which had been under pressure earlier with other popular issues. Buying of Hudson was ascribed to the expectation that its first-quarter statement, due around the end of the week, would make a surprisingly good showing. A good deal of the demand which came into the stock after midday was reported to represent covering operations of those who have been active in the selling side recently.

Freeport Texas Breaks

Freeport Texas came down today with even greater swiftness than it had risen in the course of its spectacular rise of last week. The reaction was not surprising, however, as the street had viewed the advance as too rapid to hold. The sharp break was due to attempts at heavy realising and the touching off of large volume of stop-loss selling. There was a moderate recovery when selling had run its course.

Institutional Buying

If American insurance companies during 1926 increased their investment holdings of high-grade stocks in the same ratio as that revealed in the detailed statement of the Sun Life Assurance Company of Canada, a good deal of the stock market's strength in that period and since is explained. The foregoing company in its annual statement reveals its holdings of bonds and stocks of a valuation of $214,007,601 at the end of 1925 to $344,259,069 at the end of 1926. Of course, much of this gain reflects appreciation in market value of the securities held, but there are specific instances where holdings have been sharply increased. Largest investment, incidentally, is recorded in American Telephone and Telegraph and in Montreal Power.

Nearing Test Period

The next three weeks will prove something of a test period for the market, explained one experienced observer today. During that time a good many first-quarter reports of leading corporations will be available and will furnish real light on the trend of business in various directions. There are few really great corporations that are not handling more gross business than last year, but with the profit smaller. At the same time some smaller corporations are known to be handling a smaller average of trade.

Hill Roads Merger

In this city to attend tomorrow's annual meeting of Northern Pacific, Charles Donnelly, president of the road, said today that the plan for consolidation of the Northern Pacific and Great Northern would probably be ready for presentation to the Interstate Commerce Commission within about ten days. Mr. Donnelly, who has just returned from an inspection tour of the properties, said that conditions in his territory are excellent for small-grain crops.

BAY CITY EXCHANGE SALES AT NEW HIGH

SAN FRANCISCO, April 11. (AP)—The San Francisco Stock and Bond Exchange business during March broke all previous records says a market report. The market value of securities traded reached $44,384,172, nearly $500,000 higher than the previous high mark made in February, 1928. The combined number of shares traded in January, February and March of 1927 totaled 4,235,582, compared to 2,895,789 in the corresponding period of 1926.

IMPERIAL UTILITIES FINANCING APPROVED

SAN FRANCISCO, April 11. (Exclusive)—Imperial Utilities Corporation has been authorized by the Railroad Commission to issue and sell at not less than 93 per cent of face value, plus accrued interest, on or before August 1, $125,000 worth of 6 per cent twenty-year bonds. The proceeds, after paying $71,500 in outstanding notes, are for additions and betterments.

FISHER'S WEEKLY INDEX

[Copyright, 1927, by Irving Fisher.]

The following table shows the average movement from week to week: (1) of the wholesale prices of 200 representative commodities (from Dun's Review,) and (2) of the purchasing power of the dollar.

	Index Number	Purchasing Power
1913	100	100
1920—May (peak of prices)	247	40.5
1923—January (low)	138	72.5
1923—Average	157.7	63.4
1924—Average	149.3	67.0
1925—Average	150.2	66.8
1926—Average	151.5	66.1
1927—January average	145.5	68.7
1927—February average	143.0	69.9
1927—March average	140.7	71.1
1927—Quarterly	142.9	70.0
Week ended April 8	140.9	71.0

Evidencing Ownership in

Municipal Improvement Bonds

Due Serially February 1, 1928 to 1937

DENOMINATIONS $1000 AND $500

FARMERS & MERCHANTS NATIONAL BANK, Los Angeles, Trustee

Exempt From Federal Income Tax and California Personal Property Taxes, in the Opinion of Counsel.

CERTIFICATES: These Certificates represent actual proportionate ownership of an equal amount of carefully selected California Municipal Improvement Bonds, deposited with the Farmers and Merchants National Bank, Los Angeles, as Trustee.

DEPOSITED BONDS: Municipal Improvement Bonds, deposited in the trust have been issued by the City of Los Angeles and neighboring cities for paving of streets, and other public improvements. The deposited bonds average $140 each, and are a direct lien ranking prior to all mortgages, present or future, on real property having a total appraised value in excess of 29 times this issue of Certificates.

APPRAISAL AND LEGALITY: Each bond is accompanied by an appraisal made by an appraiser approved by the State Corporation Commissioner, together with a legal opinion of an attorney satisfactory to the Trustee.

SERIAL MATURITIES: Serial maturities of Certificates are met through the annual installment payments on the deposited bonds, and under the terms of the trust no changes or substitutions of bonds may be made during the life of these Certificates.

Certificates issued by the

A Timely
Investment
Policy

SERIOUS problems confront the bond or stock investor today. Investments are more difficult to make and yields are doubtless less attractive. Furthermore, there is the more vital question of what to do with present holdings.

It is to answer these questions of our clients that we have sent them a special letter under above title. A few copies are also available for investors interested in this subject. Request Letter No. 13

What Is A First Mortgage

A FIRST mortgage may represent 50%, 75%, 100%, or more, of the pledged property. In fact, a corporation or an individual may make a loan of ANY proportion and call it a first mortgage if there are no underlying liens. Hence there are "first mortgages and first mortgages."

Only by strict adherence to a fixed, conservative standard can complete safety be approximated. The Mortgage Guarantee Company draws the line at 50% of a property's appraisal value; and the appraisal must conform to the standard of the State Insurance Department as well as to the rigid requirements of the Company itself. Consequently, the Guaranteed First Mortgage Certificates of this Company, in addition to the Company's own guarantee, are secured by first mortgages (or first trust deeds) of the most conservative type, which, as a further precaution, are widely diversified.

These Certificates are issued in denominations of $100 and multiples thereof, and are tax free in California. There are no coupons to clip. Interest checks are mailed on due dates. For investors seeking a sound, convenient, and thoroughly dependable form of investment yielding 6%, these Certificates meet the most exacting demands.

SAFETY FACTORS
FOR INVESTORS

CALIFORNIA Mortgage Insurance laws carefully regulate the operations of this Corporation. We meet every requirement of the California Act, yet do not rest by remaining within the law. Self imposed restrictions by our executives on the selection and insuring of first liens are more stringent than those prescribed by the statute itself. Insured First Mortgage Certificates, issued from time to time through our offices bring high yield and insured safety. NEW booklet free.

NEW YORK BOND PRICES

NEW YORK, April 11. (AP)—Although trading was in relatively small volume and prices generally were inclined to heaviness, a number of new high prices for the year, or longer, were registered in today's bond market. Increasing pressure of new offerings, including the $25,000,000 New South Wales 5s which was promptly oversubscribed, exercised a restrictive influence on the market for listed bonds.

Heavy profit-taking developed in Erie D 4s and Consolidated 4s, the former receding more than a point. New 1927 highs, on the other hand, were established by a number of the Chicago and Northwestern and St. Paul issues, and Western Maryland 4s.

Among industrials, a new peak price was attained by American Writing Paper 6s, while Davis Chemical 6 1-2s scored a gain of more than a point.

Brooklyn Union Gas 5 1-2s and Cities Service Power and Light 6s were in brisk demand, but realizing carried Market Street Railway 7s down a point from its maximum of Saturday.

Mexican Irrigation 4 1-2s moved up more than 2 points to a new top for the year at 40 1-2 and Rhinelbe Union 7s with warrants, advanced nearly as much to within a fraction of its record high. Rome when issued 5 1-2s were liquidated in considerable amounts.

United States government issues were irregular, with continued selling of the Second Liberty 4 1-4s.

Public offerings will be made tomorrow by a syndicate headed by Dillon, Read & Co., of $30,000,000 City of Milan (Italy) 6 1-2 per cent sinking fund bonds, priced at 92.

A large volume of public utility issues is expected on the market soon, including $60,000,000 Duquesne Light Company 4 1-2s, $4,000,000 Queensborough Gas and Electric Company 5 1-2 per cent debentures, $4,680,000 Southwest Power Company 5 per cent gold bonds, and a number of smaller issues. Offering will be made tomorrow of $5,000,000 Minnesota and Ontario Paper Company first mortgage 6 per cent gold bonds, priced at 100 and interest.

The quotations represent sales of bonds (in thousands of dollars) and the high, low and closing prices for the session, unless otherwise stated in footnotes, also is omitted when same as high, and both low and close when same as high.

STOCKS JUMP TO NEW HIGHS

(Continued from Seventeenth Page)

72 1-2. Wall street expects important changes in Republic's directorate next Wednesday as a result of the recent purchase of a substantial interest in that company by C. S. Eaton and his associates. Bethlehem Steel sold down nearly a point as traders became reconciled to reports that the resumption of dividends probably would be delayed until later in the year.

General Motors common was bid up to a record top at 196 on official announcement that March sales of cars had broken all monthly records, but it sold down later to 194 1-2 for a net loss of 1-3 a point. Heavy buying of Chrysler, which scored an extreme gain of over 2 points by touching a new peak for the year at 46, was accompanied by unconfirmed merger rumors. Mack Trucks and Hudson each climbed nearly 3 points, also to a new 1927 top, but Pierce-Arrow preferred broke 6 points to a new low at 77 and minor recessions took place in some of the other motors.

New high prices since 1925 or longer also were registered by Commercial Solvents B, International Nickel, R. H. Macy, Consolidated Textile, Reynolds Tobacco B, American Water Works and Public Service of New Jersey.

Strength of Chesapeake and Ohio, which attained a new high for the year at 171 1-2, coincided with publication of statistics showing a paper profit of $18,000,000 on Erie and Pere Marquette stocks either owned or under option by that road. Atchison was run up over 3 points to 182, a record top, while Kansas City Southern, Baltimore and Ohio, St. Louis Southwestern, Texas and Pacific and "Katy" common touched their highest prices in years.

Time money, which was quoted last week at 4 1-2 to 4 3-4, was again back to 4 3-8 to 4 1-2. Commercial paper rates were unchanged.

Establishment of a new high by Italian lira around 4.85 cents featured the irregular foreign exchange market. Demand sterling and French francs were slightly easier around $4.85 1-4 and 3.9 cents, respectively. Sharp breaks in the Spanish and Japanese rates probably represented profit-taking.

With the exception of sugar, which advanced 1-16 of a cent a pound, all the principal commodity markets lost ground. Wheat options dropped a fraction of a cent a bushel and cotton futures closed 1 to 3 points lower. Coffee prices showed net losses of 8 to 11 points.

Wheat Rallies After Setback to Low on Crop

CHICAGO, April 11. (Exclusive)—Liquidation was on in the grain markets early, with a decline to 1.31⅝ for May wheat and to 1.36¾ for July, both selling at a new low on the crop. Aggressive short covering developed, however, and a strong rally followed, with the close ⅝c lower to ⅛c higher, the former on May and the latter on July, which finished at 1.37⅝@1.37⅞, or 3c under May, against 4c under on Saturday. September closed at 1.35⅝.

Pressure was in evidence in corn, from the start, and with longs liquidating, the finish was ¾@1c lower, with May leading. That future closed at 71⅝. July 78⅝@78⅞, and September 73⅝. Oats were unchanged to ⅛c lower, with May 43¼@43⅝, July 41, while rye was ¼@½c lower, with May 1.01⅛, July 89⅝ and September 84.

Liverpool cables failed to reflect the pronounced weakness in North American markets, closing ⅝d@1d lower, and with reports of final damage by rusts of Kansas led to scattered buying and a small upturn here early, but as soon as the buying ceased, prices started downward, and with selling on account a break of 1@1½c from the early high followed. Stop-loss orders were uncovered on the way down, and longs in general liquidated. Support came largely from shorts and from holders of bids, which was sufficient to absorb the surplus in the pit and bring about a severe rally.

Extremely unfavorable weather conditions were reported in the Canadian Northwest and spring wheat seeding is delayed. There were also complaints from this side of the international line, which had some effect on the deferred deliveries. There was also selling of May against purchases of July by local operators, which helped to narrow the spread. Winnipeg finished ⅛c lower to ⅛c higher, and Buenos Aires unchanged to ⅛c higher.

Liquidation was on in corn, and with support coming largely from shorts and holders of bids, a decline was easily obtained, with May leading. Trade was somewhat larger. Weather conditions were unfavorable for field work, but attracted little attention. Eastern demand remains active. Visible supply decreased 1,336,000 bushels for the week and is 45,634,000 bushels, against 25,-826,000 bushels last year.

Threat in corn had a depressing effect on oats, but the latter received support from houses with interior connections, and rallied quickly from the Goldie figures. Complaints of seeding being delayed are increasing.

Northwest liquidation developed in rye and prices averaged lower. Break in wheat had considerable influence. The seaboard reported 30,000 bushels sold for export.

Packers were good sellers of lard, especially for May and general liquidation was on, with a lower range of prices, buying support being limited. At the close lard futures were unchanged to 25c lower, the latter on September. Lard in Liverpool was unchanged.

Short ribs had poor support, closed 10@17½c lower. Bellies were taken more freely by commission houses, after a break, and closed 10c higher.

Hog prices were strong to 5@10c higher, but closed weak.

San Joaquin Light and Power Corporation

Notice of Redemption

Unifying and Refunding Mortgage Thirty-Year Six Per Cent Gold Bonds Series "C" of 1927

NOTICE IS HEREBY GIVEN that pursuant to the provisions of Article IV of the Unifying and Refunding Mortgage, dated March 1, 1927, executed by The Equitable Trust Company of New York, Trustee, San Joaquin Light and Power Corporation has elected to redeem and pay on May 1, 1927, all of its Unifying and Refunding Mortgage Thirty-Year Six Per Cent Gold Bonds, Series "C" of 1927, issued thereunder and then outstanding, which are dated March 1, 1927.

Accordingly, on May 1, 1927, there will become due and payable upon each and all of said Bonds so called for redemption, at the office of the Trustee, The Equitable Trust Company of New York, No. 37 Wall Street, Borough of Manhattan, City and State of New York, the principal thereof, together with the premium thereon of 5% and the interest thereon accrued to May 1, 1927; and from and after May 1, 1927, said Bonds shall cease to bear interest and shall cease to be entitled to the lien of said Mortgage, and the coupons for interest maturing subsequent to the date fixed for the redemption of said Bonds surrendered for redemption must be attached all coupons maturing subsequent to May 1, 1927. Interest represented by coupons maturing on or prior to said date should be detached in the usual manner.

Registered bonds without coupons for interest bonds registered as to principal must be accompanied by proper instruments of assignment or transfer in blank.

Dated March 29, 1927.

SAN JOAQUIN LIGHT AND POWER CORPORATION

By ERNST E. SILER, Treasurer.

MEXICAN BONDS ADVANCE

In view of rumors that oil and land controversy will be settled shortly, this settlement will result, in our opinion, in sharply advancing prices for all Mexican "Assented Bonds."

We recommend the immediate purchase of Government and Railway bonds, to yield at current market 10 to 12 per cent. The opportunity for substantial market profits we believe to be unique.

Descriptive Circular, Moody's Ratings and Prices on Request.

CAPITAL

ARE you planning to organize a company? Or have you a stock issue to place? Our financing service is for corporations desiring to form and finance companies under the guidance of qualified legal, industrial and financial specialists. We are interested in legitimate projects in need of financing. Not all propositions are acceptable to our service—every new project cannot succeed by this or any other method. But if your proposition is meritorious, the Los Angeles field where we have specialized for over seven years offers a real opportunity for capital, whether small or large.

Before organizing your company or deciding your financing plans, you are invited to consult with no personality.

Now That High Stools Are Gone

In the days when accountancy was a matter of high stools, eye shades, and long-suffering clerks, a man regarded himself as fortunate if he knew how much his properties cost.

To him, value was just another term for cost.

Today when the world has learned that value may range far above or below cost, prudent business seeks its valuations from an authoritative source.

The American Appraisal Company

MILWAUKEE

Los Angeles—I. N. Van Nuys Bldg.

A NATIONAL ORGANIZATION

I take great pleasure in announcing the opening of my offices today, April 12th, at 651 South Spring Street for the transaction of a general brokerage business in Stocks, Bonds and Investment Securities.

The business will be conducted under the name of J. H. Roth & Co.

A cordial invitation is extended to you to inspect this modern office where all conveniences for comfort and efficiency have been installed.

Come in, let's get acquainted. I want my friends to be my clients. I know my clients will be my friends.

J. H. Roth

NEW YORK CURB STOCKS

NEW YORK, April 11. (AP)—While a number of public utility and specialty shares displayed firmness on today's curb market, trading was in limited volume and prices on the whole were irregular. Operators continued to choose their favorites on special considerations rather than on news of any general character.

Several new high prices were established in the utilities division, with United Gas Improvement among the leaders, grossing 100 for the first time this year. American Light and Traction touched 121½ and Northern States Power A 114½, both new peaks for the year. New Bedford Gas and Electric Light, the floating supply of which is limited, jumped 23 points to a new record on a few odd lot sales.

On reports later informally denied that J. P. Morgan & Co. had acquired control, American Cellulose and Chemical common and preferred registered new maximum prices. Gillette Safety Razor was in heavy demand and Tubize Artificial Silk made a further advance of 6 points to a new 1927 record high. Warner Brothers' Pictures, on the other hand, suffered from selling pressure.

Motors were irregular. Marmon Motors sold up 2 points to 54½, while most of the other shares declined fractionally. Durant got down to 12 and closed at 12½, a loss of half a point on the day.

Oil shares inclined to heaviness on further gasoline price cuts. Carib Syndicate duplicated its low record for the year at 16. International Petroleum on the other hand was in fair demand.

The closing price is omitted when same as the low, and both low and close when same as the high.

Studebaker

WHY DID ITS production decline? Were 1926 earnings good? Will the $5.00 dividend be continued? What are their 1927 prospects? Is its financial position sound? Should the stock be bought at its present level?

The Studebaker Corporation is the outgrowth of a business established in 1852 and today is one of the largest and strongest automobile companies in existence. Several times it has been mentioned as the nucleus of a gigantic new automobile combine. What's ahead for it now?

Investors contemplating buying Studebaker should ask our Investment Counsel department for information about this stock.

Call, phone or

THRICE PROTECTED for *Your* Safety

NATIONAL-INSURED FIRST MORTGAGE CERTIFICATES

OUR Insured First Mortgage Certificates represent an interest in a group of first mortgages on income producing property.

We insure payment of interest and principal.

We invest our own funds and make sure that appraisals are at least double the loans, and that there is diversity in any group of mortgages we insure.

We operate under the supervision of the Insurance Commissioner of the State of California, under the Mortgage Insurance Law of California.

One of the largest National Banks in the West holds the mortgages in Trust, and authenticates each Certificate.

You have first mortgage security, thrice protected, when you buy National-Insured First Mortgage Certificates.

Certificates now issued in multiples of $100 for any desired time.

6% *Guaranteed* Interest

RUBBER MARKET

NEW YORK, April 11. (Exclusive)—A flurry of buying appeared at the opening of the outside crude rubber exchange today on the publication of the rubber association statistics which placed the March consumption at 26,141 tons against arrivals of 23,871 tons. The rally was short-lived and prices settled back to their former positions. Local spot was quoted at 41¼c, unchanged.

The London trend increase was 125T tons, bringing the total to 13,581 tons. The London price average is 19 3/16d. London closed unchanged at 20d. The pool continued to dominate the trading. The tire price question, which hinges on Firestone's decision, seems to be the principal factor in the market.

BOND MARKET BEST

Moody Says Stock Averages Not Reflection of List

Moody's weekly review of financial conditions in its current issue says in part:

Bond prices are still making new high records. One really has to go back to the period of 1896 to 1899 to find anything like a precedent for this bond market. Then, as now, commodity and goods prices were showing a main downward trend, and bond prices an upward trend.

The stock market as a whole is not advancing so much as the popular averages make it appear. These simple arithmetical averages are too much influenced by the erratic movements of high-priced specialities, and do not give a true picture of the real stock market.

The absence of genuine inflation of inventories and credits ought to mean that no real bear market is in sight; but, on the other hand, a normal reaction after such a large advance might amount to 20 or 30 points whenever it comes. Statistically stocks are not in so strong a position as bonds.

LUMBER TRADE GOOD

BUILDING IN PHOENIX ACTIVE

AND BOX PLANTS RUNNING AT FULL CAPACITY

PHOENIX, April 11. (Exclusive)—Lumber for the larger hotel and business structures under way in Phoenix mainly is secured direct from San Pedro through Los Angeles dealers, according to a local wholesaler. Local demand is very good, however, with scores of homes under construction.

The box industry of Phoenix has hardly been able to keep up with the demand, the three local plants having been compelled to operate day and night to supply crates for the lettuce shipments. This work will be ended late in April, when intense activity will start in getting ready for the cantaloupe crop, which will mature on 5000 acres early in July. Some box shooks come direct from Northern Arizona mills, but some are received from the coast.

FONTANA BANK GAINS

New First National Shows Good Growth in Seven Months

FONTANA, April 11. (Exclusive)—Bank deposits of the First National Bank of Fontana have increased from $294,472.26 on August 21, 1926, the day the institution opened its doors, to $645,845.84 on the 8th inst., according to a report just completed for the board of directors. H. S. Barbee, president of the bank, believes the business of the institution is a record so far as community banks in California are concerned.

Deposits of the bank on March 29, last, were $545,257.35, the report further reveals, having increased more than $100,000 in less than a month. Resources on March 29, last, were $609,100.82, and on the 8th inst. they had jumped more than $100,000 to $711,582.82. Deposits on the last day of 1926, as per the comptroller's statement, were $456,119.72.

BY HOWARD C. KEGLEY

Another 2000-barrel well was added to the string of prolific producing wells in the townlot district of Alamitos Heights in the northwestern extension of the Seal Beach field over the week-end. The Pan American Petroleum Company brought in its Naples No. 5 well from a depth of 4755 feet, producing at the rate of 2000 barrels a day. It is the third well to be completed by the Pan American in this area, and the fourth in the field by any company.

The Pan American yesterday began a test on its Naples No. 4 by drilling out the plug preparatory to a water test. This well should be on production within the next two days. Besides this well, the Pan American has its Naples No. 2 standing cemented, and ready to drill out in a day or two.

Sets Casing

J. Paul Getty, whose first well in the Alamitos Heights district at Seal Beach is still making the other operators sit up and take notice, expects to have his second well on production about Sunday, according to official reports. The well set a water string yesterday, and although the exact depth of the cement job was withheld, it is understood to be considerably higher than the depth of the cement job in any other well in Alamitos Heights, possibly 4675 feet, more or less.

Getty's No. 1 well continues to produce at the rate of between 3000 and 4000 barrels a day, beaned down, together with about 4,000,000 cubic feet of wet gas, it is said. The well is hardfooted, which makes Getty cautious about opening it up.

Gets New Well

The Standard Oil Company yesterday added its Los Angeles Investment No. 1-32 to its list of producing wells in the Inglewood field, according to officials of the company, bringing the well in at a depth of 2170 feet, with an output of about 280 barrels a day.

Plan Test Well

The Shell Company which pioneered the development of the Seal Beach field for four years at the cost of four dry holes, and no producers, is preparing to start a wildcat well on the sole piece of property still remaining to it in that area, according to officials of the company. The Shell made the mistake of leasing all the territory just off the edge of the structure as now proven, and only one tract actually on the structure, which it eventually surrendered but it still retains about 500 or 600 acres of the Alamitos Land and Water Company property which is acquired at the same time that it acquired its Alamitos leases on Signal Hill where that famous field was afterward discovered. The Seal Beach tract of the Alamitos lease has been in litigation for about a year, but it is understood that the complication has been cleared up satisfactorily, and the Shell plans to drill a test well in the near future.

The Shell built a foundation for a well in the northeastern part of the property about a year ago, but suspended the work when a dispute arose as to the legal boundary. It is understood that the proposed well will not be drilled on the original location.

Makes 300 Barrels

The California Petroleum Corporation has brought in its No. 3 well on the Buck property, north of the old Huntington Beach field, with an initial production of 300 barrels a day, according to field reports. The well was completed at a depth of 4410 feet, and is the best of the trio of producers completed by the Calper on this hitherto unproven piece of property.

Derrick Up

The California National Petroleum Company, has completed the erection of a derrick for its test well northeast of the Huntington Beach field, and a mile east of the nearest production, according to field reports. The rig is not far from the Huntington Beach cemetery where the company has about a section of land under lease.

New Stripper Plant

One of the latest developments in the extraction of gasoline from wet gas taken from the Ventura-avenue oil fields, is to be started with the completion soon of a new gasoline high-pressure stripper plant being erected in flatiocy by the newly organized Ventura Fuel Company.

The purpose of building this plant, according to an official of the company, is to extract under high pressure all of the gasoline from the wet gas that cannot be extracted in the field itself because of the impossibility of getting high enough pressure. This new plant, located on the main fifteen-inch gas line, being constructed by the company to take gas from the Ventura field to consumers in the Los Angeles district, will provide a pressure of 350 pounds per square inch for the extraction of the gasoline.

Work started on the plant at Saticoy less than a month ago, it being planned to have the new plant completed and ready for operation by June 1. It is reported that the investment in the plant alone will be about $400,000.

The Ventura Fuel Company was organized by the combined interests of the Southern Counties Gas Company, the Southern California Gas Company, the Midway Gas Company and the Los Angeles Gas and Electric Company, purposely to build the 60,000,000 pipe line for a cheaper and more efficient means of supplying consumers in the Los Angeles district with the natural gas from the Ventura-avenue oil field here.

LOS ANGELES MARKET

CATTLE—Trading was slow in getting under way on yesterday's liberal supply, estimated at 3500, but a fairly good clean-up was made by Saturday afternoon. More than half of the receipts came from the Imperial Valley, with quite a few from Central California. Outside of California, shipments included a few from Utah, with a fair supply in from Arizona and Texas. The stock arrivals were more liberal than for some time past. Prices generally were very uneven throughout the day, some sales early being around steady, while practically all classes closed 10@25c lower, the stock showing the most loss. A car of 960-pound baby heifers from a Southern California feed lot made 11.75.

Matured steers topped at 9.35, a string of 179 Texas fed bullocks averaging 997 pounds making this price. The best Imperials topped at 9.25, a string of 194 head averaging 1043 pounds realizing that figure, as well as two cars of 949-pound weights. The price spread of 9.00@9.25 took in the bulk of steers, while medium kinds turned mostly from 8.25@8.75, with common steers mostly from 6.75@7.75, including a load of Utah Arizonas at 7.40, while a load and a half of 987-pound Arizona steers made 8.00.

The best cows topped at 7.25, a short load of 1032-pound weights from Central California selling that price, while 31 head with the same shipment, averaging 1140 pounds, brought 7.25. A three-car string of grass cows averaging 993 pounds made 7.00, while two cars of 830-pound Imperial Valley fed cows went over the 7.00 other the stock cows mostly common and medium kinds, were noted from 6.00@7.00, with a few very thin kinds selling down to 5.25, including a load of light Arizonas at 5.50. Calves went over mostly from 4.25@5.00, with low sellers down to 3.00. Bulls were in light supply and held around steady, good bulls turning from 4.00@4.75, with medium kinds down to 3.50 and common bulls around 3.00.

CALVES—Demand was active for good and choice light vealers and these moved readily at steady prices. Other vealers were dull and weak to steady. Two loads of choice California vealers turned from 13.00@14.00, with plainer kinds down to 11.00 and below. Calves were scarce in the supply, a few good and choice kinds selling from 12.00@13.00, with the bulk, plain kinds and heavies from 8.00@10.00.

HOGS—Trading was not overly active; however all offerings were cleaned up. Prices were uneven, mostly steady to 10c higher than last week's close. A load of 137-pound butchers topped at 10.15, while the bulk of 130 to 200-pound weights turned from 10.75@10.00. Loads of mixed offerings and medium weight butchers, including three loads held over from Saturday, went over from 10.00@10.50. Rough packing sows made 10.00, while a few light weights kinds selling up to 11.00.

SHEEP—Offerings in this division included two decks of shorn yearlings, a deck of wooled ewes and a deck of milk lambs, but no sales had been made at a late hour. Good to choice milk lambs were quoted from 14.00@15.00, with medium to choice wooled ewes from 7.00@8.00. Los Angeles partners shipped four refrigerator cars of dressed lambs to eastern markets during the week ending the 9th inst., while San Francisco slaughterers shipped two cars. This makes a total of eight cars from Los Angeles and seven from San Francisco for the current season to date, totaling 3400 head.

YESTERDAY'S QUOTATIONS

Slaughter cattle and calves: Steers (1150 pounds down), good, 8.00@9.50; medium, 6.50@8.00; common, 6.25@6.50. Heifers (850 pounds up), good, 7.25@8.00; (all weights) common and medium, 5.25@7.25. Cows, good, 7.15@7.75; common and medium, 5.00@7.15; low cutters and canners, 3.50@4.75. Calves (milk fed) good, 12.00@13.00; medium, 10.00@12.00; (all weights) common and medium, 7.00@10.00. Vealers, good (beef yearlings excluded), 6.00@6.75; common and medium, 4.75@6.00. Calves (milk fed excluded), medium to choice, 10.25@13.25; cull and common, 8.50@10.25. Vealers, medium to choice, 11.50@14.00; cull and common, 7.50@11.50.

Hogs: Medium weight (200 to 250 pounds), medium to choice, 10.50@10.75; light weight (150 to 200 pounds), common to choice, 10.25@10.75; light lights (130 to 160 pounds), common to choice, 9.75@10.50. Packing hogs, smooth and rough, 8.50@11.25. Stocker pigs (90 to 130 pounds), medium, good and choice, 11.75@12.75. (Soft or oily hogs and roasting pigs excluded in above quotations.)

Slaughter sheep and lambs: Lambs (84 pounds down), medium to choice, 11.75@13.50; (all weights) cull and common, 9.50@11.75. Yearling lambs, good to choice, 14.00@15.00; common and medium, 12.00@14.00. Ewes (wooled,) medium to choice, 6.50@8.00; cull, 4.50@6.50.

OUTSIDE MARKETS

SAN FRANCISCO, April 11. (AP)—Hogs, 1600; choice lights, 10.00@10.50; light weights, 10.25@10.75; light lights, 10.50@10.75; packing, smooth and rough, 10.00@11.00.

Cattle, steers, good, 9.00@9.50; medium, 8.00@9.00; common, 6.25@8.00; cows, good to choice, 7.00@7.50; common and medium, 6.00@7.00; bulls, 5.00@5.75; calves, medium to choice, 8.50@11.00; cull and common, 8.00@8.50.

Sheep, lambs, spring, 13.25@15.00; yearling wethers, 10.50@11.00; cows, 8.00@8.50.

CHICAGO, April 11.—Hogs, 35,000; slow, mostly strong to 10c higher on light hogs; especially on 190 to 260-pound weight; butchers generally 10@15c higher; packing sows around 10c higher; pigs showing light logs advance; top, 11.05; bulk 190 to 260-pound weights, 11.00@11.05; mainly choice 260-pound averages, 11.05; bulk 210 to 260 pounds 10.90@11.05; most 300 to 350 pounds, 10.70@10.90; few heavier butchers discovered to 10.85; packing sows mostly 9.50@10.00; choice smooth pigs, 11.00@11.35; largely heavy weight hogs, 10.50@11.10; medium, 10.65@11.05; light, 11.10@11.05; light light, 11.00@11.05; packing sows, 9.35@10.50; slaughter pigs, 10.75@11.05.

Cattle, 19,000; fed steers and the stock steady to 25c lower; light kinds and heifers chasing declines; bulls steady to weak; vealers mostly 50c lower; best weight steers, 13.75; few loads, 13.75@13.90; bulk, 9.75@12.00; shipper demand narrower for both steers and the stock; stockers and feeders largely 5.00@5.35; vealers, 10.00@11.00, mostly choice kinds to outsiders 12.00@13.00.

Sheep, 11,000; slow, few early sales fat lambs and sheep around steady; best 98-pound wooled lambs, 14.90; handy weights shippers, 15.00; some better kind held higher; odd bunches native springers, 12.90; few fat ewes, 11.00; nothing doing in feeding and shearing lambs early.

KANSAS CITY, April 11.—Hogs, 9000; slow, mostly 10@15c lower than Friday's average; lighter weights around steady; stock pigs steady, 11.75@12.00; top, 11.35 on 140 to 180 pounds; desirable 170 to 230 pounds, 10.85@11.30; 240 to 325 pounds, 10.30@10.90; packing sows, 9.50@9.60.

Cattle, 13,000; calves, 2000; fed steers slow, steady to 25c lower; to-between grades weighty steers off most; light mixed yearlings and fed heifers fully steady; fat cows strong to 15c higher; bulls steady to strong; vealers steady; top, 11.50; stockers and feeders firm; choice 1305-pound Colorado steers, 12.00; other medium weights and heavy steers, 10.00@12.25; lighter weights downward to 9.40.

Sheep, 9000; best wool-shimer lambs weak to 15c lower; best around 16.75; others downward to 16.50; spring lambs around 50c lower; shorn steady; shorn Arizona wethers, 11.75; shorn Texas wethers, 9.00@9.50; Texas goats, 5.60.

OMAHA, April 11.—Hogs, 8500; slow, steady to 10c higher, mostly a shipper market; 180 to 250-pound lights, 10.65@11.00; top, 11.00; 250 to 270-pound weights, 10.75@10.85; bulk 250 to 270-pound butchers, 10.50@10.75; bulk 275 to 300-pound butchers, 10.25@10.50; packing sows, 9.25@9.75; average cost Saturday, 10.45; weight, 261; average cost for week, 10.47; weight, 261.

Cattle, 6500; fed steers and yearlings steady to 15c lower; she stock and bulls steady; veals weak; stockers and feeders steady to strong; fed steers and yearlings, 9.25@11.25; several loads up to 11.75; weighty steers, 13.25@13.50; slaughter heifers, 8.75@10.00; beef cows, 7.00@8.75; all cutters, 4.50@6.00; medium bulls, 6.25@6.50; light veals, 11.00@13.00; few 13.50 to independents; stocker and feeder steers, 8.25@9.00.

Sheep, 10,000; lambs mostly 25c lower; bulk fed wool lambs, 15.50@15.75; top, 15.85; native spring lambs, 16.25@16.60; sheep and feeders steady; desirable weight wolf ewes, 9.50@10.00; shorn feeding lambs, 15.00, averaging 62 pounds.

SOUTH ST. PAUL, April 11.—Cattle, 8700; fed steers and yearlings opening very slow, few early sales; bidding weak to 25c or more lower; best heavies held upward to 13.00; bulk all weights fed steers suitable around 9.00@12.00; she stock slow, about steady, 8.50@8.90; canners and bulls unchanged; stockers and feeders steady, mostly 6.50@8.00; calves, 2000; unevenly 50c@1.00 lower; good lights, 11.00@12.00; bulk at 11.50 and down.

Hogs, 7500; mostly around steady with last week's close; top, 11.25 paid for light lights; bulk butcher and bacon hogs averaging upward from 180 pounds to packers, 10.75@10.75; pigs showing 25c@1.00 higher; bulk, 12.75; averages cost Saturday, 10.86; weight, 251.

Sheep, 500; steady to weak; best lambs nearly, held above 16.00; some fully steady.

DENVER, April 11.—Cattle, 2000; calves, 150; steers slow, steady to 25c lower; several loads 9.35@10.50; load 1180 pounds, 11.00; heavies held higher; fat she stock steady to 25c higher; 760-pound heif, 9.25; many others 8.25@9.10, including heavies at 8.50; light cows, 6.00@6.50; heavy kind, 7.50; other cows 6.25@7.75; bulls steady to strong at 5.75@6.50; other classes fully steady; good calves mostly 8.00; good to choice veals, 12.00@13.50; stockers, 5.00@6.00; feeder heifers, 7.75; feeder cows, 6.50.

Hogs, 3500; top loads to packers, Chicago through; fairly active, steady to 10c higher, closing steady; practical top, 11.05 on 230 to 290-pound weights; few 160 to 190 pounds to shippers, 11.15@11.25; bulk 160 to 300 pounds, 10.70@11.00; most 300 to 360 pounds, 10.40@10.65; few 370 pounds and up, down to 10.00; packing sows mostly 9.25@9.50; few boars, 8.75.

Sheep, 6000; slow; fat lambs around 25c lower; two loads ground 90 pounds, 15.40; three loads similar weights, 15.25; all freight paid; few 67-pound native springers, 20.00; shearing lambs steady, two loads 77 pounds, 15.25, freight paid.

PORTLAND, April 11.—Cattle and calves sharply higher, mostly 25@50c higher; vealers, cattle 1045, below 900; steers, good, 9.75@10.00; medium, 8.75@9.75; common, 7.50@8.50; common and cutter steers, 6.25@7.25; heifers, good, 8.00@9.25; common and medium, 6.50@7.50; low cutters and cutters, 5.00@6.50; bulls, good, yearlings excluded, 6.25@6.50; cutters and medium common and bolognas, 5.00@5.75; calves, medium to choice milk fed excluded, 8.00@11.00; culls and common, 5.50@8.00; vealers, medium and choice, 11.50@13.50; cull and common, 8.00@11.00.

Hogs, slow, about steady; receipts, 1050; heavy weight, 250 to 300 pounds, medium, good and choice, 10.00@10.40; medium weight, 200 to 250 pounds, common, medium, good and choice, 10.75@10.75; light weights, 160 to 200 pounds, common, medium, good and choice, 11.00@11.25; light lights, 130 to 160 pounds, common, medium, good and choice, 11.75@12.00; packing hogs, rough and smooth, 8.75@10.00; slaughter pigs, 90 to 130 pounds, medium, good and choice, 11.00@11.25; feeders and stocker pigs, 70 to 130 pounds, medium, good and choice, 11.75@12.25. (Soft or oily hogs and roasting pigs excluded in above quotations.)

Sheep and lambs active; receipts, 1200; including 210 on contract; slaughter stock lambs, medium to choice, 12.00@15.00; culls and common, 9.50@12.00; yearling wethers, medium to choice, 9.00@11.50; ewes, common to choice, 3.00@7.00; culls, 2.00@3.00; outside contributors based on best 10c Adams, Baxter Oregon and stellar type lambs; few valley lambs selling above 13.00.

ST. JOSEPH (Mo.) April 11.—Hogs, 3000; market steady to 10c higher; top, 11.10; bulk, 10.90@11.00.

Cattle, 2000; market generally steady; bulk of steers, 8.25@12.00; top, 11.30; cows and heifers, 4.50@10.50; calves, 2.50@10.50; stockers and feeders, 7.50@9.25.

Sheep, 1000; market slow; lambs, 13.00@14.00; ewes, 5.00@10.00.

METAL MARKETS

CLEVELAND, April 11. (Exclusive)—Daily Metal Trade today says: "Prices on the heavier-rolled steel products are easier in the East. Some mills that enjoyed good demand throughout the first quarter of the year have begun to go out after business at the expense of prices. Building materials are in better demand, especially from the Gulf States. Specifications for sales of wire and wire products are mounting in the Middle West and prices firm."

"All over the country, especially in the numerous markets, zinc is lower at 6.45@6.50 St. Louis; copper is holding at 14c, delivered Connecticut; lead is lower at St. Louis and 7.35c New York; tin is lower at 38.25c New York."

METAL PRICES

NEW YORK, April 11. (AP)—Copper steady; electrolytic, spot and future, 13.62.

Tin easy; spot and near by, 38.00; June, 38.50.

Iron firm; No. 1 foundry, $ Coast, Eastern Pennsylvania, 21.50@22.50; No. 2 Lake, Buffalo, 17.75@18.00; No. 2 Lake, Alabama, 18.00.

Lead, steady; spot, 7.75; nine easy, then St. Louis spot and futures, 6.50.

Antimony, spot, 14.50.

COFFEE MARKET

[Furnished by E. F. Hutton & Co.]

Option	High	Low	Close
January			
March	11.95	11.16	11.16
May	12.00	11.20	11.20
July	13.50	12.51	12.55@13.56
September	11.80	11.05	11.05
December	11.47	11.43	11.43

FLAXSEED MARKET

DULUTH (Minn.) April 11. (Exclusive)—Flaxseed was dull and fairly strong early. Prices remained under offerings in the late trading. April finished almost 4c off, May 3c off and July 2c off.

Minneapolis: Flaxseed quiet and steady; offerings were larger; No. 1 spot was 2c under May to be over; fancy 10c over; choice was scarce.

NAVAL STORES

SAVANNAH (Ga.) April 11. (AP)—Turpentine firm, 41; sales, 300; receipts, 500; shipments, 951; stock, 36311.

Rosin firm; sales, 686; receipts, 797; shipments, 915; stock, 39,773.

Grades: B, 8.25; D, 8.50; E, 8.50; F, 8.75; G, 9.75; H, 8.75; I, 8.75; K, 8.75; M, 10.00; N, 10.50; WG, 11.75; WW, X, 14.50.

WOOL MARKET

BOSTON, April 11. (AP)—Domestic wool receipts here for the first quarter of 1927 are about equal to last year. The quarter's total this year is 21,253,000 pounds against 21,669,000 pounds in 1926. March receipts were 8,000,000 pounds compared with 11,600,000 last year. Receipts for January and February were 1,500,000 pounds heavier each month than last year.

DRIED FRUITS

NEW YORK, April 11. (AP)—Unsorted apples steady; choice, fcy100's; fancy, 11@11½.

Prunes steady; Californians, 6@10½; Oregons, 5@12.

Apricots steady; standard, 19@20; choice, 21@22½; extra choice, 23@24½.

Peaches steady; standard, 9½@10; choice, 10½@11; extra choice, 11½@12.

Raisins steady; loose Muscatels, 6¼@8; choice to fancy seeded, 8@10½; seedless, 6½@11.

THE WEATHER

[Official Report]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, April 11.—[Reported by U. S. Bishop, Meteorologist.] At 5 o'clock a.m. the barometer registered 30.02; at 5 p.m., 29.99. Thermometer for the corresponding hours showed 54 deg. and 82 deg. Relative humidity, 5 a.m., 56 per cent; 5 p.m., 22 per cent. Wind, 5 a.m., northeast, velocity 5 miles; 5 p.m., southeast, velocity 8 miles. Temperature, highest, 82 deg.; lowest, 51 deg. Rainfall for season, 17.74 inches; normal to date, 14.44 inches; last season to date, 17.32 inches. Barometer reduced to sea level.

WEATHER CONDITIONS.—April 11: Light to moderate rains have fallen during the past twenty-four hours in the Missouri and Middle and Upper Mississippi valleys, and in Oklahoma and over the South Pacific Slope. Moderate to heavy snow has covered to the higher mountains in Southern California and in the Rocky Mountain country. It was quite cool this morning in the lake region and in Montana and the Dakotas, but the temperature has risen a little in the Middle and Lower Mississippi Valley. In Southern California cool, showery weather prevailed yesterday and last night, with light to moderately heavy rain from the sea to the mountains. Heavy snow fell in the mountains. Mt. Wilson reporting 18 inches for the storm. Cool, partly cloudy weather may be expected in this vicinity Tuesday.

SUN, MOON AND TIDES.—Los Angeles, April 12: Sun rises 5:56 a.m.; sets 6:22 p.m. Moon rises 5:34 p.m.; sets 5:34 a.m. Los Angeles Harbor, April 13: High tides, 6:32 a.m. and 7:26 p.m.; low tides, 1:07 a.m. and 1:25 p.m.

LOCAL TEMPERATURES.—April 11: Minimum and maximum temperatures from Southern California points, reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Stations	Max.	Min.
Imperial	74	48
Los Angeles Harbor	64	50
Mt. Wilson	56	39
Newport Harbor	66	50
Pasadena	64	39
Pomona	67	43
Rancho Santa Fe	67	42
Redlands	64	37
Riverside	66	39
San Bernardino	64	39
Santa Ana	69	43
Santa Barbara	69	52

LOCAL FORECAST

For Los Angeles and vicinity: Cool and partly cloudy, unsettled weather Tuesday; Wednesday fair with moderate temperature.

STATE FORECAST

SAN FRANCISCO, April 11.—Weather forecast: San Francisco and vicinity: Unsettled; moderate temperatures; gentle westerly winds.

Northern California: Unsettled; moderate temperatures; gentle westerly winds.

Sacramento, Santa Clara and San Joaquin valleys: Unsettled; gentle variable winds, mostly northwest in the San Joaquin Valley; temperatures unchanged.

Southern California: Unsettled; temperature below normal; gentle westerly winds.

ARIZONA FORECAST

PHOENIX (Ariz.) April 11.—Forecast for Arizona: Tuesday generally fair; warmer.

COLORADO RIVER

YUMA (Ariz.) April 11.—[Exclusive Dispatch from the U. S. Reclamation Service.] Gauge height, Colorado River, 13.5 feet. Discharge, Monday, 17,500 cubic feet.

TWINS CHRISTEN TWIN-SCREW CRAFT

Bob and Jack Rados

NEW YACHT SLIPS INTO FISH HARBOR

John Rados's Twin Sons Each Smash Bottle Over Jenkins's New Craft

El Dorado, Fred W. Jenkins's new Diesel-driven twin-screw yacht which was launched at the plant of the Harbor Boatbuilding Company last night, is doubly sure of a successful career. Bob and Jack, the 4-year-old twin sons of her builder, John Rados, each smashed a bottle of champagne on her twin screws as she slid down the ways into Fish Harbor.

The Rados twins, who pull as hefty an oar as any sea-toughened fisherman at the port, agreed that El Dorado is the best cruiser thus dad has built.

The new craft, which is seventy feet long and has a beam of fifteen feet, was designed for the Flintridge contractor by D. M. Callis, and is powered with two Skandis Diesel engines, brought from Sweden expressly for the yacht. She has accommodations for nine persons in her afterguard, in addition to crew accommodations and is fitted with an electric lighting plant and electric refrigeration. She will fly the burgee of the new Pacific Coast Yacht Club.

HONOR FOR AMUNDSEN

Two Southland Clubs Present Life Cards to Explorer

Just before his departure for San Francisco, Sunday evening, Capt. Amundsen, famous explorer, was presented with gold engraved cards giving him life membership in the Los Angeles Breakfast Club and the Long Beach branch of the Adventurers' Club. An announcement was made to that effect yesterday by Roger Adams, president of the Hollywood Aero Club.

It had been proposed to present the life membership to the explorer at formal ceremonies arranged for the purpose, but the plans did not materialize because of Capt. Amundsen's sudden illness. There are only about a dozen who hold honorary memberships in the Breakfast Club and they all are internationally famous.

Monday night the secretary of the Aero Club was instructed to dispatch a radio message of bon voyage to Robert P. White, member of the club, and until recently real estate editor of The Times. Mr. White sailed Saturday for Honolulu.

...PINEDO EN ROUTE NORTH

...Departs With Praise for Los Angeles and Promise to "Return Soon"

...ouring Los Angeles as the "New York of the Pacific Coast," and ... admiration of the city in unstinted terms of praise, Commander ... de Pinedo, intrepid Italian around-the-world aviator, departed ... for San Francisco after a two-days' visit here during which he was ... honored as a guest of the city as well as lavishly entertained by ... film star, and later was the guest of honor at a luncheon tendered him by studio officials.

Last night he was tendered a banquet by Secondo Guasti, prominent in the Italian colony, at his home, 3300 West Adams street, which was attended by scores of his countrymen.

VISITS BANK

Earlier in the day he visited the headquarters of the Bank of Italy, where the ramifications of the institutions were explained to him by executives.

Explaining his request to his government to be assigned here to study commercial aviation, De Pinedo said:

"I believe this city is destined to be an all-year center of aviation activity. It is quite different from any other city I have ever visited, because of its perennial sunshine and the very few days that weather interferes with outdoor sports. It is like a plant that grows, blossoms and is always assured of a cluster of flowers—year in and year out. Translated into economical terms, it's always a good bet that the weather in America's playground, will 'stick to routine and run true to form.'

PREACHERS CLASH OVER OLDEN DAYS

Senate Not Like It Once Was, Says One Minister; Others Defend Present

The United States Senate was lambasted and defended yesterday at the Methodist Preachers' meeting conducted in the First Methodist Church.

Following an address by Rev. William Hodgson of the University Methodist Church, who pleaded for the revival of the evangelistic spirit in religious education, Rev. Thomas McClary voiced the opinion that the failure of the church to teach the need for conversion and regeneration has resulted in a lack of religious leadership in all phases of American life.

"We are not turning out the kind of men we did sixty years ago, when I entered the ministry," said Mr. McClary. "Look at our Senate! Good heavens!"

The advocate of the "good old days" was voted down by the ministerial members of the audience and Rev. Oliver Whittier voiced a special defense of the Senate.

Mr. Hodgson said religion should be both mystical and practical and that "there is no reason why a man should not pay his debts and be decent to his wife and at the same time believe in the truth and power of the old-fashioned Gospel."

CITY EXPERT AT WORK ON RAIL REPORT

Dr. Wilcox Gets $5000 Monthly to Investigate Street-Car Purchase

That Dr. Delos F. Wilcox of New York, whom Los Angeles has employed at $5000 a month to investigate the street-railway situation, slipped into the city last week and has been at work secretly, became known yesterday. He was brought to Los Angeles by the Evening Record and the Municipal League to start under way the campaign of the Record, the league, Dr. John R. Haynes and the Parrot-Cryer city administration for the city to purchase the properties of the Los Angeles Railway and to operate the street-car lines.

The league and the Record having clubbed the City Council into employing Dr. Wilcox first planned a grand entry for him into the city. This plan was discarded and the so-called expert was welcomed at a private dinner last week at the City Club attended only by a few of the leading municipal ownership advocates.

Then Dr. Wilcox started to work on his report which will, of course, recommend that the city purchase the street-car lines and operate them. How many months the city will employ Dr. Wilcox at $5000 a month salary remains to be seen. His employment probably will last until after the June election, for many of the Councilman are anxious for the support of the league, the Record and Dr. Haynes in their campaigns for re-election, and so will use the city funds to employ Dr. Wilcox.

Dr. Wilcox is th eman whose testimony the United States District Court of Colorado refused to consider in a utilities rate case in that state, the court declaring that while Dr. Wilcox is a prolific writer he is not an expert on street-railway management or operation. However, the City Council after bestialing a few days, then being subjected to attack by the Los Angeles Record, finally voted to employ Dr. Wilcox as an expert.

BOY KILLED TRYING TO 'NIP' TRUCK

Misses Hold and Falls to Death Under Car; Three Injured in Traffic

Worth Foote, 11 years of age, 6101 McKee street, was killed yesterday when his head was crushed beneath the trailer of a truck on Alameda street near Twenty-seventh street. Foote, with another boy, attempted to board the rear of the truck, the police report said, but missed his hold and fell. The driver of the truck, A. G. Harding of Compton, was questioned, but not held by police. The boy's body was sent to the County Morgue.

Miss Maud Blanchard, 60, 228 South Kenmore avenue, suffered internal injuries and a wrenched back when she was struck by a motorcycle at Seventh and Hill streets. She was taken to Receiving Hospital.

Clarence D. Puddy, 38, of 4746 Topaz street, suffered concussion of the brain and a broken collarbone when he was struck at Ninth and Santee streets by a taxicab of the Los Angeles Transfer Company. After treatment at Receiving Hospital he was taken to the California Lutheran Hospital.

Miss Isabel Cudeback of 1215 West Twenty-ninth street suffered concussion of the brain, a chest injury and possible internal injuries when the car she was driving was struck by a Pacific Electric train at Long Beach Boulevard and Fifteenth street. She

Blessed is he that considereth the poor: the Lord will deliver him in time of trouble. Psalm xli:1.

PLAYGROUND AT BEACH OPPOSED

Injunction Sought Against Recreation Board

Action Objects to Outlay for Dredging Work

Says Bonds Were Voted to Acquire Land

An attempt to block the expenditure of bond money for the reclamation of tideland in Los Angeles Harbor to be used for public recreational purposes was started yesterday with the filing of an action in the Superior Court asking that an injunction be issued to halt dredging operations.

The suit was filed by a group of five taxpayers who named as defendants the city of Los Angeles, the Board of Playground and Recreational Commissioners, the Harbor Commissioners, the City Controller, the City Treasurer and the United Dredging Company. The plaintiffs in the case are: J. K. Simpson, Mabie B. Adair, Matt J. Walsh, Harry J. Pinney and Lee Chamberlin.

The suit for an injunction is based upon the allegation that the $1,500,000 bond issue of 1923 which is providing funds for the development of the beach playground to be known as Cabrillo Beach, was voted with the explicit understanding that it should be used to "acquire" land for playgrounds. Cabrillo Beach, according to the complaint, has been "leased" by the Playground and Recreational Commissioners for thirty years from the Harbor Commission after which it will revert to them. The only consideration involved is the cost of reclaiming the lowland from the ocean.

The objectors hold that it is improper for the Playground Commissioners to use the bond money to reclaim land which later will be turned over to the Harbor Commission.

It is further charged in the suit that there is a possibility of the land later reverting to the State of California inasmuch as it is tideland.

The court is asked to grant an injunction forbidding the expenditure of money for dredging operations. Attorneys E. R. Young, E. L. Searle, and Ernest C. Griffith represent the plaintiffs.

HOME WEEK COMMITTEE ORGANIZED

Many Notables Aid Move for Better Standards in Housing Conditions

Louise Seaver, vice-chairman of the Better Homes in America campaign, announced that Better Homes Week is to be observed from the 24th inst. to May 1. The executive committee includes Mrs. M. K. Bindge, Motley H. Flint, Marco H. Hellman, George I. Cochran, John C. Austin, George L. Eastman, Gordon B. Kaufman and Byron D. Seaver.

Better Homes in America was established to make accessible to all citizens the knowledge of high standards in house building, home furnishings and home life. Further aims of the movement are to encourage the building of sound, beautiful, single-family houses and the reconditioning and remodeling of the old houses.

It is an educational institution for public service initiated in 1922 by Mrs. William Brown Meloney. It was organized on a national basis in December, 1923, with Herbert Hoover as president.

Civil Service's Revised Plan Given Council

Reorganization of the municipal civil service department to add seven employees and bring the total pay roll to $89,000, was recommended in a report submitted yesterday to the City Council Finance Committee by Director Knox of the Bureau of Budget and Efficiency. The report was not acted upon, but will be taken up at a later meeting.

The department now has thirty-three employees and a pay roll of $72,740. The department recently asked for an increase to forty-one employees and a total pay roll of $103,380. The alternative plan was worked out in conferences between the budget director and the department.

FIVE HURT IN BEACH BLAST

Popcorn Wagon Boiler Explodes in Midst of Crowd Gathered to Watch Filming of Comedy

While a film comedian was seated within it and a camera man was leaning across its glass counter talking with him, the boiler of a popcorn wagon exploded yesterday at Venice, injuring five bystanders, one seriously. Due to the fact that the boiler blew out through the other side of the wagon the actor was unhurt and the camera man was injured but slightly. Pieces of glass and metal were hurled 200 feet.

The wagon had been leased by the Stern-Bach Motion Picture Corporation for use in a comedy, and the explosion came as a scene was about to be shot. Harry Martelle was the comedian and William Heyer the camera man.

The popcorn wagon belongs to Marie Clough, 236 Horizon avenue, Venice, and was operated by her son, William. Mrs. Clough said that no fire had been left in the gas burner under the boiler, but members of the picture company believed a fire had been burning when they took the wagon over. The vicinity of the wreck was strewn with glass, bits of wood and metal, popcorn and peanuts. One witness said he picked up a whistle from the peanut roaster half a block from the scene of the blast.

The injured are William McMurray, hotel man of 760 South Olive street, Los Angeles, whose hip and both ankles were treated for wrenches and bruises at Martin's Hospital; Jane Black, 12 years of age, 623 West Fortieth Place, Los Angeles; Mrs. E. E. Spence, 84, of 111½ Avenue 20, Venice; Mabel Batchelder, 37, of 14 Wavecrest, Venice, and William Heyer, 34, the camera man, of 1358 Gower street, Los Angeles. All the injuries, consisting of bruises and shock, with some minor cuts, were treated by Dr. Salyn at the Venice Police Emergency Hospital.

Spectators, drawn by the picture-filming and comedy costumes, were the worst sufferers.

VIVIAN BRIBES JUDGE WITH KISS

Osculatory Persuasion Given in Cellar

Silent But Affectionate Witness

Here is Vivian, her progeny, Deputy Sheriff Hanby, left, and M. Goldman as they appeared in grand larceny case.

VIVIAN, silent bovine witness in the trial of Percy Sweet and Samuel and Chalice Thomason, charged with grand larceny, did not appear in Superior Judge Stephens's court yesterday, and so the court called upon Vivian.

The cow, which is asserted to be one of four animals stolen by the three defendants, was found in the basement of the Hall of Justice with her young offspring quietly chewing her cud as she watched the jury file out of the elevator. This was as far as Vivian would go for when an effort was made to place her on the freight elevator, she balked.

When the jurors had arranged themselves in the basement opposite Vivian, Judge Stephens convened court again and Dep. Dist.-Atty. Ryan "took the witness." J. L. Armstrong was called and identified the cow by various marks as one which had been stolen. Meanwhile Vivian sidled over to Judge Stephens's side and administered an affectionate kiss on the Court's ear with her long tongue.

"I protest," exclaimed Guy Eddy, attorney for the defendants. "It is apparent that the witness is trying to reach the judge."

Dep. Dist.-Atty. Ryan came to the defense of his witness immediately with the remark that it must be remembered that the witness was in very strange surroundings and therefore had probably committed the offense while in a fit of embarrassment.

Additional prosecution witnesses are expected to be called today.

Alarm Felt for Fishery Tender, Overdue at Port

Fears were expressed at the harbor yesterday for the fishery tender Westerner, overdue on her voyage from San Jose del Cabo, Mex., to the local port. The Westerner carries eight men.

Her sister ship, the Standard, left San Jose del Cabo two days after the Westerner and arrived here three days ago. The Westerner left the Mexican port on the 2nd inst.

Crafts in or departing for Mexican fishing waters have been asked to look for the Westerner. Ships arriving here from Mexican waters report strong northwest gales during the past week.

The Westerner is a fifty-seven-foot wooden ship of forty-one tons. She is owned by the Halfhill Packing Company of Long Beach.

TRUCK FIRM LEASES NEW PLANT SITE

General Motors to Build on Property Acquired at Washington and Alameda

Two leases involving $1,000,000 and contemplating the erection of a building for the General Motors Truck Company at the southwest corner of Washington and Alameda streets, were announced yesterday by Max Eisner of the J. W. Lewis Company, brokers.

A ninety-nine-year ground lease was taken by Charles H. Tucker and William N. Reagan on the block of frontage at the southwest corner of East Washington and Alameda streets, owned by Charles Weir. The General Motors Truck Company in turn acquired a long-term lease on the property from Tucker and Reagan, under the provisions of which a building covering the area of 60,000 square feet will be erected to meet the special needs of the company.

Construction of a one-story brick structure with a two-story front for offices facing on Washington street, will start on May 1. A section of the new plant will be devoted to the manufacture of truck bodies and equipment. On completion of the building, the sales division of the Yellow Truck and Cab Manufacturing Company will be quartered there for the sale of yellow cabs and coaches.

CHINA DEFENDED IN CLUB SPEECH

Linebarger Says Aliens Should Get Out

Warns Americans Against Great Britain

Speaker Bitter in Attack on Foreign Powers

BY MYRA NYE

"I think they should be shot."

Paul Linebarger, speaking before the Woman's City Club yesterday in the Morosco Theater, thus replied to a question from Mrs. H. V. Davis in an open forum discussion at the close of his lecture on "China Today." Mrs. Davis asked if he did not think Americans in China should be given government protection. The reply was one of many statements made by the speaker in defense of the Chinese and against Americans and the American government.

There were Chinamen as well as clubwomen in the audience, which crowded the theater to the doors.

"For eighty-three years the Chinese have been telling foreigners to get out. Now if they persist in staying there, they should be shot," the speaker repeated.

When Mrs. E. C. Bellows, who has herself been in China five years, a past president of the club, asked if the speaker did not think Americans had done much for the Chinese and for China, Linebarger answered:

"Those things to which you refer, which Americans think good actions, were merely gestures. The theory of John Hay to maintain an open door for China was good as a theory, but it is theory and not practice.

IGNORANT OF CHINA

"Americans don't know anything about China. President Coolidge knows nothing about China. If you really want to be informed about China read some six books that are not pro-British," said the speaker; and when asked by Mrs. Bellows what books he would advise the clubwomen to read, he recommended those written by himself, one of which he said would cost $4. "You would better go to the public library to read it, since nobody wanted to pay that much for any book on China," he said.

"I know more than any living man about the Chinese Republic," said Linebarger, "because I was so closely associated with Dr. Sun Yat-Sen before he died."

"There is a traitor to his country down in Washington," Linebarger charged and named the Chinese Ambassador to the United States. "He believes in China for the foreigners, and the foreigners mean Americans as well as Europeans.

"We know we don't know how to run a government," the speaker continued. "We should let the Chinese come here and collect our customs. We should have Buddhists come over here to teach us the value and respect for human life. We should bring the philosophers from the hills of China to teach us morality. It must be right to do this, for it is what we are doing in China."

CHALLENGED FROM FLOOR

A clubwoman from the floor said: "I take issue with you. China allowed other nations to come in and collect customs. Now the responsibility is hers and the same law can not apply to the United States. We have not given China territory here as they have given to other nations in China."

When Mrs. Josephine Winn, candidate for the presidency of the club, asked the speaker if there was no difference in his mind between the soviet government and Nationalists of Russia, Linebarger replied:

"You'll be soviet here if you don't

(Continued on Page 2, Column 2)

MORE SHOWERS PREDICTED

Unsettled Weather Due Today With Wednesday Fair; Cold and Snow in Sierras Set Record

Continued cool weather and possible showers were forecast for Los Angeles today by the Weather Bureau, in the wake of a twenty-four-hour period which brought the lowest April temperature in twenty-one years. The prediction for today was "cool, partly cloudy, unsettled weather." Wednesday, however, the Weather Bureau predicted, will see a return to more seasonable weather, with fair skies and moderate temperatures.

Intermittent sunshine melted away the light snow spotting the lower peaks yesterday and no known local damage was reported resulting from the coolness. Deputy County Horticultural Commissioner Gordon said the cold may have harmed the peaches somewhat in merely checking growth, but that there is not yet even indication of that possibility.

SOME HAIL FALLS

Showers yesterday added .05 of an inch of rainfall after 5 a.m. to the .63 of an inch of precipitation that fell in all the preceding hours of rain. Some hail fell in the downtown district, along with the rain, in the early afternoon, but the pellets were small and disappeared quickly.

The low temperature was 41 deg. during most of the time between 1:45 a.m. yesterday and 10 o'clock the night before. At 10:30 a.m. Sunday the same low mark was reached. The two coolest days of last winter, February 2 and December 28, registered but 40 deg.

The season's total precipitation now stands at 17.74 inches against a normal to date of 14.44 inches, last season's corresponding figure of 17.32 and a normal of 15.64 for a whole season. The rain's total of .63 gives April more than half of its normal expectation of 1.13 inches of rain.

A couple of rolls of thunder with faint lightning characterized the afternoon rain, along with the hail.

RAINS GENERAL

The rain was general over Southern California, according to the Weather Bureau, reports showing precipitation south to San Diego and inland to San Bernardino.

A fourteen-inch snow covered the

The Lancer

by Harry Carr

SAM BLYTHE has shot a sudden blast of common sense into the wet-or-dry situation.

And what makes him the greatest of modern journalists is the amount of common sense and discrimination that he has on tap.

WHO CARES?

As a matter of fact, I don't believe that anybody, in his heart, cares much either way—whether they have booze or don't.

If it gave these same sapheads something to talk about, you could work up equal fury—the same blather about "human rights" and "constitutional liberty"—by the proposal to limit the consumption of fried onions.

WHY WE'RE RICH

If it is true that the United States has become the richest country ever known in the history of the world, the Eighteenth Amendment has not a little to do with it.

IDEALISM!

All the fine idealism of a band of hyenas bickering over a dead cow is exhibited by the League of Nations in the discussion of arms limitations.

France insists upon maintaining a big army (paid for with the money she owes us.) She is willing to limit the number of battleships; but not the number of submarines.

That is to say, her idealism as to the peace of the world consists in building up the machinery whereby she can bring black troops from her African colonies across the Mediterranean.

HEADED FOR TRAGEDY

We have the black troops of France to thank for the world-devastating epidemics of flu and sleeping sickness as it is. In all history no nation ever called alien troops to her colors that, in the end, they did not destroy her.

GUILTY OR NOT

Just why the mother of the two murdered little Martin girls should especially rejoice over the rescue of the man, Stone, from the gallows is not clear.

If he is the murderer, he ought to be hanged; if there is any doubt about it, he ought to be free. To reprieve a condemned man on the ground that maybe he isn't the one who did it is a satire on the courts.

HIS WORLD

H. M. Baumgardt, our home-grown astronomer, has been gracefully honored by the British government.

But he lives in such a huge, awe-inspiring universe that I wonder if the puny honors bestowed by one little speck on one little world seem as important to him as they would to those of us to whom this world is all—and the stars just specks to indicate that we are late for dinner.

LUMMIS!

The high tide of the visit of Edwin Markham to Los Angeles was the shindig of the intellectuals at the home of Charles F. Lummis.

Although I suppose he would shoot me for saying so, the nearest Los Angeles has ever come to a real salon is the Lummis house.

There you meet great scientists, archeologists, painters, authors, cowboy scouts, famous soldiers—with their coats off, so to speak. (sometimes literally.)

They are the only parties I ever go to where nobody is trying to show off. They don't have to. They have arrived.

AUNT HET

BY ROBERT QUILLEN

"I never feel stuck-up except when I'm off visitin' an' eat victuals I didn't have to cook."

Auto Bandits Obtain $8000 in Two Daylight Bank Robberies

HOLD-UPS LAID TO SAME TRIO

West Hollywood Bank and Pico Branch Victims

Half-Dozen Prisoners Held at Bay in Each Case

Third Institution Ransacked; Store Till Emptied

Two bank robberies, believed to be the work of one bandit gang, were perpetrated within a short time of each other yesterday afternoon, according to police and Sheriff's office reports. The two hold-ups netted $8000, the same methods of procedure being followed in both cases. The sum of $2000 was taken from the Citizens Trust and Savings Bank branch at 6117 West Pico street, and $6000 from the Bank of West Hollywood at 8153 Santa Monica Boulevard.

Three well-dressed young men drove up to the Citizens' Bank branch in a roadster, two entering while one remained on guard outside. One bandit herded eight persons into a rear room. The prisoners were George C. Flickinger, the branch manager; Clifford G. Shaw and Clare H. Salser, tellers; Joana Roney, book-keeper; Grace Bonner, stenographer, and Dorothy Kinvie, George A. Conklin and Martin Larson, customers.

DISCHARGES GUN

While standing guard over these, the bandit accidentally discharged his revolver. The other bandit, who was behind the tellers' cages gathering in funds, berated the carelessness of his companion, and the man on guard outside rushed in to see what had happened. The shot failed to draw outside attention to the fact that a hold-up was in progress.

A little later in the afternoon, three men, whose descriptions resemble those of the Citizens branch robbers, held up the Bank of West Hollywood. The bank had just been closed when the three appeared at the door, one carrying a leather brief case.

Thinking they were customers, H. J. Burtis, an employee, went to the door, according to a Sheriff's office report. One of the bandits covered him through the glass with a revolver, and forced him to open the door.

ONE MAN ON GUARD

Leaving one man as outside guard, the other bandits forced Ed Johnson, cashier, Toler Hagerson, Harris Reed and Burtis, other employees, into a back room. Six thousand dollars, it was said, was collected from the tills and placed in the brief case.

The hold-up was just being completed when B. Lanneau, the bank manager, returned. He asked the man outside if he wanted anything, the bandit responding, "No, I've got everything I want."

Lanneau then entered the bank, to be covered with a revolver and forced to join the other prisoners. Deputy Sheriffs Heller and Johnson were detailed on the case.

BRANCH RANSACKED

Police believe the bandits used a stolen roadster belonging to Louis B. Mayer, Metro-Goldwyn-Mayer studio executive. Mayer's car was reported taken earlier in the day.

P. D. Dodds, manager of the Pacific-Southwest Trust and Savings Bank branch at 758 South Olive street, reported to police that a burglar had ransacked the branch during the night. Apparently his only plunder was $5 in a child's savings bank, the empty receptacle being found in an alley.

A single bandit late in the afternoon held up H. M. McGregor, manager of a Safeway Store at 1631 Hyperion avenue, forced him into a rear room, and robbed the till of $80. The bandit, according to McGregor, drove to the door in a new roadster at a time when there were no customers in the place. After looting the cash register and strong-box he drove north.

EXONERATION IN DIVORCE

Charles M. Easton, attorney, was exonerated of charges made against him by his wife, May E. Easton, in an opinion by Judge Moncur in the Superior Court, on file yesterday, wherein the court refused the wife an award of separate maintenance and granted Easton a decree of divorce.

Mrs. Easton had named Stella Riddle as corespondent, but Judge Moncur held she had not adduced sufficient proof to substantiate her charges. Easton in a cross-complaint charged cruelty, declaring his wife has at one time turned the hose on him.

CHINA DEFENDED IN CLUB SPEECH

(Continued from First Page)

line up with China and refuse Johnny Bull, who is asking the United States to join their gunboats with Great Britain against China.

"If you don't let me strangle China, I'll lose India. And if I lose India, I won't pay you one cent of what I owe you." This was what the speaker said England is saying now to America.

"China is more like us than Great Britain. Language doesn't make any difference. Even if we do speak the same language as England, we have more fights with her. We are more Chinese than we are English. China is democratic. England is a country of classes. England has aristocracy. China doesn't know what aristocracy means, as we use the word. We must cut lose from Europe and tie up with China," stated the speaker.

"China can put in an army of 70,000,000 men. Chinese are born faster than we can kill them. I prophesy that you women are going to have a new job on your hands. It is to carry a gun, to fight in the trenches. Wars are more scary to foreboast than the weather, but I don't have to prophesy war; for it is already upon us. But everyone of you better telegraph Washington tonight that you don't want war. Ninety per cent of the Congressmen at Washington haven't blood or bones to do anything for the people. But telegraph just the same."

SPEECH CREATES STIR

No speech before this active body of women in a long time has created so great a stir as did this. A score or more walked out early in the hour when the speaker became vigorous in his zeal for China and emphatic in his arraignment of the government of the United States and of Great Britain. A woman in the back part of the theater seated under the gallery asked the speaker: "How may we distinguish German and Bolshevik propaganda when we hear it?"

"You mean in war time?" asked the speaker.

"I mean here and now," said the club member.

"I can't see you," said Linebarger, "but I know by your voice you are British. Let me tell you I am not German in spite of my name. And I and not a Bolshevik. The only propaganda America needs to fear is English propaganda."

MORE SHOWERS EXPECTED HERE

(Continued from First Page)

Mt. Wilson peaks with the first April snow in fourteen years. The light, covering on top of the Verdugos had disappeared by noon.

Ten inches of snow was reported in Mill Creek Canyon, near Redlands, and extended farther down the mountainsides than for many years in April.

Traffic over the Ridge Route which was hindered by four inches of snow between Sandbergs and Lebec Sunday was resumed yesterday, reports from Bakersfield stated.

Reports showed hail at Glendale, at the foot of the Verdugos, where .90 of an inch of rain fell and a minimum temperature of 38 deg. prevailed.

Hills and mountains of the Sierra Madre range all got fairly heavy snow and rainfall in the storm.

The Smithsonian Institution station on Table Mountain reported thirteen to twenty inches of snow, while Big Pines Park reported thirteen inches. From Big Pines came the warning that all cars destined for the county park should carry chains, as the road is dangerous.

Following a heavy snowfall of the night before, snow fell again on Mt. Wilson yesterday, the mountain being covered for an unusual distance down the slope. There was sixteen inches of snow at the top. Even at the 2000-foot level there was a blanket of four inches.

COLD RECORD SET IN NORTHERN CALIFORNIA

SAN FRANCISCO, April 11. (Exclusive) — New California cold weather records have been established in various parts of the State during the last twenty-four hours, the Weather Bureau announced today. In Northern California Sacramento smashed all previous low records for April with a mark of 34 deg. At Mt. Hamilton the mercury dropped to 24 deg.

Forecaster Reed declared there is little possibility of a change in general conditions during the next twenty-four hours and issued a warning to shippers to protect cargoes of perishable goods over the Sierras for the next thirty-six hours against temperatures of approximately 25 deg., through Nevada the same, and over the Siskiyous 20 deg.

Despite smudging, orchardists are reporting that the excessively cold frosts of the last two mornings have caused damage to fruits and they are preparing for more.

Freezing temperatures are predicted for the early morning hours over the intermountain region with frosts in Oregon, Washington and Northern California.

Sacramento's mark of 34 deg. is 1 deg. lower than the previous minimum, established there on April 14, 1901, it was reported. Other Northern California points reported: Paso Robles, 30 deg.; Santa Rosa, 32; Stockton, 34; Chico, 34; Colusa, 36, and Merced, 38.

The San Joaquin Valley has escaped severe frosts, but is pinning hope in cloudy weather until the threat to crops is averted.

Some rain fell at scattered points during the night. Stations reporting were:

Fresno, .26 of an inch; San Luis Obispo, .30; Mt. Hamilton, .06; Paso Robles, .36.

New Indictment Faces Head of Hotel Company

T. J. Elliott, head of the Elliott Hotel Corporation, now under arrest in Portland, Or., was indicted for a second time yesterday on the county grand jury on three counts of embezzlement and three of grand larceny. It is charged that in 1924 he induced Anna M. Flynn of San Francisco to give him $1000 in three sums for investment in his hotel company, but that he did not use the money for that purpose.

Word was received at the District Attorney's office that Elliott intends to fight extradition. He was previously indicted for embezzlement of a similar sum from Elizabeth Aubery. The indictment yesterday was returned before Superior Judge Burnell, who fixed bail at $10,000 and transferred the case to Judge Stephens's court for arraignment.

LEGALITY OF HER MARRIAGE ASSAILED

Judith Lavender

ANDRADE SUIT NEAR DECISION

Arguments Presented in Maintenance Action Which Questions Yucatan Divorce

The suit of Helen Louise Andrade against Alfred P. Andrade for separate maintenance entered the closing scenes yesterday when the plaintiff's attorneys began their arguments. The case is expected to be submitted to Superior Judge Valentine today following the defense arguments.

Testimony yesterday was confined to grocer boys and others who had delivered household articles to Andrade's home in the past, in an effort to prove that Andrade lived with a Judith Lane Lavender. Miss Lavender, who was married to Andrade in New Orleans after he had obtained a divorce from his former wife in Yucatan, was an interested spectator during the trial. Mrs. Andrade occupied a position at the side of her attorney throughout the trial.

Mrs. Andrade contends that the Yucatan divorce is illegal.

Free Synagogue to Rush Plans of New Temple

With a record of 112 new members joining the congregation of Temple Israel, Hollywood's free synagogue, within a period of thirty days, Rabbi Isadore Isaacson soon will go before the board of trustees of his church and ask that plans be rushed for the new synagogue building to be erected at the corner of Argyle and Franklin avenues.

At the present time members of the Temple Israel conduct their services at a church at the corner of Lexington and Vine streets, but with an ever-increasing congregation this temporary arrangement is not satisfactory, it is contended.

The proposed site of the new temple is now occupied by the former home of Seasus Hayakawa and this structure is serving as the temporary headquarters of the synagogue association. Present plans call for the purchase of the site, which is under lease to Temple Israel, and the construction of a modern church building.

Percy Grainger to Return for Bach's Oratorio

Among the artists and musicians planning to attend the production of Bach's "Passion of Our Lord According to St. Matthew" at the Shrine Auditorium Friday is the composer and pianist, Percy Grainger. After his recent concert at the Philharmonic, Mr. Grainger stated:

"I am changing my itinerary in order that I may be oaek in Los Angeles so as not to miss this unusual production.

"Lambert Murphy, the tenor, has sung the Bach's passion music so often that he is recognized as an authority in this part; Fred Patton, the baritone, has won great praise for his singing in this oratorio, and the two women, soloists, Corleen Wells, soprano, and Bernice Brand, contralto, who were popular in 'The Messiah,' cannot but be at their best in this sublime production."

CHURCH'S FAST GROWTH CITED

Reason for Christian Science Spread Explained

World Declared Seeking for Ease From Sickness

Sectarianism of Present-Day Religions Flayed

"All here today, I take it, are more or less familiar with the rapid and unparalleled growth of Christian Science throughout the world, and it is, I presume, a reasonable assumption that those of you who are not Christian Scientists are here to find out, if possible, what it is that is attracting men and women in all walks of life and in all quarters of the globe to a religious movement which has been so strikingly free, in its stately goings, from those dramatic, sensational and spectacular methods employed by so many present-day religionists to attract public attention," said William D. Kilpatrick, C.S.B., of Detroit, member of the board of lectureship of the mother church, the First Church of Christ, Scientist, Boston, in a lecture last evening in Second Church.

"Something aside from emotion and sensationalism is prospering this gospel of freedom—this gospel of 'on earth peace, good will toward men'—as no other teaching has prospered since the days our Master trod the hills and valleys of Judea, and it is to explain to you, so far as possible, what this something is that this lecture is given.

RELIEF FOR SICK

"The question as to why mankind is gradually turning its gaze toward Christian Science finds its answer in the fact that because Christian Science is a return to the simple teachings of Jesus the Christ it is giving to poor, sick, suffering humanity some hope of release from its sorrows, its poverty, its sickness and its sordidness. It is saying to the world today in the loving words of the Master, 'Come unto me, all ye that labor and are heavy laden, and I will give you rest.' It is saying to you who are sick, you who are bowed down with the sorrows and cares of the world, you who are bound by the fetters of sin, you who are struggling with the specter of want or misfortune, in the words of Isaiah, 'Ho, every one that thirsteth, come ye to the waters, and he that hath no money; come ye, buy and eat; yea, come, buy wine and milk without money and without price.'

"Christianity had been sorely threatened from two directions. On the one side it was fast becoming the helpless victim of mere ecclesiasticism, while on the other side it had been the object of violent attacks at the hands of scholasticism. One familiar with the Bible and especially with the teachings and works of the Master will hardly disagree with me in the assertion that present-day tendencies in our educational and religious institutions lead thought away from the purely spiritual import of the teachings of the Man of Galilee. The growing tendency in our great educational institutions to discredit the teachings of Jesus on the ground that they do not square with so-called natural science, the efforts of the Christian churches to evade their plain responsibility to heal the sick in conformity with the command of Christ Jesus on the ground that such healing was a dispensation intended only for his time, the schisms in the churches—their creedal differences and wars—would portend the rapid decline of the Christian religion were it not that God has sent us that which will not only save Christianity but which will, in addition, restore it to us in all its purity of purpose with 'signs following.'

LOVE DEFINED

"Now just what is God and how is He to be made vital in our individual lives—in our homes, in our business, in the sick room, and so forth? One of the terms used by Mrs. Eddy in her definition of God is 'Love.' Christian Science teaches that God is Love. 'Oh, yes!' some one may say, 'That's not new, that's old. We have always known that.' Let us see. Have we always known that? In I John we read, 'God is love; and he that dwelleth in love dwelleth in God, and God in him.' Now, how do we dwell in love, or God? Why, obviously, by loving, not by hating or faultfinding or fearing. St. John's explanation that 'God is love,' is plain and unequivocal. He does not say that God is a loving God. He says that God is Love itself and that to know God—that is, to express God as His image and likeness—is to reflect Love. To think is purely a function of the mind, is it not? Hence, to love mankind is to know or reflect God as His image and likeness, and is wholly an exercise of right thinking, and is not a product of the five physical senses.

"Love, in the sense in which it is used in the Bible and in Christian Science to define God, does not involve a personal, sentimental type of affection. It has to do with that sense only which sees man as the image and likeness of God—pure, upright, and undefiled by sin and mortality. And it is only as we see our brother man to be a child of God, regardless of what the outward evidences may bear witness, that we establish ourselves as His children and thereby come into our God-given heritage of freedom from the ills and woes of the world's giving."

Mr. Kilpatrick will lecture again tonight in Ninth church.

Council Calls for Report on Outfall Sewer

Following receipt of a letter from County Sanitation Engineer Warren, the City Council yesterday directed the city sanitary engineer to investigate and report on plans for the proposed county outfall sewer.

Warren's communication to the Council outlined the county's plan to take sewage to the Bixby slough, pass it through a treatment plant there, and then carry it to White Point for discharge. He declared the Badger-avenue plan proposed by Wilmington and San Pedro will require a separate sewer outfall for those two communities.

The objection of Councilman Golden to Bixby slough as a site for the treatment plant resulted in the Council's decision to have the entire matter investigated and reported upon by the city's sanitary department.

It is great to have a clear skin

A clear skin means everything to the popularity of men and women. You cannot get it with external applications. If you are unfortunate enough to have pimples or skin blemishes, in justice to your friends and yourself you should treat the source of the trouble. Nature will then provide the complexion which is so much desired.

Thousands have been enabled to free themselves of unsightly blemishes and painful annoyances by taking a course of S.S.S.

You owe it to yourself to try S.S.S. It helps Nature build up red corpuscles. It improves the processes by which the blood is nourished.

"I suffered from impure blood—was weak, and I had lost so much weight I didn't look natural. I had pimples and was also bothered with a breaking out that looked worse. I also had boils come after meals. I tried different kinds of medicine but nothing did me any good. A friend advised me to take S.S.S. which I did. This was over 1 year ago. Now I feel well, can eat anything along fine. S.S.S. removed the itching and it cured me of all the pimples to give S.S.S. a trial. It clears up the skin and makes you strong and fills you with energy." Mrs. W. Barker, 1227 Walnut street, Cincinnati, Ohio.

S.S.S. is made from roots and herbs of medicinal herbs and flowers, and is prepared in a scientific way in a modern laboratory. It is thoroughly safe and reliable.

S.S.S. is sold at all good druggists in two sizes. The larger size is more economical.

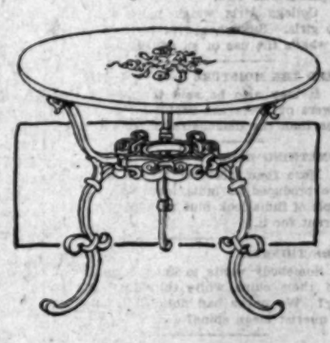
EASTER AT BULLOCK'S

Fashionable Metal Coffee Tables the Bullock Value Feature Today $7.95 . . .

The Coffee Table takes on fashionable importance. When it is of metal it is particularly smart. You may choose these in parchment color. In Chinese red or dull green. A conventional center motif, with carefully, interestingly designed base, the only ornament. A new group of these Metal Coffee Tables, today. At the specialized price, $7.95.



Lamp and Pillow Section . . . . Bullock's Sixth Floor

Philippine and Chinese Baskets in Special Easter Offering, $1.25 Ea.

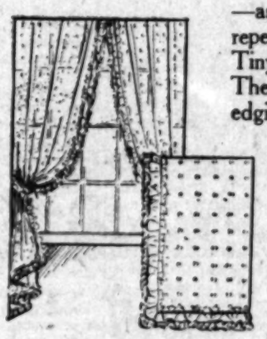
Just a fraction of their usual pricing! Values that you will not find every day by any means.

The Philippine hanging baskets are closely woven, a durable type and may be used for flowers and ferns on porches or in sunrooms or for inverted lamp shades in beach or mountain home.

Decorated Chinese baskets—the compartment type may be packed with confection or used for work baskets—a variety of colors and gold and silver finishes.

Art-Gift Section
Bullock's Second Floor

These New Ruffled Curtains Have Two Colors in Their Borders, $3.75



—as well as having the predominating color repeated dozens of times in the body of the curtain. Tiny circles carry this stronger of the two colors. The border ruffle is double. It may be in blue with edging of lavender. Or orchid with gold. Or gold contrasting with green. Gold against rose is the fourth of these new color schemes.

An excellent quality Marquisette fashions them! $3.75 pair.

33 inches wide; 2¼ yards long. Splendid new curtains for your bedrooms. Complete with tie-backs.

Draperies . . . . Bullock's Sixth Floor

New at Bullock's Collegienne Shops!

Reg. U.S. Pat. Off.

Bows-fringe-taffeta facing

These newest of Collegienne coats at Bullock's... the sort of coats many a collegienne is frantically searching for... to wear on the Easter houseparty. Rough tweedy wools—Rodier's, Cassia and other smart fabrics—give it a decidedly sporty feeling. And the taffeta facing adds a sophisticated touch.

With the fringed coat, a casual little felt with a tiny brim to keep away the first freckle of spring. One of the new arrivals at Bullock's Collegienne Hat Shop, at $10.00.

As for her pumps, a new Felice model in blonde kid with brown accent, $7. At $39.50.

Another new model . . . not so sportsy . . . The bow coat. Black with an accent of white . . . at $55.00. In sizes 13, 15 and 17 years.

Note: Bullock's Collegienne Shops on the fifth floor always simplify the Collegienne's problem of assembling a smart outfit. Here the girl who wears a size 13, 15 or 17 years, requires brief underwear, tiny hats and narrow shoes will find a unique specialization for her.

Collegienne Shops, Bullock's Fifth Floor

This Lannark Pump in Dawn Parchment

A new pastel tone that will blend in with practically all Spring costumes—a style trigly smart!

By fitting the bottom of the foot, Lannark shoes give comfort heretofore practically unknown to smart footwear. The Lannark needs no painful breaking in—it fits the arch and heel snugly.

The model sketched is a fair example of Lannark footwear, which reflects the most recent trend in foot fashions. It is priced $13.50.

Section of Foot Fashions, Bullock's Fourth Floor

Leather in Vogue for Trimming---

Imitation leather—plain or reptilian in effect, as well as real leather—trims many frocks and sports coats for Spring.

Bullock's show complete assortments of both types.

Real leather in widths from 1 to 12 inches, priced 25c to $3 a yard. Imitation leather—plain, 36 inch widths, $1.25 a yard—in reptilian effect suede finish, 18 inch width, $1.75 a yard.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.
—Abraham Lincoln

WHAT'S THE USE?
College girls weigh more than the shop girls. But when everybody is reducing what's the use of an education?

NEED THE MOISTURE
It may also be said in passing that showers out here are useful for other purposes than the demonstration of rainbows.

SOMETHING BLUE
More than 2,500,000 pounds of indigo were produced in India last year. If the people of India look blue perhaps they have warrant for it.

THE THINKER
Somebody wants to know why women hold their chins while thinking. But do they? We never had noticed it. Doesn't the querist mean shins?

IT DOES TAKE TIME
They say that Big Hutch is coming back to California to finish his term in prison, but it looks as if he might have to walk and, therefore, justice may sit in suspense for a time.

NO MORE SKIRTS
Paul Poiret, the Parisian designer, says that in thirty years' time women will have abandoned skirts entirely. Maybe some of us cannot wait that long. Why the thirty years? Women never get that old, anyhow.

THE BEST GOLFER
Bobbie Jones was seven strokes under the best professionals in the southern golf tournament at Atlanta. Bobbie must know the home grounds if blindfolded. When he is right the rest of the boys may as well throw their clubs away.

REVISED SHAKESPEARE
Shakespeare was a marvelous prophet, all right, but we doubt that he foresaw the present craze for libelous biography. If he had he would have written it thus: "The evil that men do, pins a whole lot they didn't, lives after them."

THE FALSE FACES
A Republican Senator says that if the Democrats nominate Al Smith it will be on a dry platform and that he will give full promise to enforce it if given the power. The old idea is that a politician will do anything for a nomination.

TELEVISION
One advantage of this new television contraption is that wifie's mother can see what kind of expression her son-in-law is registering when she rings up to tell him that she's going to drop in tomorrow for a nice little three months' visit.

POLITICAL AND OTHERWISE
The Senate at Sacramento has passed a bill graciously permitting Alaska to can its crabs. This thoughtful morsel of legislation may not be fully appreciated by the Alaskans. They may haughtily ask why in thunder we don't can some of our own crabs.

BOSTON IS WISE
Sick of operating its own street-car lines Boston is getting ready to turn them over to a private company. Same old story. The main business of a municipally operated railroad is the inflation of the pay roll which, by the way, doesn't inflate the taxpayer's opinion of city-owned lines.

CHANCE TO DEBATE
The British Parliament may have a chance to debate for six months or more a proposed revision of the prayer book of the Church of England. The mouths of American Senators would fairly drool over this conversational opportunity. A noted visitor remarked that the American Senate would never be able to indorse the Lord's Prayer without a bunch of reservations.

POWER OF THE AD
To keep the rest of its population from migrating to California the State of Missouri proposes to advertise its attractions and let the world know it raises something besides mules. Not a bad idea. The Pathfinder says that if $3,000,000 or $4,000,000 had been spent to advertise the League of Nations when the issue was up the United States would now be a member of the League. Yes, the page ad is a high-powered puller.

AWFUL AUTO
A questionnaire addressed to prominent persons by the American Motorist has brought out the fact that by thirty-five of the college faculties the automobile is condemned as "a time-waster, a menace to morals, a peril to safety." What are colleges for if not to disseminate truth? Don't parents and profs know that the good book is all right, but that it's the boy next door who does the mischief? What those colleges needs is a chair of applied psychology, each instructor to carry a club.

THE CHINESE MERRY-GO-ROUND
Warships of eight nations are assembled in Chinese waters, the greatest fleet of the nations ever assembled in one port. An ultimatum signed by representatives of the British, American, French, Japanese and Italian governments has been handed to the head of the Nationalist faction in China demanding immediate punishment of those responsible for the Nanking outrages, an official apology and adequate reparations. Soviet Russia is not giving the expected support to the Chinese Nationalists. Judging from the latest Moscow cables, the Bolsheviki are going to limit their participation to conversation.

These are the latest developments in the Chinese situation in so far as it relates to outside powers. Inside China the civil war proceeds with varying fortunes. The Nationalists are reported to have suffered a disastrous defeat that developed into a rout in their northern invasion, and to be falling back along their entire front. Some of the observers report the battle which lasted for three days to have been the most important that has been fought in the revolution. Whether Marshal Chang is strong enough to resume the offensive and drive the enemy from the Yangtze basin is problematical.

Chang, the northern war lord, professes friendship for the foreigners, especially the Americans. He has given pledges to protect them to the full extent of his power in the territory over which he still is in control, and has said that he would welcome armed help from this country to stamp out Communism in China. His open defiance of the soviets seems to have damped the ardor of the Russian Communists.

Fortunes of war vary so rapidly in China that one never knows one week what faction will be in the ascendency the next. At the present moment the Cantonese seem to have lost a goodly part of the prestige they won when they captured Shanghai. Their Communist support has proved a liability, rather than an asset. The Chinese in the Yangtze Valley are showing signs of consternation as they see new foreign units arriving for the protection of the lives and property of their respective nationals. The unified action of the foreign powers naturally brings to their mind the collapse of the Boxer rebellion; and the demand for reparations has caused them to be less eager to destroy.

Those foreign war vessels in Chinese waters are a very visible reminder to the Chinese that killing foreigners and plundering their property is a dangerous pastime.

Every succeeding generation in China seems to forget for a time that there is a great world outside, a world with interests in China that it will not abandon to banditry.

To the present time, nothing constructive has come out of the revolution. The Cantonese government made high-sounding professions, after the style of the Bolsheviki; but these professions do not square with the practices of the Chinese military forces. The troops understand looting much better than liberty.

Significant is the reluctance of the soviet government of Russia to participate actively in the Chinese revolution. It seems that the peasants of Russia remember what happened to them when their government engaged in an Asiatic war a generation ago, the war between Russia and Japan, and that they are not minded to repeat that experience. Some of the extremists in Russia are calling for a declaration of war on the Peking government; but Stalin and his peasant supporters are not inclined to mingle in a combat where they would risk much for chance of a small profit. As a fighting machine the soviet government is notoriously defective.

PASSION MUSIC
Good Friday, which falls this year on April 15, should be predated in Los Angeles by all susceptible to the spell of religious music or inspired by the story of the cross as an occasion for special observance.

For many years we have welcomed the Easter sunrise with joyous acclaim in keeping with the spirit of Southern California. But Good Friday, commemorating the sacrifice that brought the message of the Easter dawn, has received no similar general recognition.

At the climax of the present Lenten season for the first time the Los Angeles Oratorio Society, assisted by selected members of the Philharmonic Orchestra, the Smallman a Capella Choir, the Cecilian Singers and 100 juniors from our city schools will afford our citizens an opportunity to match their joy at the resurrection of the Savior with homage and reverence paid to Gethsemane and the tragedy on Calvary's hill.

On the night of Good Friday in our magnificent Shrine Civic Auditorium the Los Angeles Oratorio Society will present the full score of Johann Sebastian Bach's "Passion of Our Lord," the first, and by many considered the most inspiring and interpretative of all church or religious compositions, the precursor of the great oratorios of Handel, Haydn, Mendelssohn and Gounod and the masses of Mozart.

The appeal of such music, under such circumstances and in the hands of such performers, will be widespread in so earnest a community as we have builded in Southern California. The crowds that heard and enjoyed Handel's "Messiah," given last Christmas in the same auditorium by the same splendid aggregation of local singers, will certainly wish to be present at this even more devotional and profounder offering to the worship of the crucified Savior.

What more fitting prelude to the Easter morning sunrise service than an evening spent at the foot of the cross, hearing the actual words of the story as told by the First of the Evangelists, impassioned by the majestic music of the world's master religious composer?

PACIFYING THE PACIFIC
Capt. Robert Dollar says that when orderly government and industry are restored in China the greatest trade development the world has ever known will be found in that country. And Los Angeles Harbor will be near the heart of it.

DO IT DAILY
A bishop asserts that too many of our modern writers are leading us in the wrong direction. Well, most of the gifted authors who write for the women's page have demonstrated their ability to write about face.

They Plant the Onion Sets

[Protected by George Matthew Adams.]

AMERICA'S SECRET
China has four times as many people as the United States, but the United States has the equivalent of ten times the number of effective workers found in the Flowery Kingdom.

"The production of war material and the loans and gifts made to Europe after the armistice, above all the quick economic recovery made here after the war, created a profound impression on the older continent. So in the past few years delegation after delegation has come over to ascertain how it came about," says Thomas T. Read in Atlantic Monthly.

He lays down a principle early in the article that the only way to have material things is to work. Then he subjects this principle to further subdivision as follows:

First, work must be done to avoid repetition, as piping water from the spring instead of continuously carrying it. Second, work must be analyzed to do away with false motion.

His third and last conclusion is that the worker must be multiplied by machinery. Every industrial worker has thirty-five invisible slaves working for him. One of the most significant things is that these slaves do not consume human food. Every American worker is a boss, not a wage slave.

The comparative output of work per person in various countries varies as follows: China, 1; India, 1¼; Russia, 2½; France, 3½; Germany, 12; Great Britain, 18; Canada, 20; United States, 30.

Although the average wage is high in America, the average cost of work is low. C. F. Kettering says that the European workman has to toil ten times as long as an American workman to produce an automobile.

Japan shows what a country with exceedingly limited natural resources, yet coupled with great ingenuity, is able to accomplish. The American Indian and Australian native are illustrations of peoples with vast resources and small ability to use them.

Another thing must not be forgotten. In the past twenty years the infant mortality rate of America has been cut 60 per cent. The death rate from tuberculosis has been lowered more than one-half since 1900. The State of New York hopes to eliminate diphtheria entirely by 1930.

All these things have a bearing on the American secret of success. More people per 100 are employed than in other countries. Fewer persons are required to nurse the diseased and indigent.

Our engineers are flinging the harness upon everything from the lightning to the mountain stream. Our coal and oil resources may not be greater than those of some other nations; but we are developing them.

Then Uncle Sam is not squeamish about throwing off his coat and rolling up his sleeves and pitching in to help. He has never had any false notions about the dignity of labor. He has never felt that loafing is the high sign of real nobility.

It is hard for the average European to appreciate the American psychology. Whether the delegations went back with the royal secret of our prosperity is exceedingly doubtful.

TRAPS
It has not been long since a fancier first installed electric lights in his chicken house to catch his unwary hens off guard and induce them to lay more eggs than they had outlined in their annual budget.

Electric lights have also been kindled in greenhouses to fool the plants that they may keep right on growing after the sun goes down and other folks have quit work. It seems a shameful deception, but thus far vegetation has not resented it.

Even the movies have developed the Klieg light to supplant the good, old, reliable sun, so that high-priced stars may twinkle by night as well as by day to earn their exalted stipends. Fogs and clouds are no longer a nightmare save in theology.

However, the latest use of light is to establish a brilliant arc lamp in a moth trap to catch the unsophisticated cabbage worm, the cherry maggot and rose aphis out at their night clubs. While this is using guile, it is but a part of the war on the insect world that is making faces at mankind.

We have gassed them and laid down barrages of spray; but the war goes merrily on. They seem to thrive on our forays and ingenuities. Now we will coax them to their doom. It has worked in kindergarten with kids, so why not with moths? Bright lights have ever caught the fuzzy wuzzies.

Arc-light traps are to be set by the New York Agricultural Experiment Station at Geneva this summer, and woe to the bug that fools with the flame. It will go the way of the insect that investigates the auto lamp head on.

While the great white ways of the cities are operated as big traps to catch humans by the lure of light, many good institutions that exist solely for the service of men have a penchant for dim religious light. If any windows manage to steal into the architecture when the builder is not looking they are forthwith filled with stained glass that effectually stifle the sunshine.

Cellars and crypts filled with dust and must have always been highly regarded as virtuous. Cellar doors and dirges have afforded the only invitations at the portals of the better life. And workers have wondered why the multitudes fled to the resorts.

Too frequently virtue, always rich in rewards, actually offers nothing but the promise of light at the farther end of a long tunnel. Vice has nothing but a threat of darkness at the other end, but it does at least have judgment enough to illuminate the entrance. Why not have truth bright at both ends?

Many have gone to the ant for wisdom and considered the lily for trust. Might it not be fruitful to behold the moth? The experiments in New York may be valuable for both entomology and theology.

A SERIOUS LOSS
By James J. Montague

Each working day morning, somewhere around ten,
To my desk I dejectedly slink.
Place before me a paper and blotter and pen—
And sit there attempting to think.
My brain cells start buzzing like bees in a hive,
But they never perform as they ought—
And I ruefully find, when I knock off at five,
That I haven't constructed a thought.

I have recently read of a bureau which claims
That it can, for a moderate fee,
If informed of my sundry ambitions and aims—
Do all of my thinking for me.
I tell it the objects I'd like to attain,
And it feels my cerebral pulse—
And then with its massive and corporate brain
It turns to and gets the results.

Assistance like this is quite all that I need;
When a task to myself, I'd assigned
I could loll in a rocking chair utterly freed
From all gruelling tax on my mind.
I could add and subtract, I could even divide,
Work out anything under the sun—
And view the result with a fine glow of pride
When the long day was over and done.

What a joy it would be could I ever be free
From the burden of rough mental work,
Existence would have a new meaning for me
If all effort at thought I could shirk,
In the world I could make a remarkable stir
And gain endless honor and credit,
But I've mislaid the item to which I refer—
And I cannot recall where I read it.

WHAT IF WE SHOULD TELL THE TRUTH?

BY FOOTHILL PHILOSOPHER

Why don't preachers tell their congregations the truth? Why don't parents tell the truth to their children? Why don't people always state the blunt, unvarnished facts as they see them?

Why, indeed?

In the first place, can any of us be certain that anybody knows the whole truth about anything that anyone discusses? Is it not a fact—demonstrated as well as anything can be demonstrated to be true—that we know only relative truths and that such knowledge, of necessity, cannot be complete?

Supposing, however, we did know all the truth—and were saintly enough or foolish enough to tell it. What would be the value of the contribution of such saints—or such fools—toward human welfare?

Supposing the preacher should say: "My dear congregation, I am doing my best to love you, for I am commanded to love everybody—but I must admit that many of you are thorns in my flesh. This morning I shall preach on a very unpopular text which probably will do you no good, for none of you want to believe it. Moreover, I am not sure I believe it myself. However, the topic has been announced and I must make good, regardless of my feelings, your attitude or press reports."

Supposing a father should say to his son: "My boy, when I was your age I was a bigger problem to my dad than you are to yours. I spank you now and then, it's true—but not because you are bad, but because I am angry. I am not worried by your wickedness, but I am annoyed by your disturbances. When I am reading a paper I don't care to stop and help you get your lessons nor read you the funnies. Yes, you are right about Santa Claus—there's no such person. And there are no fairies nor goblins nor sprites. No, I am not positive that such creatures do not exist, but I don't know that they do—and rationalism has taught me to believe the worst."

Supposing the editor should write the author as follows: "It is with a sense of relief that I send you back your impossible manuscript. We cannot use it in our magazine and can't understand how any intelligent editor could read more than the first paragraph. Postage costs money. Why let your vanity subscribe toward the support of the government?"

What a sweet, sweet world we would have if we all should tell the truth—the whole truth and nothing else but—if we knew it! Church attendance would grow by leaps and bounds, all the City Councilmen would be bidding for front-page position in the daily papers, children would have boundless confidence in and love for their parents, editors would receive millions of perfumed notes of gratitude—not.

The day may come when all of us may not only dare to speak plainly, but take joy in telling the truth. In the meantime, perhaps it is best to speak, as nearly as we know, in the spirit of truth, suggesting the best rather than flaunting the worst, in the hope that the best may, after all, be true—or at least that it may become true and that all unpleasant and unbeautiful facts may be proved false. Here's hoping!

Signora Carola Ansaldo, wife of one of Italy's richest men, will be the model for the figure of Justice on the Victor Emanuel monument to be erected in Rome.

In recognition of her recent air trip from London to India, Lady Maud Hoare has been made a Dame Commander of the Order of the British Empire.

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

The Moral Standard
LOS ANGELES, April 8.—[To the Editor of The Times:] According to the content of a sermon preached by a prominent pastor last Sunday and the address delivered by a judge before the Woman's City Club on Monday, the morals of many children and youth in this section of Southern California are sorely in need of cleansing.

A correspondent in Birmingham, Eng., quotes a London doctor as saying: "If I could discover the way to sublimate the sex instinct nine-tenths of the mind troubles and nervous disorders I have to deal with would be solved."

The one and only way to sublimate (purify) this instinct is to recognize the holy purpose for which it was given by God and persist in absolute obedience to His law given to protect it from base perversion. No other question in the Bible from Genesis to Revelation receives such attention as this very one of preserving the purity of the sex instinct.

The great evangelist and college president, Charles G. Finney, stated that if the morals of society declined the pulpit was responsible. He had the word of the Lord to support the statement. God's condemnation of the priests of that day is applicable to not a few in modern times: "Ye are departed out of the way; ye have caused many to stumble at the law; ye have corrupted the covenant of Levi, saith the Lord of hosts." As in the days of Jeremiah the Prophet, "They have rejected the word of the Lord, and what wisdom is in them?" This charge applies to many in the ministerial office wherein this "law of the Lord" relates to purity.

Male translators and Bible expositors have grossly perverted some scripture texts, particularly Genesis 3:16, in their endeavor to secure divine sanction for sensuality in an important life relation. A Bible teacher, known to many on both sides of the Atlantic, says: "The masculine church has yet to meet the judgment of God for that gross sin against Bible truth and morality; it has guided many a soul to eternal doom."

BELLE HUNTINGTON MIX.

Wild Flowers
LOS ANGELES, April 7.—[To the Editor of The Times:] Will you kindly let me call the attention of all lovers of beauty to the unsurpassed loveliness of the acres of wild flowers to be seen now near Bakersfield. Literally acres—sheets of solid masses of color.

Go by the Ridge Route—stay all night in Bakersfield and back by Tehachapi and Mojave.

Do not miss this. I have traveled far and wide, but never saw such a sight as this.

J. A. BROWN.

Chicago Election
LOS ANGELES, April 8.—[To the Editor of The Times:] One of the outstanding features of the Chicago election is the fact that 90,000 negro voters hold the balance of power in the Windy City. Dever was defeated mainly because he gave Chicago one of the best administrations it ever had, and Thompson was elected because he was Mayor for two terms before and gave Chicago the worst government it ever had.

An election like this makes the words of H. G. Wells sound true when he says: "There exists a great variety of indictments of political democracy, but the main, most essential one is that it has produced a special and objectionable type of ruler, the politician, with certain very definable characteristics."

JOSEPH W. PICKENS.

A Power for Good
TUJUNGA, April 4.—[To the Editor of The Times:] If William Jennings Bryan had no brains, as Mr. William Allen White recently stated, then God help the rest of us (excepting, of course, Mr. White and Mr. Harry Carr,) for we must all be submorons.

While Mr. Bryan may not have been a Franklin or a Newton, he was a man of no mean intellect. He was a power for good, a moral giant who, no matter what his environment, never compromised with his ideals. It ill becomes anyone to criticise Mr. Bryan in death. "It is easier to be critical than correct."

HERBERT G. THOMPSON.

A Sacred Work
INGLEWOOD, April 6.—[To the Editor of The Times:] I wish to express my appreciation of your splendid editorial of March 31 on "Kindness to Animals." I am deeply grateful that The Times, with its clear vision of right and justice, stands ready to use its great influence in behalf of those lesser ones of the world whose wrongs are so mighty and who cannot speak for themselves.

The late Frances Willard, the great leader and international president of the W.C.T.U., who realized its full meaning, said: "I consider this work a sacred one, second to none founded in the name of Christ."

VENIA KERCHEVAL.

For the first time in seventy-five years of its history the American Society of Civil Engineers has just elected a woman to full membership. She is Miss Elsie Eaves of New York, who is an experienced practitioner of her profession.

Mrs. Jennie Litchfield, now past 77 years of age, is the oldest woman in the State of Maine to hold a motor driver's license. She is absolutely fearless, having taken a trip in an airplane and cruised in a submarine.

Mrs. Elizabeth V. Colbert, former member of the New York State Motion Picture Censorship Commission, has been made a deputy secretary of State.

APRIL SNOWS HOLD UP COURT WITH PROSECUTOR MAROONED

An April snowstorm in Southern California yesterday caused a temporary halt in the grinding of the mills of justice in Municipal Judge Galbreth's court in so far as the bribery cases against Herman Miller, Brewer Abney, F. W. Dimmick and a collection of John Does and Richard Roes were concerned.

When the case was called by Judge Galbreth, Miller and Abney—the only defendants named in the complaint who have been apprehended—with Defense Attorneys Phillips and Kendall, announced they were ready for preliminary examination. But the prosecution side was not in harmony.

"The case will have to be postponed for one day," declared Dep. Dist.-Atty. Costello, "as Dep. Dist.-Atty. McKay, who has been assigned to the trial of this matter, went on a week-end trip Saturday and was caught in a snowstorm near Arrow Rock and has not been able to get back."

On Mr. Costello's assurance that the absent deputy will be back by today, Judge Galbreth continued the case until 10:30 a.m., declaring at the same time that the intervention of an April snowstorm in court procedure is nothing, if not unusual.

According to the complaint against the two men, and the unapprehended codefendants, they are charged in two counts with conspiring to offer a bribe and offering a bribe. The prosecution contends that they offered a bribe of $1000 to Dep. Dist.-Atty. Hill to dismiss narcotic charges against Abner and Cornelius Johnson, said to be leaders in a Central-avenue narcotic ring.

his Golden State Band is scheduled to broadcast promptly at 9:15 from the roof of the Times Building. The band plays at the Olympic Auditorium and during their radio program this evening flash reports of the fights will be given.

JUDGES OF CITY COURT SWITCHED

Civil Division Justices Take Criminal Bench to Relieve Incumbents

Several changes in assignments in the criminal and civil divisions of the Municipal Court were announced yesterday by Presiding Judge Stutsman and immediately put into effect. All changes were announced by the presiding judge as made for the purpose of distributing some of the heavier criminal work among certain civil judges and allowing the three regular presiding jurists in the felony courts a brief period of respite.

Judge Ballard yesterday took over Division No. 22, while Municipal Judge Haas, presiding in the latter division, assumed the criminal calendar in Division No. 1. Municipal Judge Galbreth turned over his regular calendar in Division No. 19 to Municipal Judge Blake and took over Division No. 2. Municipal Judge Wilson returned to Division No. 13 from Division No. 2 for one day and tomorrow will assume Municipal Judge Fredrickson's bench in the misdemeanor jury court in Division No. 7.

Municipal Judge Ambrose, Judge Stutsman said, will remain for one week more at San Pedro, while Municipal Judge Bush will continue for that period of time in Judge Ambrose's preliminary hearing and jury liquor court in Division No. 2.

Municipal Judges MacCoy and Rosenkranz, who have been handling felony courts for the past three weeks and caring for the calendar in Division No. 6 during Municipal Judge Bullock's illness, have returned to their civil divisions.

TRAIN JUMPER KILLED

Decapitated and, mangled the body of an unidentified man said by police to be a Mexican was found on the Santa Fe right of way near San Pedro street yesterday. The find was reported to police by A. H. Goodin and H. C. Eggleston, switch foreman for the Santa Fe. The man probably attempted to board an inbound freight train, according to Detective Lieutenants Hamilton and Parsons, who investigated. The body had been dragged nearly 100 feet, the officers said. Remains were taken to the County Morgue.

MAYOR DIGS AT STARTING OF BUILDING

Los Angeles Investment Company Begins Work on New Broadway Structure

[Illustration on Picture Page]

The second unit of the Western Pacific Building, on Broadway between Tenth and Eleventh streets, was officially started yesterday at noon when Mayor Cryer, assisted by Boyle Workman, turned the first shovel of earth for the new $2,500,000 building to be erected by the Los Angeles Investment Company.

The building is part of a program of the company which will eventually take in a 300-foot frontage on the east side of Broadway from the junction of Broadway and Broadway Place to the Los Angeles Railway Building. It will be a class A, reinforced concrete, height-limit building occupying a 200-foot frontage on Broadway and will be the fourth largest office building in the city. The new addition will be ready for occupancy about January 1, 1928, under the management of H. B. Ziegler.

According to officials of the company the original plan was to start the addition in 1929, but because of so many requests for large spaces in the present unit which they were unable to fill, it was decided to push the program ahead.

Present at the ground-breaking ceremony were Frank P. Flint, president of the Los Angeles Investment company, E. L. Dudleigh, a director; W. P. Jeffries, treasurer; W. H. Harrison, manager; Boyle Workman, Mayor Cryer, George B. Anderson, Dr. Frank F. Barham, E. Manchester Bodie, Edward A. Dickson, George Kurtz, George Young and P. A. Eisen of Walker & Eisen, architects for the building.

Guilt Denied by Defendants in Cult Plot Case

Appearing before Superior Judge Burnell yesterday, Mrs. Margaret A. Rowan, leader of a local cult; Jacob F. Balzer and Miss Mary A. Wade, pleaded not guilty to a charge of conspiracy to murder Dr. Bert E. Fullmer, pastor of the Seventh Day Adventist Reform Church.

The trio, after arraignment and entry of plea, were given until June 21, next, for trial.

POLICE "PERILED" BY SQUIRT GUN

Alley Prowler Bluffs Officers, Sent to Arrest Him, with Child's Toy

While L. L. Harnish, who gave his address as 345 North Middleton street, Huntington Park, was gaining his liberty yesterday from the Huntington Park jail, Captain of Detectives Simons and Detective Priestley of that city examined what appeared to be a vicious weapon.

The night before they had been sent out on a hurry call and found a man in the alley back of Harnish's house, according to reports. When they approached him, the officers were confronted with what appeared to be an automatic pistol. They returned to the police station, gained reinforcements and then took Harnish into custody.

Loud guffaws broke forth from the Chief of Police when he examined the weapon, which proved to be a rubber water gun.

WARD CLUB COMPLAINTS SWORN OUT

Members Face Charges of Conspiracy, Larceny and False Pretenses

Additional complaints charging Robert Hickey, Daniel Bissman, J. M. Bissman and H. W. Robbins, members of the Twelfth Ward Republican Club, with conspiracy, larceny by trick and device and obtaining money under false pretenses were issued yesterday by Chief Deputy City Prosecutor Concannon.

The complaint asserts that the four defendants represented to Paul C. Hooke that they would use their influence and power to obtain a badge and permit to carry a gun for him from the Sheriff's office if he would get five new members for the club who would pay $5 each to join.

It is set forth further that Hooke obtained five new members and turned over $25, two checks of which represented $15 and $5 of his own money.

Following a recent raid on the downtown offices of the club, its officers recently were charged in a complaint with committing acts dangerous to the public peace and safety.

PRESEASON OPENING OF SWIMMING POOL

A rare treat for the Easter holidays of boys and girls begins today when the municipal swimming pool in Exposition playground is opened for a short season of water sports. The pool is to be used by the Civil Service Department for examination of prospective life guards for the municipal beaches and playground swimming pools. Maj. Carter, supervisor of aquatics of the Los Angeles Playground and Recreation Department, invited the boys and girls to "come in." The pool will remain open through Sunday.

FREE 10-Day Tube

Send the Coupon

Make your teeth are gloriously clear, simply dazzled with a film coat. Make this remarkable test and find out.

The most beautiful teeth in the world

A smile that allures with dazzling film-free whiteness

Do you want them? Then please accept this dental test—the new method leading dentists are urging. Removes the dingy FILM that clouds teeth and invites gum troubles.

You know that "off-color" teeth can be restored to dazzling whiteness?

Here's a test that will cost you nothing, one it's folly not to make.

Ordinary care will work a transformation in the color and luster of your teeth—in your appearance.

Now science has discovered new methods of safely and beautifying teeth and gums. Dentists employ it. Coupon brings you a tube free to start you.

It's simple a film; remove it—see what a great difference comes

Run your tongue across your teeth, and you feel a viscous film coat covers them.

This film is an enemy to your teeth—the cause of most gum troubles. You must remove it.

It clings to teeth, gets into crevices. It absorbs discolorations, then it causes tartar to form. It holds it, and they, with the chief cause of

Tooth troubles and gum troubles now are largely traced to that film. Old-time methods fail in successfully combating it. *That's why, regardless of the care you take now, your teeth remain dull and unattractive.*

New methods remove it. And Firm the Gums

Now, in a new-type dentifrice called Pepsodent, dental science has provided effective combatants. Their action is to curdle the film and remove it, then to firm the gums.

Now what you see when that film is removed—the whiteness of your teeth—will amaze you.

Ordinary methods fail in these results.

Harsh, gritty substances are judged dangerous to enamel.

Thus the world has turned, largely on dental advice, to this new method.

FOR Sour Stomach PHILLIPS' Milk of Magnesia

Hereafter, instead of soda take a little "Phillip's Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

Better Than Soda

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this scouring waste from the system without purging. It is far more pleasant to take than soda.

Try a 25c Bottle

Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor, Charles H. Phillips, since 1875.—[Advertisement.

Corn Bread is Made This Way In Alabama—Try It

IDA BAILEY ALLEN'S New Book (see coupon below) is full of surprise dishes for the alert housewife.

Try this recipe for corn bread—and learn for yourself why the Modern Housewife prefers Mazola for shortening—as well as for frying and salad dressings.

Mazola is equal in richness to butter—it costs less and you use less—and regardless of the climate, it stays sweet almost indefinitely.

SOUTHERN CORN BREAD

2 cups corn meal	1 tablespoon Karo
2 tablespoons Argo or Kingsford's Cornstarch	1 egg, well beaten
1 teaspoon salt	2 tablespoons Mazola
1 scant teaspoon soda	2 cups sour milk or buttermilk

COMBINE the ingredients in the order enumerated. Beat well, pour into a medium sized dripping pan oiled with Mazola and bake thirty minutes in a hot oven, 375 degrees F.

SEND ONLY 10c

with this coupon and you will receive a copy of Ida Bailey Allen's wonderful new Cook Book, beautifully bound, 112 pages of unusual recipes. Write

Of Interest to Women.

SOCIETY

Mrs. F. F. Neyport has planned a breakfast musicale that promises to be gay and unusual.

The event is to take place at 11:30 a.m. at the Oakmount County Club on May 5 and will take the form of a regular ham-and-egg breakfast. The time has also been set so that those friends attending the ground breaking ceremonies for the new Children's Hospital at 10 a.m. will have ample time to attend the party.

Immediately following the breakfast there will be a program of Indian music, made up entirely of Homer Grunn's compositions, the composer himself accompanying the singers, Princess Tsianina and Chief Youlche. The latter, who has a rich unusual baritone voice, is to appear in a new eagle feather costume of faithful design. About 100 invitations are being issued for this occasion.

At the Athletic Club

Another event at which Mrs. F. F. Newport will be hostess is the Woman's Athletic Club's reception-tea on Friday, to which one or two visiting celebrities are to be bidden. Mrs. J. C. MacFarland was to have been the hostess on this occasion, with Mrs. William Gibbs McAdoo as the guest of honor, but the arrangements have had to be changed.

Bridge Events

Mrs. Duane Jones of 6932 Burgen avenue is making bridge the raison d'etre of her entertaining these days. On Saturday evening she and her husband were hosts at a dinner party for eight, when gay spring flowers in profusion lent their chasm to the occasion.

Guests for this affair were Mr. and Mrs. Kenneth Stonier, Mr. and Mrs. William Banning, Mr. and Mrs. Theodore Braun, besides the hosts.

And this afternoon Mrs. Jones will again entertain with a bridge tea, at which those participating will be Mmes. Dudley Logan, Douglas Newier, John Boyle, Walker Boyne, W. Alford, Robert McLachlen, Wayne Cassady, Weir Cassady, Theodore Braun, William Banning and Kenneth Stonier.

Sorority Gaieties

Sorority events are coming thick and fast. Last week the Chi Omegas celebrated with a banquet at the Mary Louise, 100 strong, including the active and alumnae chapters, for the anniversary of its founding. Mrs. Jay Holbrook, president of the alumnae chapter, acted as toastmistress, and the hostesses were Mrs. William Bowden, Mrs. Harcourt Hervey, Mrs. Herman Coors, Miss Margaret Duncan and Miss Mildred Kenworthy. Mrs. Ida P. Purdue, a past national president, responded to the chief toast, and others were the Misses Ruth Purnell, Eleanor Phillips, Frances Ludman and Jean Robertson. Miss Robertson has been elected president of the active chapter for the coming year.

Sorority Dance

The annual dance of the Delta Chi Omega sorority was held at the Club Casa Del Mar on the evening of last Friday. A banquet was added, as a special feature, to the event and the table was decked with Bachelor buttons tied with silver ribbons to carry out the sorority colors. Some of the guests were Majory Stanley, Velva Brown, Ruth Martin, Dorothea Manatt, Harriet McClellan, Margaret Eccleston, Gladys Coles, Geraldine Minert, Neal Cameron, M. Lovekin, Burton Martin, Henry Roth, H. H. McClellan, J. W. Eccleston, Jr., Mart Coles, John F. Bogan. The patroness was as usual the sorority mother, Mrs. Alexander Taylor.

Returned Sojourners

Mrs. Willis Herman Mitchell, 826 South Manhattan, has just returned home after six months of world seeing. Her trip included such far points as British India and Europe. She was accompanied by her sister in-law, Mrs. Daniel Budd of Meriden, Ct. And, by coming home via the Panama Canal, they were able to visit Mrs. Mitchell's sister, Mrs. Harold L. Jackson, whose husband is a colonel stationed with the United States Army in the Canal Zone.

A Triangle Sorority Dance

The Delta Gamma, Kappa Alpha Theta and Pi Beta Phi sororities held a joint dance on Friday evening when about 100 couples attended the event held at the Beverly Hills Hotel. The three presidents, Miss Marian Robertson, Miss Julia Miller and Miss Virginia Judd, played hostesses for the occasion.

For Mrs. Zane Grey

Mrs. Richard H. Riethmuller entertained with a luncheon party last week in honor of Mrs. Zane Grey, wife of the famous author. Other guests included Mrs. Jack Roth, Miss Frances Mitchell, Mrs. Frank L. Simpson of Parkersburg, W. Va., and Mrs. John Gertmer of New York City.

Assisting Cupid

Amongst the friends who assisted Cupid in finally tying the knot by which Irene Rich became Mrs. David S. Blankenhorn at Del Monte, were Mr. and Mrs. William May Garland, at whose Pebble Beach house the wedding took place Mr. and Mrs. W. W. Mines, Mrs. Grace Porter of San Francisco, and Mr. and Mrs. Earle C. Anthony. And, incidentally, Del Monte did not know about that marriage until they read it in the Los Angeles papers.

Heir Apparent

A husky young nine-pound son arrived for Mr. and Mrs. Daniel Cordin Roberts yesterday morning at the St. Vincent Hospital. Mrs. Roberts will be remembered as Hortense Van Mourik, daughter of Mr. and Mrs. A. G. Van Mourik, who hereby become proud and happy grandparents.

HEAD OF SORORITY'S PLEDGES

Chapter to be Entertained With Dance

Miss Rebecca Singleton

PRESIDENT of Apha Chi Omega pledges in Southern California, who is the daughter of Dr. and Mrs. L. G. Singleton of Santa Barbara. The pledges entertained the Epsilon chapter at a spring dance at the Westward Ho Country Club on Friday evening.

DIET and HEALTH

by Lulu Hunt Peters, M.D.

REDUCERS' REST PERIODS

While the reducing and gaining course has been running, I have been taking a vacation at Rochester, Minn., and Battle Creek, Mich. At Rochester I visited and studied at the famous Mayo Clinic, and at Battle Creek I stayed at the well-known sanatorium there. I went to these places not only for a vacation and a physical check-up (which we doctors advise all of you to have periodically from your physician or some institution,) but to study. I studied on everything pertaining to subjects that I can write to you about in the daily newspapers. I just naturally spent a lot of time on the reducing question.

I want to emphasize, as I have done before in the column, that the freak diet which is spoken of as the Mayo reducing diet—tomatoes, skim milk and hard-boiled eggs—did not originate at the Mayo Clinic, nor is it used in their diet kitchen, ever. They do not make a specialty of reducing at this clinic, but patients and friends of patients who are there and need the supervision of their dieticians for reducing, have their meals at the Rochester Diet Kitchen with others who need special diets and are able to be up and around.

While I was there, I went on their reduction diet, wanting to know firsthand of it and still having some extra pounds to lose. They follow exactly the same methods that I am continuously teaching you: A careful counting of calories, with strict attention to getting in these calories taken the full protein needs (the growth and repair foods) the full need of vitamins, mineral elements, water and bulk. The starches and sugars, in the form of breads and cereals and desserts, and the fats, are cut down markedly, but 100 C. or so of some full carbohydrate foods, such as bread, are given daily.

They advocate three meals a day and the number of calories allowed depends upon the activities of the reducer and his size—some being on as low as 800 C., and others on as high as 1600 C. I had my coffee, a bran muffin and a quarter pat of butter served as usual in my bedroom at the hotel where I stopped, but my lunch and dinner I took at the diet kitchen. I was always given a glass of skim milk, a fair-sized piece of meat or fish or some egg or cheese dish, always a thin soup (which counted not more than twenty-five C.) two good helpings of vegetables cooked without fat, usually a green salad, one-half slice of toast one-half pat of butter, and always fruit or fruit salad (with some mineral oil mayonnaise) for dessert.

This is, as you see, similar to what I advise you to have. My two meals at the diet kitchen amounted to 1060 C., and my breakfast 200, so I was on a 1200-C. day; and in ten days, I reduced around five pounds. But when I left I was beginning to go much slower, and you will find this is true in your reducing course.

Dr. Wilder, the diabetic specialist there, believes that it is wise, after every ten pounds loss, to go back to maintenance diet for a week or so, and then resume the diet. Those of us who are teaching the reduction method have said that it is certainly wise after a reduction of thirty to forty pounds to stop for a while. I'm not fully convinced that it is necessary to stop after every ten pounds, for I've had hundreds of letters from followers who had reduced even more than thirty pounds without a rest, without any harmful effects. I believe the thing to guide you in this matter is your state of vitality. If you are feeling perfectly well and energetic, you can know that you are not exceeding the limit. The idea of the rest period is that if you have been missing some of the elements in your reducing diet, you will get caught up on them. I'll tell you more later on about my reducing at Mayo's under their dietician, Miss Foley.

My Dear Followers: When sending for material which we offer you, please remember to inclose a stamped, self-addressed envelope bearing your full name and address. The pamphlet on reducing and gaining is the only one for which you must inclose 10 cents in stamps extra. Address your letters to me in care of this paper. Make them as brief as possible, not over 200 words, and type or write them legibly with ink. Please sign your name as evidence of good faith—we will not use it in any way. Remember it is impossible for me to diagnose for you or to answer you personally. I appreciate very much the beautiful letters you send me and regret it is impossible to give you individual advice. The questions you ask will be answered in the column as soon as possible, if they are of general interest. Don't forget the stamped, self-addressed envelope when you want me to send you the information I have offered.

(Copyright, 1927, George Matthew Adams Service.)

PARADE of FASHION

HERE AND ABROAD

BROCADE STOCKINGS SEEN ON BOULEVARDS

PARIS—Even Paris has been startled by a new style. Cafe crowds on the boulevards recently were aroused by the new brocade stockings in which many young women suddenly appeared. These stockings, the most sensational of the spring styles, when worn with very short skirts are most arresting. Heavy embroidery is combined with generous open work, and black is the favorite color.

UMBRELLA HAT IS PALM BEACH CHOICE

PALM BEACH (Fla.)—The large hats which have increased in popularity here presage, in the opinion of fashion creators, that they will find general favor elsewhere during the summer months. The new umbrella-like millinery appeals particularly to tall women. They are being worn here with organdie, lace and chiffon afternoon dresses.

Another Palm Beach style that it is predicted will gain favor elsewhere is the lisle stocking which debutantes here seem to prefer to woolen hose for daily sports wear.

CHEF WYMAN'S *Suggestions for* TOMORROW'S MENU

WOMEN READERS OF "TIMES" TO GET SPECIAL DIVIDEND

A new and absorbingly interesting service for women readers of The Times, in which there will be no fees, charges or obligations of any kind, will start next Friday, April 15.

This will consist of classes in cooking and domestic science which The Times will conduct under the direction of Mrs. A. L. Wyman, widow of the late Chef Wyman. Mrs. Wyman, who is one of the best-known women cooks in the United States, has already won thousands of friends in Los Angeles through her daily menus and recipes in The Times. She possesses the happy faculty of being able to impart her skill to others, and under her tutelage every class day will be an event to look forward to.

The first class will meet Friday, April 15, from 2 to 4 p.m., in the Patio Room of the Southern California Manufacturers' Exhibit, in the Southwest Building, 130 South Broadway. Subsequently, classes will be held at regular intervals to be announced later. Most women will find it an advantage to be present at the first meeting, and those wishing to bring a friend or neighbor may feel welcome to do so.

HOTEL MARK HOPKINS

Atop Nob Hill

The new Mark Hopkins ... already the choice of travelers from the four corners of the earth.

Healthy Girlhood's Exquisite Complexion

A normal healthy skin is smooth of texture and devoid of all skin blemishes. Blackheads, enlarged pores, scales, pimples and red spots are repulsive and indicate negligence in caring for the skin. If the health and beauty of your skin is impaired by these ugly defects, peel them off with pure mercolized wax.

This can be done secretly and quickly at home. By the process of absorption the wax gently but surely removes the unsightly mask in small almost invisible particles, until the spotless beauty of the underneath skin is revealed.

Mercolized wax is a most extensively used facial rejuvenator. You will like it. At all drug stores and beauty counters. Mercolized wax brings out the hidden beauty.—[Advertisement.

STUFFED PEPPERS, MEXICAN

Mix two cupfuls of ground boiled ham with one cupful of cooked rice, one tablespoonful of Spanish seasoning, two tablespoonfuls of melted butter, one teaspoonful of chopped parsley, one teaspoonful of marjoram, two well-beaten eggs, and a seasoning of salt. Fill six even-sized green pepper cups with the mixture and bake in a moderate oven until the peppers are tender. Serve with a Spanish sauce.

CHESTNUT SALAD

Boil one cupful of chestnuts, remove the shells and skins and cut in even-sized pieces. Mix the chestnuts with one cupful of peeled and sliced white celery, one cupful of peeled and diced apples, and enough French dressing to moisten. Serve on lettuce-covered plates.

CHICKEN FRICASSEE

Place in a saute pan one cleaned and cut-up chicken, add two tablespoonfuls of butter and cook until the chicken is a nice brown. Cover with boiling water, add one cupful of diced salt pork, one tablespoonful of chopped parsley, and a seasoning of salt and pepper. Cover and simmer slowly until the chicken is tender. Lift out the chicken onto a hot platter. Strain the two cupfuls of the liquor into a clean saucepan and stir into it two tablespoonfuls of flour worked to a smooth paste with two tablespoonfuls of cold water; beat one egg with one cupful of thin cream, stir into the sauce and stir and cook until thick and smooth; pour over the cooked chicken and sprinkle with chopped parsley.

PINEAPPLE SALAD

Mix in a cold bowl two cupfuls of diced pineapple, two cupfuls of shredded lettuce, one chopped pimento, one seeded and chopped sweet green pepper, one cupful of chopped walnut meats, and enough lemon French dressing to cover. Mound on lettuce-covered plates and garnish with strips of pimiento and sweet green pepper.

CHOCOLATE PLUM PUDDING

Cover two tablespoonfuls of granulated gelatine with two-thirds of a cupful of cold water and let stand five minutes. Place in a double boiler two cupfuls of milk, add one and one-half squares of melted chocolate and scald. Stir in one cupful of sugar, one-quarter of a teaspoonful of salt, and the soaked gelatine. Stir until the gelatine and sugar are dissolved; remove from the fire and when the mixture starts to thicken stir in one-half teaspoonful of vanilla extract, four tablespoonfuls of chopped candied orange peel, four tablespoonfuls of chopped blanched almonds, one-half cupful of chopped seeded dates, one-half cupful of seedless raisins. Pour into a deep round mold and set on the ice to harden. Unmold onto a cold plate and serve with vanilla-flavored whipped cream.

[All rights to reproduce reserved by A. L. Wyman]

Cheaper Cuts of Meat

The coarser and more gristly meat is, the more slowly it should be cooked. If you must economize in your cuts of meat, remember to cook it more thoroughly and the result will be just as nourishing and good to eat as the more expensive cuts.

Must Be Dry

Be sure to thoroughly dry the iron pot roaster or frying pan before putting it away. It will rust very quickly if a trace of water is in it. Light a gas burner for a few minutes, long enough to dry it out.

HOUSEHOLD SUGGESTIONS

Protection to Knees

If a towel is folded into a small square and stuffed into the knee of your stockings you will be very glad by the time all the floors are scrubbed for housecleaning.

The Safe Paper

A spring clothespin, fastened near the front door, is useful when the carrier arrives with the daily newspaper. He can snap it tight to keep the paper from blowing away.

Candy for the Kiddies

Wholesome candy may be made for the children from puffed rice or wheat. Any molasses candy recipe may be used and poured over the crisp cereal. Cool and break into smaller pieces.

Protect the Varnish

Cut a piece of oilcloth the size of a small doily and place it under the centerpiece on which your house plant stands. Then your table is protected from moisture. This is also a good idea for under the vase of fresh-cut flowers.

Reduce your overweight. Don't do it by abnormal diet. Such results are brief and transient. Do it in the normal way.

That way is Marmola Prescription Tablets. They are based on the findings of scientific research, and they correct the cause.

Marmola is the modern way to help. It has been used for 17 years. Countless users have told others of its results and its benefits. Millions are using, as a result, a normal amount.

In every circle you can see Marmola is now doing. Slender figures are now common, chubby it rare.

If exercise and diet seem necessary try the Marmola way which millions now employ. Watch the scale show the weight come down, the figure increase. You will be delighted at the results. Many report gains in health. Then tell others—but first get Marmola. Ask now for a box of Marmola Prescription Tablets.

Marmola prescription tablets are sold by all druggists at $1 a box. If your druggist is out of stock, send us $1 and we will mail you a box in plain wrapper. Or send 10c for booklet telling more about Marmola.

The Reducing Tablets

Such Flav...

as this comes only in real Quaker Oats

THE price you pay for Quaker Oats is the same as for the ordinary kind. And there, in the flavor. And flavor, among things, is important is on.

That rich and toasty Quaker flavor is the result of over 35 years of experience. Once you taste it you are spoiled for ordinary oats.

That is why millions prefer Quaker brand—why you should accept no other.

Quaker milling, too, conserves the "bulk" of oats. And as laxatives lose effectiveness, carbohydrates, and vitamines, "bulk" are thus enabled to do their "balanced" food.

Get Quaker Oats today. They have two kinds: Quick and Regular, which cooks in 2½ to 5 minutes. Both are Quaker Oats.

ROUGH DIAMONDS

... married a rough-diamond ... three years ago. He is ... of good physique, honorable ... industrious, but he left ... school after the first year and ... educated.
... is schooled in the niceties ... social deportment and his ... is frequently very faulty. ... leaves the impression that ... is an educated, genteel ... properly versed in these ...
Of course, I knew all this in a ... before we were married, but they ... matter so much then, ... my family pointed them super-... sometimes, and that, any-... personally correct them ...
... things like that don't ... as much when we are ... his own sneer clearer after ... For instance, I expect he ... said 'ain't,' but it worries ... now. I hate to hear him ... wrongly. But he ... when I correct him. ... way he wears his hat is not ... either. He will keep it ... back on his head. And some-... clothes always look the wrong ... It is also most careless in his ... and thinks I am too ... when I call attention to it. I ... it is useful to be always cor-... him, but what can I do? Was ... all a mistake for me to marry ... my own station in life? Are ... always a failure?"
... Coleen—but somehow my ... were immediately aroused ... rough diamond.
... I read I recalled the agonized ... of the fifth wife of a fa-mous actor. She told me that it was his charming manners which won her heart in spite of the fact that she knew all about Nos. 1, 2, 3 and 4. He was so wonderful in the little social attentions, dressed so well, and made such a fine figure in society. He had a rich, intriguing speaking voice and was so remarkably well read and well informed. Such a marvelous conversationalist. But all the same he broke her heart, all the same he was a devil to live with. She came to hate those fine manners and that charming diction which had snared her into believing in him.
After that, Coleen seems to be peculiarly lucky. I know that fifth wife would envy Coleen her rough diamond. And she would consider Coleen an extraordinary fool to jeopardize her happiness with those everlasting petty corrections.
Of course, the ideal superman would have the manners and savoire faire and social aplomb of the actor, as well as the charms and integrity of Coleen's rough diamond—but supermen are sadly rare. Every woman would prefer her diamond polished, but, failing that, the intrinsic value of the rough diamond is so immeasurably superior to polished glass.
One could almost be snicky enough to wonder whether Coleen is not just polished glass herself, under the circumstances. And oh, Coleen, if you could read some of the sad letters to this column, you would realize how extraordinarily lucky you are to have no worse woes than a little lack of polish to complain about.
"Are such marriages always a failure?" you ask. Perhaps they are, my dear, when the wife places gentility and fine manners above solid worth.

YOUR BABY and MINE
By Myrtle Meyer Eldred

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.

... MYRTLE MEYER ELDRED
... stuttering are two ... to stop, ... because all children do not ... from the same cause. If ... it would only be necessary ... the cause.
A child may begin to stammer following a severe illness. The stammering may start unexpectedly after ... has been frightened by an ... or some bullying adult.
... may be done in unconscious ... of some playmate, relative ... who is a victim of stammering. Perhaps one of the child's ... is a stammerer. It is almost ... conclusion that the child ... stammer, not because of hereditary ... because he is sure to imitate ... parent's failings as well as ...
... the parent when a child begins to stammer to try, at ... moment, to decipher the cause. ... memory may not be so ... but right then one can usually ... what it was that caused the ... stammering.
It is a mistake keeping the child ... from the stammerer should ... the habit without trouble, as ... will forget it when it is not ... to his attention daily.
... fright or illness is at the root ... ease the fear and keep from ... the attention of the child ... stammering. Pounding it ... that he is stammering and ... him to notice it constantly ... only make the habit stronger.
... him out of doors, away ... person or thing which ... caused the fright, building up his bodily health, will do more than exercises to cure him. That is, more than exercises of which the child is aware.
Like all other habits a child gets a certain satisfaction in contemplating the disturbance he causes. If he finds the mother hovering over him, intent on each word, trying constantly to help him overcome his stammering, he is going to get enough satisfaction out of the situation that unconsciously he will continue it.
He likes the attention he gets, even though he does not figure this out and know that he is stammering because of the attention and consternation. He just does it because this is the natural way for a child, or even an adult to react.
It is better to sing with the child, to have him repeat rhymes which are sing-song, all as if it were play and had nothing to do with the stammering. Ignore that. Pretend it does not exist. Do not stop the child at each word and make him say it over.
This only drives his failing deeper into his consciousness and makes the repetition easier. It is self-consciousness that makes him stammer and letting him forget himself will help him to talk naturally.
Please do not ask me to give names of schools for the cure of stammering, or opinions of their merits. This is an individual matter. If the child has become so bad, the parents may feel that the cure must come from some method which they cannot follow at home, that there is some cure other than the simple ideas given above, in that case they will have to try out the various stammering cures. What might succeed in one case might fail in another because, as said before, the initial cause was not the same in all children, and so the cure could not be the same.

Taught by Time
Oil the hinges of your umbrella frequently and they will not rust or break.
A porcelain funnel should be in every kitchen, as the action of some acids on tin is poisonous.
A tablespoonful of vinegar in the final rinse water will brighten the colors in silk and ribbons.

Medical Meet Good Publicity for Southland

Great advertising benefit for all Southern California is expected to accrue as a result of announcements of the California Medical Association's fifty-sixth annual convention, which will be held from the 25th to the 28th insts., in the Biltmore.
Under direction of Dr. W. T. McArthur, president of the association; Dr. William Duffield, general chairman of convention arrangements, and Dr. Hariand Shoemaker, chairman of announcements to the profession, many invitations have been issued.
The fact that a score of the most prominent physicians and surgeons of the East and Middle West have announced intentions of speaking at the California meet, it was said, showed the high value set by the national medical profession on the convention plans of the California fraternity.

CANADIANS' DANCE TONIGHT

The Canadian Society of Southern California will have its next dance and card party at White's ballroom, 4067 West Pico street, near Norton street this evening. The Maple Leaf Orchestra will play and there will be entertainment features in the intermissions.

WORLD CHAMPION COWGIRLS TO RACE

ENTRIES MADE IN SAUGUS RELAY COMPETITIONS TO BE HELD SUNDAY, MAY 1

Five world-champion cowgirls have entered the relay race competitions for the second annual Baker ranch rodeo at Saugus, May 1, Roy Baker and Robert Anderson, promoters of the Wild West exhibition announced yesterday.
Vera McGinnis, the 1926 champion relay rider at Pendleton, visited the Baker ranch Sunday and made her entry. Miss McGinnis is a Cheyenne girl who has won numerous racing events and is in California now to protect her world title captured last spring. Mabel Strickland, another champion with several world records, Bonnie Gray, formerly champion racer, Rose Smith and Viola Miller are the runners-up. This is the first time in California that five runners have competed in a girl's relay race.

LIONS' CLUB HEAD TO SPEAK

"The Cost of Crime" has proven so interesting and constructive that Clarence Urban, president of the Arlington Heights Lions' Club, has invited Judge Galbreth to use that topic for an address before the weekly luncheon at the Sutton Grill Thursday.

Southland Air Progress Told Eastern Cities

While on his tour of the principal airports of the United States, Dr. Ford A. Carpenter, consultant to the Chamber of Commerce in aeronautics and meteorology, traveled a total of 11,541 miles.
In the various cities visited Dr. Carpenter delivered lectures on flying conditions in Southern California which were heard by 17,865 persons.
Dr. Carpenter's trip principally was made to gather information to be used in the construction of a municipal airport for Los Angeles. Dr. Carpenter is expected to present to the Chamber the exact requirements of Los Angeles along aerial lines that will place it on a par with cities of similar development.

CLUB HEARS COLLEGE HEAD

Rev. Joseph Sullivan, president of Loyola College, will address members of Daley's Good Will Club tonight at a dinner at the Mary Louise Cafe. Members of the club are store managers and executives of Daley's, Inc., and hold meetings monthly for educational purposes. Father Sullivan will talk on "Men in Industry When an Industry Has a Soul."

Fill Ugly Hollows With Firm Flesh
Gain Pounds of Weight in 3 Weeks with YEAST and IRON or Pay Nothing

"Gained 10 Pounds"
"I can truthfully say that I never received so much benefit from anything in so short a time. Before I began taking IRONIZED YEAST I was 10 pounds underweight, but now I am back to normal again. Mrs. M. P., Asbury Park, N. J."

Thousands are amazed at IRONIZED YEAST. They can't understand the magic by which IRONIZED YEAST transforms thin, run down, pasty-faced folks into well-filled-out, clear-skinned, vigorous people. Those who have been benefited could tell you (for their letters tell us) how a one course treatment of IRONIZED YEAST has given them 5 to 10 pounds of firm flesh, cleared the skin, improved digestion, assimilation and bowel action. It has put them on their feet again—given them a new interest and pleasure in life.

How New Yeast and Iron Works These Wonders

Vegetable iron and yeast have always been known as ideal blood and body builders. But it remained for us to combine these two vital elements in a highly concentrated form.
IRONIZED YEAST speeds up assimilation so that you get the full benefit of the food you eat. It clears the blood of impurities that ruin complexion, giving you a nice, clear, healthy skin. It will pick you right up and fill you with the pep and "life" you have always longed for.
If you are below normal weight—take warning! Underweight people have low resistance to disease. Do something now to get on good firm flesh. Take IRONIZED YEAST. It gives all the weight-building benefits of cod liver oil. See your body build up with added pounds of good weight. Notice how your skin clears up, your digestion improves and you feel new strength and pep. Absolutely safe, containing no harmful drugs. Get your IRONIZED YEAST today! Nice, tasty, pleasant-to-take tablets—60 to a bottle.

Try It on "Money-Back" Offer
Go today to any drug store and get a full size treatment of IRONIZED YEAST. If after this generous trial you are not delighted with effects, ask for your money back. It will be refunded immediately. If inconvenient to buy from druggist, send $1.00 direct to THE IRONIZED YEAST CO., ATLANTA, GA. DESK 937.

Splendid USED CAR BARGAINS always to be found in TIMES WANT ADS

"...now why didn't somebody make that lovely floor before?"

There are no contrasting blocks in the whole floor (Design No. 89) has a pleasing marble graining. Also in greenish gray, 9-inch blocks, Design No. 88.

Marbled squares of rich black linoleum. No contrasting blocks. *Now* featured by local stores, Design No. 89.

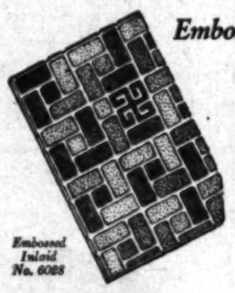
"A BLACK floor of marble linoleum? . . . Well—maybe—but—" You must see for yourself this new creation of Armstrong's designers.
It *is* somewhat daring. But just as dinner clothes dress up your husband, just as you yourself look well in a velvety black evening gown, so a linoleum floor of regal black—the pattern softened by a rich marble graining—brings new dignity and richness to any room.
There are no alternating blocks of contrasting color. The floor presents a soft, even tone made interesting by a pleasing variation in the graining lines.
Here is a pattern that hides footprints so well that women call it "dirt-proof." Here is a background that is ideal to show off fine rugs and furniture.
Yet this innovation is only one of many new Armstrong Floor ideas now on display at local stores. You'll enjoy seeing Armstrong's Arabesq Linoleum, the new Embossed Inlaid Linoleum, Inset Jaspé, and Inset Plain Linoleum. And see these patterns now, while stocks are complete.

Look for the CIRCLE A trademark on the burlap back

Arabesq No. 2900

"Arabesq" . . . . a new kind of inexpensive floor

A new floor of Armstrong's—a new idea in floors, as well. Arabic ornamentation applied in heavy oil paints to linoleum of a variety of colors. The designs are so cleverly applied that the linoleum base becomes a regular part of the pattern.



Embossed Inlaid No. 6028

Embossed Inlaid Linoleum
New Designs this spring

This linoleum, to quote a decorator, possesses "texture." Tiles of similar color, not regularly matched, are framed with mortared interliners. But—and this is another exclusive Armstrong feature—these interliners are slightly pressed into the surface of the floor. Offered in a colorful array of patterns—quarry tiles, ashlar motifs, close figures.

A 24-page book describes and illustrates the NEW patterns

How to plan home decoration, what the new patterns look like in color, colorplates of model interiors, helpful advice on the laying and care of Armstrong's Linoleum Floors—you'll find it all in Hazel Dell Brown's 24-page book, "The Attractive Home—How to Plan Its Decoration." Sent upon receipt of ten cents

ARMSTRONG CORK COMPANY, *Linoleum Division*, Lancaster, Pennsylvania
San Francisco Office—180 New Montgomery Street

Armstrong's Linoleum
for every floor in the house
PLAIN ~ INLAID ~ EMBOSSED ~ JASPÉ ~ ARABESQ ~ PRINTED

Armstrong's Jaspé Rugs never made before

Originally presented in America by Armstrong some nine years ago, two-toned Jaspé linoleum won widespread popularity.
Now Armstrong scores again with rugs of Jaspé linoleum. Borders, with figured motifs in the corners, are printed on these rugs in the heaviest of wear-resisting oil colors. Patterns are so arranged that corner decorations are interestingly varied.
Waxed and polished before shipment. Wide range of sizes and colors. Inexpensive.

PRACTICAL RECIPES

[Requests for recipes and information pertaining to the proper preparation and serving of foods will be answered in this column every Tuesday. Address all requests to Chef A. L. Wyman, Laboratory Kitchen, 424 Arden avenue, Glendale.—Ed.]

CHEF WEYMAN'S ANSWERS

C. L. D., Pasadena, Cal.:

HARE EN CASSEROLE

Cut a three or four-pound Belgian hare in neat pieces as for frying. Place in a saute pan half a cup of diced bacon, three tablespoonfuls of butter, one diced carrot, one sliced onion, one peeled and diced turnip, one tablespoonful of chopped parsley and half a crushed bay leaf, stir and cook until the vegetables are lightly browned; add to them a seasoning of salt and pepper and place in a casserole, add the hare, half a cupful of cider, two cupfuls of meat stock and two tablespoonfuls of currant jelly. Cover the casserole, set in moderate oven and bake one hour. Serve from the casserole.

BOILED HAM

Thoroughly wash a twelve-pound ham, place in a kettle, cover with half water and sweet cider and let stand over night. Drain, place in the kettle, cover with half water and cider, add one onion stuck with four whole cloves, one bay leaf, one small stick of cinnamon, two stalks of celery and six whole pepper corns. Bring to a boil, reduce the fire, cover and simmer slowly for four hours or until tender. Let cool in the liquor. Drain out the ham, place in baking pan, remove the rind without touching the fat, leaving a strip about four inches around the bone. Outline the fat by pressing whole cloves around, press into the fat one cupful of brown sugar mixed with half a cupful of sifted bread crumbs, add to the pan two cupfuls of cider and bake a nice brown, basting often with the cider in the pan.

TAMALE PIE

M. R., Great Falls, Mont.: Place in a covered earthenware baking dish one finely chopped clove of garlic, two tablespoonfuls of olive oil and one and one-half pounds of rump steak cut in small pieces. Cover and let simmer slowly for one hour in the juice of the steak, stir often. Now add two cupfuls of tomato pulp, two tablespoonfuls of good chili powder one tablespoonful of chopped parsley and a seasoning of salt. Scald one cupful of corn-meal with one and one-half cupfuls of boiling water, and add to it one tablespoonful of chili powder, two tablespoonfuls of melted lard and a little salt. Make the cornmeal mixture into small balls and cover the meat mixtures with them. Place in the oven for thirty minutes. Serve in the same dish. One cupful of ripe olives will make a very nice addition to this dish.

POTATO FLOUR MUFFINS

W. C. T., La Colorada, Son., Mex.: I have never eaten at the tea room you mention; but hope these are what you want.

Beat the yolks of three eggs until light and lemon colored, add slowly, beating constantly, one teaspoonful of salt and three tablespoonfuls of sugar, beat two minutes, fold in one cupful of sifted potato flour sifted with two teaspoonfuls of baking powder; add the stiffly beaten whites of three eggs and two tablespoonfuls of ice water. Fill buttered hot muffin pans half full with the mixture and bake in a moderate oven twenty-five minutes.

MILK CHOCOLATE ICING

Grate into a saucepan three squares of chocolate and add to them half a cupful of powdered sugar, and a scant two-thirds of a cupful of milk; boil until soft and thick over hot water; remove from the fire, cool and add the slightly beaten whites of four eggs and enough sifted powdered sugar to make the right consistency to spread.

BRAISED CELERY

To braise celery remove the tough outer leaves from three bunches of young celery, trim off the leaves and bottom and split the bunches in halves; wash well, plunge in boiling salted water for ten minutes and drain. Melt four tablespoonfuls of butter in a saucepan, add half a cupful of sliced turnip and half a cupful of sliced onion; lay the blanched celery on these, cover the pan and fry for ten minutes; add two cupfuls of soup stock, cover the pan tight and cook slowly for two hours.

BLACK WALNUT CAKE

One and one-half cupfuls light-brown sugar, one-half cupful butter, one tablespoonful boiling water, cream all together. One-half cupful sour milk, with one teaspoonful soda, three eggs, using the whites of two for frosting, one-half cupful warm water, two and one-half cupfuls pastry flour, one-half teaspoonful cinnamon, one-half teaspoonful cloves, one-half teaspoonful nutmeg, one square bitter chocolate, one cupful walnuts meats. Cream together sugar and butter, then add tablespoonful boiling water and beat hard, then add eggs beat hard, then add alternately water, milk and flour with spices and nuts. When well beaten, add one teaspoonful baking powder and bake in a slow oven.

LAMB STEW

O. C., La Jolla, Cal.: Cover two pounds of breast of lamb cut in two-inch pieces with boiling water, bring to a boil and add a bundle made with one stalk of celery, two sprigs of parsley, half a bay leaf, half a carrot and two whole cloves, simmer thirty minutes and add four parboiled onions and twelve young carrots, cover and cook until the meat and vegetables are tender; thicken with three tablespoonfuls of flour made to a paste with half a cupful of water. Pour the stew on to a deep platter, garnish with dumplings and sprinkle over all chopped parsley.

CARROT SALAD

R. L. C. L., Los Angeles, Cal.: Mix in a bowl two cupfuls of grated raw carrots, one cupful of chopped white celery, half a cupful of diced apples, and half a cup of French dressing. Serve on beds of shredded lettuce.

GINGER MUFFINS

M. S. C., Orcutt, Cal.: One-quarter cupful butter, one-quarter cupful brown sugar, one and one-half cupfuls flour, one-half teaspoonful cinnamon, a little salt, one egg, one-half cupful molasses, one teaspoonful soda, one-half cupful boiling water, two teaspoonfuls ginger.

Cream butter and add sugar gradually, then add the egg. Mix and sift dry ingredients and add alternately with hot water and molasses. Bake in muffin pans.

CREAM OF CORN

G. MacK., Los Angeles, Cal.: For six servings place one cupful of water and one can of corn in a sauce pan and bring to a boil; cook ten minutes and rub through a puree strainer. Heat four tablespoonfuls of butter in a sauce pan, add four tablespoonfuls of sifted flour and stir until smooth, do not brown, stir in slowly four cupfuls of cold milk and stir until thick and smooth. Add the corn puree to the cream stock, season with salt and white pepper and just before serving heat in one tablespoonful of butter broken in small pieces. Serve very hot with a garnish of whipped cream.

LEMON BUTTER

M. B. M., Long Beach, Cal.: Take half a cupful of butter and beat to a cream; add two tablespoonfuls of lemon juice and thoroughly incorporate.

SWEETBREADS

Cover two sets of sweetbreads with cold water, let stand half an hour, drain and dry between towels. Place in a sauce pan, cover with boiling water and boil five minutes; drain and dry, remove all inedible parts and keep warm. Melt four tablespoonfuls of butter in a sauce pan over a slow fire and when hot lay in the sweetbreads, cook five minutes, turning often, but do not color. Lift out the sweetbreads and to the butter in the pan add four tablespoonfuls of sifted flour, stir until smooth, do not color; stir in one cupful of milk or chicken stock and beat until smooth and boiling; add the sweetbreads, bring to a boil, reduce the heat and simmer slowly until tender, about one hour. Add twelve French button mushrooms, cook five minutes and set the pan in a hot-water bath. Beat the yolks of two eggs with one teaspoonful of lemon juice and two tablespoonfuls of the hot sauce; add to the sweetbread mixture and stir until the yolks are set. Add a seasoning of salt and white pepper. Place the sweetbreads on squares of hot toast on hot plates, pour over the sauce garnish with mushrooms and points of toast dipped in chopped parsley and paprika.

MORTGAGE MAN TO SPEAK

An evening lecture on "Financial Structure, Functions and Operation of a Mortgage Company" will be given by Jack Baillie, vice-president and general manager of the Lincoln Mortgage Company, at metropolitan college, University of Southern California tomorrow night. This is one of a series of lectures dealing with real estate finance sponsored by metropolitan college and giving full university credit.

APPRAISAL 'EXPERTS' CRITICISED

City Attorney Proposes to Warn Property Owners in Condemnation Cases

Distribution to property owners of a pamphlet explaining the process in condemnation proceedings is being urged by City Attorney Stephens in an effort to curb the activities of so-called "appraisal experts," who, he says, are getting money from property owners without earning it.

They operate usually on a contingent basis, taking a percentage of any increase of the final award over the first appraisal by the city. The final amount almost invariably is higher than the first appraisal, the City Attorney said.

"Condemnation proceedings, being conducted regardless of the property owner's consent, usually result properly in all doubts of value being resolved in the property owner's favor," he said. "The referee is an expert and it is usually not necessary for the property owner to retain an expert to appear before him. The testimony of the property owner himself usually is all that does any good."

A pamphlet explaining these things will, if the City Attorney's plan is adopted, be given to each property owner when notice of condemnation is served upon him.

MUSICAL AUTHORITY IN RECITALS HERE

Earl Fred Colber, general representative of William Knabe & Co., nationally known musical authority, composer and lecturer, arrived in Los Angeles yesterday to be a guest of James Taber Fitzgerald, president of the Fitzgerald Music Company. Mr. Colber has the distinction of being chosen as one of the first pianists to record his playing for the Ampico re-enacting piano. He is giving complimentary recitals this week in the music rooms of the Fitzgerald company, and an invitation has been given the public to attend.

W.R.C. BIRTHDAY

Members who have birthdays during the month of April are special tables at the dinner and ing-day meeting of Phineas Relief Corps on Friday, Apr.

Old Fashioned Preserves

in exclusive new store

Did you think you would never again taste such wonderful canned fruits as your mother put up at home years ago? Then you, and your family, have a treat in store. For Taylor's Fruit Shoppes, 644 S. Flower St., Los Angeles, and 103 W. 4th, Santa Ana, will provide you with fruits to revive, and eclipse perhaps, the memory of the past.

For 30 years Taylor's, of Santa Ana, have been supplying the most discriminating homes of America with the finest preserves, spiced preserves, canned fruits, fruit marmalades and jellies. This exquisite quality was first produced by Mrs. Elizabeth Taylor in her own spotless kitchen three decades ago. And today they are prepared in much the same way—choicest fruits cooked quickly in small quantities so the elusive fresh flavor and beautiful natural color are retained.

Bring no delight to your table with these 65 varieties of wonderful preserved fruits. Call at Taylor's Fruit Shoppes, 644 S. Flower, Los Angeles, or 103 W. 4th, Santa Ana.

BISHOP'S

PETITE SODA WAFERS

BEN-HUR COFFEE

deliciously good!

Here's a wonderful old-fashioned cake

GHIRARDELLI'S OLD-FASHIONED CAKE

¾ cup Ghirardelli's Ground Chocolate
4 eggs
¾ cup milk
¾ cup butter
1¾ cups sugar
2 teaspoons baking powder
1¾ cups pastry flour
1 teaspoon vanilla

Disolve chocolate in 5 tablespoons hot water. Beat butter to a cream. Add sugar gradually, beating all the while. Add beaten yolks and beat again. Add milk, then melted chocolate and flour. Give all a vigorous beating. Now add stiffly beaten whites, cut and fold in carefully. Add baking powder and vanilla last. Mix lightly and quickly. Bake in 3 layers, in a moderate oven 20 to 25 minutes. [Start cake at 350° F, increase to 375° F, then lower temperature gradually and let it remain at 350° rest of cooking period.

Caramel Filling

3 cups brown sugar
1 cup cream
2 tablespoons butter
¾ cup chopped walnuts
1 teaspoon vanilla

Stir sugar, cream and butter together and cook until it forms a soft ball in cold water [or until candy thermometer registers 230° F]. Cool 5 minutes, beat until creamy, stir in vanilla and nuts and spread on cake. [½ cup milk and two tablespoons butter may be substituted for ½ cup cream.]

Sunkist Oranges
—richest juice
—finest flavor

Tempting and quickly made. Simply arrange sliced oranges on crisp lettuce leaves and top with sliced pineapple.

Selected, and Trade-marked

for your protection

The world's famous Sunkist Oranges. Always available at reasonable prices in Los Angeles and suburban markets. Get a dozen today.

When buying oranges demand those with the trade-mark "Sunkist" imprinted directly on the fruit and on the wrapper.

Millions of boxes of these oranges are shipped East each year because most people prefer them. But you can have them in Los Angeles and vicinity.

They are always of the same dependable quality, always uniformly good wherever they are sold.

Ask your grocer for them. Buy when you see the Sunkist trade-mark. Then you'll know that you are getting uniformly good oranges.

* * *

The better California Oranges are marketed through the California Fruit Growers Exchange, representing 11,000 grower members, world's largest shipper of citrus fruits. Higher grades are labeled "Sunkist" on the wrapper and on the skin of the fruit. Rigid standards of selection make them uniformly good.

To be sure of getting California Sunkist Oranges

of Uniformly Good Eating Quality

Look for the Trade-mark on the Wrapper on the Fruit

Young and Healthy at 90!!!

Dr. McCarrison, the great army surgeon, found people in the Himalayas young and healthy at ninety. They seemed do not age early. Men Children are unaware. Generally, the whole population is free from most diseases of civilization, like constipation, nervousness and dis-

He studied the cause of their unusual health and long life and found that the natural whole foods are unusually rich in vitamins. These his experiments on animals proved that such rich foods would increase growth and actually defer old

Now the benefits of these discoveries are available in your city for your table through a remarkable new food VEGEX. This delicious health plate a hot drink with a rich It makes delicious sauces, sandwiches and vegetables. It makes tempting soups, stews, etc. 42 recipes in

Vitamin B Gives Health

VEGEX made from millions of tiny plants is a concentrated extract the very essence of Dr. McCarrison's vitamin B, that gives health and deferred old age to the Himalayans. In his great book by physicians he recommends Vitamin B in our foods. (Marnite in England) to re- the needed Vitamin B to our Many physicians now prescribe Lewis B. Allyn, Westfield Boring and Research Laboratories, etc. VEGEX is the richest, most vitamin B and restores these It supplies body building for children and fortifies the strains of life. It will improve the health of your whole family. You will have a better appetite, digest better, work bet- and actually live longer.

Special Introductory Offer

To acquaint you with the great health values VEGEX has more blessings, take every special offer. A can of Lewis VEGEX at the regular price of 1Sc. Ask your grocer for VEGEX today. Money back if not more

Use this handy coupon for something (1) to build strength and vigor; to relieve fatigue; (3) to promote (4) to help digestion; (5) to give and to supply Vitamin B for nerve and gland functioning; (6) to guard constipation and certain (7) to enjoy delicious, appetizing cooking; (8) to get a special offer for you from your grocer.

W.R.C. BIRTHDAY DINNER

Members who have birthdays during the month of April will have special tables at the dinner and evening-day meeting of Stanton Women's Relief Corps on Friday, inst.

ORATORS SHOW HIGHER ABILITY

Entrants in Fairfax School Reduced to Five

Margaret Bissell Awarded Coveted Honors

Pomona Tryouts Will be Conducted Today

Increased ability and efficiency are reported from the youthful orators contesting for premier honors at the Fairfax High School, where the number of entrants has been reduced to five and will be further reduced to two at a final tryout on the 22nd inst. Those remaining in the contest, at this school are Katherine Walborn, Norman Wenzell, James Fesler, Donald Kelley and George Gose. Miss Walborn was placed first in the trials which produced the five contestants, the judges being faculty members and including Jessie Lickel, Marion Comstock, Hugh Gilmore, Elizabeth Hardesty and Le Ora Baxter.

DONALD KELLEY

Each of these contestants is active in school activities that are similar to those demanded by the Fourth National Oratorical Contest on the Constitution, consequently each has taken a deep interest in the preparatory work and promises strong competition in the school finals and the district event, which will be held at this school on the 29th inst. and will include, besides the Fairfax institution, representatives of the James A. Garfield High School of Belvedere Gardens and the Warren G. Harding High School of Sawtelle.

NORMAN WENZELL

DRAMA STUDENT

Miss Walborn is a B-12 student who is actively pursuing the drama both within and without the school dramatic circles. She is a prominent member of the Girls' Tennis Club, has an excellent stage presence and pleasing personality, being considered by Miss Elizabeth Hardesty, faculty sponsor of the oratorical contest, as a particularly strong contender for district honors.

Fesler, however, promises to be heard from in the school finals being a league debater and having placed in last year's contest. Fesler was tied for second place in the preliminary event with Wenzell, making his initial appearance in the contest. The latter is active in the student government of the school, having served as secretary of the Boys' Assize Court. He is prominent in debate circles.

Kelley and Gose were tied for third position, the former being editor of the Colonial Gazette, the school publication, a league debater and Prometheam. Gose to date has depended upon his ability in track events for school honors, having but recently joined debating circles.

KATHERINE WALBORN

Miss Hardesty said: "The entrants for this year's oratorical contest are far superior on the whole to those of last year. For that reason we have hopes of winning the contest provided the debaters continue to work on their delivery as well as they have done in the preliminary stages."

Margaret Bissell of Sam Dimas has been selected to represent Bonita Union High School of La Verne in the finals in District No. 32, being the first girl ever to win this coveted honor in this school. Miss Bissell is reported to be a particularly gifted speaker and won first position from five contestants, delivering her oration before members of the Parent-Teacher Association. In addition to representing her school in the district finals Miss Bissell was awarded a special prize of $5. Gordon Hoke, winner of last year's school contest, was placed second and awarded $3, while third honors went to Orville Thomason, who was placed last year. He was awarded a special prize of $2, the cash awards being made by the student body.

JAMES FESLER

Announcement is made by R. C. Gillingham, debate coach, that the Pomona High School tryouts will be held today. There are three debaters in this contest. They are Janet McFarland, who placed second in the district finals last year; Wilbur Walker and Howard Hall, the latter two being prominent in debating activities promise to make this contest a close one. It is planned to hold the session during the school assembly with townsfolk acting in the capacity of judges.

POMONA ACTIVE

Pomona, which is in District No. 32, will be in competition in the district finals with La Verne, Azusa, Claremont, Covina, El Monte and Monrovia. Stewart Allen has been chosen as representative of the Claremont High School.

Tomorrow has been set as the time for the elimination by the El Monte Union High School, El Monte Post, the American Legion, acting as sponsor. P. L. Klingerman, instructor in public speaking and coach of this contest, reports six young men entrants for the prizes offered by the Legion in addition to the school representation in the district finals, which will be held at Azusa on the 21st or 23rd inst.

The American Legion of El Monte sought the honor of handling this contest and awarding prizes on the ground that the project was in direct line with the Americanization activities of that organization rather than of the Chamber of Commerce, which sponsored the oratorical event last year.

LECTURE KITCHEN BUILT

Best of Modern Cooking Equipment Set up for Use by Mrs. Mabelle E. Wyman in Demonstrations

A modern kitchen, fully equipped for plain and fancy cooking, has been fitted up in the lecture rooms of the Southern California Manufacturers' Exhibit for the use of Mrs. Mabelle E. Wyman, noted cooking authority, in her lectures and demonstrations. These lectures are open to every woman in Los Angeles who cares to avail herself of the opportunity. The first one will be given from 2 to 4 p.m. next Friday.

In these lectures Mrs. Wyman and her assistants will demonstrate, by actual cooking, how to prepare dishes of various kinds, which contain the greatest food value at the least cost. Many of Mrs. Wyman's original recipes, which have been published in her department in The Times, have been found exceedingly valuable and practical by housewives of Los Angeles, and every mail brings a veritable flood of requests for recipes and other kitchen hints. Those of general interest are answered through The Times columns, but, so far as possible, Mrs. Wyman endeavors to solve every domestic-science problem brought to her attention.

The demonstrations will range from the simplest forms of cooking to the fancy kinds, which ordinarily would call for the skill of an expert chef. For many years Mrs. Wyman served as assistant to her late husband, A. L. Wyman, one of the most noted chefs in the United States, and under his tutelage she acquired a degree of skill which few women ever attain. She has lectured in many of the largest cities in the United States and is widely known as a writer on culinary topics.

The lecture rooms, where the classes will be held, are on the second floor of the Southwest Building at 130 South Broadway.

REALTY MEN OF STATE IN PROGRAMS

Activities Designed to Impress Residents With Importance of Boards

Realty boards in more than sixty California cities began a special program of realty activities yesterday, according to G. D. Robertson, general chairman of arrangements for "California Realty Boards' Achievement Week" being celebrated this week under auspices of the California Real Estate Association.

The purpose of "Achievement Week," declared President Harry B. Allen of the state association, yesterday, "is a co-ordinated effort to emphasize to the public the value of the realty board to the community and the leadership of the realty dealer in matters pertaining to city planning, civic development, real-estate legislation, taxation, stricter requirements of those seeking to engage in the real-estate business and full enforcement of the California Real Estate Act."

Yesterday was observed as "Newspaper and Enforcement and Clean-up Day."

The realty dealers have set aside today as "Merchants and Own Your Own Home Day."

Tomorrow will be "Local, State and National Realtor's Day," and boards through the state have planned joint luncheon meetings with their city and county officials as well as officers and directors of chambers of commerce.

New Laboratory for Poultrymen Will Open Today

The Farm Bureau announces the opening today of its new poultry pathological laboratory for Southern California at the corner of Mirasol street and Union Pacific avenue. The laboratory will provide a clinic for diagnosis of poultry diseases, which service will be rendered free of charge.

While the laboratory will be operated under the direction of the county farm bureaus of the seven southern counties, the University of California furnished the laboratory equipment; the State Department of Agriculture will maintain the diagnostician; two field men will be supplied by the Los Angeles County Live Stock Department, while the building has been provided by the Poultry Producers of Southern California and the Poultry Co-operative Association.

The program for the day includes an inspection of the laboratory in the morning. Speakers for the afternoon include Dr. J. R. Beach of the veterinary division of the University of California; Dr. Charles Keane of the State Department of Agriculture; Dr. L. M. Hurt, in charge of the Los Angeles County Live Stock Department, and Dr. E. D. Merrill, dean of the college of agriculture, University of California, the latter to deliver the dedicatory address.

YOUTH GIVEN SENTENCE

Dyer and Mann Act Violations Send Boy to Federal Prison

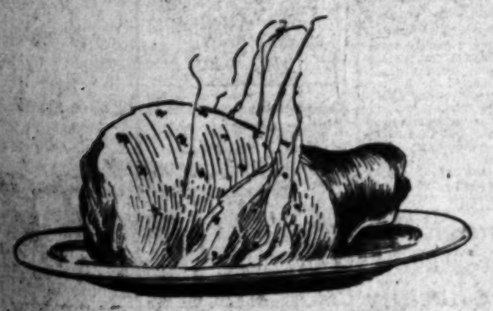
Parmond L. Wheeldon, 19 years of age, arrested March 19, last, upon arrival here from Kansas City with his 16-year-old cousin, Anna Fain, was yesterday sentenced to the Washington State Reformatory at Monroe, Wash., by Federal Judge Henning for violations of both the Dyer and Mann acts.

The girl was returned to her parents, from whom she ran away following a quarrel. Pending the sentence she was held as a witness against the defendant.

Wheeldon is asserted to have stolen an automobile with which to make the trip to Los Angeles from the Missouri city. Department of Justice agents took them into custody immediately after their arrival here.

STATISTICIANS TO DINE

The Western Statistical Association will have its monthly dinner tomorrow at 6 p.m. at the Windsor Tea Rooms, Brack-Shops Building. Walter Gardner Blossom, field superintendent of education of the Southern California Edison Company, will give a talk on "The Romance of Electricity."



FOR EASTER

The gigantic Easter Food Sale is now under way at the Grand Central Public Market and will continue until Saturday evening. Tens of thousands of people are taking full advantage of this Sale to re-stock their larders at Southern California's lowest prices.

SPRING LAMB is now coming in! Wonderful lambs, too! Grass fed and remarkably tender. The price is low for this season.

Savoury hams, smoked and cured to tempt any appetite! Sold either whole or half, or by the piece. Steer beef is the best we have ever seen.

LARD makes excellent pie crust. Now being sold in one-pound packages. Unquestionably the purest obtainable. Try a package. The market abounds this week with an excellent assortment of fresh fish.

Strawberries, asparagus, spring peas, new potatoes, summer squash—the cream of these seasonal vegetables now on display at very low prices. Visit the Grand Central today and every day this week. Watch Friday afternoon's papers for prices.

MEMORIAL DAY PLANS ADVANCE

Vice-Chairmen Named to Aid in Program Details

Boy Scouts to Have Charge of Coliseum Seating

Parade Without Floats Gets Committee Approval

Plans for honoring the nation's soldier-dead on Memorial Day, May 30, were furthered at the second of a series of meetings of the Memorial Day committee last night in the Patriotic Hall, 1816 South Figueroa street.

Six vice-chairmen were appointed to assist Philip F. Dodson, general chairman, in arranging details for the program. They are: Col. C. H. Haskins, representing the Grand Army of the Republic; J. R. Walker, Indian War veteran; E. E. Greene, United Spanish War veteran; H. W. Corbett, Veterans of Foreign Wars; W. C. Hawkins, American Legion, and Mrs. Ida Walker, Ladies' Auxiliary.

Boy Scouts will direct the ushering of visitors into the Coliseum, where general exercises will follow the parade, it was announced. C. J. Turner and H. W. Corbett were appointed a committee to arrange this phase of the program. The Memorial committee also decided that there will be no floats in the parade.

Col. Haskins and Mrs. Sadie B. Fox were named a committee to interview Mrs. Susan M. Dorsey, city superintendent of schools, in regard to having all school children attend the exercises. Col. John Mershon, C. R. Judd, Grove Ketchum and E. E. Fox were appointed a committee in charge of music.

Secretary Harry J. L. Atwood announced that the Coliseum and a loud speaker have been donated to the Memorial committee and a cup offered to the high-school R.O.T.C. which has the largest turn-out at the exercises.

Tennyson Kin Recovering at Hospital Here

WALTER TENNYSON

Walter Tennyson, 37 years of age, a cousin of the late Lord Tennyson, poet laureate of England, is in the Hollywood Hospital convalescing after an operation for appendicitis last Tuesday. Dr. C. W. Shirey in charge of the case, said yesterday that Tennyson is recovering splendidly and will be able to return to his home at 7014 Fountain avenue in about ten days.

Just prior to his illness Tennyson had completed a four months' tour, playing opposite Ruth Chatterton in "The Green Hat." He has starred in European films and has appeared in several Hollywood productions. As soon as his health will permit he expects to return to the screen in a series of western pictures.

Girl Who Apes Masculine Ways Flees Hospital

Mrs. Grace Kenney, 22 years of age, recently sentenced to serve 180 days on a vagrancy charge after she had been picked up by police for masquerading in male attire, yesterday escaped from the Los Felix Hospital on Riverside Drive, where she had been confined since last Saturday. She made her escape by scaling an eight-foot fence topped with barbed wire, leaving behind her a small patch of blue cloth from her hospital garb, which had caught on the wire.

The young woman had made the boast upon her incarceration that she would soon effect her escape. Matron Cosgrove of the Los Feliz Hospital has requested police to notify the woman's husband, an inmate of the United States Veterans' Hospital at San Fernando, in the belief that he may learn of his wife's whereabouts. Mrs. Kenney's 2½-year-old child, taken from her at the time of her arrest, is in the hands of the juvenile authorities.

PASSION-WEEK TALKS

Fresno Divine Conducts First of Noon Services of Lutheran Church

"The death of Christ was not martyrdom but sacrifice; He did not die as an example to men but as a substitute for men," declared Rev. E. J. Rudnick of Fresno in the first of a series of noonday addresses given yesterday at Philharmonic Auditorium.

"Jesus is the world's greatest mystery, no matter from what angle you view Him," said Mr. Rudnick. "His gospel preached by twelve humble men has transformed nations."

Passion Week services will be conducted every day at noon under the auspices of the Lutheran Churches of the Missouri Synod of Los Angeles. The speaker today will be Rev. C. Damschroeder of San Diego. The public is invited.

I See by Today's "Times" Want Ads—

That 480 acres of land in Delta county, Colorado, are offered in exchange for acreage or income property near Los Angeles.

That owner will sell or trade grocery - cigar - candy business. Good stock and fixtures.

That top wages are offered to expert hat cleaner.

That dressmaker is wanted. Must be experienced cutter and fitter.

TIRES MADE AT DISPLAY

Samson Agent at Manufacturers' Exhibit Shows How Auto Rubber Should Be Treated

How your tire is made and what to do in the way of decent treatment of it to preserve its long life are being shown at the Manufacturers' Exhibit in the Southwest Building this week where Carlyle Hughes of the Samson Tire and Rubber Company is making tires.

The Samson people have installed the first actually working exhibit in the display room, and are really making tires, all except the cooking. Mr. Hughes is turning out three tires a day.

The parent plant of the Samson company is in Compton, occupies ten acres and employs 500 men and women. A. Schleicher, its president, personally has fathered the display.

Another exhibit just placed is that of the Richfield Oil Company. The Richfield people are the first of the big oil companies to see the benefit of such an exhibit.

The Playground Commission of Los Angeles is also installing an unique display and will arrange for groups of school children from day to day to enjoy it. Besides the electric railway constructed by pupils, there are displays of artificial flowers, and many other articles made by them. The initial excursion of pupils of Polytechnic school last week was so successful that numerous similar trips will be made by commerce classes that the members may learn at first hand of the goods made in Los Angeles and placed on view at the exhibit.

The Christie motion-picture display is about ready and plans are in the making for a little ceremony when it is unveiled, with some of the stars on hand to help give it an auspicious start. This will likely be on Thursday.

Meanwhile, the arts and crafts studio of the Times-Mirror Printing and Binding house has been permanently opened, with an attendant in charge, to show visitors through and explain the remarkable displays of fine printing and binding therein. This is on the third floor.

HEAVY BAIL FOR DRY AGENTS

Pair Charged With Murder in Ingmire Crash Death Admitted to $25,000 Bond Each

Frank Farley and George Hudson, Federal dry agents, were held under $25,000 bail each yesterday by Judge Edmonds of the Superior Court on second-degree murder charges growing out of the death of E. P. Ingmire. They drew the highest cash bail ever set in a traffic accident case in the county.

Mr. Ingmire was buried to his death last week at San Pedro when the car which he was driving was struck by a government machine driven by Farley, with Hudson at his side and three seamen and a woman in the back.

The two dry agents, a Coroner's jury subsequently found, were intoxicated at the time and they were indicted on a charge of second-degree murder.

SEAMEN ARRAIGNED

The three seamen, Axel Anderson, Thomas Henderson, and Joseph McBride, also were arraigned before Judge Edmonds yesterday but it was indicated that they will be released on their own recognizance Thursday, when they are scheduled to enter their pleas, together with the two Federal enforcement officers.

Mrs. Margaret MacAllister, declared by the authorities to be the owner of the dive where the drinking bout which preceded the tragic accident took place, was still confined to her bed at the San Pedro General Hospital as a result of injuries received in the crash. She also was indicted on a second-degree murder charge and is expected to appear for arraignment before Judge Edmonds on Thursday.

BOW SIMMERS

While the prosecution of the two dry agents was being pressed by the District Attorney's office, the row between Prohibition Administrator McReynolds and Collector of Customs Schwaebe, which began when McReynolds in a public address in Glendale was asserted to have criticised the customs department and which grew more involved following the Wilmington automobile accident, developed no new outbreaks here.

McReynolds refused to discuss the argument other than to say that he had been misquoted on some points and had "nothing personal against Mr. Schwaebe."

Dispatches from Washington, however, declared that Gen. Lincoln C. Andrews, in charge of prohibition enforcement, yesterday had received a brief telegraphic reply to his wire to McReynolds to the effect that McReynolds's recent speech at Glendale had not been made or intended for publication. The telegram is said to have added that McReynolds was reporting in detail by mail.

THIRD INVESTIGATION

According to the Washington dispatches, Gen. Andrews stated he would await the arrival of the fuller report and if it was not satisfactory would order a sweeping investigation into the charges made by McReynolds against the customs officers. Andrews, it was stated, was also expecting a report on the affair from prohibition co-ordinators at San Francisco, who are declared to have launched an investigation on their own initiative.

Death struck again yesterday in the Ingmire family, according to word from San Pedro. Gilbert B. Ingmire, father of the victim of the automobile crash, died early yesterday from a stroke of paralysis suffered last Tuesday. The son was on his way home from his father's bedside when struck by the dry agents' car. The older Ingmire never was told of his son's death.

Ad Copy Topic at Advertising Chief's Dinner

The subtlety of catching the advertising reader's eye with appealing "ad copy" was discussed from many angles last night by Don Belding, copy chief of Lord & Thomas & Logan in Los Angeles, at a dinner given at the Alexandria by members of the Advertising Managers' Association, composed of the representatives of Southern California newspapers and other publications.

Belding came to the meeting as an emissary of the Advertising Service Managers' Association on a mission of promoting co-ordination of thought between the two organizations.

An informal discussion of advertising "fads" occupied the attention of those attending, following the illuminating address made by Mr. Belding. National and local phases of the topic were subjected to thorough scrutiny and analysis.

ENGAGEMENT DENIED

Film Man Says Wife Won't Let Him Marry Stage Actress

Rumors that recently have gained wide circulation in local film circles that James Hall, Paramount-Famous-Lasky actor, and Margaret Breen, New York stage actress, are engaged, were denied last night by Hall, who is on location in Oakland.

"I probably would marry Miss Breen," he said, "but my wife won't let me." He added that "there might be hope, if my wife would get a divorce, but she has already put a crimp into several attempts of mine in that direction."

Miss Breen is playing the lead in "Peggy Ann," a Shubert play. Louis O. Macloon, according to reports, intends to produce the play here, and it is also reported Miss Breen has been seeking permission from her New York employers to take part in the local production.

Lithographer's Employee Held as Embezzler

Albert K. Henry, 26 years of age, 324½ West Ninety-first street, an employee of the C. F. Hutson & Co., lithographers, was arrested last night and charged with embezzling approximately $5000 by forging spurious cashier's checks.

Due to the vigilance of Mr. Hutson, proprietor of the firm, who reported Henry's asserted activities to Detective Lieutenants Taylor and Duncan, his scheme of operations was short-lived, the police stated, and approximately $4300 worth of merchandise he is said to have purchased was recovered.

Mr. Hutson, after Henry's arrest, declared that his firm sustained a negligible loss.

The arresting officers reported that Henry, who has a wife and two children, was trapped when he attempted to purchase some jewelry at 208 West Sixth street.

Chaplin Lawyer Returns From Meeting Actor

Loyd Wright, attorney for Charles Chaplin, returned yesterday from New York, where he conferred with the comedian, but announced that he had nothing to say. Mr. Wright spent ten days or more with Chaplin in the East.

He refused to comment about a possible answer to Lita Grey Chaplin's divorce complaint against the comedian and added that nothing would be said or done until the opportune time.

Judge Hahn's decision on the motion to quash the service against Chaplin, and thus give the comedian an additional ninety days to answer, was still being withheld yesterday. It was indicated, however, that it will be forthcoming shortly, possibly today. If the court denies the motion, Chaplin will have to answer by next Monday or face the possibility of defaulting the case.

Petition Backs Old Cafe Law at Culver City

Petitions to close Culver City cafes at midnight, said to have been circulated during the past two weeks, failed to put in an appearance when the Culver City Board of Trustees met last night. Instead, a petition signed by 200 persons, a number of them business men, was filed against any change in the existing ordinances governing the cafes.

The latter petition asserted that the cafes were a business asset to Culver City, were conducted under police supervision and paid a large license fee into the city treasury. It is understood that the anticafe faction still is circulating a petition and that it may appear at a later meeting of the Board of Trustees.

POLICEMAN JAILED

Charged with Drunkenness After Shots Are Fired Into Neighbor's Home

Asserted to have fired three pistol shots at the home of Mrs. John Chimes, 230 East Thirty-second street, one of which penetrated the front door, Officer William J. Nichols, 32 years of age, of 233 East Thirty-first street, a next-door neighbor, was stripped of his shield last night at the order of Inspector of Detectives Dwight Longuevan and booked at the City Jail on a charge of intoxication.

Nichols was taken into custody by fellow-officers, who rushed to the scene of the firing in response to excited calls by neighbors.

Inspector of Detectives Longuevan announced following the shooting that he will change the charge against Nichols to assault with a deadly weapon.

BOY DIES TRYING TO 'NIP' TRUCK

(Continued from First Page)

was taken to Receiving Hospital. Her condition is considered serious.

Captured after being chased by a citizen who witnessed the accident, Leslie R. Hodge, 958 South Alvarado street, was arrested last night on charges of being intoxicated while driving and failing to stop and render aid to his victim, Mrs. Bertha Ridington, 43 years of age, 4272 South Figueroa street. Mrs. Ridington was treated at the Receiving Hospital, where it was ascertained she had suffered concussion of the brain, contusions and abrasions, which render her condition critical. She was removed to General Hospital after being examined by Police Surgeon Doorn.

WOMAN IN GEM CASE ARRAIGNED

Mrs. Robertson Waives Preliminary on Charge of Stealing Diamonds

Declaring that she will plead guilty to charges of grand larceny and embezzlement involving diamonds valued at nearly $30,000 asserted to have been fraudulently obtained from a local jewelry firm, Mrs. Dorothy Robertson yesterday waived preliminary examination before Municipal Judge Haas and was ordered held to the Superior Court.

Mrs. Robertson, in waiving the hearing before the lower court, said she preferred entering a plea of guilty in the higher tribunal to facing a trial by jury.

The woman, who took the stand on her own volition, stated that she had telephoned Feagan's jewelry store several times and had had valuable gems sent to her home on a credit account obtained on her representation that such an account was authorized for her by Mrs. Orlando Robertson, wife of a wealthy Chowchilla rancher, who is her mother-in-law.

Mrs. Robertson is charged with four counts of grand larceny and five counts of embezzlement involving several expensive diamond rings, a diamond bracelet and a diamond bar-pin. She is charged with having used the gems to obtain loans.

Woman Honored by Los Angeles Bar Association

MISS FLORENCE BISCHOFF

Miss Florence Bischoff yesterday was appointed head of the legal education committee of the Los Angeles Bar Association, the first woman to have been so honored by this association.

Miss Bischoff is president of the Women Lawyers' Club, and has represented the women of the legal profession at two national conventions.

The committee on legal education will make a survey of all the law schools in Los Angeles, according to President Kemper B. Campbell.

The other officers of Miss Bischoff's committee will be Edmund W. Pugh, Herbert L. Hahn, Edwin A. Meserve, Frank M. Porter, Roger S. Page, Rollin D. McNitt, Dana R. Weller and Isadore B. Dockweiler.

Legal Bars to Increased Pay for Teachers

Although the petition for increased pay for teachers during the coming year is promised serious consideration by the Board of Education in its reply to the application of a group of educational organizations, legal limitations are the governing factor in the final decision.

The law prohibits boards of education from having a higher rate than "30 cents per $100 of assessed valuation," and this 30-cent tax limit was reached during the current year, according to the statement issued by the board last night.

Other factors are the amounts requested by department heads for maintenance, operation and improvement of the school system; the total amount of money available next year, and the estimated income from State, county and school district, based upon average daily attendance and upon the rate of taxation.

Shuler Must Pay Judgment of One Dollar

A judgment of $1 must be paid to Rev. George Chalmers Richmond, said to be a former minister of the Protestant Episcopal Church, by Rev. Robert P. Shuler, pastor of Trinity Methodist Church, South, in Los Angeles, according to a ruling of the California State Supreme Court filed yesterday.

The single dollar in damages was awarded by Judge Eugene F. McDonald, of St. Mary's county, as the compensation due the pastor who sought $50,000 to salve his reputation for asserted slanderous statements published in Shuler's monthly church magazine. Richmond charged that Shuler had published the statement that he had been "kicked out" of the Episcopal Church. Shuler promptly appealed from Judge McDaniel's decision.

Suit was started in 1923.

NEW SERVICE TO OPEN

Wells Fargo Will Start Mexico Operations May 1, Next

A new Wells Fargo express service to Mexico City will be installed May 1, next, according to an announcement yesterday by John A. Scott, who will have charge of the service under General Agent J. J. Egan.

On and after that date, said, the company will act as broker, will make collections, accept C.O.D. shipments, will buy and sell for clients and engage in regular express and freight transportation.

Completion this month of the Southern Pacific link between Tepic and Guadalajara, where it will connect with the National Railways of Mexico, will enable the new express service to be inaugurated.

Scott has just come here after ten years spent in United States foreign service, his last assignment being on the Isle of Pines of Cuba.

AUTOPSY DISCLOSES CHICAGOAN DROWNED

County Autopsy Surgeon Webb yesterday performed an autopsy on the body of Mrs. Margaret Kelly of Chicago, and pronounced death due to drowning. The police investigation closed on receipt of a telegram from Mrs. Kelly's sister in Chicago, which said Mrs. Kelly had long been despondent over her health. This confirmed, the police said, their belief Mrs. Kelley was a suicide. Her body was found Sunday in the Grand Canal at Venice, under circumstances indicating possible murder.

WOMAN DIRECTOR'S CONTRACT

Dorothy Arzner Gets New Contract After Successful Film; Young Vaudeville Star Signs With Fox Films; Foreign Actor to Be With Morris Gest

BY GRACE KINGSLEY

Dorothy Arzner, the first woman to be handed a director's megaphone during the past ten years, yesterday received the reward of a well-nigh perfect debut as a director. B. P. Schulberg, Paramount associate producer, announced that, as a result of the striking success of her first picture, "Fashions for Women," Esther Ralston's first starring vehicle, Miss Arzner has been given a new contract for a long term by Paramount.

DOROTHY ARZNER

"In 'Fashions for Women,' Miss Arzner more than fulfilled our every hope," said Schulberg. "Facing the responsibility, not only of a first picture under her own guidance, but of conducting a new star through her first starring vehicle, she made a picture which shows every indication of being one of the outstanding box-office successes of the year. In its first showing to the public, at the Paramount Theater in New York, it scored a tremendous success, winning the unanimous praise of the critics. Frankly, this is what we expected Miss Arzner to do, and it has been a real pleasure to extend a new contract to her."

As a result of her great success with Miss Ralston's first starring vehicle, Miss Arzner will again wield the megaphone for the blond star's second picture, "Ten Modern Commandments," on which production is to begin next week.

Miss Arzner is a graduate of the Paramount studio in Hollywood. Seven years ago she began her film career as a typist of scripts, but even then had fixed directorial work as the goal of her ambitions. She was, successively, typist, script girl, film cutter, scenarist, and a few months ago was elevated to the rank of director.

Fritz Feld Signs

One thing Morris Gest did make sure of before leaving for New York and Europe, and that was that when he returned to Hollywood to make "The Miracle" and "The Darling of the Gods" for United Artists, he would have Fritz Feld safely under contract.

Gest signed Feld on a three-year contract just before leaving, with the understanding that the player, who made such a sensational success as the Piper in the stage production of "The Miracle" at Shrine Auditorium, is to play a leading role in "The Darling of the Gods."

In time it is expected that Feld will develop into a director. At present he is appearing in a United Artists' production.

Charley Ray May Sign

There is a rumor abroad that Charles Ray is to play the leading male role opposite Corrine Griffith in "The Garden of Eden," which is to be Miss Griffith's first production to be made for United Artists, and which is to be made on an elaborate scale. June Mathis is making the adaptation of the play.

CHARLES RAY

It is understood that the role which Ray will play, in case negotiations are completed, is that of a bashful and likable young man, and it is said that the part is ideally suited to him. Of late Ray has been gradually winning back to his former great popularity—a popularity jeopardized at one time in the minds of some of his fans when he departed from his former type of characterization. Incidentally, while many players have tried to fit into the type he created, so far every actor who has attempted it has been a dismal failure.

Star Cast for Western

It isn't every western by a long way that has an all-star cast, and therefore it is of unusual interest that Charles R. Rogers has signed such a cast to support Ken Maynard in "The Devil's Saddle," which Albert Rogell is directing. Rogers goes beyond the usual thing of engaging just cowboys. When Paul Hurst, Earle Metcalfe, William Walling, Francis Ford and Tom Bay appear as principals in a picture, one may depend on its being better than just a western. Also we must not forget Kathleen Collins, who is Maynard's leading lady.

KEN MAYNARD

The engagement of Hurst is in the nature of a return. The comedian has been confined to his bed with a long illness.

George Irving Writes

Still another member of the "Drums of the Desert" company, making that story for Paramount, viz., George Irving, writes an interesting letter from Echo Rocks Gap in Arizona.

"That story-book stuff," writes George, "is true. We read about the Indians leaving their wounded to suffer and fight it out alone, but when you see it actually done it just makes you shudder. The Navajos working with us held a race meeting after the battle scenes in 'Drums of the Desert,' and Warner Baxter, Marietta Millner and I watched it while the rest of the company went to Lee's Ferry for some other scenes.

"The accident occurred in the chicken pull. A bag containing money is buried in the sand; the Indians gallop by and grab at the exposed end; the one who yanks it out gets first prize, then the others fight to get it away from the winner for the second prize. The one who finally got his arm around the bag was pulled from his horse, dragged 100 yards and then trampled by the horses! Four broken ribs! And the others left him dying on the sand alone to fight the evil spirit. We made up a little extra purse for him, and our doctor fixed him up when he returned, but that redskin suffered, and we didn't dare break the Indian traditions by rushing to help him. Me for Hollywood!"

Antonio Moreno Writes

A letter received from Antonio Moreno states that he is at last settled in a village which is aptly described, in that popular song, "In a Little Spanish Town."

Tony was met at the station at Algeciras, Spain, by all the townsfolk and a brass band. Friends for miles around came to greet Moreno upon his arrival in his native village. The principal person that the star wished to see was his mother, who has been residing in the little hamlet ever since her son left for America. It is the second visit he has paid to Spain within the past two years.

Moreno recently finished work in "Mme. Pompadour," which was made at the London studios of British National Pictures. Immediately upon the completion of this picture, Tony started for Spain. He will remain with his mother for a few weeks before leaving on a tour of Europe.

Betty Francisco In It

Betty Francisco is back on the F.B.O. lot again. She has just been signed to play a vamp role in "The Gingham Girl," a David Kirkland production now being filmed at the local studio. Miss Francisco recently completed a similar role in "Uneasy Payments," another F.B.O. feature which was made under the direction of Kirkland.

Jack Luden Back

Jack Luden, promising young player, graduate of the Lasky school for film actors, has finished the series of prize fight pictures for which he was loaned to F.B.O., and is back at the Paramount studio, where he is shortly to be assigned an important role in a forthcoming production.

Myrna Loy in Vamp Role

Myrna Loy will play the role of a vamp in "Simple Sins," at Warner Brothers, in which Louise Fazenda and Clyde Cook are to be co-featured.

Herman Raymaker has been assigned the task of directing.

Ramon Romeo's Story

That gifted young spinner of tales for the movies, Ramon Romeo, has just written his second story for Cecil B. De Mille. It is called "Painted Glory," and is to serve as a starring vehicle for Phyllis Haver.

Charles Morton With Fox

So very well indeed, did Charles Morton, that rising young juvenile, do in his role for Fox in "Rich But Honest," which Albert Ray directed, that he has been signed on a long-term contract with that company, according to word received yesterday.

Charles Morton is a member of a well-known vaudeville family, who formerly toured the Orpheum and Keith circuits. It is but lately that he has turned his talents to the screen, but he promises to go far in the new field.

D'Arcys Deny Rumor Hinting at Separation

Mrs. Laura Rhinock Duffy D'Arcy, Kentucky heiress and wife of Roy D'Arcy, screen villain, at the Wilshire Boulevard apartment of her mother last night, where the latter was reported ill, emphatically denied a prevalent Hollywood rumor that hinted at a separation between the pair.

"Why, that's the most absurd thing I ever heard," she declared. "Everybody who knows us knows that we are ideally happy. I can't imagine who would start such a thing. Really, Mr. D'Arcy and myself are greatly annoyed.

"Of course, we gave up our apartment on Wilshire Boulevard and moved into a little bungalow near Hollywood Boulevard, but that is not a sign we are contemplating a divorce."

Mrs. D'Arcy was equally annoyed by the report and accredited its inception to "some malicious party."

Massachusetts Extradites Man Wanted Locally

Walter Guest, alias Lewis, alias O'Brien, 27 years of age, wanted in Los Angeles and Fitchburg, Mass., on charges of embezzlement, lost an extradition battle at Scranton, Pa., yesterday, where he was arrested recently, and must return to Fitchburg to face trial, according to a ruling by the Lackawanna County Court.

When Guest was arrested in the Pennsylvania city the authorities of both Los Angeles and Fitchburg sought to have him turned over to them. A detective from Fitchburg arrived at Scranton with extradition papers and the court turned over the prisoner to him.

Guest was indicted by a Los Angeles grand jury on the 8th inst. for asserted embezzlement after he jumped a $15,000 bond in October, 1925, and never reappeared. He was accused of obtaining $13,500 from Mr. and Mrs. Alexis A. Rehbinder of 1411 Calumet avenue by fraudulently representing and disposing of Krupp Iron Works bonds.

REQUIEM MASS TODAY

Service to Be Conducted for Mother Moscheni, Church Worker

Solemn requiem high mass will be conducted at 9:30 a.m. today at the chapel of the Missionary Sisters of the Sacred Heart, 610 North Hill street, for Mother Agostina Moscheni, a member of the order.

She was one of five sisters who helped Mother Frances X. Cabrini in the founding of the order. She served in all parts of the United States and in Brazil, Argentina and Europe. She died Sunday at the age of 71 years. Interment will be at Westpark, N. Y.

BAY CITY COMPANY LOW BIDDER ON ROAD

Tabulations by the Board of Public Works yesterday on bids received from nine contractors for improvements on Fletcher Drive from Glendale Boulevard to San Fernando Road showed that the Manahan Company of San Francisco was low with a bid of $212,864. The contract calls for the paving and improvement with sewers of the highway extending a mile and a half across the new Fletcher Drive bridge.

'APPEARANCES'

UNIQUE COURTROOM SCENE IN PLAY NOVELTY

By Edwin Schallert

Whatever the choice as regards praise or blame for the play as a whole, it may be chronicled that "Appearances" proffers the novelty of an exceptionally interesting courtroom scene.

As you possibly know "Appearances" is the work of a former negro bellboy of San Francisco. And while it is contrived with an ostensibly serious purpose, the pleasantest recollection that those who see it will carry away with them is of a very amusing thirty or forty minutes occurring during the second act. In this the author sets about depicting a trial in a San Francisco judicial tribunal, and the result, while the unfoldment lasts, is mirthfully capital.

"Appearances" was presented here for the first time last night at the Majestic Theater. Clad in his bellboy uniform the author himself spoke the prologue. His name is Garland Anderson.

His play was originally produced for a few weeks in New York, he himself undertaking its presentation there until the funds, which, I believe, were not very ample, ran out. An interest has been taken in his work by people of the stage, and last evening there was evidence of this in the telegrams of congratulation from Al Jolson and David Belasco that were read to the audience. A message from Mayor Rolph of San Francisco was also included.

"Appearances" is the only play that Anderson has written, and there is evidences of sincerity. There is also about it a certain primitive simplicity, which ranks it as a novelty.

The courtroom scene, which is its outstanding feature, is a strangely clear-cut bit of realism that makes you feel as if you were watching a trial actually going on rather than looking at stage imitation. This also affords the substance for study especially for anyone interested in playwriting, illuminated as it is with a natural and genuine humanness. Though the act during which the trial transpires, is much longer than the others it is by far the most effective.

It is a pity that Anderson attempted to invest his play with so much purpose, because the rest of his comedy is very redeeming, and he sketches his own race effectively.

The play itself seems a sort of plea for fair trial for the negro, where the question of a sex crime is involved, and the fact that the entire plot hinges on a purported attack upon a white woman, which is a frame-up, makes the net results ungrateful. Bringing in the race question adds neither to the sympathy nor the appeal, which are in certain other respects unique.

Garland has an evident sense of comedy, which, it would seem, could be directed into more generally popular channels. He has also a faculty for observation rather keen, judging from several of the characters that were introduced to the broad delight of the audience as witnesses in the courtroom scene.

The play never obtrudes sophistication. It is as the new moon hay in its vernal flavor, the work of one not experienced in the theater, but understanding something of its demands, and acceding to these by simple and direct measures.

Of the cast, those whose roles were identified with comedy were possibly the more successful. Freddie Cummings was particularly amusing in his black-face impersonation. Many of his sallies were very hilarious.

Very creditable portrayals were also offered by Daris Hudson in the principal role of sympathy; Fergus Reddie, Olaf Hytten, Ethel Baker, and Al H. Hallett. Carol Wines was pleasing in presence, but adhered too much to the minimal comedy manner. Harry Jordan was good during the trial scene, but otherwise not convincing. Ralph Cloninger staged the show, but tended to emphasize rather than subdue the melodramatic characteristics of its here. The presentation of the courtroom scene is to his credit.

An uproarious performance was that of Ira A. Robertson as one of the witnesses. He really stopped the show for a time. Robert Stone was good as an all-too-effete gentleman who testified. Satisfactory were Doris Ingram and Nanetta Vallon.

The play opened to a large audience.

When a Prince Woos

Dolores del Rio and Rod La Rocque

Who seem quite oblivious to the presence of Edwin Carewe, director, filming them for "Resurrection," the Tolstoy drama which comes to the Criterion tomorrow night.

PANTAGES BILL IS DIVERTING

Arthur Prince, world-famous ventriloquist, and Jack Joyce and his Eight German Military Horses headed the extremely lively bill that opened yesterday afternoon for a week's run at the Pantages Theater. Variety was the keynote of the program, and entertainment ranged from classical solo selections to song-and-dance versions of the latest jazz novelty, Black Bottom.

The ventriloquist skit, presented by Mr. Prince, was undoubtedly one of the highlights of the afternoon's entertainment. Differing from the acts presented by the usual artists of this type, Prince's offering was given in the form of a one-act skit, dealing with the plight of a youthful sailor boy, charged with oversleeping and not appearing for his watch.

Jim, the highly educated dummy, played the role of the erring sailor, and Prince caused him to pull a series of wise cracks that kept the audience in continual uproar.

Offering the second half of the headline attraction was Jack Joyce and his Eight German Military horses. The animals, besides being beautiful, were extremely well trained and responded to orders with much the precision of a well-trained battalion of soldiers. The seven horses that formed the ensemble were of practically the same size, and glossy black.

It was the small tan-and-white high-school horse that ran away with the honors. This animal did everything from skip to perform the Black Bottom, keeping perfect time with the orchestra in every instance.

Comedy honors on yesterday's bill were divided between the solo artist, Harry Rappe, and the team of Lane and Byron.

Mr. Rappe, besides proving himself to be an able comedian, displayed his more serious talents in the form of violinist, ukulele artist and vocalist.

Lane and Byron were the usual breezy funsters, with a whistling stunt thrown in for sake of variety.

Closing the vaudeville bill was Irma Milo and company, in a remarkable "hand-balancing" sketch.

For the film entertainment on the program, Pantages offered a Universal feature, "Held by the Law," and featuring in its cast Johnny Walker, Marguerite de La Motte and Ralph Lewis.

The film was a highly dramatic one, with the plot hinging on a murder trial. It was completely void of dull moments, and was interesting entertainment.

Others in the cast included E. J. Radcliffe, Robert Ober, Maude Wayne and Fred Kelsey.

Comedies and news events closed the program.

SIGN MALE LEAD FOR PLAY HERE

Louis Bennison Selected for Role of "The Barker" at Belasco

Louis Bennison has been selected to play the title role in "The Barker," the play of carnival life which is to follow "Is Zat So," at the Belasco, some time in May. Director Fred J. Butler has had under consideration practically every available leading man on the American stage, but after consultation with Charles Wagner, who owns the New York production and is associated with Messrs. Belasco, Butler and Davis in the coast presentation, decided on Mr. Bennison as the ideal actor for the role. Bennison is under contract to David Belasco, to appear in a New York production early next summer, but through the influence of his brother, Edward Belasco, the producer was induced to allow Bennison to come to the coast and play during the Los Angeles engagement of "The Barker."

With Dorothy Mackaye in the leading feminine role, Director Butler feels that he has two of the strongest players he could possibly secure for the leading parts in "The Barker."

CHERNIAVSKY TRIO WILL PLAY TONIGHT

No other trio has been together as long as Leo, Jan and Mischel Cherniavsky, who come to the Philharmonic this evening, under Impresario Behymer.

Trained from their earliest youth to play in concert, by their father, conductor of a Russian symphony orchestra, they made their debut in Kiev, Russia, when they were mere children. This debut has been followed by twenty-one years of successful playing in twenty-eight leading countries of the world. Mr. Cherniavsky not only trained his three sons to play in concert, but he also taught them that they should share alike hardships and triumphs. It was this early training that made possible the close co-ordination of three highly temperamental artists merging their own particular individuality into one higher—the trio.

UNIQUE PROGRAM BY ARTHUR FULLER

Arthur Franklin Fuller's concert, which was to have been given at the Ebell Club this evening, has been postponed to the 19th inst. Mr. Fuller is greatly handicapped, physically, but his concerts of piano, vocal and whistling numbers, many of which are his own compositions, are deservedly popular and well attended.

Mme. Ann Ruggns Sprotte, Agnes Woodward, Lillian Althouse, Portia Patton and Charles Bradt are assisting artists.

ACTOR RETURNS

Charles K. French, character actor, has just returned from location on the Mojave Desert, where he was engaged in making the exterior scenes in which he is featured in an important role in "Good as Gold," a mining story produced by the Fox studio starring Buck Jones. Frances Lee is the featured feminine player in this opus.

MODERN SONATAS

Lowyn-Barstow Performance of Rare Works Meets Healty Appreciation

BY ISABEL MORSE JONES

Vera Barstow and Helena Lowyn treated Los Angeles to another sonata recital by eminent composers at the Beaux Arts Auditorium last night when these two artists presented works of George Schoenefeld, Edvard Grieg and Eugene Goosens.

They honored Mr. Schoenefeld with an excellent performance of his prize sonata for violin and piano in which the Los Angeles composer displayed a schooled music-writer's ability. The work is enjoyable, but overlong. If it were modernised, however, it would no doubt, lose much of its romantic charm.

The Grieg Sonata in G was given a correctly restrained reading as befits the music of the North, but the Goosens sonata instantly became the interest of the evening.

Goosens has written less vaguely than usual in this work for violin and piano and the result is a modernism wholly comprehensible. The piano is treated more often as a harp than a piano, but the effect is delightful with the artistry of Miss Lewyn.

She is an artist to her graceful fingertips and shows a remarkable aptitude for understanding the ultra compositions of the day. Her technical ability seems equal to any demand and her shading is a gift a painter might envy.

Vera Barstow has very quickly made a place for herself in the music world of California by good musicianship and the valuable virtues of a well-rounded artist. She has delicacy and taste in phrasing and never stoops to theatricality.

The duo will present another program of moderns and classics on May 9.

TWO PLAYS SCHEDULED FROM EAST

Musical Show and Revival of "Trelawny of Wells" Coming Here

"The Vagabond King," Russell Janney's musicalisation of the Justin Huntley McCarthy drama, "If I Were King," has finally reached the Pacific Coast following long and successful engagements in New York and Chicago. A special train of eight cars brings its 125 members to Los Angeles for a limited engagement at the Biltmore Theater, beginning May 2. In sending the organization to California, Janney refused to reduce the numerical strength of his forces by a single chorister, musician, actor or dancer, and the production has been brought west complete, with the identical scenic setting employed in the fourteen months' run at the Casino, New York.

Among those in "The Vagabond King" cast is H. Cooper Cliffe, the veteran English actor, who will be seen in the role of the swashbuckling king, Louis XI. The chorus numbers more than three-score voices, orchestra more than thirty, corps de ballet and the roster of leading personages, twenty-five.

Another attraction scheduled for the Biltmore is "Trelawny of the Wells," an all-star revival to be presented by George C. Tyler with a cast which includes many traditional names of the American theater. Headed by John Drew, the ensemble is composed of such well-known people as Wilton Lackaye, Henrietta Crossman, Otto Kruger, John E. Kellard, Estelle Winwood, Helen Gahagan, Peggy Wood, J. M. Kerrigan, Effie Shannon, Eric Dressler, Frieda Inescort, Lawrence d'Orsay, Mrs. Thomas Whiffen, C. P. Heggie and Rollo Peters.

Reservations for Premiere of Film Made

The classic Roman embellishments of the Forum Theater have been turned into oriental splendor, with teakwood chairs, Chinese bronze urns, incense burners, jade idols and other strange relics from the Orient, in preparation for the world premiere tomorrow night of "Mr. Wu," Lon Chaney's latest and one of his strangest characterizations.

The classic lines of the theater form a strange setting for the brocades, Chinese idols and other decorations, many of them actually used in the making of the picture.

In "Mr. Wu," Lon Chaney is seen in the role of an uncanny Chinese mandarin. The plot is one of mystery and revenge. The cast includes Renee Adoree, Louise Dresser, Ralph Forbes and Gertrude Olmstead.

Among the reservations for the premiere are those of Louis B. Mayer, Irving G. Thalberg, Harry Rapf, E. J. Mannix, B. P. Hyman, Paul Bern, Hunt Stromberg, William Nigh, Dimitri Buchowetzki, Eric Pommer, Robert Z. Leonard, Renee Adoree, Ralph Forbes, Louise Dresser, Gertrude Olmstead, Anna May Wong, Lorna Moon, Gladys Unger, Norma Shearer, Claire Windsor, Joan Crawford, Ernest Torrence, Col. Tim McCoy, George K. Arthur, Marceline Day, Lars Hanson, Dorothy Sebastian, Ricardo Cortez, Lew Cody, Conrad Nagel, Reginald Barker, Christy Cabanne, Jack Conway, Edmund Goulding, John Robertson, Ben Goetz, and others.

DOESN'T BELIEVE IN REJUVENATION

"Beauty parlors are all right, but even if you can fool others, you can't fool yourself. I mean, a woman may come out from the beauty specialist's looking only 24, but when she knows she's really 36, what's the use? Years are facts and have to be faced. You can't cheat the truth."

This quotation is from William Hodge, who with his original cast intact will appear at the Mason Opera-house, the 18th to 30th inst., in his comedy success, "The Judge's Husband."

WILL SETTLE HERE

Another New Yorker has been conquered by the climate of Southern California. Fletcher Billings, representative of Col. Earle Boothe and manager of the "Is Zat So" company at the Belasco Theater, today welcomed his wife and two children to Los Angeles. Mr. Billings came here about three months ago to handle the Coast tour of "Is Zat So" and within a month decided to make this city his permanent home, telegraphing his wife to sell their home in Brooklyn and join him here. At the close of the tour of "Is Zat So" Mr. Billings will make this city his residence.

THIS ELECTRIC FLOOR POLISHER

from your neighborhood store

for $2.00 a day

With it you can easily beautify ALL your floors and linoleum in the time it formerly took to do a single room. By this new method all hard work is avoided. You don't need to stoop or kneel. It won't soil or roughen your hands. And it is ten times better and quicker than the old-fashioned hand methods.

JOHNSON'S WAX *Electric floor Polisher*

All you do is to spread on a thin coat of Johnson's Polishing Wax. This cleans as it waxes. Then run the Electric Polisher over the floor and let ELECTRICITY do all the work.

Try this Johnson Wax Treatment on your floors—old or new—of wood, linoleum, tile or composition. It matters not how the floors were originally finished—whether with varnish, shellac, wax or paint.

This Electric Floor Polisher runs itself—you don't need to push it or bear down on it—just guide it with the finger-tips. It runs from any lamp socket for 1½c an hour.

At the stores listed you can rent this beauty-giving Electric Floor Polisher for $2.00 a day and in that time wax-polish ALL your floors and linoleum. Telephone NOW and make an appointment to rent one.

Rent It or Buy from Dealers Listed

"The perfect refrigeration for the home"

is the verdict of Mrs. Arthur Guy Terry, whose Evanston home has Zerozone

The best-informed shoppers in the world—American women! Non-essentials never mislead them. They demand facts!

Especially have they been digging into the facts about electric refrigeration. And thousands of them, in many cities, have chosen one perfected system above all others.

It brings new convenience

But until Zerozone came did they find all the qualities they demanded—unfailing reliability, advanced construction that assures years of service!

Before she purchased Zerozone, Mrs. Arthur Guy Terry, of 625 Library Place, Evanston, the cultured university town of Chicago's North Shore, compared many different makes.

"We were particularly interested in Zerozone because of its thermostatic control and its well-tested motor—built for long life," Mrs. Terry says. "With these features, it seemed the perfect system of refrigeration for keeping milk and food unspoiled, even in the hottest weather—an essential for our young children's health."

Service that is automatic

Your family, too, will enjoy the great comfort Zerozone gives. Dry, steady cold—crisper salads—neat ice cubes—frozen desserts so easily made!

Fully automatic—as simple, as sure as your electric lights.

There's a Zerozone size to suit you at moderate cost. Complete with new cabinet or installed in your present refrigerator. Easy terms if desired—delivery on a small down payment, the balance monthly.

DOMINGUEZ KIN ON STAND

Bitter Charge Hurled at Secretary Named in Will; Witness Says Attorney Rolled to Reduce

Statements that Frank E. Dominguez, noted criminal attorney, had rolled on the floor "to reduce his hips," had called six physician during one day, and had declared that Fannie Gore, Mrs. Linie Street and his wife did not "have the brains of a linnet" were made on the witness stand by Mrs. Gore in Superior Judge Keetch's court yesterday supporting her belief that the attorney was of unsound mind.

Mrs. Gore's testimony was introduced by the plaintiffs in the suit of Arthur Dominguez to break the will of his brother, who left half of his $165,000 estate to his secretary, Mrs. Edna Turner Hollister.

A sensation was created in the courtroom when Mrs. Street arose in the witness chair and pointed her finger at Mrs. Hollister and her mother, saying:

"These two women caused the death of my sister." (Mrs. Dominguez.) The court immediately ordered the statement stricken from the record.

Mrs. Street made the remark while testifying regarding Mr. Dominguez's relations with his secretary. She charged that Mrs. Dominguez had threatened to commit suicide and to kill her husband's secretary because of his attentions to her. Mrs. Dominguez also charged that her husband's secretary and her mother had tried to blackmail him, Mrs. Street testified.

LATVIAN BOOKS FOR LIBRARY

Through the local Lettish Friendship Club 100 books in the Latvian language have been contributed to the Los Angeles Public Library. These will form the nucleus of a Latvian section in the foreign-language room.

CRUSADER FOR WILD LIFE HERE

Oregon Commissioner in Talk Urges Refuges for Coast Game Fowl

"One of the important problems on the Pacific Coast is that of interesting the people in the great out-of-doors and the conservation of its natural resources. It is of vital importance that vast areas be set aside for ducks, geese and other migratory birds."

These were declarations yesterday of William L. Finley, State game commissioner of Oregon and widely known naturalist, who, with Mrs. Finley, is at the Biltmore, en route to their home at Portland, after a four-months' lecture tour of the East.

The lecturer stopped off here on invitation of C. F. Stern, his classmate at the University of California, president Pacific-Southwest Trust and Savings Bank, who last night at his home, 10 Berkeley Square, was host at a stag banquet to seventy-five business associates. At the conclusion of the dinner Finley gave his lecture, "Wild Animal Outposts," which he illustrated with 800 feet of film. The pictures form a photographic story taken by the Finley-Church party on their Bering Sea expedition of 1926.

A pair of black bear cubs, twins—Cuffy and Tuffy, were passengers on the steam yacht Westward, on which the personnel of the expedition traveled north.

Millions of ducks, Finley declares, have been poisoned in drained areas that extend from Utah to the Coast during the past ten years—"more than hunters could kill in a generation."

The naturalist is a national director of the Izaak Walton League of America, member of the Advisory Board of the Migratory Bird Treaty Act, the American Nature Association of Washington, D. C., and many other organizations which advocate conservation of wild-animal life.

Spring Finery Brings Grief to Woman Shopper

Spring finery personified by three dainty dresses yesterday resulted disastrously for Mrs. Lucia Nelson when she was adjudged guilty by Municipal Judge Georgia Bullock, on a charge of petty larceny. Mrs. Nelson, according to testimony by women operatives at Katz Brothers' Store, was arrested after they had watched her for some time as she looked over the latest arrivals in spring dresses.

"She apparently was much taken with three of them," one of the operatives testified, "because after she left the counter in each case, one dress was missing. We found one of them tucked under her fur neckpiece and the other two secreted in shopping bags."

Defense Attorney J. Everett Brown based his defense on a technicality, contending that the arrest was illegal, as it was made in the store. According to the law, he said, petty larceny has not been committed until the offender has left the store in which the offense is asserted to have occurred.

On finding the woman guilty, Judge Bullock set 10 a.m. tomorrow for sentence.

Irresistible is the charm of a smooth, clear skin

No matter how pretty your features are, you cannot be truly attractive with a red, rough, pimply skin.

What you need is a touch of Resinol to relieve the soreness and inflammation. This soothing, healing ointment makes it so easy to get rid of blackheads, pimples, blotches, etc., why be embarrassed by these annoying defects? Ask your druggist about the Resinol products.

Free

Let us send you a free sample, each of Resinol Ointment and Resinol Soap. Write Dept. 65, Resinol, Baltimore, Md.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is "Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs are the greatest of all system purifiers. Get a family package with full directions. Only 35c at drug stores.—[Advertisement.

Wynkoop Will Take Appeal to Higher Court

Pursuant to his recent conviction on the charge of illegally converting to his own use liquors confiscated by dry officers working under his supervision, John J. Wynkoop, former chief field agent of the Federal prohibition forces, was yesterday sentenced to a year and a day in the penitentiary by Federal Judge Hanning.

Al McDonald, counsel for Wynkoop, gave immediate notice of appeal. Pending the application to the Federal Court of Appeals, Wynkoop will be at liberty on his original bond of $8000. Judge Henning declared he would not increase the bond as he had been assured that the deposed field agent could be found when sought by the court.

Wynkoop was taken into custody last fall by operatives of the intelligence service, who testified that he had turned into the government warehouse only one-half of the amount of liquor seized in a Long Beach raid. A subsequent search of Wynkoop's home resulted in the remainder of the confiscated liquor being found in a closet.

The convicted officer, who was an aide to former Prohibition Administrator Robert E. Frith, stated at the trial that he intended the liquor as "bait" to trap bootleggers.

Schools and Colleges

Information About Schools

The Times School and College Bureau will help you secure complete information about any kind of School or Education Training. Carefully compiled data are on file, from which source suggestions may be made which will be helpful to you. THIS SERVICE IS FREE. Address, write or call the TIMES Information Bureau, First Street and Broadway—telephone MEtropolitan 0700—or leave your name and address with the TIMES' Branch Office Information Bureau, 621 South Spring street, and the desired school data will be mailed to you.

WANT-AD RATES

Effective January 1st, 1927

Rates per line insertion, 20 consecutive times, 25c Daily; 25c Sunday; 7 to 12 consecutive times, 25c Daily, 25c Sunday; 5 to 6 consecutive times, 30c Daily, 30c Sunday; ONE TIME, 14c Daily, 40c Sunday. Three words, 5 letters or figures to a line. Count 5 average words per line. Words containing more than 5 letters should be counted as two words. Advertisers should retain receipts given for "Times" payments and want ads, as no mistakes will be rectified without them.

Cancellation of advertisements before appearance cannot be guaranteed to take effect until after the advertisements have appeared once. Discontinued copy will be received by 2:30 p.m. for daily issue and 4 p.m. Friday for Sunday Times.

The hour display advertising will be furnished on request.

The Times will not be responsible for more than one incorrect insertion of any advertisement ordered for more than one time.

The inadvertent omission or incorrect publishing of advertising will be rectified only by cancellation of the charge made for the service rendered.

Friday, 5 p.m., is closing hour for the early issue of the Sunday Times.

WANT-AD COLLECTION BOXES may be found in the following buildings:

PERSONALS—Business —4

HAVE YOU

MOTION PICTURE PERSONALITY

Perhaps unknown to yourself you have this wonderful screen quality—few of those who have it suspect its presence before a screen test is taken. Do you possess the right facial faces, talent, personality and type? this STUDIO is offering without cost or obligation a

FREE SCREEN TEST

to all men, women and children (over 3 yrs.) who call at this office on the 12th to 19th, 1927.

If you are woman and beautiful—or a man handsome enough to smash the better. But if you have a degree of exhibition, willingness to work and can screen well, then the most-picture world lies at your feet whether or not you are good looking. Remember that only a

SCREEN TEST

will show your possibilities and we are offering you free of charge and without obligation the opportunity for one week only, April 11 to 16, incl. During this period Mr. John M. Ince, Director of Ince Studio Productions, will supervise all screen tests.

Fill in coupon and bring or mail to STUDIO—Take Santa Monica car or Sunset Blvd. bus to 6060 block.

MR. JOHN INCE,
Care of MAILEY STUDIOS,
1328 GORDON STREET,
HOLLYWOOD, CALIF.
Dear Mr. Ince:

Without cost or obligation please arrange for a free screen test for me in accordance with your advertisement in the L. A. Times.

NAME .....Age .....

Address .....

STUDIO OPEN EVENINGS THIS WEEK. TEST TUESDAY 12-27.

I HAVE a legitimate guaranteed offer to make several parties who will purchase my interest in a quick sale at wholesale prices of level valley land below the Boulder Dam area in 5, 10, 20, 40, 80 or 160 acres to $5 per acre, on long terms; the profit possibilities are 15 to 1 and will exceed 100% per year; if the invested principal with 7% first mortgage security in California real estate; amount from $1,000 to $10,000 can be used; interest on the security will be paid to your parents on the land. This is a bona fide deal and will meet the critical requirements of the most conservative investor. Complete information will be promptly furnished. Address X. box 244, Times Office.

INCOME MT. CABINS

New plan gives you year-round income from these cabins in one of most popular local lake resort; very low price; easy terms. Literature. Address X. box 244, Times Office.

BEVERLY HILLS—
For Sale, Exchange, Etc.

A HOME
Among Fine Estates

We are offering an exceedingly well located distinctive English home in the elite section of Beverly Hills, among some of the finest and best known estates, with a wonderful view of the ocean and mountains.

Property is over half an acre in size, beautifully landscaped, with more than $4000 worth of trees and shrubs.

The home itself is a true English type, very well built and charming in appearance. Fine large living room & den room.

There are 3 master bedrooms and 2 master tile baths upstairs, 2 bedrooms and bath downstairs, large garage, water softener, among other interesting features.

This home is worth at least $20000 more than the asking price of $42,-500. Terms.

Allow Mr. Roessler to show you this, with

FLEET TO HAVE NEW FLAGSHIP

Four-Star Navy Banner Will Shift to U.S.S. Texas

Change Seen as Sign of New Pacific Concentration

Seattle Slated for Receiving Service at New York

The battleship Texas, recently modernized at a cost of $3,000,000, will on July 15, next, become the flagship of the entire United States Fleet, replacing the old armored cruiser Seattle. This was announced yesterday by the Navy Department, together with word of other important changes in the fleet.

On the foregoing date Admiral Charles F. Hughes, commander-in-chief of the United States Fleet, will transfer his four-starred flag to the Texas from the Seattle, which then becomes receiving ship at New York, relieving the old cruiser Pueblo, to be decommissioned.

This shift of the navy's "big flag" will mark the first time in the fleet's history that the commander-in-chief has had as his flagship a first-line battleship. Naval experts say the shift indicates a greater concentration of naval strength in the Pacific based at Los Angeles Harbor.

The Texas will operate with the battle fleet here for gunnery and tactical training.

The U.S.S. New York, her sister ship, is now undergoing modernization at the Norfolk navy yard and upon completion on October 30, next, she will also come here to join Battleship Division Three of the battle fleet. The New York and Texas will replace the U.S.S. Oklahoma and Nevada, which next year are to undergo a $13,500,000 program of modernization.

The Oklahoma and Nevada will return here on June 30, next, with the battle fleet, now in the Atlantic, but they will be carrying 1400 midshipmen of the United States Naval Academy, on their annual training cruise. The two ships will return to Annapolis with the midshipmen on August 25 and then proceed to the Norfolk and Philadelphia navy yards to go into reduced commission pending modernization.

It was learned yesterday that the U.S.S. West Virginia, newest of American dreadnaughts, exceeded all previous records for naval gunnery in the United States Fleet's long-range gunnery practice just fired in the Carribbean.

The West Virginia, commanded by Capt. W. T. Cluverius, fired the entire exercise at a range excepting 20,000 yards without a single casualty. By the almost perfect score made the ship won both the gunnery trophy and coveted battle-efficiency pennant, or "Meat Ball," for the gunnery year 1927-28.

La Rambla Area Wants to Come Into Los Angeles

Request for a petition to institute annexation proceedings for the La Rambla district near San Pedro probably will be filed in the near future by the San Pedro Chamber of Commerce, according to a communication to the City Council yesterday from the City Planning Commission.

The commission also filed with the Council a letter calling attention to the necessity of adopting measures to prevent the erection of commercial and industrial buildings on property better adapted to residential uses in certain sections of the city that have not been zoned. Pending the adoption of zoning maps, it was recommended that certain annexes be covered by the residential ordinance.

Young Woman Near Death in Gas-Heater Fire

Miss Rita Hensbecher, 21 years of age, of 1139½ West Thirty-seventh Drive, is likely to die from burns received yesterday when her dress caught fire from a gas heater. Relatives beat out the flames and took her to the Receiving Hospital, where Dr. Saverien found she had second and third-degree burns.

She was transferred to California Lutheran Hospital.

KIWANIANS WILL HEAR OFFICIAL OF SCHOOLS

W. E. Record, business manager of the Board of Education, will speak on "Your Schools as a Business" before the Kiwanis Club tomorrow noon at the Biltmore. Mr. Record's talk is in line with a recent policy established by the Kiwanis Club to make a close study of civic institutions in Los Angeles. F. R. Feitshans, the chairman, said: "Mr. Record has had many years of experience in the operation of the machine which provides the facilities necessary so that the teachers may teach and the learners may learn. He is the one man probably best qualified to speak on the subject."

AVIATOR-BANKER TO SPEAK

An airplane ride is an every-day event for Theodore Hull, vice-president of the Pan-American Bank, who is announced as the speaker tonight at a meeting of the Junior Brotherhood Club at the downtown Y.M.C.A. Mr. Hull uses his private plane not only for pleasure flights but also as a means of transportation from his home and office in Los Angeles to distant business appointments. His subject in the address tonight will be "Aviation for Business and Pleasure."

TWO EVENING CLASSES TO OPEN

Classes in commercial law and public speaking will open this week at the extension division of the University of California. J. Thomas Russell will be in charge of the public speaking and W. Maxwell Burke of the law. Both classes meet in the evening and are open to both men and women.

INDIANA COMMUNITY RALLY

Former residents of South Bend and St. Joseph county, Indiana, will have their annual picnic at Sycamore Grove Park next Saturday. A. H. Rice is chairman of the occasion.

Mrs. Robert L. Eaton has been appointed a member of the Florida Railroad Commission and is the first of her sex to hold a commission of State-wide importance in Florida.

Funds Sought for Services of Woman Doctor

Members of the City Health Commission and the Police Commission at a joint meeting yesterday passed a resolution asking the City Council for funds with which to employ a woman physician to examine women arrested on immorality charges. The resolution was moved by D. W. Funtius of the Health Commission and I. W. Birnbaum, president of the Police Commission.

Chief of Police Davis was advised to have such women booked on charges that would permit holding them without bond for physical examination. The action followed assertions that release of such women without examination constitutes a menace to health.

RAIDERS FIND STILL BEHIND TRAP DOOR

Raiding a residence at 608 Sixty-fifth street on a "tip," officers from the central vice squad under Sergt. Kynett last night found an ingeniously constructed still hidden behind a trap door and arrested Sam Fontana on a charge of violating the Wright Act.

About 500 gallons of mash, eighty gallons of alcohol and a still capable of producing 100 gallons of liquor in one "baking" were confiscated by the officers, as well as twenty-five cases of quart bottles labeled "Haig and Haig." A complete bottling outfit was found in the cellar of the house, Sergt. Kynett reported.

ANDY GUMP ET AL WILL ATTEND BALL

Andy Gump and his relations, Walt, Ella Cinders, Moon Mullins and all the other funny people that appear in comic strips and the colored supplements of The Times are expected to be represented in a "cartoonists' festival," to be staged on Thursday night, the 21st inst. in Solomon's Grand-avenue ballroom. The affair will be in the nature of a masquerade ball. Solomon plans to pair off and group the individuals of the different cartoon families for a grand march to open the ball.

WOMEN STUDENTS OF U. C. PICK OFFICERS

Barbara Brinckerhoff has been chosen president of the Associated Women Students of the University of California at Los Angeles, an official canvass of ballots in the two-day election discloses. Jeane Emerson was selected vice-president; June McIntosh, secretary, and Thelma Jonas of Palma, treasurer. The new officers are leaders in campus activities and rank high in scholarship. More than 1200 votes were cast by women students. The new officers will be installed at the next regular meeting.

If You Need a Tonic, Get the Best

—Photo by Johnson

Mrs. Harriett R. Hopp

"It is quite a long time now since I first used Dr. Pierce's Golden Medical Discovery," said Mrs. Harriet R. Hopp of 8736 107th Ave., Sawtelle, Calif., and so far as I have been able to learn there has never been a tonic introduced or discovered to be as good as it. When I would be run-down and in need of a general tonic the 'Golden Medical Discovery' always did more for me than I could reasonably expect, had I not been acquainted with its merits. It is a pleasure to me to fully subscribe to all Dr. Pierce's claims for any and all of his remedies."

All dealers. Tablets or liquid.

Send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial pkg. of tablets. Write for free advice.—[Advertisement.

IF POISONED BY URIC ACID

Try this FREE 85c Bottle

Did you go up this morning tired, head dull, back aching, joints stiff, muscles sore, weak all over? Were you in and out of bed half a dozen times last night?

They break up colds and regulate the bowels. *Used and recommended by Mothers for over 30 years.* Sold by Druggists everywhere. Trial package FREE. Address Mother Gray Co., La Roy, N. Y.

STATEMENT ON EXTRAS EXPLAINED

Committeeman Says it Was Not Machine Lobbyist Who Sought to Halt New Suit

In an article appearing in The Times yesterday R. J. Morgan, member of a committee appointed by the West Adams Taxpayers' Protective League to investigate the possibility of taking legal steps to force a further reduction of Peter B. Gadd's bill of "extras" for the building of the West Adams storm drain, was quoted as stating a lobbyist of the Parrot machine had attempted to intimidate him and block further action in the plan to reopen the West Adams controversy.

Yesterday Mr. Morgan declared the identity of the person who approached him as reported was erroneous, and that instead of a Parrot man it was a representative of a newspaper "friendly to Gadd" who had talked with him. This man, Mr. Morgan stated, "suggested" that, by reason of Mr. Morgan's connections with the South La Brea Avenue Improvement Association as president, his activity in the West Adams matter might be "misunderstood" and used against him in connection with the Council's action yesterday, at which time a matter in which the La Brea organization was interested was coming up.

Mr. Morgan also stated it was the West Adams Taxpayers' Protective League instead of West Adams-street business men that were interested in the matter. He said that no negotiations had been made with an attorney but that a committee of the taxpayers' league had consulted one to ascertain what rights property owners had in the matter but had no authority to go further. As yet he said there has been no formal decision on the part of the taxpayers' league to renew the fight. The meeting of the organization tonight is for political purposes and not to discuss the storm-drain "extras," he said.

QUIZ FILM CONTINUES

Well launched upon its third week at the California Theater, Eighth and Main streets, "Is Your Daughter Safe?" reports a larger business in Los Angeles than in any other city in which it has been shown to date and prospects are that the attraction will remain here indefinitely.

"Is Your Daughter Safe?" is being shown for men only.

Venue Change in Wife's Suit Against Wilson

Trial of the divorce suit brought against Harry Leon Wilson by his wife, Helen Cooke Wilson, will be conducted in Monterey county, where the fiction writer now claims residence, according to a change of venue granted yesterday by Superior Judge Hahn.

Wilson filed an affidavit in Superior Court stating that he is a resident of Monterey county near the city of Highland. The affidavit also pointed out that Wilson at present is staying in Portland, Or., temporarily, where he is gathering material for a story.

Mrs. Wilson stated in her complaint that her husband earns approximately $100,000 annually from his writing and asked an allowance of $5000 a month for the support and education of their two minor children. She further charged that she had signed a property settlement with her husband under conditions which were misrepresented to her.

RELIEF JUDGE HEARS TWENTY-FOUR CASES

LABORS OF APPELLATE COURT LIGHTENED BY ACT OF JUDICIAL COUNCIL

Speeding up the work of the Second District Court of Appeal, Division Two, was undertaken here yesterday when Superior Judge Johnson of San Francisco sat on the bench for the first time as a temporary additional member of the Appellate Court.

Assignment of Judge Johnson to assist in relieving the congestion of the local court calendar was made recently by the State Judicial Council under the terms of a new constitutional amendment.

Acting Associate Justice Johnson yesterday heard all the arguments in the twenty-four cases called for hearing on appeal and is expected to write the decision that will determine the majority of them. The regularly elected justices, Presiding Justice Works and Associate Justices Craigland and Thompson, who alternated in sitting on the bench with Judge Johnson yesterday, will be free to handle other matters.

KING OPENS HEADQUARTERS

James G. King, candidate for City Council from the Thirteenth District, has opened headquarters at 616 Union League Building, telephone MUtual 5410.

I can offer you no better advice than for you to go to The John M. C. Marble Company for your loan. They charge a reasonable rate of interest, and ask NO COMMISSION. The company is one of the oldest, strongest, and most reliable in the city. It not only makes loans on residence and income property, but also has an unlimited amount of money to loan on down-town business property. The company also makes BUILDING LOANS at 8%—no commission charged to borrowers.

7% loans on residence and income property. No commission charged!

The JOHN M. C. MARBLE Company

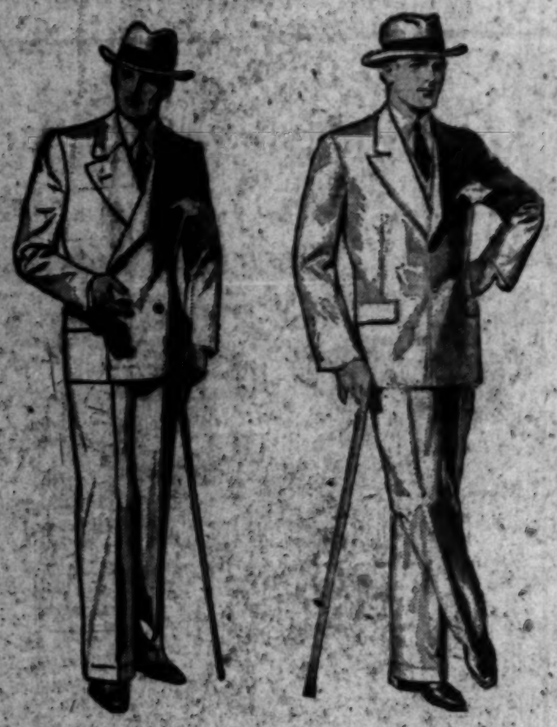
in the clothing industry

A standard of quality so strict that it must retail at $40, $50 and $60 if 11 distribution costs and distribution profits were not cleanly clipped off.

2 brands of "nationally known" clothes at almost *twice* these prices have inner tailoring admittedly as fine. There are 3 brands of clothes whose styling (if less prompt) is equally admired. But *no make of clothes*, at any price, from $100 down . . . *combines style and craftsmanship* as skilfully and brilliantly as Foreman & Clark suits and topcoats!



A—Pliable Belgian canvas body, instead of stiff cotton canvas.

B—Genuine Silver Hymo instead of loosely woven hair cloth.

C—½-inch lockstitch lapel; three fine rows of parallel threads instead of one or two.

D—Combination edge and skirt stay—starts where the average stay stops.

E—Duo-stitched, triple-braced pocket-flap, double strength against sagging and tearing.

F—Inverted V-curve coat skeleton supporting lower area of skirt as human muscles support the body.

G—Counter-brace No. 1 resists up and down strain. Counter-brace No. 2 resists right to left pull. Counter-brace No. 3 resists diagonal or spiral twist.

H—Guaranteed pure 16-oz. wool felt. Ask the highest priced custom tailor what this means in shape holding.

I—Entire front separately pieced, shaped and built into each garment; not preassembled and padded into place.

50 new models in a season . . . instead of 5 or 6

Setting the style pace in an industry "lockstepped" to old methods isn't much of a trick. Clothing designers usually sharpen pencils twice a year . . . then clothing makers "show their line" for Spring and for Fall . . . and that *ends* it. We design and build new models *every week* . . . in 5 giant factories that make shipments *every DAY* . . . We have no one to consult but *the public!* No wonder you find twice as many new models on any Foreman & Clark floor!

Trade *Upstairs* and Save $10.

Retail service that never "runs down"

You'll never know what care can be taken in selling and fitting until you've bought your first suit here. And *after that*—service! Not the pleasant fog usually meant by the word, but real ACTION! We press, sponge and minor-repair your garment as often as you'll let us during its entire life, without cost. We follow it up weeks later and ask you to find fault. We haven't finished *that* sale until you've returned for your *next suit!*
